CAASOO1-125

Moses

Byrd

LOWRANCE FAMILY

In 1792 Abraham Lowrance (de Lorenz) from Alsace-Lorraine came to South Carolina, then on to Tennessee. In 1844 Abraham with his son Frank came to Lexington, Missouri. Here Frank married Martha Rice who died at the birth of their son John L. In 1846 Frank went to California with a wagon train coming back by way of South America. In 1849 Abraham, Frank, and John L. came to Carrollton and settled east of the town on a location which is still the Lowrance homestead.

In 1850 Frank married Mary Frances Smart, a daughter of Buckner Smart and Nancy Blue Gentry. (The Gentry-Smart wedding is the third wedding recorded in Carroll County 1833.) To this union the following children were born: Robert, Charles, Ellington, Harvey, Mose and Susan (Dickson).

Mose, the subject of this sketch, was born June 25, 1863. In 1897 he was married to Byrd Frances Nicolds, daughter of Josua Soul and Arah Louise Weathers of Fayette, Missouri. To this union two children were born Pearl Edwin and Helen. The latter married Ben C. Butler of Lone Jack, Missouri. The Lowrance family has continued to reside on the homestead since 1849. The original house was built in 1869.

Mose Lowrance was a farmer who lived by the side of the road and was a friend to all. He was a substantial citizen who was very active in fraternal organizations. He was Past Master of the Wakenda Chapter of Wakenda Lodge No. 52 and was a member of Wakenda Baptist Church. He died January 5, 1935.

Byrd Lowrance was born November 5, 1873. She was a member of the Christian Church, a graduate of Camden Point Christian College. She spent twenty-two years in the teaching profession. Her schools won many State and County honors, and her influence on the lives of her students has lived through the years. She passed away March 12, 1965.

Pearl Edwin Lowrance was born July 7, 1902, and is a graduate of Central Missouri State College at Warrensburg. She recently retired after having taught forty-five years in the County schools. She is active in many organizations. She has served as the presiding officer in Rebekah, True Kindred, and

Helen

Ben

Order of Eastern Star. In this body, she was the President of 20th District Association, Grand Warder, Grand Martha, and Grand Rep. to Colorado of the Grand Chapter Order of Eastern Star of State of Missouri. She is also a member of the Christian Church, D.A.R., White Shrine, and Carroll County Historical Society.

Helen Lowrance Butler, a graduate of Missouri University, retired after having taught thirty-nine years in Missouri. She is a member of the Christian Church, O.E.S., P.E.O., D.A.R., and Kappa Delta Phi fraternal and professional organizations. She resides with her sister on the homestead east of Carrollton, Missouri.

Ben C. Butler (deceased) was a graduate of Missouri University and spent thirty-four years in the teaching profession as a teacher and administrator. At the time of his death, he was a member of the Christian Church, a member of Masonic Lodge, and Pi Beta Kappa, professional fraternity

1968: 432

Ey Dave Stampfli

In the decade 1870-1880 Missouri was on the moveindustrially, economically and population-wise. The advent of the steamship in the early 1800's had stimulated commerce and river traffic on the Mississippi and Missouri Rivers. With the coming of the railroads in the 1850's the state received an added impetus for economic growth with the improvement of transportation facilities.

Statistics from the Carroll County history bring this pattern of growth for the 10 year period into sharp focus. There were, for example, 25 different railroad companies operating within the state with 3.600 miles of track spanning the countryside 15 208 miles of postal routes had been established with 10,426 miles traveled by stage and horseback. The state boasted 1,700 post towns in the period and 562 telegraph stations dotted the state.

Manufacturing had grown by leaps and bounds. By the close of the 10 year period in 1880 there were 14,245 manufacturing establishments listed. Capital outlay for manufacturing peaked to 100 million dollars and material used for manufacturing had reached the 140 million mark. Wages paid in the state's manufacturing segment topped 40 million dollars.

Carroll County's growth, although mainly agricultural was reflected in the state's growth pattern. In 1840 Carroll County's population was listed at 2,423. By 1850 the population had nearly doubled, reaching 5,441. Over the next two decades the county's population growth continued this same pattern of nearly doublinghitting 9,764 in 1860 and 17,446 in 1870. By 1880 the county's population was listed at 23,300

The Carroll County census of 1870 revealed there were 16,619 white residents and 827 colored. 9,237 were male and females numbered 8,209.

Carrollton, which had been established in 1834, had reached the population of 1.832 by 1870. There were other towns established in the county by then, but for the most part Carroll County's population was a rural one.

The continued growth with each succeeding decade was a boon to the county's economy, but it also created a number of problems. By 1870 it was apparent that the county was falling behind on providing services to its cilizens—one of which was transportation facilities.

Roads, or the lack of them, headed the list. The Carroll County Court found itself suddenly flooded by an avalanche of road petitions coming from landowners residing in all parts of the county.

Under existing laws of the county, the Court was empowered to appoint a road commissioner to handle all preliminary details on roads and bridges. The actual construction of roads fell under the jurisdiction of 22 road districts in the county. Bridges were let to individual contractors.

During the period in question, the road commissioner of Carroll County was John F. Lowrance, grandfather of Miss Pearl Edwin Lowrance, who still resides on the family farm, 3¹/₂ miles east of Carrollton, settled by the Lowrance family in 1849.

Mr. Lowrance, born in 1821, came to Missouri in 1844 from Tennessee, setling in Lexington where he lived for nearly six years. During this six-year period, Mr. Lowrance went to California, but the lure of the midwest soon beckoned him back to Missouri. In 1849 he moved to Carroll County and settled on the farm which to this day remains in the Lowrance family.

On Jan. 31, 1848, Mr. Lowrance's first wife, the former Martha Rice, died. They were the parents of one child, John L. Lowrance. After moving to Carroll County, Mr. Lowrance married Mary F. Smart in 1850. To this union six children were born, and one son, Moses, was the father of Miss Pearl Edwin Lowrance.

According to the Carroll County History, Mr. Lowrance, after moving to the farm near Carrollton, "followed agricultural pursuits and spent the rest of his life there".

Mr. Lowrance, however, did much more than just follow agricultural pursuits. On Feb. 4, 1868 he was appointed road commissioner by the County Court and served in that capacity until August of 1872 when the job was apparently abolished by the reorganization of the

Centennial 1976

county's present township form of government. Following the county's reorganization, each township appointed its own road commissioners and were responsible for new roads and the upkeep of old ones.

But for a period of nearly four and a half years, Mr. Lowrance served as the county's road commissioner and they were busy years for the farmer who lived east of Carrollton. If the minutes of the county clerk are any indication, being road commissioner was a full time job. Miss Lowrance confirmed this, saying her grandfather turned the farm over to the boys.

Take, for example, the year 1871. A search through the clerk's records at the Court House revealed that 189 separate transactions relating to roads and bridges passed through the County Court that year. And Mr. Lowrance, as road commissioner, was involved, in one manner or another, with each piece of business.

Landowners filed 55 petitions for new roads in the county. Mr. Lowrance made 38 road reports that year and 37 new roads were established by the County Court. A total of 26 requests for road changes were brought to the attention of the County Court and three road petitions were dismissed.

With a number of creeks meandering across the county, bridges, when a new road was approved, became an important part of the road commissioner's job. Nine different creeks-Cottonwood Creek, Big Creek, Wakenda Creek, Turkey Creek, Shootman Creek, Rock Branch Creek, Moss Creck, Bridge Creek and Taler Creek-were referred to in the clerk's minutes for 1871 Mr. Lowrance turned in 19 bridge reports that year and 11 new bridges were completed over creeks in the county.

This road and bridge activity in the county for 1871 meant no little expense for the County Court. Total expenditures for the year came to \$25,674.42. Of this amount, \$4,630.49 was spent on road and bridge work. \$2,666.06 was paid out to individual contractors for new bridge construction and overseers in the county's 22 road districts received \$1,513.43 for new road construction.

And what did the county's road commissioner receive for his many hours of work? Only two entries were found in the county's financial statement for 1871 - one for \$264.00 and one for \$187.00 for a grand sum of \$451.00. One can only hope the dollar had more buying power in 1871 than it does today. An account book, meticulously kept by Mr. Lowrances, bears this out. The family expenses for 1871 totaled \$207.35. The itemized list included such household necessities as lye, soda, tea and coffee, \$3.00; spun cotton, \$3.50; saddle, \$15.75; nails and oven pie pans, \$2.00; sugar, shoes and thread, \$4.30.

