

Eleven Point State Park CDP Survey #1 Results

Oct. 4 – Nov. 2, 2023

n = 857

Table of Contents:

• Q1: Which recreational activities would you like to see offered at Eleven Point State Park?	2
• Other Comments	3
• Q2: What infrastructure and amenities would you like to see developed at Eleven Point State Park?	7
• Q3: Which themes would you like to see interpreted at Eleven Point State park?	25
• Other Comments	26
• Q4: Do you have additional comments or suggestions regarding Eleven Point State Park?	28
• Q5: Do you have any comments or suggestions regarding Missouri state parks and historic sites?	40
• Word Cloud	47
• Zip Code Map	48

Q1: Which recreational activities would you like to see offered at Eleven Point State Park? (Check all that apply. For more information visit mostateparks.com/activities)

Answered: 857 Skipped: 0

Other (please specify)

1. Follow Dark-Sky principles in all development and minimize use of unnecessary light at night. Limited RV sites with electric only. Limited equestrian use away from river. Informal dining (burgers, chips, fruit, etc.) in existing ranch buildings or outbuildings.
2. No intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
3. Since the park was acquired for natural resource restoration, recreation planning will have to put that foremost.
4. Any Rock climbing potential?
5. Not sure about many of the above -- most important, no motorized vehicles.
6. Canoeing access
7. Tent camping with electric, tree climbing classes
8. need a way to access the river nearby somehow
9. Primitive camping only. This is an environmentally sensitive area that should be left as a conservation area
10. Hunting
11. As a farm connected to the Ike pigman ranch we would like to not have a tourist attraction next to us
12. This park is best suited for low key development along the parks western side with management oriented toward stewardship of the wonderful landscape surrounding the nationally important river. Once complete the park should compliment USFS management of the adjoining national scenic river with overnight accommodation, interpretation of the National Wild and Scenic River System and the role of the Eleven Point as among the original national rivers in America. Park information should enable visitors to leave the park to enjoy existing river access points north and south of the park between highways 160 and 142.
13. Sell it.
14. Youth activities
15. River access, manmade river structures for SUP, canoe & kayak, dry fly fishing course / training, disc golf, kiting, bouldering
16. Sidewalks for people in wheelchairs
17. Anything similar to Dogwood Canyon!
18. Sell it and put it to use being a ranch again
19. Hunting
20. canoe/kayak
21. river based activities
22. Areas for bank fishing.
23. Grazing ranching
24. *Comment removed*
25. canoe launch take out
26. Dark sky park
27. An interpretive center and places that are open year-round instead of just seasonally.
28. Kayaking or rafting rentals
29. kayak access
30. Wilderness experience - keep it primitive
31. floating the 11 Pt.
32. Please leave this area undeveloped.
33. Hunting definitely should be a major usage of this rural remote.
34. Obviously canoeing and canoe camping.
35. water recreation
36. Canoe/kayak rental/shuttle
37. Floating
38. PRESERVE THIS AREA AS CLOSE TO NATURE AS POSSIBLE, KEEPING INTRUSIVE HUMAN IMPACT TO A MINIMUM.
39. Need to leave this beautiful area natural and not bring in droves of tourists and partiers
40. Hunting
41. Trails

42. Natural Areas
43. canoeing
44. kayaking
45. Maybe special use camping (not sure what all that entails. I think keep horses out. Lodging can be off-site. Mountain Biking if well controlled.
46. natural playgrounds only
47. No motorized vehicles allowed including eBikes- minimal impact is a must
48. Clean Bathrooms; water fountains
49. canoeing and kayaking
50. This park is best suited for minimal development
51. Paddling/kayaking
52. Eleven Point State Park is a beautiful pristine place with interesting natural and cultural histories. These things should be emphasized in the development plan. There should be minimal physical development and infrastructure construction. State Parks must assure that all use planning and implementation be in compliance with the Wild and Scenic Easement in the applicable areas.
53. Electric hookup and shower house and composting toilets.K
54. floating in single canoes or kayaks; no rafts or inner tubes
55. Pit toilets
56. Kayaking
57. With as little development and impact as possible.
58. Look it's about hiking and camping that what you should used it for.no bikes no dog no cat but just people only.
59. As close to Nature as God intended
60. trails, allow fishing
61. Canoeing access should be figured out with USDA Mark Twain NF and the easement. Why have a park without river access?
62. hiking to river access
63. The ability to float the river.
64. OHV and motorcycle trails
65. canoeing, THROUGH the W&S river easement, w/o new accesses within that stretch
66. The park should be restricted from competing with existing venues both public and private.
67. Hunting
68. kayaking/canoeing
69. floating
70. Managed deer hunts in cooperation with Missouri Department of Conservation.
71. river access including take out points
72. float trips on the 11 point river
73. Low Impact
74. paddling (canoeing, kayaking)
75. plein air art events
76. ATV/UTV trails
77. Night sky watching
78. A maintained float camp. Similar to what the USFS has but better maintained. No road access (except maintenance and law enforcement.
79. Put back in private ownership
80. Low impact activities would be best. If biking, mountain biking, and horseback riding can be accomplished with minimal impact to the natural environment that would also be acceptable.
81. Definitely lodging and venue for weddings and special events. Something like echo bluff
82. Bicycle trail - Not Off Road
83. Canoeing access if possible
84. Kayak
85. Pavilion, museum?
86. Canoeing / Kayaking
87. Kayaking
88. Less development is better
89. Float trip options. Float/hike loop

90. Caving
91. Only activities that preserve the shoreline and decrease traffic on the river. As we have seen on many of our other rivers in the state, more traffic (aka camping and lodging) decreases the enjoyment of canoeing down this incredible river.
92. ATV trails, hunting
93. Kayak canoe shuttle
94. Utv trails, shooting range.
95. Splash pad
96. Canoeing
97. Hunting
98. Paddling
99. Floating
100. Managed deer hunts in the winter
101. Kayak and canoe rental
102. Floating access and takeout with parking lot
103. Floating
104. Canoe/River Access
105. Floating/Kayaking
106. Canoeing
107. Kayaking /outfitters
108. Opportunities for locals to be allowed to drive into the park and not be excluded from park enjoyment
109. Water floating
110. Public swimming access at 142 bridge
111. Ham radio Parks on the Air accommodations.
112. Cattle Ranching
113. Any activities should meet conservation easement requirements
114. canoe boat launch, camping wouldn't have to be full hookup (though that is nice), but at least electric.
115. Paddling
116. Canoeing
117. Motorcycle and UTV routes
118. Leave the park as primitive as possible
119. Keep it simple
120. Hunting
121. Sale land
122. River Access for non-motorized vessels (ie canoes, kayaks)
123. Kayaking
124. Floating/kayaking
125. Floating (put in, take out)
126. Swimming in the Eleven Point at the old ferry is routinely used by canoeist and is an excellent location
127. Floating
128. Archery hunting
129. Maintain dark skys. River access and allow for primitive riverside (canoe) camping.
130. Basic Cabins, Yurts
131. Pool
132. Boat put in or takeout swimming
133. Floating (unsure if possible)
134. Add a minimum volt toilets
135. Kayak - Canoe access
136. Quail mgt. and quail dog trials
137. Is there an opportunity for canoeing and kayaking?
138. The main lodge would make a great visitor center/museum. The massive barn could make a great event/wedding location. Also, an annual Beatles Festival in the fall would be a great way to extend the tourist season and honor the history of the property.
139. Hunting, foraging, metal detecting, rock hounding
140. Small game hunting/archery hunting
141. Canoe and Kayaking
142. Canoe/Kayak
143. Hunting

144. Canoeing, Kayaking, and Standup-Paddleboarding!
145. handicapped/ADA accessible hiking trails, small museum of historical artifacts from the area
146. canoe and kayak
147. Floating
148. Kayaking
149. Floating
150. swim areas, access to entry/take-out points for canoes/kayaks
151. floating

Q2: What infrastructure and amenities would you like to see developed at Eleven Point State Park? *

1. Playground, horse camp
2. Wi-Fi, dining, options for purchase or rent
3. Day use shelters and full-service restrooms
4. Limited concrete/paved roads. No infrastructure near easement. Flush and vault toilets. Camp store with snacks. Follow Dark-Sky principles in all development and minimize use of unnecessary light at night. DO NOT overdo it on the scale of Echo Bluff SP!!
5. Shower and restroom facilities, pavilions, full camper hookups, river access for floating
6. leave as primitive and undisturbed as possible
7. No response
8. Safety issues to protect women who are hiking
9. Broad Wi-Fi, since no signal in area
10. Keep it simple. Don't build lots of infrastructure. I want a natural park!
11. None. Keep it natural.
12. Full camper/RV hook up.
13. Trash cans to discourage littering and toilets at the entrance. Maybe the occasional rustic bench to sit and listen to the forest and wildlife.
14. Basic: hiking trails, interpretation, basic camping, basic restrooms, picnic areas, etc.
15. Camping - Basic and Hiking Trails and a
16. None
17. Restrooms and shower house
18. Nice bike and hike trails with plenty of short routes for people that can't walk far, plenty of seating along trails as well.
19. Existing structures for park office, small visitor center
20. Keep it as wild as possible.
21. Solar heated Showers/restrooms, internet/phone service.
22. Lodging
23. Nothing. Leave it alone.
24. I actually appreciate that it's relatively basic and primitive. MAYBE some simple cabins?
25. a few rest rooms
26. Basic camping, picnic areas, hiking trails, interpretive amphitheater and signage.
27. Visitor center
28. lodging
29. Minimal - parking lot and river access
30. Minimal. Small number of basic campsites, small day use area.
31. camping (electric and shower houses)
32. Cabin rentals
33. Bathrooms with running water and electricity. Boat dock's. Concession/general store.
34. Minimal development would be best
35. Latrine
36. Fish cleaning stations, interpretive trails,
37. This park is set in the context of a nationally important previous designation of the Eleven Point National Scenic River in 1968. The scenic easements protecting that resource partly overlap the new park's acreage. It is important that park infrastructure and amenities are consistent with and protective of the integrity of the preexisting federal scenic easements.
38. Wedding/Event Venue
39. Improve existing structures and don't overdevelop the land.
40. Pavilion and electric
41. trash bags for people who dont know how to use a trashcan!
42. Leave it as natural as possible
43. A restaurant of some sort, nothing fancy just an indoor place for sandwiches or simple meals
44. Trails, basic camping,
45. Boat ramps
46. Picnic amenities

47. none
48. Lodge with area information
49. Bike path + hiking trails, designated dish washing sinks in campground
50. Lodging
51. Some basic cabins would be nice
52. A nice playground
53. Horse camping facilities
54. Campground with working toilet and shower, place to eat
55. trails
56. None. There are other state parks such as Sam A Baker and Jonson shut ins in southeast Missouri. Politicians should leave this area alone
57. Very minimal. Gravel roads where necessary. Minimal utilities. A basic nature/visitor center.
58. Trails
59. Shelters
60. Restrooms
61. Obstacle course in the water
62. None
63. River access non motored
64. None
65. Trails
66. Kayak and canoe rental. Grocery/convenient store.
67. Music Venue
68. Rehabilitation of the existing structures is preferred wherever possible. Off the river overnight accommodation, with trail access for enjoyment and experience of the parks landscape adjacent to the national river.
69. Idk
70. river access for paddlers, restrooms and showers for campers
71. Cattle ranch
72. A lot

73. Bathrooms, camping hookups, pavilions, scenic overlooks, hiking trails, historical hiking tours
74. Event space, lodging and boat ramps with shelters near by
75. Sewage. Water. Transportation, communication networks
76. None it's wild national scenic
77. Pavilion
78. Public bathrooms
79. Pavilions, basketball courts, bathrooms, vending machines, rentable structures for indoor events
80. Over the top educational facility, baths, showers for camps, running water bathrooms.
81. None
82. Place where individuals can camp but not piled up on one another.
83. None
84. Nice dining
85. Bathrooms
86. None
87. Parking and restrooms
88. Access roads, parking, restrooms
89. Bathrooms. Interpretive trails..
90. Campground hookups. Playgrounds, restaurant,
91. Waterfalls
92. Any
93. Rustic camping with equestrian sites
94. More bathrooms. Showers.
95. Na
96. Camper hook up sites
97. restaurant
98. Restrooms, even basic.
99. Walking paths, water
100. Museum of houses on park. They have a lot of history!
101. Camping

102. Na
103. Bathrooms if made into camping areas.
104. Bathrooms
105. Basic roads, multilevel physical activities
106. Wedding venue
107. I would like to see what could be done to attract more Bald Eagles.
108. A walking trail, pavilions, picnic tables
109. Bathroom
110. Bathrooms , restaurant
111. Please conserve the Bog House. It holds so many memories for me and my family!
112. Preserving current infrastructure
113. Bath houses and campgrounds
114. Running water and electricity
115. Campgrounds with hookups with GREEN SPACE! Echo Bluff's electric hookup area is the ugliest campground ever created, and it was clearly made that way on purpose. Please, allow us to have green space, and trees that separate us from other campers. There needs to be some privacy and wilderness left to camp.
116. Preservation of the land and heritage of the land.
117. Bathrooms
118. A basic campground and facilities with pit latrines, as well as a small visitor center.
119. Interpretive youth classes
120. Bathrooms
121. Some nice trails made and look out points of the river
122. Campground with camper hook ups so locals can enjoy another part of the river with plenty of room
123. Very few roads. Isolated campgrounds. Shower house. Lots of trails.
124. Lodging and dining.
125. Dinning
126. Regular waterway debris cleanup.
127. A Beetles museum
128. Bathroom
129. Riverfront greenhouse event venue
130. Nice lodges
131. Docks and/or concrete and gravel areas for fishing from the banks for elderly/kids/handicapped folks
132. None
133. Cleared camping spots with fire rings
134. Event center with a full kitchen to host weddings, reunions or family get togethers
135. Playground, pavilion, bathrooms
136. Picnic areas
137. pool
138. N/A
139. Walking trails, water fountains, restrooms, campsites
140. Primitive camping sites, picnic shelters, restrooms and shower facilities
141. Canoeing and camping
142. Good clean bathrooms
143. Bathrooms , trails
144. backcountry camp sites
145. Public swimming areas
146. Recreation
147. Cabins like the ones at Echo (single family)
148. Cabins like at Echo Bluff
149. Camp sites with pit toilets, potable water, picnic tables, etc.
150. Fishing. Picnic tables
151. Some picnic areas, hiking trails, historical information regarding wildlife and past culture of the area.
152. Campgrounds
153. Pigman ranch main house and large barn for public use (concession or park run). Pigman bunkhouse for facility manager

or volunteer/part time housing. Frederick Creek complex for staff//volunteer housing.

