**Bryant Creek:
acquired to
compensate for
groundwater
injuries, by
protecting an
important
groundwater
recharge area.**

Bryant Creek State Park:

NRD acquisition- groundwater
damage compensation

Purpose: to preserve a high quality forest
ecosystem in Bryant Creek's surface- and
groundwater recharge area. . .

and providing public access and
compatible use as a Missouri State
Park.

Bryant Creek Natural Resource Goals

Preserve the native forest, stream and springs as a Missouri State Park and natural landscape

Maintain the mature trees and native forest north of Hwy. N

Encourage pine woodland south of Hwy. N

Restore the glade

Protect the riverside and riparian zones