In order for a landowner to petition the County Court for a new road it was necessary to present a petition signed by 12 householders of the county stating that they "labor under great inconvenience for want of a new county road." The petition also contained a legal description of the proposed route of the road. When satisfactory proof had been made to the County Court that notice of the petition had been given as required by law, the road commissioner's work began.

The road commissioner's duties were clearly specified to the letter of the law. He was ordered by the County Court to "review the route proposed for said road, and lay out and mark said road on the most direct line and on the best ground that can be obtained, not running through any person's enclosure without the consent of the owner, unless a good way cannot other wise be had."

It was also necessary for the road commissioner to have the said road surveyed and measured and "may call to his assistance the County Surveyor, or any other competent surveyor, and chainman, if necessary, who shall make out, under the direction of the Commissioner, a correct plat of the route surveyed, together with such topographical information as may be deemed important, which plat, together with a full report of the proceedings, shall be filed with the County Clerk."

Other instructions called for the commissioner to obtain consent of owners through whose tand said road was to pass. This consent had to be obtained in writing. If the owner of the land was a minor or nonresident of the county, the commissioner was instructed to assess damages, if any, which resulted to the owner.

The commissioner was also instructed to take "into consideration the advantages as well as the disadvantages of said road to such proprietor or minor, and include in the report the amount of damages assessed and for what land, and to whom assessed; and if no damages be assessed the report shall so state."

One can only hazard a guess on the number of hours each day Mr. Lowrance spent on his job as road commissioner for Carroll County. But there were probably many days that he arose at the crack of dawn at his farm home and traveled, perhaps on horseback, to some remote point in the county to begin his duties of laying out the route of a new road or looking for a site of a new bridge.

Records indicate that it took from three to six months for Mr. Lowrance to survey the route of a road and then turn in a report on the proposed road to the County Court.

In most cases, Mr. Lowrance recommended that the petitioned road be built but there were times when he asked that the road petition be dismissed. In the case of the road petition of L. P. Wallace he recommended that it be dismissed on the grounds that "the route is enclosed with fencing and the right-of-way is refused by 12 of 16 landowners. It would not be of sufficient public utility to justify opening of same."

The road petition of John D. Reeves was dismissed because the "greater part of road is located in Livingston County". In another dismissal, Mr. Lowrance reported the proposed route in the petition of F. M. Whitney ran parallel to another road at no place more than 220 yards distant. He referred to this proposed road as a "useless and unnecessary expense to the country."

The assessment of damages to landowners along a proposed new road varied greatly-running from nodamages to as much as \$250.00. In the petition of

CARSOOILES

In addition to new roads, landowners petitioned the County Court for road changes, often because they wished to put a certain part of a road passing through their land under cultivation.

When a road change petition was once approved, it was necessary for the road commissioner to "view the present road and proposed change and report the respective distances and situations of the ground over which the present and proposed roads run". The roads were also to be surveyed and measured with plats and field notes made, stating in the report the aggregate length of each road and then reporting proceedings in full at the next term of court.

Once a proposed change in a road was approved by the commissioner the route was declared an established road as soon as satisfactory proof was given the County Court that the change was in good traveling condition. The old road was then declared vacated.

As the county's road commissioner, Mr. Lowrance spent a great deal of his time inspecting existing bridges for needed repair and recommending sites for new bridges.

It was necessary for the commissioner to submit a complete plan for a new bridge, including a detailed diagram (see picture above) to the County Court.

The following description was filed by Mr. Lowrance concerning a new bridge across the Wakenda Creek near the corner of the fair grounds: "the bridge to be one hundred feet in length, twelve feet in width, built on the bent or trestle plan, to be low enough so as to overflow in high water with bents 20 feet in length, well set in mudsills not less than

30 feet in length, size for timbers as follows: posts and capsills 10 by 12 inches, sleepers 4 by 12 inches if sawed and 6 by 12 inches if hewed, 5 to each span; binders 6 by 6 inches. flooring 2 inches thick to be well spiked down with 20 penny spikes. The whole bridge to be well bolted together with inch iron bolts and with all necessary braces, stirrups or bolts that may be required in the construction of said bridge. The timbers to be all of good sound burr or white oak to be put up in a good substantial and workmanlike manner".

After filing his recommendations on a new bridge, the road commissioner was ordered to advertise and let the contract to the lowest and best bidder the building of the bridge according to the plan and specifications submitted. He was also to superintend the erection of the bridge and require the contractor to give bond with "good and sufficient security" and be sure the bridge was kept in good repair two years after completion.

Bridges of that day were paid for out of the county's general revenue fund with the cost varying as to size and materials used. In 1871 construction costs were from \$160 to \$590.

According to the cleck's minutes, Mr. Lowrance reported that only one bridge contracted failed to be built that year A bridge across Cottonwood Creek let to one Henrý G. Smith June 14, 1870 was not built by Jan. 3, 1971. As a result, the contract was forfeited and the road commissioner was forced to go through the legal process of again advertising for a low bid on the bridge.

Despite Mr. Lowrance's busy schedule as road commissioner, he found time to complete other projects during the years he served on the job. Miss Lowrance said that her grandfather had promised his second wife. Mary, a new house. The promise was kept with completion of the house in 1869 and the structure remains today as part of the present home where Miss Lowrance resides.

When Mr. Lowrance's job as road commissioner came to an end in the summer of 1872, he found more time to devote the family farm which at that time, consisted of 160 acres.

It was during this period that his second wife Mary. died and Mr. Lowrance deemed it necessary to hire a housekeeper to see that his only daughter, Sue, was not unduly influenced by all the boys around the house. Mr. Lowrance eventually married his housekeeper and Miss Lowrance said his third wife - the only grandmother she knew-placed a very proper relationship on the marriage, calling her grandfather 'Mr. Lowrance" until the day he died in 1897.

An exhaustive amount of research would be needed to determine the number of miles of roads laid out by Mr. Lowrance during his tenure as road commissioner. Many of the routes, no doubt, have long since been plowed under to make way for the county's corn and soybean acreage. But the next time you travel along one of the county's secondary roads or rattle over a shaded creek bridge, give pause to the fact that it might be the work of John F. Lowrance-one of the pioneers who made a real contribution to the progress of Carroll County a century ago.

F. F. Audsley, for example, Mr. Lowrance assessed the following damages: Morris Rash and George Harmon, no damages; Milton J. Frazier, \$10; W. W. Deardoff, \$20; William Darr, \$25; and John Overman. \$250.

Once the damages were listed in the road commissioner's report, it was necessary for the County Court to issue a citation to the landowners. If the landowners did not appear in court to show cause why the award of damages should not be final, the road was established.

If, on the other hand, landowners objected to the amount of damages assessed, they had recourse of a trial by jury. In some cases, damages were set aside by the jury. Other times, the verdict favored the landowner. Fred Miller, for example, who had been assessed \$100 in damages by Mr. Lowrance, was awarded \$300 by the jury.

Once a new road had been established by the County Court, the road overseer of the district was instructed to "have the road opened and put in good condition within a period of six months".

THE RUDOLF KRUSE FAMILY

Rudolph and Dora Mae Kruse

Dora Mae Belcher and Rudolf William Ernest Kruse were married at the Belcher home October 4, 1930.

Dora Mae was born in March, 1908, the daughter of Martha Isabel Wright (1871-1962) and William T. Belcher (1865-1953). She attended the County Schools and graduated from the Carrollton High School. She is a member of the First Baptist Church and has served as Vice Pretrant of the Missionary Society. She is active in the Cancer Crusade, the Farm Bureau, and the University of Mo. Extension Service. She is an honorary member of the Exemplar Chapter of Beta Sigma Phi and is serving as Director.

Rudolf was born in 1910 to Wilhelmina Borgman (1877-1910) and Ernest Kruse. Ernest came to America at the age of 15 from Hanover Germany. Rudolf was educated in the Lutheran Parochial Schools and is a member of the Lutheran Church. He has served as township trustee and as Chairman of the township board. He is a member of the Carroll County Livestock Ass'n, a staunch supporter of Little League Baseball, and an Honorary Member of the Carrollton Chapter of the Future Farmers of America.

The agricultural interests of Mr. and Mrs. Kruse are extensive. About half of their land is in the Missouri River bottom of Carroll County where they raise grain. The rest of the land is mostly north of Carrollton where they produce grain and cattle and hogs. Thus, a well-balanced farming program is carried out.