154. None
155. Beatles Museum
156. canoe launch take out
157. Playground, pavilion
158. Turn Pigman Ranch house into a big lod
159. Primitive campsites, trails, gift shop and dining available
160. Camping, Floating
161. Basic ones, keep it primitive so it's not over developed and over used.
162. Minimal.
163. Paved walking trails for strollers
164. Paved Bike Path
165. Lodging and dining
166. Bathrooms
167. rv hookups
168. Nature Center
169. I would like to see lodging with a restaurant. Also a store with gifts but mainly supplies for hikers, backpackers, and campers.
170. Very little development needed. Maintain bathrooms and keep development to minimum to protect the natural beauty of the area.
171. Restrooms and Wi-Fi
172. Walking trails signs n
173. Bathrooms and hiking trails.
174. .
175. Flushable Toilet & shower house & trash containers
176. Visitors center, trails, picnic areas, basic camping areas
177. Bathrooms and shower house
178. Shower houses with camp ground, bathrooms
179. Campground

180. campsite hookup for electricity, dump station; shelter with rest rooms
181. Lodge
182. Trails, parking lots, picnic areas
183. Parking Lot, picnic areas, Trails
184. Restroom
185. Bathrooms
186. Restroom
187. Picnic tables and shelters
188. Basic campsites, hiking trails
189. Trails, public bathrooms, picnic tables, parking
190. Informational signs and historical info. Preserve natural area
191. Maybe toilets for camping, but little else
192. Visitor's center, picnic shelters, camp sites with bathroom/shower house, hiking trails
193. Removal of any invasive plants, and planting native plants in their place for the benefit of wildlife.
194. Water electric sewer Wi-Fi
195. Dining
196. Trailheads, and access to the river. River access should not include a full-on campground.
197. Trails to access the river for fishing
198. I would like to see maybe a restaurant or lodging establishment so that there might be more jobs for local people.
199. Toilets
200. campgrounds
201. Just fix the ones in disrepair, Greenbriar and Boze Mill. The water Access are unusable.
202. Jobs, youth program/clubs
203. Minimal. Picnic facilities, walking & hiking trails, playgrounds.
204. Only basic camping and trailheads. This land should be allowed to return/continue in a wild state for the benefit of wildlife and primitive outdoor experiences.

- 205. More bathroom facilities, ranger station that can house educational activities
- 206. I would like to see this park stay as natural as possible. Please make one state park for basic camping and leave the trees alone.
- 207. Decent access to the river and picnic tables
- 208. Lodge
- 209. Campsites, restrooms, river access.
- 210. hiking trails
- 211. Minimal
- 212. basic trails, primitive campsites if any at all
- 213. A few more river access camp sites
- 214. I think this park is best suited for limited development. It's a beautiful area, and there's no need to try to make any better what Mother Nature has left for us, because it would be in vain. I would be strongly opposed to any boat dock, lodge, or more roads being constructed in this park.
- 215. Some area for picnic and primitive camping, swimming, playground for kids in/near camp area.
- 216. A way to handle sewage, electricity in limited places, a way to keep from getting lost.
- 217. If a campsite is put in, definitely a playground and places for kids to ride bikes
- 218. Vault toilets
- 219. Basic camping facilities, access to the Ozark Trail, kayak/canoe river access.
- 220. Campsites trails
- 221. Please leave this area undeveloped.
- 222. Bathrooms, showers, well maintained trails.
- 223. An RV park would be nice. Some hiking trails that loop through the larger timbered tracts and down to the river. Converting the old fields into examples of native warm season grass woodlands and prairie.
- 224. River access
- 225. Basic

- 226. Bathrooms
- 227. Only make a few trails/un paved roads, do not waste taxpayer funds and ruin the environment like Echo Bluff!! A few picnic pavilion our of native building materials and such would be ok. Some full hook ups using the utilities already there at the original ranch buildings etc.
- 228. As few as possible.
- 229. None. Missouri state parks have lost their way. Instead of complimenting nature you look to dominate it. Please keep devolvement at all parks to a minimum. No one wants more echo bluffs.
- 230. Restrooms and a serviceable road
- 231. Either develop it similar to Echo Bluff, where it will benefit Oregon County's tax base, or sell the property back to private landowners.
- 232. Bathrooms
- 233. minimal, campsites back from the water
- 234. Canoe rental, bathrooms if camping is permitted
- 235. Scenic overlook or platform, River access that is protective of water quality.
- 236. A huge shelter with a common kitchen area would be amazing
- 237. Camping
- 238. Marked trails, limited paved roads, and electric campsites with water in campground.
- 239. Park office / check in with a gift shop
- 240. Picnic, parking, restrooms. The less the better
- 241. Keep the river stocked with trout to promote recreation/tourism
- 242. Canoe rental. Boat ramp
- 243. .
- 244. Full hoop up campground
- 245. Campground, restrooms, road
- 246. More shuttle services
- 247. Park store, restaurant possibly
- 248. Park or recreational area

- 249. REGULAR DISCRETE 'PORTAPOTIES' SO HIKERS DON'T FIND SUPRISES ON THE TRAILS
- 250. Access roads to developed hiking trails and campgrounds .
Canoe access to eleven point river. Lodge with dining.
- 251. Year round shower and restroom facilities
- 252. Lodging would be welcomed in this area
- 253. Shelters and picnic areas
- 254. Concessionaire including an outfitter.
- 255. To have the backcountry campsites along the river maintained so they can be utilized
- 256. Bathroom facilities, trash receptacles, covered picnic areas.
- 257. Lodging & camping, hiking trails
- 258. Camping
- 259. Rustic Cabins, a lodge with restaurant; camping spots with rest rooms and showers
- 260. rest room
- 261. Cabins & Hotel like Echo Bluff with restaurant. Place to rent horses to horseback ride for a fee.
- 262. Lodging, dining, campground facilities, interpretive centers
- 263. This park is best suited for minimal development. Let's come together to make our voices united as a strong "no" on a proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
- 264. Campsites (Basic), Hiking trails, Canoe access on Eleven Point River
- 265. Trails, low impact structures like a few picnic tables and interpretive signage
- 266. Visitors Center - Interpretive Kiosks, Toilet facilities and Picnic / Day use - Good trail system
- 267. Bathroom/shower facility

- 268. Leave it as a conservation area!!!
- 269. Hiking trails, canoe/kayak access ramp, rest room facilities at park site.
- 270. None
- 271. Trailheads, trail signage, bathroom and water access
- 272. Honestly keep it wild and scenic as possible. The less developed the better. This is the only Wild AND Scenic designation
- 273. Restroom facilities. Drinking water stations.
- 274. Facilities that make the park more visitor friendly
- 275. Please keep this park as natural and minimally-developed as possible.
- 276. Picnic sites and restrooms.
- 277. Only basic
- 278. Hiking
- 279. River access, trails, but basic/minimal infrastructure, low-impact development.
- 280. carry in / carry out
- 281. Trails, a visitor center and interpretative kiosks for notable historic and natural locations.
- 282. Natural Resource Management
- 283. Development of nonvehicle trails only
- 284. his park is best suited for minimal development. Let's come together to make our voices united as a strong "no" on a proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
- 285. Keep it as close to pristine as possible.
- 286. The minimal necessary for basic camping and picnicking
- 287. Foot trails.

288. Let's keep the river clean and natural. The fewer take-out points along the river the better.
289. Educational features, minimal impact to landscape
290. bathrooms, trail markings,
291. Parking lots and hiking/walking trails only. NO commercial lodging, dining, boat docks or boating!!
292. restrooms and water stations
293. none
294. Bathrooms and parking lots, but keep everything else as it is for low impact development and maintenance of park area in it's natural state
295. Few.
296. Nothing
297. Basic, non-electric campground
298. We need a park with just basic amenities as above, so that quiet and beauty are the things emphasized.
299. Keep it as natural as possible — tent camping only, restrooms, interpretive center, dining lodge with room accommodations. Keep it basic and as natural as possible.
300. Well marked trails. Bathroom Facilities (composting toilets or incinerator toilets)
301. Basic camping, basic sanitation, emphasis on habitat preservation, minimal development and emphasis on preservation as a natural area.
302. Limited.
303. Minimal. Basic Trails. Primitive Camping Sites. Interpretive Displays and Perhaps Self-Guided Interpretive Tours on Marked Trails
304. Trails, minimal sites
305. more trail markers or more permanent
306. Basic camping amenities, like campfire rings and picnic benches
307. Showers near campgrounds
308. Cabins, flush toilets, educational/classrooms, visitor center, office, Ranger Station
309. Nonobtrusive structures since there are already multiple theme parks within the region
310. n/a
311. Minimal, hiking and backpacking trails, float camps.
312. I support minimal development of this park
313. Trails, basic campsites with drive-in access, small put-in area along the river for canoe and kayak access, interpretive center.
314. Vault toilets, interpretive kiosks, kayak/canoe launch area.
315. picnicking shelters
316. Please, NO boat dock, NO lodge and NO additional roads
317. I would like the state to be maintained in as natural a state as possible. Any development should take place near existing ranch structures.
318. Not sure
319. As little as possible.
320. We have been to the 11 Point twice in the last 2 years. We would like to see it remain as much as possible undeveloped beyond boat/canoe ramps and camp grounds. No boat docks, lodges, biking, horseback riding
321. Playground
322. Keep it as natural as possible. Any shelter for picnicking should blend with the surrounding beauty of the river and the natural landscape.
323. Minimum
324. None
325. Bathrooms and trail system
326. Minimal. Hiking trails, natural/historical/cultural interpretive information, maintenance of historic structures and tours of interesting structures, some toilet facilities.
327. Camping (including full hookup), lodging, dining, internet access
328. Minimal - Please ...Protection & quiet are my priority to maintain the wildlife & natural original integrity
329. Shelter with restrooms & shower

- 330. We need very minimal structures and development. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours.
- 331. Keep it simple
- 332. Several walking trails with natural surfaces (not paved)
- 333. Restrooms
- 334. Shower house and potable water. and toilets. Maybe electric hookups
- 335. Composting Toilets
- 336. Low impact campsites, hiking trail.
- 337. Basically nothing, keep it natural- NO buildings with exception of an office for park rangers.
- 338. minimal to none
- 339. Dining shelters and hiking trails for people of all abilities.
- 340. minimal buildings-keep focus on river
- 341. a little and few as possible
- 342. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
- 343. Basic camping
- 344. Lavatories
- 345. See above
- 346. kayak launch
- 347. See item 4 below.
- 348. Toilets. Nothing but toilets.
- 349. Outhouses, picnic tables with very minimal rain shelters, hiking trails, some interpretive signs
- 350. Interpretive Center
- 351. Water faucets, (drinkable,) and flush toilets
- 352. Just what you see is nature's way
- 353. Basic, minimally disturbing
- 354. Bathroom. No additional development

- 355. minimal structures but well-designed trails
- 356. Very little infrastructure, mostly just maintaining hiking trails
- 357. Safety
- 358. None
- 359. None, leave this river alone
- 360. NONE. Leave it pristine and wild
- 361. None
- 362. A wild state park with lots of backcountry access would be great--less paved areas and RVs and more outdoors activities
- 363. Basic camping, picnicking, foot trails, and interpretation, all located well away from the river itself.
- 364. Those elements that would support the above selected activities.
- 365. minimal, if anything at all
- 366. I would like to see a park that focuses on keeping it more wild than some of the other State Parks. This part of the Ozarks is a haven for actually being able to go into the woods and being alone. One of the last places in Missouri. If you develop more impactful or group recreation I would suggest only putting it in one area on one end of the park. This would be Interpretative programs, playgrounds, picnic shelters, event venues and full hookup camping and other lodging. I am ALL FOR inclusive parks but I am also all for diverse park structures and Missouri has such great parks alright that cater to so many of these activities that it would be best if we focus on these activities that require less "hard" infrastructure.
- 367. Pavilions with picnic tables and bbq grills
- 368. Minimal development
- 369. The bare minimum for interpretive purposes. Keep it wild!
- 370. Visitor center, parking lot and picnic area
- 371. Hiking trails
- 372. Shower house & flush toilets
- 373. Any comfort feature would be nice to have. Opportunity for ADA access to key points of interest in the park. Primitive camp at the least for small trailer camping to big rigs at a RV campsite

area. Walk-in tent camping and Camper Cabins with year round modern restroom access.

