

**Sample
Buy America Certification**

Project Number: _____

Project Title: _____

The undersigned Proposer hereby certifies on behalf of itself and all contractors (at all tiers) that it will meet Buy America requirements in 23 CFR 635.410, using one of the following provisions:

_____ **The project/product contains no steel or iron products manufactured outside the United States.**

To be considered domestic, all steel and iron used and all products manufactured from steel and iron must be produced in the United States and all manufacturing processes for these materials, including application of a coating, must occur in the United States. Coating includes all processes that protect or enhance the value of the material to which the coating is applied. Buy America requirements apply to any steel or iron component of a manufactured product regardless of the overall composition of the manufactured product (e.g. Buy America applies to the steel wire mesh or steel reinforcing components of a precast reinforced concrete pipe). If there is ANY foreign steel or iron in your project/product you may not check this box.

_____ **The project/product has minimal use of steel or iron products manufactured outside the United States.**

The Buy America regulation does “not prevent a minimal use of foreign steel and iron materials, if the cost of such materials used does not exceed one-tenth of one percent (0.1 percent) of the total contract cost or \$2,500, whichever is greater.” For purposes of this paragraph, the cost is that shown to be the value of the steel and iron products as they are delivered to the project. If this minimal use clause applies to your project, then please provide documentation indicating that this requirement is being met.

_____ **The project/product has foreign steel or iron; a Buy America waiver is required.**

The Contracting Entity may, but is not obligated to, seek a waiver of Buy America requirements if grounds for the waiver exist. However, Proposer certifies that it will comply with the applicable Buy America requirements if a waiver of those requirements is not available or not pursued by the Contracting Entity. The waiver process can take time and the project may not move forward until a waiver is completed.

A false certification is a criminal act in violation of 18 USC 1001. Should this Agreement be investigated, Proposer has the burden of proof to establish that it is in compliance.

MATERIAL DESCRIPTION

DESCRIPTION OF MATERIALS OF UNKNOWN ORIGIN OR FOREIGN MATERIALS DELIVERED TO THE PROJECT

This certification is made for the purpose of establishing the materials acceptance under the Buy America Certification (23CFR 635.410) and the Contract Special Provisions. All iron and steel manufacturing processes, including protective coating for the domestic materials described above occurred in the United States of America. Manufacturer's certificates verify the origin above described in the domestic materials and will be kept on file for three years by the suppliers following final payment. Copies will be provided to the Missouri Department of Transportation upon request.

I declare under penalty of perjury under the Missouri and Federal Laws that the foregoing is true and correct.