Mr. and Mrs. Kruse provide annually a \$300 scholarship to a boy interested in enrolling in the Univ. of Mo. College of Agriculture. They are charter members of the Carroll County Balanced Farming Ass'n and are active members of the Farm Bureau and in Extension Work. In January of 1966, the Missouri People to People of Agriculture and Livestock sent a Goodwill Delegation to South America. Mr. and Mrs. Kruse were asked to participate in this project; and, upon their return, they shared their experience with many rural and urban groups and many individuals as well.

A daughter, Martha Lee, was born in May of 1936. She attended the Carrollton Public Schools and graduated from the University of Missouri with a B. S. degree in Elementary Education. In August of 1959, she married Dr. Robert Lee Sealby from Grosse Pointe Shores, Michigan. Dr. Sealby received his M.D. from the University of Michigan at Ann Arbor. They have three children: Randall Lee born in May of 1960; Robert William born in February of 1962; and Susan Dianne born in June of 1965. They are living in Evergreen, Colorado, where Dr. Sealby is practicing medicine.

A son, Rudolf William Ernest, Jr., was born in February of 1938. He was educated in the Carrollton Public School System and graduated from the University of Missouri with a B.S. in Agriculture. In 1960 he married Elizabeth Harris from Columbia. They are parents of three children: Elizabeth Merriam born in June of 1961; Rudolf William Ernest, III born in August of 1962; and Frank Harris Belcher born in October of 1964. Rudolf, Jr. farms with his father.

Visitors find a warm welcome at Kruseville Farms located two miles north of Carrollton on 65 Highway.

WILLIAM T. BELCHER. 1911: 597-600

CA-AS-001-127

To the subject of this sketch belongs the honor of being one of the. leading farmers and successful stock raisers of Carroll county, an honor attributed to him by general assent, as he has long held worthy prestige in his community and forged to a prominent place among the large land owners of his part of the state. William Belcher is descended from one of the pioneer families of Missouri and traces his genealogy to the early history of Virginia, where his grandfather, James Belcher, was born and reared to manhood. Some time in the early twenties, James Belcher moved to the wilds of Howard county, Missouri, and, entering land, developed a farm and for several years suffered all the hardships and vicissitudes incident to pioneer life. Some of his children were born in the new home in the wilderness and he continued to live where he settled until his death, which occurred in 1835. Among his children was a son, W. L. Belcher, who was born in Howard county and who, in young manhood, removed to Randolph county, this state, where he continued to reside until 1849, when he joined the tide of emigration which crossed the mountains and plains in search of the gold fields of California. He was one of the original "Fortyniners," celebrated in story and song, and while en route to his far away destination, being one hundred twenty days on the trip, endured many hardships and met with not a few startling adventures and experiences, which if put into print would make a goodly sized volume of interesting reading. After remaining in the remote west until 1852 and meeting with only fair success in his efforts to discover and secure a fortune, he returned to Randolph county, Missouri, where he married Eliza Jane Baker, whose parents were among the early residents, from which time until 1865 he lived on his farm in the county of Randolph and succeeded as a tiller of the soil. In 1865 and later years he purchased in all six hundred and forty acres of land in the northern part of Carrollton township, Carroll county, and one hundred and sixty acres in an adjoining township and, moving to the former place, inaugurated a series of improvements which, when completed, made his farm one of the best in this part of the state.

W. L. Belcher was a man of great enterprise and an excellent and praiseworthy citizen. He took a leading part in the development and progress of Carrollton township and became one of its wealthiest and most influential men. He was a zealous supporter of the Democratic party, a consistent and faithful member of the Christian church and his death, which occurred in the year 1908, was felt as a personal loss by the people among whom he had lived so long and to such worthy purposes. Mrs. Belcher, who proved a fit companion and helpmeet for her energetic and public spirited husband, preceded him to the unknown land by about one year, having departed this life in 1907, each being the last survivor of large families. This estimable couple had a family of five children, namely: Mary, who married Peter A. Starnes, and lives in Carroll county; Eva, who became the wife of J. W. Butcher, is deceased: George L. lives in California; William T., of this review, is the fourth in order of birth; Herman A., the youngest of the number, being a resident of Carrollton township and a farmer by occupation.

William T. Belcher is a native of Randolph county. Missouri, where he first saw the light of day on May 26, 1865. Reared under the rugged, but wholesome discipline of the farm and from early youth accustomed to hard and continuous labor in the fields, he grew to strong and vigorous young manhood, not only with well developed physical powers, but with a spirit of self reliance which enabled him to plan intelligently for the future, to the end that he might become a factor of some consequence among his fellow men. In the district school of the neighborhood and Carrollton high school he received the usual intellectual training and, on ar-

CAASOOI-127

riving at an age to begin making his own way in the world, his father gave him a quarter section of land which he at once proceeded to cultivate and improve. With such a start in life, it is not at all surprising that he succeeded in his efforts and from the beginning until the present time his career presents a series of successes and advancements such as the majority of farmers fail to achieve. After a few years he purchased an additional one hundred and sixty acres, which, with his original quarter section, and other purchases, comprise a body of six hundred and forty acres, one of the largest as well as one of the best improved and most valuable landed estates in the county. It is perhaps, pardonable in Mr. Belcher to pride himself upon having bought and now owning almost the entire tract originally owned by his father in Carroll county, as well as having large real estate holdings elsewhere.

In connection with tilling the soil, Mr. Belcher devoted a great deal of attention to live stock, making the latter his principal business and depending upon it for his income. He buys and feeds quite extensively, handling several hundred head every year, besides disposing of quite a number to local parties. Being an excellent judge of stock and a careful buyer, he keeps in close touch with the market and knowing when to sell to advantage, he generally realizes profits by his transactions. By judiciously managing his agricultural and his live stock interests, he has added continuously to his fortune and is today the possessor of an ample competence and among Carroll county's financially solid and substantial men.

Mr. Belcher wields an influence for the Democratic party and, though not a politician in the sense the term is usually understood, he has well grounded convictions and his opinions relative to the issues before the people always carry weight and command respect, even of those from whom he may differ in sentiment. He keeps well informed on questions of public import and, like all good citizens, manifests a lively interest in the welfare of his community, lending his influence and assistance to further all measures and movements for the general good of society and the moral uplift of his kind. Though not connected with any religious organization, he has profound respect for the church, which he believes to be a great power for good and one of the principal accessories of modern civilization. His wife is a member of the Baptist church and he usually accompanies her to the public services of the congregation and contributes liberally to its support, also to the various auxiliaries under its auspices.

The ceremony by which Mr. Belcher and Mattie Wright were united in the bonds of wedlock was solemnized on the 16th day of June, 1902,

the marriage being blessed with four children, whose names are as follows: Isabel, William Wright, Dora May and Charles L. Mrs. Belcher is a daughter of B. F. Wright and a lady whose intelligence, character and many womanly virtues command the respect and esteem of her many friends and the social circle in which she moves. For facts concerning her family history the reader is respectfully referred to the sketch of Charles Wright, which appears elsewhere in these pages.

CA. AS-001-127

Mr. and Mrs. William Thomas Belcher

The Belcher Home

WILLIAM THOMAS BELCHER

William Thomas Belcher, a pioneer farmer, cattleman and land owner of Carroll County, Missouri, was a descendent of pioneer settlers in this state. He spent all but a few months of his eightyeight years in the county area a few miles north of Carrollton and was a leading citizen here. He grew up on the farm where he spent his life, attended public schools and began his own career in agriculture as a very young man. Mr. Belcher manifested a lively interest in affairs of the community, county and state; helped develop superior methods and facilities for farmers and cattlemen and died in possession of extensive holdings.

He was born in Randolph County, Missouri, on May 26, 1865, the fourth of five children born to W. L. and Eliza Jane (Baker) Belcher. The others, all of whom preceded him in death, were: Mary, later Mrs. Peter A. Starnes; Eva, who became the wife of J. W. Burcher; and two brothers, George A. and Herman L. Belcher. The family moved to a farm in Carroll County when the subject was six months old, and he remained on the family land throughout the remaining eighty-eight years of his life. William T. Belcher was descended from one of the real pioneer families of Missouri and traced his geneology to the early history of Virginia. His grandfather was reared in that historical state. Sometime in the 1820's, James Belcher, grandfather of the subject, moved to the wilds of Howard County, Missouri, settling there at a time when this was the primitive West. He cleared the land and suffered the hardships of pioneer living and continued to live

there until his death in 1835. One of his sons, W. L. Belcher, father of our subject, was born and reared in Howard County but moved in young manhood to Randolph County where he resided until 1849 when he yielded to the call of gold in California. He remained in the far west until 1852 when he returned to Randolph County. In 1865 he moved to Carroll County and purchased a large tract of land five miles north of Carrollton.