374. NONE

375. Minimal. This place should preserve the integrity and spirit of the National Scenic Riverway and, as such, should strive to provide opportunity for outdoor experiences in ways that minimize infrastructure and the impact of public visitation to the site. It is particularly important to preserve the integrity of the riparian area that comprises the majority of the Park. Preserving the "dark night sky" (which artificial light diminishes) of the area is very important because of how little of that is left and how artificial light impacts native biodiversity that require "dark sky" as part of their life cycle.

376. Basic access to the area but not a river access for boats or a canoe launch area.

377. shower house, bathrooms

378. Hiking trails

379. minimal

380. hiking trails, river access (canoe/kayak access)

381. Cabins

382. ADA compliant area

383. Campgrounds, trails,

384. Bathroom facilities, drinking fountains

385. Visitor Center

386. basic, such as site parking, restrooms, water fountains, etc...

387. canoe rental

388. Some roads and vault toilets. Water and maybe sewer outlets for disposal of camper waste

389. The ranch structures should be preserved and interpreted as historically operated

390. Bathrooms and showers

391. Campground facilities, river access for canoes

392. Tabernacle for weddings

393. None

394. trails, restrooms, river access

395. Until the state can service their current parks they have no need to expand their liabilities.

396. Very little. Bathrooms at campsites

397. restrooms

398. Please stop developing our parks and focus on ecological restoration while providing basic access as was traditional

399. A minimum to meet the public's requirements. Please take every opportunity to involve local vendors and create opportunities to support the local economy, both in development and in tourism associated with the park. Let's make this a win for local folks!

400. Don't know enough to answer this.

401. Boat ramp, Running water, hot water, shower house, toilets with plumbing

402. Water, electrical hooks, and dumping station with campsites

403. restrooms, trails, boat ramp/landing, scenic overlook platforms/decks

404. Fishing access areas, Restrooms, basic camping sites

405. I would like it managed more as a natural area with low infrastructure like a basic camping site, hiking trails, and access to the river.

406. Restrooms and water. Small basic campsites that are not crowded on top of each other.

407. Picnic shelters, lodging, any infrastructure needed for activities checked in question 1.

408. I would like to see some of the existing structures refurbished along with newer lodging, dining, campsites, pavilions, horse stables.

409. Basic day-use locations for picnics.

410. see above

411. See above

412. Campground with full hookups, small general store for supplies.

413. Interpretive site, programs

- 414. primitive camping only
- 415. lodging, camping, picnicking, trails, playgrounds, kayaking/canoeing support
- 416. Trails, picnic areas, waypoints
- 417. Nature/Visitors Center, Lodge
- 418. Campgrounds, a lodge - similar to what we have at the trout parks and places like Sam A Baker.
- 419. Basic trails and basic camping functionality
- 420. Campground and fishing access
- 421. .
- 422. Pigman home sight
- 423. Trails and bathrooms
- 424. Keeping the current structures for lodging and events at the barn
- 425. Scenic viewpoint benches/seating. A place to fill up water bottles.
- 426. Visitor center, store, restroom/shower facilities
- 427. basic restrooms
- 428. Lodging
- 429. Campground, bathroom/shower houses
- 430. Lodging in or near the park. no need to be elaborate
- 431. A river access for canoe put-in or take out.
- 432. Hiking trails
- 433. Trails
- 434. Full hook up camping
- 435. Full camper hookups
- 436. Vault toilets and recycling and trash receptacles
- 437. Restrooms/ covered picnic areas
- 438. Rv hookups
- 439. Shelters, restrooms, trails, markers, maps,
- 440. hiking trails
- 441. None

- 442. Only primitive campsites. Hiking trails. Float (fee) camp. Existing Piggman structures to incorporate environmental, riparian and river ecology. Hiking trails, minimal picnic sites. No vehicle, bike or off road vehicle access.
- 443. Put back in private ownership
- 444. For hiking and bicycling: footbridges where needed over streams and steep valleys, to allow longer continuous trails/routes. Signage at trail junctions and trailheads for better trail navigation. Water spigots at trailheads/parking areas, where practical. For all activities: at least pit toilets at trailheads/parking areas (as opposed to porta-johns).
- 445. hiking trails and campsite development
- 446. Infrastructure and amenities should be kept to a minimum.
- 447. Full hookup camping
- 448. Keep the original ones.
- 449. It would nice to have a lodge/visitor center built at the park.
- 450. Basically, all of them. Echo bluff would be a great blueprint. It is often booked for lodging and having another similar option would be great.
- 451. I believe this, I don't know fact, if the Beatles visiting here 1964 would definitely be an asset for this property ! Being a musician I had no idea until I moved to the history of this place. I have since driven by and even talked to a few of the folks that have worked there. What an amazing opportunity for a Beatles fan. I can see a future of beetle festivals every year with a live Beatle tribute bands like Liverpool Legends that play in walnut ridge Arkansas every year for their Beatles festival. If walnut ridge can produce a Festival the successful once a year based on the Beatles stopping at the airport for 20 minutes I believe the fact that the Beatles stayed here for 3 to 5 days would be a perfect opportunity. Paul McCartney and John Lennon, look-alike contest, songwriting, contests, food, concessions, liver pie, photo opportunities at the exact location. The Beatles were at on, and on with great ideas, and opportunities could be had here I would love to be a part of this.
- 452. Nothing

- 453. Basic Campground and lodge with restaurant for those who want electricity
- 454. Campground related: shower house, hook ups
- 455. Basic camping, picnicking & shelters.
- 456. Restrooms are always a high priority.
- 457. Pavilion, restroom, shower house, parking
- 458. basic camping and interpretive kiosks
- 459. Camping
- 460. Access to 11point and water hydrant
- 461. Parking at river shuttle access
- 462. Widely spaced camping sites. Include tent pads on all camp sites. Dump station allowing multiple vehicles access. No need for water and sewer at campsites. Multiple and easily accessible water spigots to fill RV.
- 463. Access
- 464. Bare minimum to keep the park as natural as possible
- 465. Kayaking/floating, RV camping
- 466. Access for kayak/canoe put-in and take-out
- 467. Full Hook Up camping, all season campgrounds, seasonal dining - think trout park facilities, at least 1/2 camp sites first come available, at least 1 mile bicycle trail along riverfront, multiple boat launch / ramp access
- 468. Bathrooms and family/friendly places
- 469. Campsites, floating access if permitted by WSR easement
- 470. Cabins
- 471. Do like Bryant Creek. With just basics.
- 472. fhu camping
- 473. The land itself
- 474. Non electric campground with flush toilets and shower house.
- 475. good showers and bathrooms
- 476. Cabin bathrooms
- 477. Clean bathrooms year round.
- 478. Shower houses and full restrooms

- 479. Hiking Trails and restaurants
- 480. Rustic cabins
- 481. Public restrooms and some Ada accessible trails
- 482. Full hookup campground with Lodge and camp store.
- 483. Visitor Center
- 484. Flush toilets
- 485. Benches
- 486. Shower house for camping
- 487. None keep some places wild or we will have none left. There is enough parking lots and bathrooms.
- 488. Bathroom
- 489. Stables, lodging/dining options expanded
- 490. Trails for biking and hiking. Specifically not for horse use!
- 491. Shower house/ restroom facilities.
- 492. All
- 493. A pavilion and campground area would be cool.
- 494. Trails, camping, picnic area, cabins, handicapped campsites and cabins near restrooms, pavilion, museum?
- 495. Shower house
- 496. Water
- 497. Cabins
- 498. Full hook ups and level camp sites for RV's
- 499. Boat ramp
- 500. Primitive camping
- 501. None
- 502. Paved roads. Restaurant. Cabins.
- 503. Park office and restrooms
- 504. as little as possible
- 505. Minimal
- 506. Trails and playground picnic areas
- 507. Restrooms
- 508. Similar to Echo Bluff but with primitive areas as well

- 509. Canoe access, showers, modern bathrooms.
- 510. restroom/toilet with showers
- 511. Bathroom
- 512. Family campgrounds, public use toilets with running water and showers.
- 513. Basic Camping cabins
- 514. None. keep it rustic. The river and grounds are awesome.
- 515. Boating access for canoes/kayaks
- 516. Pigman Ranch preserved as an educational center
- 517. Basic toilets at sights along river.
- 518. Keep natural as possible
- 519. Shower house and camp store
- 520. Maybe some cabins and a small information center.
- 521. Indian Village
- 522. Canoe/kayak put in for river access. Restrooms and trash receptacles
- 523. Restrooms
- 524. Potable water
- 525. Trails and bathrooms
- 526. Camping facilities
- 527. Well marked trails
- 528. Waste management/ dumpster's/ communication/ cell tower.
- 529. I recommend minimal development, i.e. no cabins or dining lodges. Existing lodging options at Alton and Riverton provide overnight options for visitors and would support the local economy. Restaurants like Crumpie's in Couch, as well as restaurants in Thayer & Alton provide convenient dining options.
- 530. Backcountry backpacking sites.
- 531. Actually none I would like for it not to be developed
- 532. Water front
- 533. RV spots
- 534. Infrastructure like Echo Bluff
- 535. Lodge with dining. Hiking trails.
- 536. Paved bike trails
- 537. None, please help keep traffic minimal on the river so we can preserve the natural beauty of the river.
- 538. Paved sites, floating
- 539. Fishing
- 540. historic buildings, trails,
- 541. N/a
- 542. I would like a nice restaurant in keeping with the properties' history. Also, nice cabins/lodging!
- 543. Clean bathrooms
- 544. mountain bike trails
- 545. Picnic shelters
- 546. N/a
- 547. As few as possible to keep the area wild.
- 548. Event Venue// Pavilions
- 549. Lodging
- 550. cabins, lodge with food
- 551. Unk
- 552. Kayak shuttle
- 553. Develop old pigman barn and house into an event center/venue with lodging available in the house(s). Update existing roads into a self-guided utv tour with scenic views and wildlife experiences.
- 554. Camp stores full showers and bathrooms. Laundry rooms
- 555. na
- 556. Interpretive center
- 557. I would like to see a place to eat and a playground and splash pad for kids to play in
- 558. Camping full hook up
- 559. Camping site, picnic tables
- 560. Trails, restrooms, visitor center
- 561. We have not been and cannot give appropriate response.
- 562. None. Keep as is, it's perfect.

- 563. Boat launch, campground
- 564. Roads/trails/benches
- 565. Nice restrooms and clean campgrounds
- 566. Year round restrooms
- 567. Have a nice parking lot and picnic tables along the river
- 568. I'm happy with camping spots that are electric only.
- 569. Nice "primitive" tent camping like echo bluff
- 570. Public restrooms, benches, playgrounds
- 571. Internet
- 572. Just restrooms & shelter or two
- 573. Campground playground
- 574. Nice restaurant, hiking and biking trails. Etc etc
- 575. Full hook up campground, install a ton of trout!
- 576. The floating camps are not as well maintained as they used to be.
- 577. Campsites
- 578. Rv full hookups and horse trails
- 579. Compostable toilets
- 580. Boat launch, concessions
- 581. None
- 582. Wedding venue at main barn / house
- 583. Restaurant
- 584. Marked hiking trails pit toilets at float access, fresh water availability, a bath house at the campground
- 585. .
- 586. None- just keep it simple, basic camping
- 587. Easy put in and take out access for kayaks and canoes
- 588. Playground, restrooms, pavilion
- 589. Playground
- 590. Bath/shower.
- 591. Please leave in natural state
- 592. ADA trails when possible

- 593. The ability to float and camp.
- 594. None
- 595. Camping
- 596. I personally would like to see small cabins as an option, in addition to campsites. Echo Bluff is great, but the price for lodging can be cost prohibitive for a canoeing or kayaking trip. Small, simple accommodations that feature HVAC and plumbing would be great.
- 597. None
- 598. Working cattle ranch
- 599. Some cabins. Bird Blinds and hiking trails.
- 600. Hiking trails, basic camping, backcountry camping.
- 601. Campground and rest rooms with showers
- 602. Do not over build. One of the best parts of Missouri State Parks is that there are outdoor opportunities without being overcrowded. Don't turn in to Yellowstone, Rocky Mountain, and all the others. It's disgusting that nature is a theme park in those places.
- 603. None
- 604. Save the historic house where the Beatles stayed. It has a history even before their visit.
- 605. None.
- 606. Cater to the music lovers who will love the opportunity to stay where the Beatles stayed.
- 607. Campgrounds, dining, special event facilities utilizing existing buildings
- 608. Full hookup camping sites and lots of trails to hike/backpack
- 609. Bathrooms, pavilions
- 610. Affordable lodging for out of town folks to visit
- 611. None keep it natural
- 612. Camping and shower
- 613. Restrooms, showers, electricity, nature center
- 614. Shower house and general store for campers
- 615. Camping, lodging, restaurants

- 616. Campground
- 617. Bow hunting
- 618. Kept as natural as possible
- 619. Appropriate for the location/ resource.
- 620. Playground, picnic areas, camping amenities
- 621. I wouldn't overdevelop this park. Let us be a counterbalance to the overly developed Echo Bluff. Allow camping and picnicking. Focus on the Beatles history. It's so unique.
- 622. Good, reasonable eating facilities
- 623. Easy access for residents of surrounding area.
- 624. Campsite, camp store, outfitters
- 625. Pavilions for group gatherings.
- 626. Modern plumbing - toilets & showers; paved trails; minimum stairs.
- 627. Lodge similar to Echo Bluff
- 628. Full development with lodge, restaurant, and opportunities for locals to enjoy the ranch as they once did.
- 629. Shower House/bathrooms for camping area. Efficiency camper cabins. Volleyball pits, horse shoes pits, grills/picnic tables
- 630. General store, maybe a restaurant
- 631. Lodging and dining inside the original house areas for hiking, etc
- 632. Food lodging
- 633. None
- 634. Although I understand that certain structures are necessary to help manage state parks I hope that NO structures would be build along the river, bottomland, or river corridor. This includes primitive camping, but especially lodges or visitor centers. I think we could use existing structures or already cleared land for the vast majority of what needs to be accomplished. Vegetation could also be built up around a campground although it may take several years instead of clearing land for a campground.
- 635. Hiking trails
- 636. Lodging and dining in the "big house"

- 637. Campsites
- 638. Lodging
- 639. Full hook up campground
- 640. Picnic shelter area with nearby playground. Information about the history of the ranch as well as outbuildings along Eleven Point River (the boathouse on the river). It would be nice to have a stopping point with restrooms for when you're floating from Riverton to the Narrows.
- 641. Roads adequate for bringing rvs in
- 642. Na
- 643. A campground
- 644. Toilets, picnic places
- 645. Limit the size of the RV's allow in the park to 50' or less in total. This is such a pristine area that infrastructure and development should be as unintrusive as possible. Please -no rolling cities allowed!
- 646. Camping primitive and rv. Shower house. Backcountry backpacking campsites.
- 647. shitters
- 648. Put in/ take out for canoeing / kayaking. campground. toilets. shelter house
- 649. None
- 650. Basic camp sites
- 651. Maybe a nice lodge and cabins
- 652. Cattle Ranch or just sell it and stop wasting valuable resources to build a park that will bot see the visitors you project with fake numbers.
- 653. Bathrooms
- 654. If the park is going to attract visitors, it needs to have it's own emergency services so as not to be a drain on local resources
- 655. Dining lodge/welcome center
- 656. Camping, mountain biking
- 657. Low impact infrastructure, water system for clean drinking water

- 658. Rural Water
- 659. I would like to see a number of camp sites dedicated to primitive or tent camping. Preferably in a wooded setting. Camp grounds like Echo Bluff are fine for RV camping, but there is a need for tent camping sites that don't form a small city. Not everyone wants to go out to the wilderness and camp next to 100 other people. I would also like to see some off road biking/mountain biking trails.
- 660. Very little. Conserve the area with very little or no construction
- 661. Camping - bathrooms
- 662. Camping
- 663. Leave things natural
- 664. Minimal
- 665. Just basic camping with toilets. no RV parks with power.
- 666. Camp store/lodge areas for some amenities like forgotten grocers if you have a campground. Canoe boat launch(es) - maybe 2, one at the upstream end of property and another at the downstream end so that one can easily make a short trip.
- 667. Interpretative programs. Historic and nature. Modern amenities while still oerserving the scenic easement of 11 point river.
- 668. Campgrounds along river for overnight paddlers
- 669. Trails
- 670. Food
- 671. Visitors center
- 672. Canoe access
- 673. Pit toilets only
- 674. Structural updates and upkeep
- 675. Pavilions
- 676. Water & electric
- 677. Bathrooms Showers
- 678. Basic camp, mountain bike / hike trails
- 679. Developed campgrounds for tents only
- 680. Vault toilets, electric for camping trailers, & septic for dumping black water tanks
- 681. cabins
- 682. restrooms
- 683. Nothing grand like Echo Bluff. Think smaller, like restore ranch buildings for interpretive use and/or lodging.
- 684. Living Building Challenge certified
- 685. Pavilion for small groups, pavilion for large groups
- 686. As little development as possible
- 687. Paved roads and ATV trails
- 688. Basic amenities - campground, picnic shelter, river access point for non-motorized craft.
- 689. Minimal
- 690. Some off-road trails and some paved
- 691. canoe/kayak access
- 692. information kiosk, pit toilets, fire pits
- 693. Restroom
- 694. Campground, hiking trails
- 695. Campsites, potable water
- 696. Restrooms and wifi
- 697. Toilets, parking areas, basic camping
- 698. Power good roads
- 699. bathrooms
- 700. Ramp or dock on river with road or trail up to campground
- 701. None
- 702. Playgrounds frisbee golf
- 703. Trails and amenities related to camping.
- 704. Boat access
- 705. Float trip abilities
- 706. None
- 707. Restrooms
- 708. Boat ramp
- 709. restrooms, parking, scenic sites, photography blinds
- 710. None leave it alone. U will just screw it up.

- 711. Backpacking trails
- 712. Minimalistic. Good roads, good bathrooms and shower houses.
Waterlines. Spaced out tent camping.
- 713. Flat walking/bike trails
- 714. Bathrooms
- 715. Walking/outhouses/camping
- 716. As little as possible
- 717. Plenty of restrooms closer to one another. I'm getting old. :)
- 718. Water, restrooms
- 719. Electric water sewer
- 720. Trout hatchery, dining hall, campground, cabins, lodge
- 721. Put in / take out
- 722. Kayak access. Lodging at pigman house ranch
- 723. Leave the natural beauty
- 724. Making the river a little safer for kayaks & canoes
- 725. Nothing specific
- 726. Visitors might re-create the Beatles visit by riding go carts,
horses, and fishing in the big pond below the main house
- 727. Bathrooms, nursing/changing areas, water fountains
- 728. Pit toilets, running water ,
- 729. Store, lodging but reasonable cost, internet, boating with a
dock, dining ,
- 730. Day use areas, bathrooms, shower houses, restaurant, cabins,
rv hook ups and natural hook ups. Similar to echo bluff
- 731. Lodging, campgrounds and pavilions
- 732. Na
- 733. Camping
- 734. A working bathroom at least is genuinely all I've got.
- 735. I believe things like camping and a wedding venue will help
draw in people who are not normal visitors. Travelers from other
states, to keep people engaged.
- 736. Restrooms, minimal stuff, no "Echo Bluff " stule ugly lodge.
- 737. Primitive camping, trails
- 738. Equestrian Trailhead/Camp
- 739. None
- 740. Shower house
- 741. Hiking trails, basic bathrooms
- 742. Restaurant, Bathrooms, Showers and Historical/Nature guides
- 743. Trails that side by sides or four wheelers can drive around
- 744. Cafe
- 745. Artists' lodging to promote the natural beauty of the area along
with camping and hiking
- 746. Pavilions
- 747. Minimum, but accessible for all abilities. Build to minimize
future maintenance and cost of operation.
- 748. Bathrooms and river access
- 749. River access, cabins, bathrooms
- 750. Showers
- 751. .
- 752. Trails
- 753. Campgrounds ranging from primitive backcountry sites to full
service.
- 754. Take care of facilities and make it productive!
- 755. Children hunting education opportunities
- 756. Water, sewer, electric WiFi
- 757. Campground
- 758. Bathroom
- 759. Campgrounds
- 760. Bath house, trails
- 761. Keep it just as is just be able to fish river and camp basic if you
wanted
- 762. Lodging, dining, camp ground, glamping
- 763. Lodge with dining
- 764. A lodge like Echo Bluff
- 765. Visitor Center with small store - Watercraft rentals (if avail with
river) - Full RV hookup - Scenic overlooks - Marked trails -

- 766. Bike trails that are gravel rather than paved. Boat launch with gravel parking lot for non-motorized water craft.
- 767. Lodge
- 768. Fishing access, primitive camping
- 769. Bathroom with running water
- 770. Keep natural wild and scenic
- 771. Campground w/ full hookups and lodging w/ restaurant
- 772. hotel like cabins to rent
- 773. Potable water, and picnic shelter, and trails.
- 774. Maybe some pavilions
- 775. Bathrooms, visitor center
- 776. Running water with flush toilets and showers. Picnic tables with shelters, fire rings. And lantern post.
- 777. Pigman Ranch Structures preserved and interpreted. Put visitor center and lodging at Frederick Creek ranch in existing structures. If you want a limited premium stayover opportunity at Pigman I would not be opposed, but no new development there.
- 778. Primitive Bathroom facilities
- 779. Idk
- 780. Hiking trails
- 781. None
- 782. Visitor center .,
- 783. Accessible facilities including some trails
- 784. camping, rv camping (lacking in the rest of the county), trails, fix up the main lodge for museum/visitor center. Trans form the barn into an event space, concert venue, and a place to give interpretive talks.
- 785. Picnic Shelters, modern restrooms/showerhouses, potable water, a dining hall/lodge/gift shop
- 786. Think the original buildings should stay and then add new things that our needed for public to be able to enjoy
- 787. Camping in established woods
- 788. Canoe/kayak access

- 789. Camping
- 790. Rafting concessioners.
- 791. "Upgraded" group camping that offers pavilions, electric, potable water, showers, flush toilets, tables, fire rings, hooks and trash containers. Three to four of these (or more) scattered around the park would be popular amongst a variety of groups. If they're not reserved 48 hrs in advance...allow for day use and standard walk-in style camping on a nightly basis contingent to any reservations.
- 792. Restrooms, paved driveways, picnic shelters, access to drinking water
- 793. Electric, water, sewer
- 794. Canoe in camping
- 795. Camp ground/boat Access to river.
- 796. Limited camping sites
- 797. I would prefer to see remain as "wild" a park as possible with no lodging, restaurants, etc.
- 798. Hiking and mtn biking trails, canoe launch, fish cleaning station, backcountry camping, view/lookout tower
- 799. Water, sewer, campground(primitive), shelters, hiking/biking trails, river access, basic amenities..
- 800. Connection to the Ozark Trail
- 801. Camper hook ups. Maintain existing house and barn for use for events and lodging
- 802. Low development. Hiking trails, campgrounds in the upland areas
- 803. Shower house, pavilions
- 804. Decent lodge or hotel
- 805. Campground and river access
- 806. A large clubhouse and entertainment area with stage, picnic tables, camping port a potties, fire pits, restaurant
- 807. More river access. Particularly for disabled people. Right now there are zero handicapped amenities.
- 808. Would love to see cabins to rent.
- 809. Food

- 810. Pavilions, information stations, restrooms
- 811. Shower and bathrooms
- 812. Canoe and kayak ramps and camps on river
- 813. Hiking trails, river access
- 814. Full hook up Campground
- 815. Name an area In Memory Of Matthew Kantola.
- 816. None. Leave it natural
- 817. Basic bath house/restroom
- 818. River access
- 819. No infrastructures and amenities. At most, maybe a visitors center/museum.
- 820. Campground, boat launch/rentals, small concessions (ice, drinks, river basics, snacks)
- 821. Hiking trails picnic areas
- 822. Keep as it simple as possible
- 823. As minimal as possible. Restrooms and drinking fountains only
- 824. My brothers and sisters in Christ: You must build public transportation connection to the major cities. Regular bus routes would open up the park to HUGE numbers of people in St. Louis, Springfield, Columbia, Rolla, Cape Girardeau, etc.
- 825. Campground, cabins, trails
- 826. Access to the river for swimming, fishing, etc. Campground with at least water & electric at each site. Bathroom/shower houses in campground. Dump station
- 827. Restrooms at access points. Trash receptacles.
- 828. single track mtn. biking network of trails
- 829. Day use and overnight
- 830. all the regular stuff, campsites close to the river
- 831. All weather showers/restrooms. Boat ramps. Handicap accessible opportunities to at least view, and perhaps bank fish, the Eleven Point.
- 832. Launch facilities for watercraft
- 833. Restrooms, restaurant, canoe rental
- 834. campground with full hookups
- 835. Good river access for kayaks/canoes to be put in
- 836. Campground, lodge, and nature center
- 837. Fire rings for backpacking over night
- 838. Canoe, floating rentals
- 839. Hike/bike trails along the creek and river. Backpacking campsites to be accessed by hiking or biking. A place for nature programs to take place.
- 840. I would enjoy lodging and food for an extended stay.
- 841. Water roads
- 842. facilities for healthy and handicapped
- 843. Some camping sites
- 844. I like the idea of the park not having a ton of infrastructure. Maybe just a few public access canoe launch areas, and camping areas with vault toilets.
- 845. Electric, water, sewer, showers, pavilions
- 846. Campground with electric, and water
- 847. Nice Campground along river
- 848. Bathrooms, drinking water outlets, RV hookups, primitive camping areas
- 849. We love Bennett Spring SP and Echo Bluff SP
- 850. Hiking trails, canoe launch. Visitor center with history.
- 851. Water, electric and nice bathroom facilities. Mountain bike trails.
- 852. Bathrooms and Showers. Access to electricity. Charging stations for cars.
- 853. Picnic areas with restrooms or at a minimum vault toilets, camping areas with potable water/restroom/shower houses
- 854. Trails, basic camping outhouses and showers.
- 855. Campground with a showerhouse.
- 856. Full hook up campground
- 857. Visitor center