William T. Belcher grew up under the rugged discipline of farm life. His early education was provided in a local rural school and was completed with graduation from the Carrollton High School.

Known to his friends as Will Belcher, he made an early success of farming. Farm crops were his principal concern for some years, but he added livestock in extending his interests and, in time, this became a major interest. Ambition and frugality led him to Texas before this vast land had been developed to any considerable degree. He purchased a large acreage near Alvin where oil was eventually discovered.

Instrumental in formation and development of the Farm Bureau, Mr. Belcher was a community leader in this field. A member of the Pleasant Hill Christian Church, he had been a continuous supporter since its dedication in 1880.

On June 19, 1902, Martha Isabel Wright and William T. Belcher were united in marriage in a ceremony at Glenco Place, residence of the bride's mother. Born in Carrollton, Missouri, on October 14, 1871, she was the daughter of Benjamin Franklin and Ladora (Crouch) Wright. Mrs. Belcher served on a early board of directors of the Farm Bureau in Carroll County. She was also active in the Extension Service and a charter member of Center Grove Extension Club. In 1936 she was one of thirteen members from Carroll County to attend the meeting in Washington D. C. of the Associated Women of the World. To the union of William T. Belcher and Martha I. Wright were born five children: Mary Isabel who later became Mrs. W. Baker Browning; William Wright; Dora Mae who became the wife of Rudolf Kruse, Sr.; Charles Lee; and Margaret Ellen who died in infancy.

Mr. and Mrs. Belcher celebrated their golden wedding anniversary, the fiftieth, in 1952—one year before his death. Mrs. Belcher died February 3, 1962, at the age of 90 years.

Charles L., Charles W., and Thomas L.

CHARLES LEE BELCHER

A farmer and livestock operator on a large scale in his native Carroll County is Charles Lee Belcher. Living on the old family farm six miles north of Carrollton, he has carried on where his father Wm. T. Belcher left off at his death in 1953.

Charles L. Belcher was born in Carrollton, Missouri, June 27, 1910. The son of William T. Belcher and Martha Wright Belcher (whose biographies appear elsewhere in this volume). Charles was the CAAS001-127

fourth child born to this union. Two sisters Mrs. W. Baker (Isabel) Browning, Mrs. Rudolph (Dora Mae) Kruse, and one brother William Wright Belcher (deceased) were older than he.

August 20, 1953, Mr. Belcher married Mary Jo Wilson. They became the parents of Charles William Belcher, who was born February 10, 1955, and Thomas Lee Belcher who was born January 12, 1956, and Mr. Belcher adopted the daughter (Shirley) of Mrs. Belcher by a previous marriage. Mr. and Mrs. Belcher separated in 1959 and were divorced. After several years with their mother, the court awarded the children to Mr. Belcher where the boys are growing up in the old family home. Shirley is married to Thos. L. Nolting.

In addition to the home place where he lives and operates his enterprise of fine Aberdeen Angus cattle, Mr. Belcher has extensive farming operations in the Missouri River bottom. On these rich and fertile farms, he produces corn, wheat, and soy beans, and hay for his cattle.

Mr. Belcher is a Mason and Shriner and has been active in the latter. He is a member of the Baptist Church, the Kansas City Club, and Board of Directors of Kansas City Area Council, Boys Scouts of America.

In addition to his agricultural holdings Mr. Belcher has built a super market in Carrollton known as the Belcher Building. It is located on North Main Folger and First Streets. This is the site of property owned by and operated by Charles S. Wright and James F. Wright, uncles of the subject, as Wright Brothers Implements. On this property, too, stood the birthplace of Martha Wright Belcher, Mother of Mr. Belcher.

Charles was educated in Carrollton Schools. In December 1942, he entered the United States Air Force, served in England, France, and Germany during World War II and was discharged December, 1945. Following the war, he returned to Carrollton to manage his farms as well as his Father's.

Herbert and Eugenia Albrecht

The Albrecht Family

Daniel James Harrison, a Kansan of Scotch-Irish descent who married Mary Hill, a half Cherokee Indian had a son named James Calvin Harrison. James Calvin married Leona C. Templeton of Pike County, Missouri. Her parents were Alexander Templeton, a Pennsylvania Dutchman from Holland and Margaret Wendy Templeton of English descent. They were the parents of Alice Virginia Harrison.

CA-AS-001-141

Sylvester Brooks of Scotch descent, who married a Miss Stewart had a son Frank Eugene Brooks who married Agnes Jane Lauck, whose parents were James Lauck, a German, and Margaret Conners. They were the parents of Ray Eugene Brooks.

Ray Eugene Brooks married Alice Virginia Harrison. They were the parent of 6 children,—3 girls and 3 boys. Eugenia was their third and youngest daughter.

Eugenia was their third and youngest daughter. Joe and Oltillie Link Albrecht were the parents of Frank Eugene Albrecht of near St. Charles, Missouri. Frank Eugene married Wilheminia Shroer. They had six boys and six girls, one girl died quite young. Herbert Anthony Carl Albrecht, the fifth of the six sons married Eugenia Brooks on July 8, 1939. They had three children: Herbert Wayne born August 17, 1942, Nancy Jean born July 4, 1945, and Jimmy Dale born November 12, 1948.

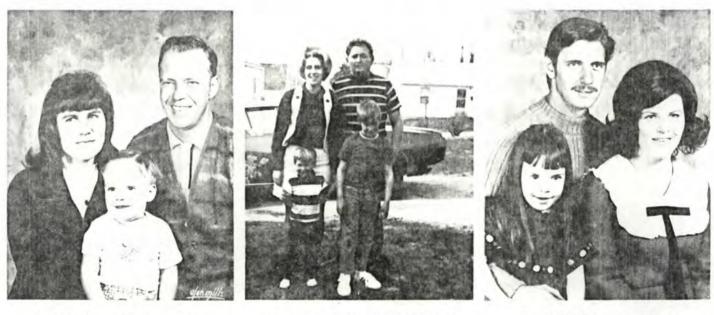

Herbert and Eugenia lived on the old Goedeke place about 4 miles southeast of Carrollton about 20 years farming for Mr. and Mrs. Ed Hartman who owned the place. In the early sixties, they moved to Carrollton and in 1964 moved to 514 North Monroe where they are now living. Eugenia has worked at Banquet Foods for 12 years and Herbert for 11.

Herbert Wayne Albrecht married Darlene King June 1, 1968. They have one son Carl Anthony. Herbert Wayne works for the Carrollton Municipal Utilities and they live in Carrollton.

Nancy Jean married Larry Ray McKinney of Waverly in October, 1962. He works for TWA. They live in Independence with their two sons, Todd age 9, and Eric Lynn, age 5.

Jimmy Dale who married Debora Ann Combs, November 23, 1968 has a daughter Lisa Renee, age 4. They live in Carrollton and both work at Banquet Foods.

On the 11th day of June 1973, Herbert Wayne was electrocuted but lived to tell the story! While working for the Carrollton Municipal Utilities where he had been employed for about four years, the truck from which he was working came in contact with live wires. As a result he lost three fingers on his right hand and two on the left. After many weeks of hospitalization he is well on the road to recovery.

Wayne, Darlene and Tony Albrecht

Nancy, Larry, Todd and Eric McKinney

JOSEPH J. McKINNEY FAMILY

Jonathan Eppler, ancestor of the McKinny family, (also spelled McKinney) came to DeWitt Township in the 1820s, probably about 1826. He was the first settler at what is now DeWitt and established what was known as Eppler's Landing on the Missouri River. His son-in-law, George McKinney, followed him from Lauderdale County, Alabama in 1830 and also settled near DeWitt. George McKinney was father of Jonathan McKinny, the latter being nine years of age when the family came to Missouri in 1830. William V. McKinny, son of Jonathan McKinny was born in DeWitt Township March 18, 1863, and died January 26, 1932.

Joseph J. McKinny, son of William W. McKinny, lives on a farm one mile west of DeWitt where his mother, Anna Cunningham, was born November 10, 1867. She died May 13, 1955. She was a daughter of Eugene Cunningham who settled on this farm at the close of the Civil War. Eugene Cunningham came to America from Ireland about 1850 and served through the war in the Confederate Army.