Q3: Which themes would you like to see interpreted at Eleven Point State park? (Check all that apply)

Answered: 857 Skipped: 0

Other (please specify)

1. Re Beatles: I went to the St. Louis concert in 1964 and have seen some wonderful photos of the Beatles riding horses and etc. during their visit. Re National Wild & Scenic River designation: the importance of preserving the easement should be stressed.
2. It will be especially important to honor and maintain the integrity of the USFS easement along the river.
3. Dark sky resources.
4. Don't destroy the natural beauty of this area just because the Beatles stayed there a couple of days
5. Leave it alone
6. It would be great to have a park that focuses on Music in the Ozarks.
7. Shared role of the federal and state agencies in protection of the national river resource.
8. Working cattle ranch again
9. I don't believe the Beatles should even be on the survey as it has nothing to do with our Ozark history they probably didn't even remember being here
10. Missouri tropical
11. Enhance the beauty, don't just let it grow up.
12. Cattle Ranching
13. Grazing ranching non public use
14. All the history
15. Site-specific agrarian history
16. Common sense prevails over Republican idiocy
17. Make folks aware of the scenic easement and its importance to protecting the Eleven Point River and those floating it.
18. Please keep things as natural as possible
19. Please leave this area undeveloped.
20. wilderness camping skills training camp events also at same time investigate a small demo area of hydro power like the ones experimented with on the Mississippi river that do not require dams.
21. The less the better
22. Restoration of glades and savanna. Cuivre river state park is exceptional example, hats off to those managers!
23. None
24. Not sure what cultural resources exist on the site
25. Leave as a conservation area!!!
26. The theme is already there as the great outdoors- perfect in it's current state only minimal impact use
27. Stress the natural beauty and enhance the possibility of returning to natural state
28. It should be a Low-Impact Park. This park is NOT a place for more intensive park developments.
29. All development should be confined to ranch structure areas. Some interpretive signs could be placed outside the ranch areas if appropriate.
30. Particular emphasis should be on local areas of Oregon County and nearby surrounding areas.
31. Just leave well enough A lone
32. None, already has enough
33. Leave this river alone
34. Conservation area. DO NOT DEVELOP
35. None
36. Dark skies
37. Emphasis on the native flora & fauna + the natural features & landscapes!
38. I feel since it's near the ONSR maybe shouldn't be developed as much as Echo Bluff, to keep it more wild. Or if a plan is for something similar to Echo Bluff, maybe have it away from backpacking & tents campers.
39. NONE
40. None
41. The Beatles visit ranch is SO stupid. There is enough of the 11-Pt under Fed and State control.
42. how the river fits into watershed
43. Leave how it is

44. Keep the park primitive...no boat launches, no resort-theme development. Very basic camping with under 30 sites.
45. Private ownership
46. I have never understood why the Beatles going there once was that big of a deal. I'm from the area and I don't believe younger generations do or will have an interest in that.
47. Leave it alone
48. River as community transportation resource
49. Please keep as wild as possible not much development
50. Do not pave paradise to put in a parking lot like you did echo bluff!
51. none
52. To enforce the rules on the river and campground.
53. Wildlife and habitats
54. None
55. Agriculture, working ranches of the Ozarks
56. Endemic species and animals
57. Greer Spring
58. Please don't build a park
59. For It not be a State Park that looks like this one. It looks horrible.
60. None.
61. Westward expansion involved the trails leading through the area. The stores associated with the Turnbo Manuscripts are perfect!
62. The land has been known for a hundred years as either Brock Ranch or Pigman Ranch. Perhaps the rich history regarding JD Brock or Reed Pigman should be considered
63. biker gangs of the south

64. Cattle Ranching
65. I understand the role of early settlers in the Ozark region, but it doesn't take too many visits to Pulltite cabin on the Current river to realize it was a private hunting oasis for Doe Run executives that made big money off polluting our natural resources. Sometimes early settlers only had survival in mind, not conservation. Maybe we should just stick to the things that make our natural state beautiful.
66. Public use
67. Sale land
68. Wildlife Mgt to include species which may not be historically "native" but naturally introduced to area (ie via climate change) yet not detrimental to natural environ
69. The main house could be leased as a bed and breakfast as the same place the Beatles slept which might draw people from far away.
70. Agriculture
71. Whatever is specific to park resources.
72. Somewhere in the park place a memorial to Matt Kantola, or buy a telescope for it in his name. He loved that place and the dark skies.
73. Please keep old fields in small game habit rabbit/quail
74. The river is the heart of the park and should be the main emphasis.
75. Geologic interpretation of the area
76. None
77. WE DID THE OSAGE DIRTY! LAND BACK!
78. None
79. Access to river for paddlers.

Q4: Do you have additional comments or suggestions regarding Eleven Point State Park?

1. I am anxious for the opportunity to visit 11-Point State Park. It has been years since I have been to the area, but we previously went frequently.
2. The landscape of Eleven Point State Park contains watershed hills and rolling uplands, which include topography and species not represented elsewhere in the state park system. The scenic easement is an integral and protective part of the Eleven Point National Wild and Scenic River, designated by Congress in 1968 as an original component of the National Wild and Scenic Rivers System. It is vitally important that any parkland restoration and future park developments are consistent with and protective of the integrity of the preexisting and deed-restricted federal scenic easements. As a working ranch, there are structures and cleared pastures and hay fields that show recent human disturbances. Future development should minimize intrusion on undisturbed areas of the former ranch in terms of recreational development, with concentration on hiking trails, basic camping, picnicking, and interpretation. Sources of revenue that produce sales taxes that can go to Oregon County will provide some replacement for the property taxes that they no longer get (after the 5-years worth that they received while fighting the park).
3. It needs to be opened to help the Oregon County economy and provide jobs
4. Sierra club recommendations would be a positive
5. Protect this special area, by keeping it natural!
6. Just keep it as natural as possible while making it accessible. No evidence of civilization except maybe benches and an outhouse or two and trash receptacles at the entrance.
7. Lots to interpret here, both natural and cultural.
8. Keep Eleven Point State Park Wild
9. don't want to see it overly commercialized, no boat rentals whatsoever or big huge cabin/lodges
10. Please honor the existing easements that protect the river from any incursions from motorized vehicles and horses. Access to the river should only be by floaters.
11. Kansas
12. This park is a wonderful addition to our state park system, and embodies a distinct topography and natural history that is not represented elsewhere in our system. It is tied closely to the adjacent nationally important Scenic River. As a result, it is vitally important that the park development respects the integrity of the scenic easement along the river. Also, the Scenic River creates an unusual opportunity to partner with the US Forest Service in the interpretation and protection of the river and its corridor. Facility development here should be minimal and low key, geared toward interpretation and appreciation of the resources. Physical access to the river itself is already conveniently available just upstream of the park at Riverton and just downstream at the 142 bridge. I hope that the park can include a significant acreage of stewardship of the beautiful rolling uplands of the western portions, with its unusual species associations. Also encourage preservation and interpretation of the giraffe rock ranch headquarters building and the very large vintage barn nearby. These structures tell an Ozark story somewhat distinct from others in the region. Be sure to interpret the dark sky resource, an increasingly scarce asset in our state.
13. Areas within the Federal easement must comply with all its restrictions.
14. Keep it mostly as a natural park with minimal development.
15. Echo Bluff lodging is always booked--partially because of the proximity to Sinking Creek but also because it provides the National Park lodging experience right here in Missouri
16. This is a beautiful natural area, and should be managed to preserve its natural beauty. Uses such as horseback riding and motorized recreational vehicles which have led to erosion, pollution of the waterways, unapproved expansion into new areas of the park, etc. should not be introduced.

17. Please continue to honor and protect all existing scenic easements during the development of this new park.
18. n/a
19. Provide necessary parking and trail development with as little disturbance of the native plants and natural areas as possible.
20. Bow hunting would be beneficial. The deer population is to high in that area.
21. No hunting
22. I would like to see an equestrian campground with at least electric hookups
23. Keep it natural...
24. Let volunteers help build trails
25. No
26. Leave this area alone. It does not need to be another jacks fork or current river.
27. Handicapped accessible areas
28. Keep the river pristine.
29. More trash bins
30. As this is on 3 sides of our property, and marked " state park" it seems that I am not welcome although I am a tax payer and was bought with funds accumulated from the American tax payers. Yet park service employees don't hesitate to come onto my property stating they were "lost". That will only be the beginning of my problems, and yours, when you start letting all these novices in on this property.
31. Primitive camping
32. No
33. This park should be a key dark sky resource and its development should enable visitors to enjoy such an experience.
34. Yes sell it. You shouldn't of ever bought it to begin with. Let an actual farmer own it and make a living off of it.
35. No
36. Honoring the cemetery
37. Please do not make it a tourist trap. Also regular camping experiences are becoming hard to find. Would love to incorporate basic camping grounds.
38. Not at this time
39. It needs to be a little more handicap accessible
40. No
41. Make it cheery like at the lake marinas
42. Put it to use
43. Please don't take forever in accomplishing whatever is decided upon. It's already just sat for too many years!
44. Would be great for Missouri and our small community
45. Multi-use trails should be loops that bring you back to where you started
46. Sell it
47. Make public for hunters and fishermen
48. MO
49. Keep it in nature. Make open access to the public. We pay for it.
50. Na
51. Keep it beautiful!
52. No
53. Keep it as nature friendly as possible :)
54. Don't waste it, don't let it become over grown and useless to the community first and visitors.
55. Preserve the history please. So much local history is here!!
56. Let someone run it who knows what they're doing!
57. Don't make the hookup camp into a parking lot
58. I am so happy this is happening! I hope it brings in people and revenue for this small area! It is so beautiful here and I am sure it will be a spectacular in its future developments.
59. No
60. Please do something with it It's a shame for it to just set and grow up into thorns and thistles!!!
61. Picnic areas with & without shelters.

62. Returned to nonpublic use
63. Make handicap accessible as possibly!
64. I am a local photographer and have family who worked this land for years. I would love to be able to use this location for photoshoots!
65. MO
66. Hunting options
67. The natural beauty of this area should be emphasized as a primitive resource park. I think this is not the place for massive, gaudy RVs. Absolutely no motorized vehicle trails or other facilities.
68. No
69. I think it would be great to use and update the existing buildings for possibly an air bnb type facility and have a restaurant
70. Partnering with a local shuttle/outfitter for the river
71. I feel that the nature of the 11 point park should still be protected and preserved as much as possible although allowing people to still enjoy it. I'm not sure if that would mean doing some type of fee to get in that way it keeps it clean and filters sketchy individuals out. I just love our home area and would hate to see careless people take advantage of it and harm it after it has been untouched and preserved for so long.
72. I don't think it should be overly developed so it connects/enhances to the USFS river designation.
73. *Comment removed*
74. Development as soon as possible
75. Keep somewhat primitive
76. Mo
77. Keep it basic
78. Can't wait to visit
79. no
80. I would like to see guided nature walks/hikes this fall and winter 2024 even though the park is not open to the general public.
81. Hope that the area is kept as wild and scenic as possible, while allowing reasonable day use and primitive camping.
82. Leave it as wild as possible
83. Please keep the development of the park to blend in with the environment
84. No
85. No
86. I believe it is very important to preserve the rivers and streams to prevent private or corporate development and to utilize these resources for those who enjoy nature and protect it from overuse and party oriented use. uses
87. Thank you
88. Why is it called eleven point if we can't access the river?
89. Overnight backpacking options would be great
90. I believe that a minimalist, hands-off approach is the best approach to protecting this important land.
91. Do not over-develop this resource.
92. Keep horses off the banks.
93. Keep it wild.
94. Please keep it as natural as possible, unlike echo bluff.
95. I would hate to see too much development that would detract from the natural beauty of the area
96. keep it as pristine as possible!
97. I'd like to see this area preserved as naturally as possible, and with limited development. Currently it's a beautiful, natural escape that really lets you ignore the world and sink into nature. Too much development will change that dynamic.
98. Again, I just don't think this is the place for more intensive development. I don't want to see lodging, electrical hookups, dining, bike trails, things of this nature being constructed. These things would only detract from the scenic river environment and the natural beauty of the park.