Joseph J. McKinny was born in Combs Township September 30, 1898, but has lived on the farm west of DeWitt most of the time since 1904. On September 4, 1923, he was married to Mary Rogers, daughter of James M. Rogers and Florence Woodhull Rogers of Charlottesville, Virginia. They are the parents of two daughters, Mary Josephine now Mrs. Eliot T. Pyles of Centerville, Ohio, and Elizabeth Anne now Mrs. Harold W. Scheffler of New Haven, Connecticut. There are four grandsons, children of Eliot and Mary Pyles.

Mr. McKinny has been engaged in the banking business all his life, first as a boy in the People's Bank of DeWitt with his father, since then in Chariton County Exchange Bank at Brunswick in which he first acquired an interest in 1937. The assets of the DeWitt Bank were merged with the Chariton County Exchange Bank in 1938.

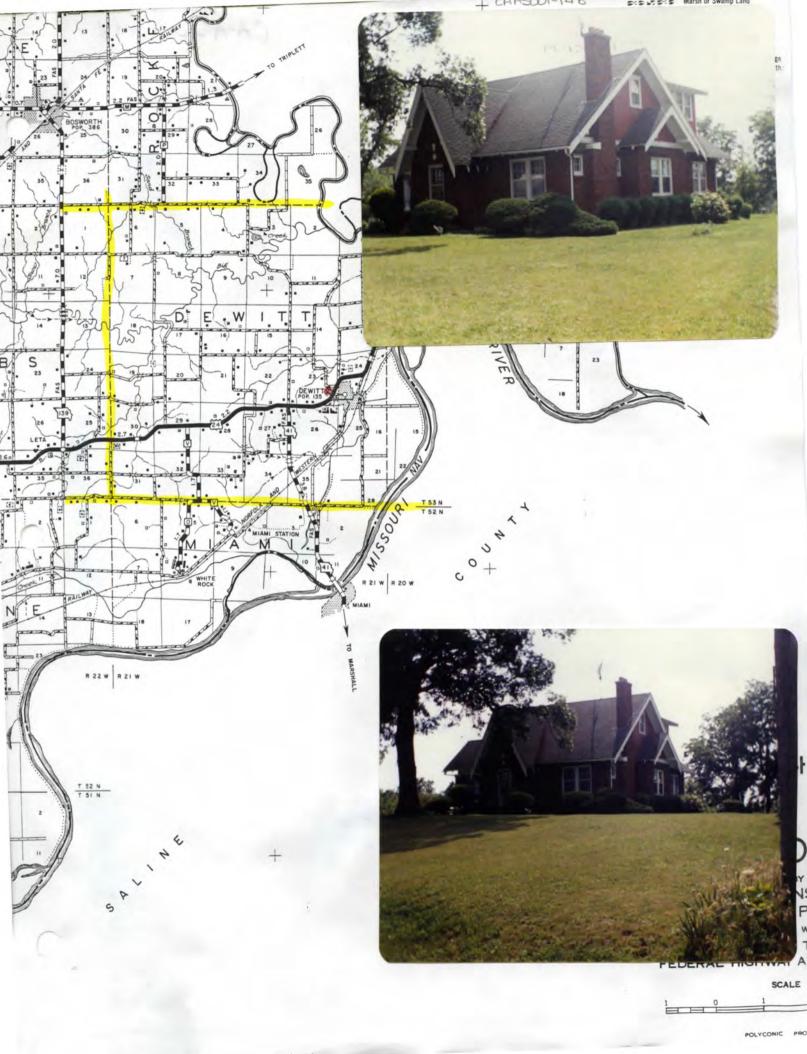

Mr. and Mrs. McKinny are members of the Methodist Church in DeWitt.

CA-AS-001-148

W. R. Lewellen home near DeWitt.

John and Elizabeth (Foster) Lewellen came to Missouri from Indiana and settled on a farm about five miles southwest of DeWitt. Archer H. Lewellen was born July 2, 1869.

In 1891 John Lewellen bought the DeWitt Lumber Yard, and the family moved to DeWitt, A. H. Lewellen and John Scott, a brother-in-law, established a sash and door factory on the northwest corner of block 48 in DeWitt. This firm had a complete outfit of woodwork machinery. When the south four rooms of the DeWitt School were built in 1891, all millwork was furnished by this factory. On October 27, 1897, Archer Lewellen married Minnie Wray of Carrollton. He worked for a sash and door company at Pittsburg, Kansas. Here Walter Raleigh Lewellen was born in 1900. A year later Archer and his brother, Luther Lewellen, moved to Kansas City and worked for American Sash and Door Company. In June, 1904, they move back to DeWitt and bought a partnership in DeWite Lumber Yard business with his father. After the death of John Lewellen in 1907, A. H. bought all and became owner of the business. He built a home in DeWitt in 1913. Then he and son, Raleigh, operated the business.

Arch and Minnie celebrated their 50th Wedding Anniversary in 1947. They were prominent members of the Methodist Church, O.E.S., and Masonic fraternities and active in civic affairs.

W. Raleigh Lewellen married Lillian Raasch, daughter of Mr. and Mrs. Charles Raasch, who lived on a farm three miles west of DeWitt, March 16, 1927. They built their home in 1928 on Highway 24 west near DeWitt. They have two children, Leora Kathryn (1930) and Walter Raleigh, Jr. (1934). After the death of A. H. Lewellen April, 1949, his son, Raleigh, operated the Lumber business until he retired December 31, 1963.

The W. R. Lewellens are active members of the O.E.S. and Masonic Lodge and Mr. Lewellen is a member of the Shrine Club. The Lewellens are also faithful workers in the DeWitt Methodist Church.

Kathryn graduated from Lindenwood College in 1952 and began working as a chemist. She is now a supervisor at Communicable Disease Center at Kansas City. She married Gene Plexico and has three children: Raleigh J., Mark C., and Andrea Lynn.

Raleigh Lewellen, Jr. graduated from Brunswick High School in 1952. He worked as a farm hand and share cropper before entering the service. Raleigh served in the U. S. Army for two years and

THE LEWELLENS

was in Erlangen, Germany, for eighteen months. He married Anna Lee Lightfoot, and they have one son, Rodney Leigh. They bought and moved to a farm northwest of DeWitt in 1962, where they are engaged in farming and raising of cattle.

Row I: Rodney L. Lewellen, Raleigh J. Plexico, Mark Plexico, and Andrea Lynn Plexico, Row 2: Mrs. Raleigh Lewellen, Jr.; Raleigh Lewellen, Jr.; Raleigh; Mrs. Raleigh (Lillie) Lewellen; and Kathryn Lewellen Plexico.

Mr. and Mrs. A. H. Lewellen are shown in front of their home. The Case car was purchased in 1915. Their son, W. R. Lewellen, is the driver and Joe Drew is the other passenger.

ARCHER H. LEWELLEN. 1911: 957

One of the prominent business men of De Witt, who is well and favorably known in that city and its vicinity, is the subject of review in the present sketch. His father was for many years concerned in the business which the son is now carrying on, and made for the firm a reputation which has been well lived up to by the new management. Both father and son were business men who believed in absolute honesty, and in obtaining and satisfying customers by square dealing, and that this course is the best one their success proves.

Archer H. Lewellen was born in De Witt township, Carroll county. Missouri, on July 2, 1869, the son of John and Elizabeth (Foster) Lewellen, his father being a native of Clark county, Indiana, his mother of Pennsylvania. In March, 1869, his parents came from Clark county, Indiana, to Carroll county, Missouri, and settled two miles west of De Witt. Until 1889 John Lewellen followed farming, and then engaged in the lumber business in De Witt, in which he continued until his death, which occurred on October 16, 1907, at the age of seventy-two. His wife died in De Witt on June 20,

1898. They were active members of the Methodist church. "Uncle John" Lewellen, as he was familiarly known, was a man of much public spirit, taking great interest in the development of the community, and was respected and loved by his neighbors.

Archer H. Lewellen was the fifth child of a family of nine. He was reared in De Witt township, and educated in the common schools. After leaving home he was first employed by the Union Pacific Railroad Company in the mechanical department at Kansas City for three years, and then went to Pittsburg, Kansas, and took charge of the planing mill department for the Kansas City & Southern Railway Company, with whom he remained for five years. Returning to Kansas City, for two years he worked for the Western Sash & Door Company, and at the end of this time came to De Witt and became a partner with his father, the firm being known as J. A. Lewellen & Son. This partnership was terminated by his father's death, and since that time the subject has operated the business and has added a stock of farm implements. His business is prospering, and his sales are increasing from year to year.

On October 27, 1897, Mr. Lewellen was married to Minnie Wray, who is a native of Missouri, the daughter of Isaac Wray. To this marriage was born one child, Raleigh. Mr. and Mrs. Lewellen are active members of the Methodist church. Mr. Lewellen is a member of the Masons and of the Modern Woodmen of America. He is a man much esteemed by his business associates, and liked by all who come in contact with him. Of strong, upright character, he is one of the substantial and influential citizens of De Witt.

Mr. and Mrs. Albert Griffith (1936)

Mr. and Mrs. Dan Griffith (1958)

Griffith Family

The name Griffith is of Welsh origin, the first form being Cruffyd, a combination of Cruff and Ffyd meaning strong and faith. One of the earliest lines was descended from Rhys ap Tudor Mawr ap Griffith, a Prince of North Wales, 1077.

The first to come to Missouri was Daniel Wortherby Griffith, (b. Ky. 1790). He and his first wife, Margaret Wark, were the grandparents of D. W. Griffith, the Movie Producer. His 2nd. wife was Eliz. Jones, a widow with two sons. Married in 1829, they had two sons: Wm. David Allen and John Daniel, (b. Md. 1835). The family lived in Howard Co. before coming to DeWitt Township in 1848. Their first home was a log cabin and later a frame house that faced the Miami Station Rd. Elizabeth, who died 1853, is buried across the road from that site. D. W. deeded his land to his sons and step-sons and returned to Ky. where he is buried.

The nearest neighbors to the north were John and Mary Hollister, who had a daughter, Sarah Margaret. On June 28, 1854, while John D. was plowing, she went to the field, barefoot, and they eloped on a mule. Her father, trying to pursue them, asked a neighbor which way John and "Sary" went, and the neighbor helpfully pointed in the wrong direction, and so the young couple escaped parental wrath. Sarah was a direct descendant of Richard Warren of the Mayflower.

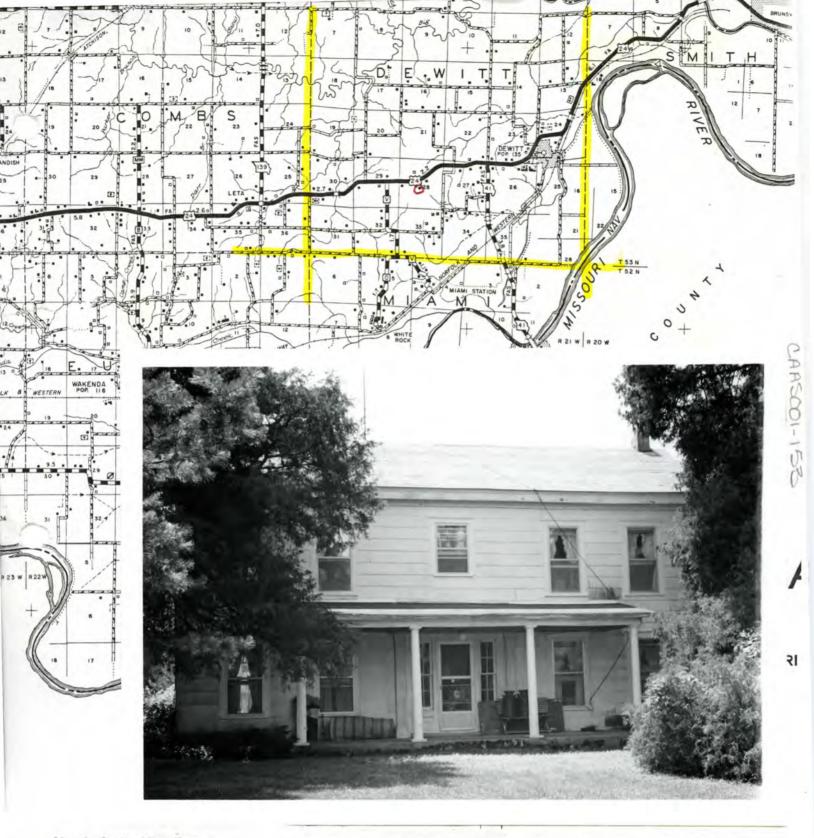

John and Sarah built the home place in 1867, and here reared their nine children, J. D. was a prominent landowner; farmer; merchant; a Methodist; Mason and served several terms as Justice of the Peace, and Mayor of DeWitt. They lived in DeWitt from 1890 until his death in 1913, and hers in 1927.

Their 4th son, Wm. Albert, married 16 yr. old Mary Alice Lawson in 1886 and they were the parents of 7 children, 4 of whom died in infancy. Daniel Edward (1887-1969); Stacey (1892, m. Louis Squires); Mary Alice (1905, m. Eirie Raasch). Albert and Alice were sociable, well loved, and active members of Pleasant Park Church, and later DeWitt Methodist. He died as a result of an auto accident in front of his home, Oct. 30, 1940. She lived on in the home sharing it with a grandson, Paul and family, and passed away at the age of 94.

Dan attended Crispin; DeWitt and Carrollton schools and Business College, Quincy, Ill. In the fall of 1909, while visiting an Uncle in Shelbyville, Ky. he met and fell in love with Clara Smith (1883-1962). The visit was extended so they could be married Mar. 16, 1910. Soon after, they proved up on a claim in South Dakota, living in a two room cabin which he built. The Indians had a disconcerting way of walking in unannounced, and the young bride was happy to return to a more civilized Missouri. Three children were born in DeWitt: James Howard (d.a.b.); Paul Daniel (Jan. 7, 1915); Mary Elizabeth Jean (Apr. 26, 1917). In 1918 he bought land from his grandfather's estate, joining his father's and built their home there. They were both active Methodist, Mason and Eastern Star, and Dan served as Dem. Committeeman from 1930 until his death at a railroad crossing 1969.

Paul Daniel married Sarah Jane (Sally) Porter in 1938 (b. Sept. 7, 1916, Tuscaloosa, Ala. to Thornton and Jane Gillham Porter). They lived most of their married life on the homeplace, which they named "Cedarnob." The three sons attended DeWitt and Bosworth Schools; were active in music; sports and 4-H. Paul David (Jan. 20, 1941) graduated from West Point Military Academy, served as Military Advisor in Vietnam, attaining the rank of Cap't. After discharge, he received a Master's in Bus. Adm. from U. of So. Cal. and lives in Playa Del Rey, Calif. Daniel Thornton (Dec. 21, 1943) received a degree in Forestry from U. of Mo., and married Marjorie Jean Boehner of Trenton, Mo. in 1968. Serving in the Army 3 years, Dan was sent to Korea as a 1st. Lt. They live in Ft. Collins, Colo. Dale Gillham (Aug. 30, 1945) received a degree in Ag. from U. of Mo. and served 3 years in the Army with a tour of duty in Vietnam as a Sgt. Married in 1968 to Karen Kay Hoemann of St. Louis, a Journalism Major of U. of Mo. He is now farming with his father and living on the Dan Griffith place.

Jean attended the Chillicothe Bus. Col. and went to Washington, D.C. in 1942, employed in the Adj. Gen. office of the War Dept. This is where she met Robert Calvin Bryan, of Breckinridge, Texas, who was attending O.C.S. in Alexandria, Va. They were married in Yuma, Ariz. and Lt. Bryan served in the European Theater of Operation. Bob later received his B.S. and M.S. degrees from U. of Okla. as a Petroleum Geologist. He is a professor of Geology and Gen. Science at Northwestern State College, Tahlequah, Okla. Their daughter Beverly, a talented violinist, studied at Interlochen, Mich. and Eastman School of Music. She was concert mistress at Northeastern earning her B.S. in Music and El. Ed. She is public school music director at Ketchum, Okla.

No. 6 Cedar Nob Farm

Cedar Nob Farm, 12 miles east of Carrollton on Highway 24, 3 miles west of Dewitt is the home of Mr. and Mrs. Paul Daniel Griffith.

Six generations of the Griffith have owned and lived on this land since Daniel Wortherby Griffith came to Carroll County from Kentucky in 1848. The present house was built in 1867 by Judge John Daniel Griffith. Most of the remodelling and all of the decoration are do-it-yourself projects, and it is not yet finished!