99. It is a vital resource for the SW part of the state. Glad it remains safe from development!!!
100. US
101. All access points, buildings, parking lots, ect should be far enough from the river as to not interrupt the natural landscape of the scenic river with the exception of the campsite.
102. No
103. If a lodge and cabins are offered they should be rustic and affordable.
104. Please leave this area undeveloped.
105. Keep the loud vehicles and people out. Do better enforcing this and littering.
106. MO
107. No
108. Include several points for river access with both launch and swimming/fishing usage areas.
109. Leave it as undeveloped as possible.
110. If the state is not going to develop it, then, they need to sell it.
111. The site should be developed to attract visitors, or it should be returned to private ownership. The river along this section is beautiful and has very low traffic. I canoe and Jon boat the section multiple times a year.
112. keep it simple and nature looking, consider the welfare of wildlife
113. River front camping would be incredible!!!
114. Development of the park should be complimentary to the other State and Federal parks and their interpretive resources. It should not duplicate.
115. Collaborate with the local community, it does not need to be designed like the Echo Bluff a state Park
116. The less the better
117. Keep it as wild as possible
118. Kayak tours
119. Thank you for the purchase and fighting to retain ownership.

120. Leave the 11 point alone. It's the last river.in Missouri where you can enjoy nature, peace and quiet
121. Please protect the Native flora and fauna. I understand multiuse enjoyment, but not at the expense of our unique natural resources.
122. It will be a wonderful State Park with slightly developed.
123. This park is best suited for minimal development. Let's come together to make our voices united as a strong "no" on a proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
124. Keep it as natural and low impact as possible but allow access with trails and picnic tables
125. Preserve & Interpret the Natural and Cultural resources
126. Please this this as a conservation area!!!
127. Keep it natural/"undeveloped"
128. Signage interpreting all varieties of themes are great and low-impact. I would particularly like to see information about the native people who lived and utilized this land-- something I don't think we see enough of at most state parks.
129. No
130. Focus on low-impact design and minimize future maintenance costs/needs. NO HORSES.
131. keep it wild
132. This is a great addition to Missouri's State Park system!
133. MO
134. Would favor very little if any alteration of the natural state of the area. Would not oppose improvements to existing locations like Cane Bluff and HWY. 19 campsite.
135. his park is best suited for minimal development. Let's come together to make our voices united as a strong "no" on a

- proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
136. This park should not include intensive developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with its scenic river environment and natural beauty.
 137. I was born in Couch, Mo. and family still lives in Oregon County. We want to preserve the natural beauty of the park and protect this place from intensive development.
 138. Strict enforcement of proper behavior and practices in the park; keep it as clean and natural as possible.
 139. Leave as natural as possible and no electrical hookups
 140. Keep it in its natural, environmental pristine condition. Do NOT destroy it with commercial development!!
 141. Simple boat launch or beach area for small boats like canoes and kayaks. Restrict the use of motorized boats and prohibit the use of ATVs or other loud, motorized recreational vehicles and boats.
 142. No Lake of the Ozarks development anywhere close please.
 143. Please keep as natural as possible. I have visited this area several times over sixty years and have seen plastic bottles, beer cans, and several animals and fish caught up in fishing lines and hooks. Visiting this area should be a privilege - not entertainment. I am very worried about this area .
 144. We go to Eleven Point because it isn't as crowded as other rivers in this area. I would like to see a basic, non-electric campground. We love the fact that there aren't as many people. Please preserve this area for people who are comfortable enjoying nature in it's natural state. Isn't that what it is all about?
 145. I visit our parks frequently, and there are plenty of places to have biking trails, RV hookups, lodging, dining, and other intrusive and loud activities. Please help preserve this area as a place for quiet enjoyment of the river and surrounding natural environment. Thank you for asking!
 146. minimum intrusion —focus on nature and keeping it natural and as undeveloped as possible and provide comprehensive education and especially on pre contact education, the native flora and fauna, and geology
 147. My belief is to save the few remaining natural areas. Dark Sky preservation is a must
 148. This park is best suited for minimal development. Proposals to construct a boat dock, a lodge or additional roads would destroy valuable habitat and lead to overuse of this area. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
 149. Keep it similar to Hawn, but less amenities.
 150. I've been backpacking several times need better trail markers as they have been stripped occasionally causing our group to become disoriented and delayed
 151. Please keep the Eleven Point State Park unspoiled, and not overly developed. We need wild places and places where the ecosystem is not highly impacted by humans.
 152. If it's reopened, do it right. Make it a nice park to visit.
 153. Minimal Development
 154. The Eleven Point River is a great resource for Missouri, I have led a youth group on a weeklong 50 mile canoe trip where we saw less than 20 people in that time, only passed 2 bridges. This kind of wilderness experience is not typically available in the Midwest. Keep the Eleven Point wild.
 155. Glad to see it is finally a reality.

156. I support minimal development and "no" on a proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
157. NO to intensive developments/activities that compete with the scenic river environment/natural beauty.
158. This park should be managed and maintained to insure it maintains the wild and scenic character of the Eleven Point river.
159. This is a beautiful unspoiled area and should be kept in that state as much as possible.
160. If there is any question about the negative effect of an amenity on the natural beauty of the Eleven Point River, and the State Park grounds, always remember that less is best.
161. Minimum development, preserve nature, native flora and fauna, low impact
162. Keep it as natural as possible
163. Keep it relatively natural
164. I cannot emphasize enough the need for minimal physical development.
165. Seek grants to assist with development and to avoid taking away funding from other parks.
166. Preserve the area
167. Keep it natural. No to development
168. Please put vault toilets by trailheads
169. Keep it as wild as possible.
170. Keep it as wild as possible. With trails for walking.
171. Minimal development; beautiful wild place.
172. Keep any development minimal.
173. Do not put lodging etc in this park. Campers hikers fishing no cabins
174. do not overdevelop-leace access for things people can do by walking, camping, canoeing, etc
175. Hiking along the river is a must. limit development as much as possible
176. The more you leave it alone the better.
177. Please keep low impact
178. This park is best suited for minimal development. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not appropriate for park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
179. This park is best suited for minimal development. Let's come together to make our voices united as a strong "no" on a proposal to construct a boat dock, a lodge or additional roads. Low-impact park planning should include basic camping, picnicking, foot trails, bird watching, and interpretative programs and tours. This park is not the place for more intensive park developments such as lodging, electrical hookups, dining, bike trails, or other activities that compete with the scenic river environment and natural beauty of the park.
180. Please do NOT over-develop this like you did Echo Bluff. City people can stay there if they need to feel like they're in a hotel.
181. Thank you for preserving and conserving this area primarily for minimally invasive use and enjoyment.
182. I would like to see this beautiful area left as natural as possible, with no commercial development, (restaurants, lodges.) Perhaps a small "Country Store" for ice and staple food purchases for campers.
183. More people loved camping and rv too let them have that no biking
184. Keep it real, not artificial, touristy . .
185. Leave it as natural as possible. Don't pave over the nature and don't pour as much concrete as at Echo Bluff.
186. KISS principle applies here...no major infrastructure needed
187. Already has enough additions. Leave nature alone. Primitive camping is all we need.

188. Primitive camping only
189. PLEASE DO NOT "DEVELOP" leave this beautiful are natural!!
190. Leave as is....it's a sensitive environmental area
191. Let's get it open soon!
192. Protect the scenic easement of the river and have all development set back from it.
193. please protect flora/fauna of this ecosystem
194. I think really leaning into the untouched aspect of this part of Missouri is important. I also think this would be a really great opportunity to shed some light on indigenous peoples of Missouri. Most of the interpretive centers I have been to that have indigenous peoples information are written in a 90s or earlier tone and its obviously dated and for lack of a better word sometimes "cringe". I say this as a 32 year old women.
195. It would be better as privately owned land instead of government owned land.
196. Keep it as natural as possible while promoting public use.
197. No off-road vehicles, no auto roads, no shooting ranges, no electrical camping sites
198. Keep development minimal.
199. I am thrilled this park was not sold and looking forward to it's development!
200. LEAVE IT NATURAL
201. The ranch complex, vintage barn, and headquarters location offer staging areas to convey history and interpret much of what needs to be provided to the public. Make use of these areas and avoid infrastructure elsewhere in the park except for consideration of picnic sites and hiking trails that do not disrupt the riparian zone.
202. The US parks have a plan for this area and I hope we can keep it that way and not give into pressure to make it to people over run.
203. The scenic easement must be preserved not just as required, but fully honored to the full extent possible. Electric hookup camping elsewhere within the park is desirable but only if they

- would not detract from the culture of the park. SP should resist the temptation to add more river access spots for boats within the park.
204. All park developments should protect the integrity of the federal scenic easements; however low contact visits to the river might be allowed - i.e. hiking or backpacking
205. Keep it wild
206. Besides campgrounds, trails that take you to the river since that is the name of the park
207. We need to develop the park to allow optimal water recreation while maintaining the current easement.
208. trails are the best way for people to explore the park; keep heavy infrastructure to a minimum
209. Let's make activities that do t require a large investment by the visitors
210. limit or prohibit new accesses in the W&S stretch of the river
211. Sell the ranch to its original owner and return the money to the state to be used for the purpose it was intended in other counties.
212. Priority to preserving the resource. No unauthorized trails/access allowed. Utilize sustainable landscape management practices.
213. It was purchased without LOCAL public notice so the park sale should be reversed.
214. Reiterating my comment about developing facilities - let's make this a win for the local folks, too, and encourage other parks elsewhere in the state.
215. All around recreation would draw more people to the area and would create more employment
216. It is important to try restore this park back to it's natural condition prior to land clearing and other human activity.
217. Do not ruin the campground like you did at Johnson Shut-Ins. There the sites are way too close to the next campsite. There is not a need for concrete pads.

218. Please make it something worthwhile that will be good for all visitors! There are plenty of places left to grow up in brush, that's not what this needs to be.
219. Please refer to Southern Red Oaks as such, not Spanish Oaks. You might the fact that EPSP is at the northern edge of it's range, on the frontier with Northern Red Oak range. Regarding development: access yes, massive development no. Eliminate fescue. Highlight Beatles visit.
220. no
221. MO
222. Keep it as natural as possible
223. Please focus on long term sustainability and preserving for future generations.
224. Please limit impact on land and the river
225. Gather photos and historic artifacts from locals and like me that owned it.
226. No
227. Please keep development to a minimum.
228. Any development should prioritize protection of the scenic & peaceful nature of the river, including from noise pollution, erosion, litter, and river traffic.
229. Something for all ages
230. No light pollution
231. I want to backpack and trout fish, so please develop trails soon.
232. Do nothing different leave as is
233. See immediately above.
234. No additional comments at this time other than thank you for the opportunity to complete this basic survey for guidance in management of the park.
235. Please, please do open it to the public. Also, full hookup camping would be GREAT!
236. I am looking forward to being able to utilize the park when it opens. I think it is a great thing for Oregon County!
237. The area could greatly benefit from an increase in tourism. It is one of the poorest areas in the state and nation. A park that

provided good jobs for local people would be appreciated by MANY of those in the area. Many people have an interest in staying close to where they grew up but haven't been able to do so because of lack of employment options. A nice restaurant would attract local people from many miles as they already just travel a long distance anyway to go somewhere nice to eat. For those of us who grew up there and relocated, it would be wonderful to have a scenic place for lodging when visiting family.

238. Beatle Fests !! And in the end, the love you take is equal to the love you make. "
239. Leave the locals to their privacy
240. Please preserve the natural features and native plants. Echo Bluff is lovely, but it's appalling that the lodge blocks the entirety of the beautiful bluffs along Sinking Creek.
241. Let's keep the still-surviving tracts of wild land left in the Upper Mississippi River basin. Do NOT cave in to outside pressure to allow the use of motorized bikes, etc. into the park.
242. No
243. Maintain lands as wild and undeveloped as possible.
244. Please do not allow biking, motorized biking, 4 wheelers, etc.
245. If you don't have the money for funding or the proper means to take care of the land I think you should sale some of the land back to the people to help with funding for park
246. Please make it as family friendly as possible we love to hike but with benches throughout. Good bathrooms, playgrounds would be great!
247. I would love to be able to camp in a cabin and swim and fish in the river.
248. Do not go in an turn it into the city like you did echo bluff I hate echo bluff it's just like St. Peter's.
249. Don't ruin it.
250. It would be great to have sustainable trails that could be used for walking, running, and mountain biking throughout the year when weather conditions permit.