Rosewood sofa and chair, c. 1850 – Cherry bookcase, c. 1830; Pennsylvania writing arm chair, chestnut, made before 1830. Schoolmaster's desk from Dewitt schoolhouse. Nearly all of the furnishing have been re-upholstered or refinished or built from scratch.

JACOB M. HUFFMAN.

1911: 883-84

The man who has lived nearly four-score years has more than doubled the average term of human existence, and in that time has been permitted to witness and to take part in much of the world's advancement. Especially is this true in the case of the last four-score years, which have been years of progress, the like of which has never been seen before. And it is certainly a privilege even to look on at this spectacle of progress. Mr. Huffman's life has been one of many and varied activities. For seventeen years a miner in the western camps, he there became familiar with a picturesque and active period in the development of that region; then, returning to Missouri, has lived an honorable life as a farmer, and is a man of influence and highly respected in his community.

Jacob M. Huffman was born in Fairfield county, Ohio, on March 29. 1831, and was there reared, and lived until he was twenty-one, when, in 1852. he went to California, making the overland journey of many hardships, and until 1869 was a miner there. In 1869 he returned to Ohio for a short time, then in 1870 came to Eugene township, Carroll county, Missouri, and located on the farm where he has since lived. He is the owner

of two hundred and eighty acres of fine farming land, and has been prosperous in his operations.

Mr. Huffman was married on November 1, 1869, in Hancock county, Ohio, to Elizabeth Fox, who bore to him five children: Lulu, who married Angus Walden, and died in Eugene township; Edward O.; Sidney; Harry, and Ella, who married William T. Griffith. Mr. Huffman is a Democrat and has always taken an active part in the affairs of his township. He is well known in the neighborhood and universally liked and admired by those who know him, because of the many strong and good elements of his character.

Kenneth, Larry, Loren, Marilyn and Willa Mae Linville. The Linville Family won the Carroll County Balanced Farming Award in 1958.

Air View of the L & L Ranch

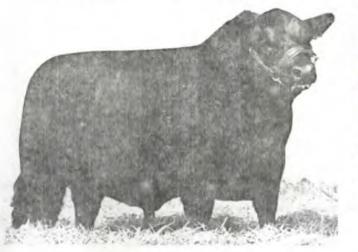

Linville — L & L Angus Farms

July 29, 1973

The Linvilles' Loren and Willa Mae met their Junior Year in high school in 1934, and became sweethearts. Willa Mae was the daughter of the late Mr. & Mrs. Charles F. Lungren of the Roads vicinity. She has two sisters, Mrs. Charlene Schuler of Carrollton, and Mrs. Hazel McLaughlin of Palo Alto, California. Loren is the son of late Mr. & Mrs. Arch Linville of Braymer and Roads vicinity. He had two older brothers, both deceased, John L. and Lewis D. Linville. Mrs. Linville's grandparents, Mr. & Mrs. John Lungren came from vicinity of Stockholm, Sweden, and her grandad Mr. Henry Catron came to Missouri with his parents from the blue grass country of Kentucky. Mr. Linville's grandparents were of German descent, and at birth of Grandmother Linville's last son she died, leaving her husband to rear seven sons. Mr. Linville's great grandparents, Amerines, came from Kentucky also, in covered wagons. Mr. & Mrs. Loren Linville were married at the

Mr. & Mrs. Loren Linville were married at the Linwood Methodist Church in Kansas City, Mo., June 13, 1941. In the spring of 1943 they moved back to the farm where they have resided since. To this union three children were born—two sons, and one daughter— Kenneth, Larry, and Marilyn. Mr. & Mrs. Linville are happy to state that all three have obtained college degrees as this was one of their ambitions in life. Kenneth, their oldest son is now completing his PHD in Agronomy from Michigan State University at Lansing. Larry, after graduation from college has served his country in the U. S. Army, and is now assisting with the cattle operation and farming in the Roads community. He married Norma Lowther of Kansas

L & L Homeplace Diplomat sold for \$32,500.

City, and has two children—David Wayne age three, and Lori Lea age four months. Marilyn graduated this May from college majoring in Business Education, and plans to accept an office position this fall. She plans to be married August 25, to Mr. Gary Jones, Independence, Mo.

L & L ANGUS FARMS are located 11½ miles north of Norborne, Mo. in the northwest part of Carroll County, Fairfield Township consisting of 636 acres in four different farms, owned and operated by Mr. & Mrs. Linville. The registered Angus cattle business started with

The registered Angus cattle business started with partnership between two brothers, Loren, and the late Lewis Linville in 1957, and was dispersed in 1968. The G. L. Linvilles repurchased the better cattle of the dispersed herd, and continued in the Angus cattle business with the assistance of their sons. They have raised and produced several champion cattle, one being L & L Homeplace Diplomat of the 1964 Missouri State Fair Grand Champion bull. This bull also won the International Jr. Championship at Chicago, Illinois that same year, later selling at public auction for \$32,500.00 to the Mahogany Farms at Williamstown, Michigan.

The L & L has over 100 herd of registered Angus cows with some of the most popular pedigrees in the Angus cattle breed. Their main herd bull weighs 1850 pounds, and they are striving for larger size in their calves. They have breeding stock for sale at all times. They buy and sell some 150 steers yearly, and raise and sell around 750 fat hogs each year with an expanding program. For the past twentyeight years Loren has been in the lime business, furnishing and hauling to farmers in Carroll County with his own trucks.

Farming is a way of life, and the Linvilles have enjoyed many years of such a life. Mr. Linville has always upgraded his farms in building ponds, terraces and fences, fertilizing the farm ground for better cropage, and tries to keep the buildings painted. Mrs. Linville has donated and devoted some 15-20 years to 4-H work while their children were in this program. All three children have raised and shown steers winning many prizes for their work. Kenneth and Larry also have raised and shown Angus steers, bulls, and heifers in FFA while in high school winning many championships at various fairs throughout the state.

Mr. & Mrs. Linville have lived in the Roads vicinity most of their lives with the exception of a few years while they were in Kansas City where Mr. Linville was employed at the Kansas City Power and Light, and Mrs. Linville was in college and worked for the Bruce Dodson Insurance Company at the time of their marriage.

ALLOMONG FAMILY

CA-AS-001-183

From Bayaria to Philadelphia (1747), to Ohio (1827), to Mo. (1873) came the Allomongs. Joseph married in Ohio where Eva (Dean) and Edward were born. Coming by train to Bedford, they moved to Carroll Co. purchasing 197 A. six miles southwest of Hale for \$13.70 per A. In a log house there Nellie (Rawlins), Lizzie (Bidstrup) and Joseph Clarence were born.

Joseph, his sons and grandson were dedicated livestock men. Joe shipped cattle from Ohio to Bedford, then drove them home. Neighbors hauled him corn for 15c per bu. In 1883 he gave the railroad right of way through his land for a lifetime pass and a spur line for shipping grain and cattle. Paying \$25 per A. he accumulated 2700 A. by 1900 dividing it among his children.

Ed and Jim also became large land owners and livestock feeders. Buying trainloads of sheep in the southwest they sheared then fed them for eastern markets. Many cattle and hogs too were shipped by Jim and Buell from the switch shown on R.R. maps as Allomongs.

Top: Buell [1914-1981] Joseph [Jim] [1882-1949] Joseph [1843-1913] George Edward [1871-1946] Clarence [1909-1967]; Bottom: Bob [1952] Jim [1950] Allomong Family Home

Jim married Ina Plummer in 1905. They spent their life on the original farm active in the communities social and religious life. After Jim's death (1949) Buell (1914-1981) and wife, Ruby Miller, stayed on the family farm raising livestock and carrying on the family tradition for hard work. Clarence (1909) left for California in 1936. Children: Laura, Jim, Bob. Verlea (1912) married Arthur Vogelsmeier, lives south of Carrollton. Children: Artie, Inalee, Gary, They now own the family farm.

Hale, Missouri 1884-1984: 73

ALLOMONG FAMILY

Jacob Allomong, his wife and son Jacob arrived in America Oct. 20, 1747 by ship from Rotterdam and took the oath to the Government at Philadelphia the same day. They had come from Bavaria in southern Germany. They settled near Philadelphia where their son John was born. His son John II settled near the ancestral home later moving to Sugar Creek in Armstrong County. From there he, his wife, and three daughters moved to Poland, Ohio where John III and Joseph were born. After the mother's death in 1827, they moved to Steuben County Indiana. There John III married Margaret Schitzley and settled near Edon, Ohio where four sons and three daughters were born.