251. Cabins - I stay at Echo Bluff and Eugene Mahoney (NE) state parks due to pet friendly cabins and trails
252. Please introduce beavers. Use board walks or viewing platforms so people can see their work. Construct chimney swift nest boxes.
253. No
254. No
255. Keep it natural. Keep campgrounds, basic to car camping. No electric hook ups.
256. Not another Echo Bluff please
257. Keep as natural as possible
258. I hope the Conservation dept. can maintain the natural ecosystem while they construct a wonderful park for our community. The locals love our wild river and forests and we would like to keep most of it that way.
259. More amenities open during fall Hiking Season Oct/Nov
260. Make enough camping spots, enforce the laws on the river.
261. Not at this time
262. Better phone signal maybe a nearby kinda out of sight cell tower is needed.
263. Remove invasive plants e.g. fescue & johnson grass. Restore the oak savannah upland habitat by adding native grasses. Allow the floodplain fields to re-vegetate with native species, including cane. Respect the existing scenic easement held by the U.S. Forest Service - e.g. do not build a boat ramp there. The existing access points at Highways 160 and 142 provide adequate opportunity to float the River (I often float this section myself). Do not allow mountain bikes on trails in the new Park, since bikes will cause erosion and will conflict with hikers.
264. Exciting! It is an area that could attract more people and local revenue.
265. Protect the springs
266. No
267. Please keep the riverways available for canoe traffic while reducing litter in the river
268. Leave it as natural as possible.
269. no
270. Daily trout stocking
271. .
272. For goodness sake do something with it to help bring people into the second lowest revenue county in the state to boost economic development. The longer it sets idle, the more merit the "land grab" cult gains.
273. No just excited to visit
274. Let's get moving on it
275. No
276. Access to the River to launch boats /kayaks/canoes is Much Needed
277. Build a good bathroom onsite
278. Just have minimal impact to the park
279. Allow the people to use the park
280. I'm really into fly fishing and camping. Would like to keep and or improve on the trout population, full hook up campground where you can float and fish and have your camper at campground when done.,
281. Keep as wild as possible.
282. Shuttle services
283. I'm opposed to a park anywhere near eleven point. This area needs to remain pristine and we do not want development here. If so, we would have preferred our ancestors to have been allowed to keep their land.
284. Float trip options and transport
285. Preservation of caves, protection of bats, proper human waste disposal while floating
286. Don't over do it like Echo Bluff
287. Please don't build a park
288. I wouldn't want it too commercialized with "fancy" accommodations
289. Preserve, please.

- 290. Do not develop it heavily
- 291. It should have never been turned into a state park. The land itself has went downhill ever since. It has no beauty to it anymore. It is all grown up. I thought parks are supposed to be beautiful?
- 292. Nice if only non-motorized boats allowed. Cabins and use renewable energy sources like solar.
- 293. Please leave it low key and focus on respect of nature and history with a family friendly education focus.
- 294. Conservation, water quality, and education are most important to future generations
- 295. Kid friendly with park
- 296. Bow hunting
- 297. Civil War stories of the area. Bob Hinds and his Ozark Frontier book is a valuable resource.
- 298. If you focus on the Beatles visit, they will come. Make Pigman and Ozarks history be on the lower level of the ranch building, and then dedicate the whole upper floor to the Beatles. This is such a unique place because of the Beatles and an amazing opportunity to bring in tourism dollars to the Ozarks economy.
- 299. Just excited! We kayak and fish eleven point a lot
- 300. Conserve the natural beauty of the property
- 301. Please do not allow motorized vehicles (dirt bikes, 4 wheelers) as they tear up trails and are too noisy.
- 302. The land has been a source of pride for the local community for a hundred years. Generations of families survived because of opportunities the ranch had to offer. Keep the historical vitality of the historic land alive. The original plan was poorly received by the local community. Be wise and include the people impacted in the implementation.
- 303. Take the DNR out of the loop
- 304. Although I can appreciate allowing all people access to the park that includes possible lodging or RV camping, it should not dominate the landscape and should be limited in scope. I personally would prefer something similar to Current River State

- Park. The Eleven is truly a special place and some things deserve more protection than others.
- 305. I am hopeful the house on the former Frederick Creek ranch property can be made useful in some way: that was my childhood home.
- 306. No
- 307. Keep it natural
- 308. Backcountry backpacking with primitive campsites
- 309. So excited to see this area stay wild and scenic for now and future generations.
- 310. keep it wild as possible
- 311. Sell it.
- 312. Keep developments minimal
- 313. If the park is going to attract visitors, it needs to have it's own emergency services so as not to be a drain on local resources.
- 314. Would like to see classes offered (like other parks) for people to learn various skills. There is a huge interest in the park from general public (including areas outside the county).
- 315. State Parks division needs to ensure any development plans for the 11 Pt State Park adhere to the existing conservation easement standards. These easements do have restrictions within the easement boundaries.
- 316. I love the restoration work that was done at Ha Ha Tonka to bring out the natural flora of the region. Something similar would be great.
- 317. Leave it as natural as possible.
- 318. No
- 319. Leave it alone
- 320. Try not to cut down the trees. No boat ramps for jet boats or motor boats.
- 321. No
- 322. Keep it as natural as possible without over developing it.
- 323. No
- 324. Needs to be a platform swimming, picnic, camping, etc a fun place to take your family

325. Simple clean lower impact (not like Echo Bluff)
326. Keep this park more natural, please! No side by sides or motorhomes, please!
327. Please make a UTV/dirt bike access as part of this park. That would be good revenue for people who live near this park.
328. no
329. Hunting would be nice, but I am aware that state parks do not allow it. And it would be great to allow fires for backcountry backpacking camping
330. Avoid disruption of river corridor. Upland areas offer good camping areas, trails to river and overlooks would be great.
331. Large primitive camping are, away from RV's, structures, traffic. 63090
332. Keep any development out of sight of the river except for a river access point for small craft.
333. Keep it primitive
334. Let's just get it open to the public
335. Keep it as wild as possible
336. keep it as basic and natural as possible
337. Love the fact that MO bought the ranch for a new state park. My two concerns are that it will bring in too many users and destroy the natural beauty of area. Hope DNR keeps it low key and doesn't over develop like Echo Bluff. Also, reserve jobs and contracts for locals so they see it as an economic engine not another illegal taking of private land.
338. Sale land
339. Not familiar enough to indicate if horseback riding suitable w apropos mgt; also attention must be given to sustainable wildlife, scenic &/or natural resource mgt to possibly incl. limited public use pertinent to natural or habitat areas
340. Leave it alone
341. No RV centric development.
342. No
343. Wild and natural with some appropriate interactions for human enjoyment
344. Rainbow trout will thrive in the Eleven Point in the Park area if stocked on a regular basis
345. Family friendly and cost friendly
346. I live in Missouri and didn't know it existed. So I think drawing more people is a key element.
347. Please preserve it without overdeveloping it in the commercial direction.
348. I wouldn't call it eleven point state park if visitors cannot access the water due to the easement. Seems like a way to have lots of upset and confused visitors.
349. Please open to the public to enjoy
350. Allowing side by sides to be driven to explore
351. It should be opened for the public to use
352. This area is significant for its wild and scenic aspects. I feel that the state park could benefit the community by offering camping for visitors looking to recreate within the hundreds of thousands of acres of public land in the area.
353. Make it beautiful!
354. Widen and repave Y Hwy
355. Do not spend so much money on it, that you can't afford upkeep on existing parks
356. I understand the need for modern amenities like Wi-Fi to attract some people to the eleven Point River. I just ask that it be done tastefully and with reverence to the national and wild aspects of the area.
357. Please do not do full hook up will ruin park u can have camp sites like loggers lake
358. Make it like Echo Bluff!
359. Native plant and animal restoration ...include signposts throughout park noting native species with info
360. Can you tell us when it will be open? or planned to be open
361. Bottomland forest restored. Foot access only to Eleven Point River. Minimal camping development consistent with natural resource preservation (sewage treatment not privies, but generally tent primitive. Restoration of the former cowfields to

native vegetation. Do NOT develop for Travel RVS, except tent site popups.

- 362. Keep it wild and scenic.
- 363. Keep the river as natural as possible. That's the best part of the river.
- 364. We are so excited to have another state park in the works! We love to camp MO State Parks!
- 365. Should not have to pay to visit the park we pay enough in taxes
- 366. Walk-in sites for camping with rv spots that don't feel like a parking lot, please!
- 367. No
- 368. No
- 369. Many want the big barn preserved and of course the ranch house.
- 370. No
- 371. Keep it pristine without too much disruption
- 372. There a zero amenities for disabled people. It's shameful and should be illegal.
- 373. Boat ramp
- 374. Whatever is built out, keep the same quality as Echo Bluff State Park
- 375. Please do not do another Echo Bluffs, it's nice but way too developed.

376. Keep the big barn and all cement foundations, weight scales etc.

- 377. Leave it wild.
- 378. Keep it as Wild as possible
- 379. Keep the park as primitive and natural as possible. For heaven's sake, no lawn grasses please.
- 380. The river is main feature, need river access!
- 381. no
- 382. An Indian Mound is said to be across the river - include if possible
- 383. No mountain bike trail. Detrimental to natural resources
- 384. One of the reasons I enjoy floating the 11-point river is that there isn't hardly any development, please keep it that way!
- 385. If possible include Pigman Mound archeological site across the River.
- 386. Please minimize taxpayer funding of wedding/event centers
- 387. Keep as natural as possible. We have floated the Eleven Point many times over the years and the wildness has always been one of the main draws for us.
- 388. I am excited for it to be open to the public.
- 389. Keep it natural.

Q5: Do you have any comments or suggestions regarding Missouri state parks and historic sites?

1. No
2. Keep up the good work.
3. I love Missouri state parks and historic sites and have confidence the staff will do an excellent job of protecting the scenic easement and interpreting the natural and cultural history of the site while preserving the natural resources.
4. Big Springs needs to be a Missouri State Park with full camper hookups
5. I am in support of protecting all existing easements. I am in support of "no" motorized vehicles access into the lower Eleven Point River.
6. Love our park system
7. We don't need more amusement parks. We need to be able to see nature as it is.
8. I have lived near Castlewood State Park for over 30 years. My adult children still want to visit every time they come home. But they have recently lamented and found disappointment in the overtaking of the park by rowdy and disrespectful people and have sadly abandoned their desire to visit it anymore. Please, keep the Eleven Point State Park as natural as possible. We don't need more RV parks or loud party parks in Missouri.
9. Keep up (and interpret) the good natural and cultural resource restoration work.
10. Prioritize historic places, and make accessible for everyone especially people that have limited walking abilities
11. It's a wonderful park system and is being managed very well.
12. Kansas
13. As a Missourian, I am very proud of our state park system. Eleven Point can and should be a wonderful addition to that system, filling in themes and geography not represented elsewhere. It will require skill and restraint to fulfill its potential, which I have every confidence the agency can apply.
14. Those of us who leave the least trace of our use, suffered the most from a multiuse policy. Think about correcting this

- bias by leaving some of the parks in a more primitive condition with more restricted use. This benefits our wildlife while saving the state a great deal of money. Consider restricting hunting as well in such areas as hunting occurs mostly in the transitional seasons when it is the very best time for hiking and camping.
15. Best in the nation! Missourians (and out of state visitors) are lucky to have these resources to visit and well-maintained by incredible staff.
 16. n/a
 17. I would hope that any access to the river be limited with as little disturbance to the character of the natural topography as possible.
 18. I really appreciate the time and effort the state puts into making Missouri parks a great place for outdoor activities 🖤
 19. They are awesome!
 20. No
 21. Keep them groomed...meaning mow and remove debris
 22. use the money to upgrade Sam A Baker or Big Springs and designate this area as a conservation area like
 23. Take care of the ones we have. This isn't the place. You are limited to who, what can traverse the scenic river easement. Much less launch a boat from its banks
 24. No
 25. Missourians are proud of this system of lands and show it every time they go to the ballot to extend the earmarked tax. Keep up this very good work.
 26. Spend money on your current running parks and let this one go.
 27. No Beatles
 28. Please do not make it a tourist trap. Also regular camping experiences are becoming hard to find. Would love to incorporate basic camping grounds.
 29. No, great job, although let's finish up the Rock Island trail :)
 30. Keep it clean
 31. No

32. Make it free for military
33. This particular park I personally live nearby and would love to be able to do a casual bike ride daily for exercise... I'd be a regular!
34. Absolutely love all of our parks and historic sites
35. Make land public to hunt and fish at will
36. MO
37. Na
38. Please service them.
39. No
40. We love to see them.
41. The October hoster at Washington State Park is ignorant
42. No comments at this time
43. No
44. Hurry up and get something done been waiting years on y'all to get something done with this place
45. I love the state parks and would love to see more valuable habitat preserved
46. Love having this kind of parks in our area
47. I'm so thankful that MO keeps up land as well as they do. I pray this land is kept up just as well as other locations in the area!
48. MO
49. I love Missouri State Parks! The quality of the parks is evident when compared to other state's parks and the fees are usually lower.
50. No
51. The Conservation tax is important support for public green spaces
52. I feel unsafe in some conservation areas around here because they are so far from any other type of public areas and there are sometimes shady appearing people that hang out in the parking areas. I have felt this way at both Bose mill and fourche lake causing me to not be able to enjoy the areas.
53. Keep up the great work
54. Keep on keeping on! You are doing a great job!
55. No
56. Mo
57. We need more electric campsites! They are all full every weekend. We need more!
58. Watkins Mill State Park could use resurfacing on their bike/walking path. My dad fell a few years back due to rough surface and we don't walk out there anymore.
59. better signage and blazes for trails
60. Bring back the passport program!!! I realize staffing and funding is an issue. However, I would like to see visitors' centers open year-round even if it's only on weekends.
61. Missouri State Parks are wonderful
62. No
63. Looking forward to visiting
64. As I mentioned above, attempt to maintain the natural resources working to limit the users who are not utilizing and appreciating them for MDC goals naturalist leaning participant's vs just another place to party groups.
65. Keep them adequately funded
66. We love the parks!
67. We need more of them, many more.
68. I would love to see more primitive sites instead of the huge glampers.
69. Love what you all did to Echo Bluff State Park.
70. I visit regularly.
71. no
72. We need more of them! Thank you for preserving the natural beauty of this State.
73. They are wonderful and we use many of them throughout the year,
74. Missouri is such a lovely state. Thanks for continuing the work to bring this area to more people in a sensitive and appropriate way.
75. Most are too over developed

76. Please leave this area undeveloped.
77. Don't allow any off road ATV vehicles at any State Park.
78. MO
79. No
80. Not sure why this enter acreage should be designated as a park and not just have some areas park and the majority regulated as MDC does to allow more hunting/fishing etc usages.
81. State parks and historic sites are different and require different treatment.
82. Fire everyone and go back to a minimalist approach to nature. Your new parks are designed pics poor and way too over the top
83. forget the historic site - go natural
84. This would seem to be a great place to highlight natural water protection to the River such as Riparian corridor, etc.
85. I love Missouri State Parks and Historic Sites, thank you!! Continue expanding education to local communities
86. They are great. Thanks
87. Camping and time spent in nature has become very popular since the Covid pandemic. We need additional camping opportunities.
88. Don't commercialize
89. I have been very impressed with all of the Missouri State parks I have visited.
90. Have interpretive signage to tell the history. I have visited every Missouri State Park location and I am excited about this location being added.
91. Expand more trail access for horseback riding to avoid erosion issues. Limit to seasonal/wet weather access when appropriate.
92. I fully support our parks and am so excited to see Eleven Point State Park open to the public soon!
93. No
94. Our MO State Parks system is an absolute treasure.
95. Protect them for generations to come
96. Missouri has a GREAT State Park System!!
97. We must preserve these natural historic landscapes.
98. Doing a good job. Keep it up.
99. See above
100. I like the little informational plaques at the mills with history of the area.
101. Love them!
102. Ditto for above. Parks need to be places people can connect with nature and not have their experience compromised with noisy machines —they should be a place wh basic amenities such as tent camping and perhaps a lodge for those not willing or able to do tent camping. And of course appropriate provisions for all, regardless of physical abilities, to experience nature
103. Let's not impact any more than we have and only improve trails- let's not allow any motor type assists including bikes
104. I've really noticed that many MO parks have been neglect in the last 10 years. This need to be corrected. Stop putting all the money and resources in the big parks and concentrate on the smaller less visited parks and make them nicer.
105. Each park should be utilized with native fauna and flora in mind first
106. We can be proud of our state park and historic site system.
107. Respect nature and let the enjoyment of it be enough, without all the invasive features that have ruined Lake of the Ozarks.
108. Keep up the great work and don't forget the natural resource component.
109. Set aside more natural areas
110. I love MO state parks and sites!!! I've been to 88 of them.
111. I believe Missouri's State Parks are among the best in the country.
112. Charge admission to support expenses
113. I love MO state parks! They're a treasure we can all enjoy and should protect the natural beauty of
114. Restore wildlife and natural habitat for wildlife.

- 115. Like to know the history of the area.
- 116. For the most part the DNR does a very good job. There a exceptions now and then.
- 117. Allow no commercial development
- 118. More information on parks & sites
- 119. See above
- 120. I'm a born-and-raised Missourian, and regularly visit our Conservation areas, Natural Areas, NF NWF, and State Parks for all my 72 years. We need to make sure we keep our public areas as natural as possible for generations to come to enjoy.
- 121. Stewardship of a great gift
- 122. Primitive camping is all we need.
- 123. Primitive camping only
- 124. Less is more
- 125. We don't need any in the Eleven Point River area.
- 126. Thank you for your work to protect significant sites!
- 127. This would be a great addition to the MSP!
- 128. Missouri State Parks are a wonderful addition to the recreational activities of Missouri. I would like to see a better discount to the camping fees for seniors.
- 129. I LOVE MO STATE PARKS! I would like to take a moment to just say thank you! I was born here in MO and have spent most of my life in MO and I cherish the park infrastructure and nature focused recreation we have access to here in MO (especially compared to other places in the Midwest). I work in local gov so I know that hateful feedback can be disheartening sometimes, so I want to share my appreciation.
- 130. Missouri State Parks are doing great!
- 131. I've been to many of our Missouri State Parks & just treasure all the ones I've been to. Keep up the good work!
- 132. LEAVE THEM NATURAL
- 133. We have an excellent state park system that is wonderfully managed by dedicated professionals. Our state parks are among the jewels in the Missouri crown. Kudos to all

- responsible for preserving, interpreting, and managing state parks to the benefit of the public.
- 134. Great system.
- 135. Keep up the good work!
- 136. I would love it if Missouri bought more land for conservation purposes.
- 137. The rock house should have a Beatles recognition along with a visitor center
- 138. The people of Missouri are blessed, and lucky, to have such an outstanding State parks system that offers something for everyone, and works closely to other state agencies and local agencies to maximize their resources.
- 139. Am more and more impressed the more parks and historic sites I visit. Good work.
- 140. The state shouldn't have large, lodge type parks like Echo Bluff
- 141. We have enough.
- 142. I generally support the work that MO does with parks, however; this park was acquired without public notice and now appears to be wanting to compete with existing venues so I think that THIS particular property is tainted.
- 143. They seem well-managed and are appreciated by me and my spouse.
- 144. Love the state parks and historic sites.
- 145. Protecting our natural resources is very important and the Eleven point River is one our most important high quality streams in the state of Missouri.
- 146. Don't over develop the site.
- 147. Parks are a good use of tax money.
- 148. MO
- 149. keep up the good work
- 150. I love our parks! We use them a lot as a family, and we are grateful for the opportunities the conservation tax provides for residents.
- 151. Larger RVs should be limited.
- 152. You are doing a great job! Keep it up.

- 153. No
- 154. When camping we always use state parks
- 155. You do a very good job considering how little funding you receive.
- 156. Make it handicap and old people friendly
- 157. a great resource, especially for most of us who do not own land
- 158. Leave nature alone if we build there is won't be good for the environment that has grown on its own
- 159. Keep up the good work! Increase law enforcement!
- 160. No other comments at this time
- 161. I think state parks and historic sites are worthwhile causes
- 162. Our family loves echo bluff and would like to see a similar park built in the area
- 163. I have a background and remodeling and construction. I would love to help take part of this. I would quit my job immediately and come to work at the Pigman ranch. I am within 10 miles lol. Don't forget
- 164. Leave the locals to their privacy
- 165. Please preserve the natural features and native plants. Echo Bluff is lovely, but it's appalling that the lodge blocks the entirety of the beautiful bluffs along Sinking Creek.
- 166. Missouri has done a superb job of attaining land for state parks and of maintaining such. Please keep up the good work and know every day that your work is appreciated and will continue to be so in the years to come.
- 167. Wish water was available in all parks
- 168. Return to six month booking window.
- 169. Less development. Do not repeat Echo Bluff
- 170. get a better online camping registration program - Missouri's is user unfriendly - other states have much better websites
- 171. Managing an area such as that is a very big responsibility and letting the land grow up the way it is, in my opinion, is not the proper way to maintain it. While I think it's great that it will bring jobs and tourism to the area. I also think someone can bite off

- more then they can chew. Use the resources that you have to gain funding. Such as selling some of the land.
- 172. Leave nature alone just give us access to enjoy it without destroying it
- 173. They are great! But more could be done to upgrade trails so they erode less and can be used in more seasons. More also can be done to make restroom facilities closer for those who cannot walk far.
- 174. Mo
- 175. No
- 176. Would love to see a park that mirrors the programming and the variety of accommodations (camping cabins, lodge, tent sites) Custer in South Dakota
- 177. Bathroom upgrades. Recent visit to an Oklahoma state park and facilities are too notch. Missouri can do better.
- 178. Stop closing amenities during the fall season so early. Oct/Nov is prime hiking season.
- 179. Enforce the rules in campgrounds and on the rivers. We can't even take kids on the rivers on the weekends anymore!
- 180. I love our state parks and really appreciate y'all
- 181. Year around trash dumpsters/ and cans so people don't litter.
- 182. No
- 183. Love our parks!
- 184. This is such a magical river. It's one of the only rivers that isn't totally clogged with drunk-ness and liter. Please leave it as it is.
- 185. no
- 186. More improved camping
- 187. .
- 188. You hit a home run on your development of echo bluff in Shannon county. It was a very needed boost to their economy. Please continue this plan into other counties where help is needed.
- 189. I love all the parks
- 190. MO
- 191. No

192. Paddling in the Ozarks is world class and under-utilized. Some additional infrastructure such as more boat launches and campsites would make it more accessible.
193. MO parks are great
194. Just have minimal impact to the park. And I am so glad we saved it!! Multiple times! Very proud to be a part of that!
195. No
196. Most of them are beautiful!
197. Please don't ruin this beautiful area. Take the park elsewhere.
198. More ranger patrols on land and the Eleven Point River
199. Make sure keep up with what have
200. None
201. If you are going to take a place that is payed for by the tax payers and turn it into a "State Park" make it presentable, to say it is a "park".
202. Be nice to have more guided birding/nature walks. Walks for different ages, children, young adults, and senior walks.
203. I thank everyone involved with making Missouri State Parks great. To whoever actually reads this. Thank you and have a wonderful day.
204. Keep preserving as many areas as you possibly can before they are gone
205. Please increase nature programs at all parks
206. MO
207. Bow hunting
208. Love them all!
209. Our state parks are such a nice part of our beautiful state.
210. Modernize infrastructure: Plumbing (primarily) & electricity.
211. They are great
212. Stop planning meetings that are purposely intended to exclude those impacted most. It negatively affects your ability to serve your state.
213. the park needs to be used soon, more natural not so commercial

214. Not necessarily, overall we are lucky to have such great places to visit.
215. I appreciate all of the park sites.
216. No
217. The state parks need to remain as wild and scenic as possible. Make every effort to maintain the wilderness.
218. More basic camp sites at Echo Bluff
219. We have great State Parks. I always wanted there to be either a bike path or some kind of shuttle connecting St. Louis to the Katy Trail State Park.
220. World class. Thanks for keeping them open, free, and of top notch quality.
221. No
222. No
223. Leave it alone. Keep it up an natural
224. Love state parks! Sometimes i wonder if we are going to love them to death, but most of the folks visiting do tend to take care of them.
225. No
226. no
227. Parks are becoming too RV friendly. More primitive camping areas are needed.
228. Enforce quiet times
229. keep them as basic and natural as possible
230. Try to be thoughtful if local communities and residents.
231. "Fancy" state park centers and lodging such as the more recent facilities at Johnson shutins and Echo bluff seem in poor taste in terms of the best utilization of funding received by state parks.
232. Sale land
233. Need more maintenance
234. It's difficult to camp during winter when water is turned off.
235. No

- 236. Other concepts could be added in the future if public use demands it and is reasonable for the natural and wild character of a park.
- 237. Another trout park could reduce the strain on the existing parks
- 238. I believe MO State Parks are underfunded for the amount of acreages and sites they manage.
- 239. MO parks are great.
- 240. I think it'd be amazing to add something with hiking/trails. It'd give everyone more to explore and more to do! I'd love the idea of some sort of play area as well.
- 241. It should be open for the public to use
- 242. Use them! Take care of park!
- 243. Mo
- 244. Basic maintenance on shower houses. Example, at Montauk shower stalls not having a shelf or bench for placing your things while showering
- 245. I'm really enjoying Missouri State Parks and look forward to spending many more years and then. Thank you for your hard work.
- 246. Just keep it natural
- 247. Create a school to parks connection with local teachers to get more kids engaged with the outdoors...zoom with educators and their classes about a park in their district- create a monthly photo scavenger hunt in the parks for specific things to find or see based on the season with people able to post to a social media account and tag MO state parks
- 248. I have noticed many upgrades throughout several of the parks. Thank you.
- 249. It is important to me that real, live humans doing interpretive programs be put to the forefront over waysides, kiosks or such. I remember people telling stories long after the waysides have

- fallen. They are not an afterthought, but something primary to the state park experience.
- 250. Good advertising about what is going on.
- 251. Continue upgrading aging facilities as you have been doing the past several years.
- 252. No
- 253. Former resident of Van Buren and frequent Eleven point camper and canoer
- 254. No
- 255. No
- 256. Please develop more full hook up sites at state parks. We have very few park with fewer number of full hook ups. Full hook up sites are always booked very rare to find
- 257. Showcase history at events and structures
- 258. No
- 259. Thank you!
- 260. More Full hookup Campgrounds, update what you have and make more.
- 261. Allow more hunting opportunities
- 262. It'd be great to see some new parks developed in the northern part of the state.
- 263. I'd like to see expanded mtn. bike trails at Babler State Park in St. Louis County.
- 264. N/A
- 265. Keep up the good work!
- 266. I love the unique history represented at many SP. Watkins Mill, Echo Bluff, etc
- 267. Overall you are doing a good job despite the legislature.
- 268. You folks do a great job. I am glad I live in Missouri.
- 269. Most are excellent.

ELEVEN POINT STATE PARK

Projected Coordinate System:
 NAD 1983, UTM Zone 15N
 Absolute Scale: 1:1,000,000

Legend

- 1 dot equals 1 survey submission randomized within each ZIP Code.

This map depicts survey responses for Eleven Point State Park's Conceptual Development Plan Survey #1. 857 survey responses were received. 855 respondents provided usable Zip Codes for analysis.