The second son Joseph (1843-1913) "worked out" first on farms, then became a railroad engineer. In 1866 he married Leah Gipple (1844-1900) of Schykill County, Penn. and settled near Edon, Ohio where Eva (1869-1938) and Edward (1871-1934) were born. Stories of the new lands to the west and the conviction that Ohio land was worn out prompted Joseph to move. They went to Greene City, Nebraska, but due to a severe winter there they decided to try Missouri. In 1873 they came by train to the end of the line at Bedford and across country to Carroll County where their descendants still reside.

They first lived two miles north of the present Allomong home on the west side of the road. Joseph worked by the day for Henry Howard in Ridge Twp., another Ohio emigrant. Jan. 1, 1874 he purchased 197 acres in Hurricane Twp. from James and Sarah Smith for \$13.70 per acre. The house on the farm was made of logs and there Nellie (1876-1932), Lizzie (1877-1920) and Joseph Clarence (1883-1949) were born. The fine home built in the late 1880's and destroyed by fire was replaced by a smaller one. In 1922 the present home was completed by J. C. Allomong.

Joseph Allomong fed many cattle which he bought in Ohio, shipped to Bedford, and drove to his farm. His neighbors hauled thousands of bushels of corn for 15c per bushel which was unloaded in huge piles from which it was fed. He offered to pay \$25 per acre for land, so he soon acquired several farms. He gave the right of way for the Chicago, Burlington and Kansas City Railroad in 1883. In return he received a lifetime pass and a spur line on his farm from which, he and his sons received and shipped many carloads of grain and livestock.

The advent of the railroad also brought bitter disappointment as it resulted in the abandonment of the little town of Bridge Creek near his home. This had been one of the first towns in the county. Mr. Allomong had served on the building committee for the Methodist Church there in 1876 and tried hard to prevent its removal to Tina in 1890.

In 1883 Mr. Allomong bought over 400 acres of land in Ridge Twp., three miles west of Bosworth. Soon after his wife's death in 1900 he divided the 2,700 acres he had accumulated among his children to retire. Becoming restless in 1909 he purchased 1,200 acres south of Wakenda and began work anew. He and his sons worked hard to clear the land for cultivation. Having always wished to travel and especially wanting to see the Panama Canal, he retired again in 1913 and had all the papers in order to dispose of his second fortune when he contracted pneumonia and passed away.

Joseph Clarence was named Jimmy by workers who boarded with his parents when the C. B. & K. C. was built. He attended school at Bridge Creek and spent his entire life on the family farm. Like his

father, he became a large land owner and livestock feeder. He and his brother, Ed, bought thousands of sheep in the Southwest, sheared them, and feed them for market in the East. They were unloaded at Tina and driven to the farms, often taking all day with as many as 6,000 in a shipment. In 1923, 7,800 fleeces of wool were sold direct to an eastern woolen mill – the largest individual wool transaction ever made in the county. Many cattle and hogs were also shipped from the "switch" shown on railroad maps as "Allomongs."

The family first attended Bridge Creek Church but after its removal to Tina, their membership was transferred to Grace M.E. Church. Here Jim met his future wife Ina Plummer (1882) whose parents were leaders in that congregation. Ina had attended Liberty School (later Grace), private school in Tina and summer school in Carrollton. In 1902-03-04 she taught at Shootman, Stokes Mound, and Capp receiving \$30 per month a fair price in those days. Her contract specified she do her own janitor work free.

Dec. 7, 1906 Jim and Ina were married and they spent many happy years together. Few people have worked as hard as they. Owning land in the Missouri River bottom, he was on the road all hours of the day and night. They drove stock between the farms a distance of 35 miles. Through the hard times of the 30's, they worked still harder and just when they might have enjoyed life, he suddenly passed away in 1949. In 1966 she moved to Hale where she resides with her sister.

Their first son, Clarence, received his education in Tina; he took a short course in agriculture from Mo. Univ., graduating in 1930. In 1934 he left Carroll County, working first in Washington and Oregon then locating in Calif. He managed a Cooperative Dairy Assn., then owned and operated the Lake Co. Dairy making ice cream for the fountain and operating a frozen foods delivery to Lake Co. resorts. Married Gladys Zumwalt in 1937. Their children are Laura May (Mrs.' Richard Keeling), Jim, and Bob (students in Santa Rosa High School. He homesteaded land in Nevada and in 1965 received a patent on 640 acres near Eureka, Nevada. He is a member of the Masons and of the Lions Club, is deputy sheriff and Lake City Councilman.

The daughter, Verlea, graduated from Tina High School and Stephens College in Columbia. While teaching at Cox School, she met Arthur Vogelsmeier, whom she married in 1937. They reside on the family farm six miles southeast of Carrollton. They have been active in 4-H Club work, Farm Bureau, community and church activities. Their son, Artie, Wife (Sue Hansel) and Sandra Sue live on the adjoining farm. Daughter, Inalee, and husband, Benson Riley, both Mo. Univ, graduates are now employed in Columbia, Missouri. Gary is a Junior at Mo. Univ.

The younger Allomong son, Buell, graduated from Tina High School and is following the example of his father and grandfather. He lives on the original Allomong farm and has acquired additional acreage. In 1940 he married Ruby Miller, one of the first 4-H Club members in the County with an enviable record. They are members of the Methodist Church. Buell has served on the Federal Land Bank Board and in many capacities in the community and county.

MANDEVILLE

Mandeville is located in Leslie Township and dates back to 1854, when John W. Smith and Robert Traughber, Sr. petitioned the government for a post office. "Why this name was adopted is only a matter of conjecture, some supposing it to have been named in honor of Amanda Shirley, of Tennessee, who was betrothed to Mr. Traughber. The name is also attributed to a somewhat ludicrous incident which is said to have happened in that neighborhood about the time the post office was established. It seems that an old German resident of the neighborhood had a daughter, Amanda, who had a suitor acceptable to the mother and to the daughter, but not to the father. The old couple guarreled about the matter, the father declaring in his vehemence and with German accent and pronunciation. "Mandy vil not marry John," while the mother equally certain de-clared that 'Mandy vill'." Mandy did and hence the office was christened 'Mandeville'.

The Buckskin Tavern was a great stopping place for travellers in earlier days. It derived its name from the many buckskins which were stretched out to dry.

The first school in Mandeville was built in 1863 and Wiley Roy was the teacher. Later a new twostory building was crected and the Masonic Organization used the upper floor and the lower floor was used for school purposes.

At one time there were three stores. They were owned by Johnathan Hill, Harrison Graham, and the Pitts Brothers. One general store, established in 1870 by Mitchell and Wolf Block, changed to the drug business and was sold to Skinner and Sons around 1914. Skinner Brothers also purchased the general store from the Pitts Brothers. In 1923 J. F. Wampler and son, Orville, purchased the Skinner Store. Orville Wampler became sole owner of the store in 1945 and continues in business at the present time.

Levi L. Williams operated a blacksmith shop and wagon factory in 1874 until 1901. At one time, four doctors practiced medicine. At the present time, there is one gneral store and one Methodist Church.

An Antebellum Home perseveration beveration these was oak, hickory and ash. Many

By Harold Calvert

When Carroll County first began to be populated by the white man, most newcomers chose hill land where water and timber was plentiful and health problems were normal.

The Missouri river bottom land, of which Carroll County had a generous share, was to a large extent avoided by the earliest settlers because of its swampy terrain, its tendency to flood in rainy seasons and, due to its mosquito infested swamps, its reputation as an unhealthy chill and fever territory.

However, there were those hardy souls who believed that these obstacles could, in time, be overcome. As a result, they settled and began to improve the bottomland's most productive-appearing acreage. All land at that time was ridiculously cheap by today's standards, so by hard work and

early pioneers amassed what would be today called large acreages in the bottom land. which in their heyday - with regard to size - were classed as ranches. It must be remembered that cash itself was not plentiful in those days so accumulating a large acreage even in that time was not easy. Starting shortly after the Civil War and continuing on until the early years of this century, these bottom land ranches usually consisted of from 1000 to 3000 acres of land. This land, even though cheap tended to be swampy and was of course overgrown with heavy timber.

In time, the swamps were drained, the timberland cleared, the river harnessed to a certain extent, and today this same land is extremely valuable grain farming land. Originally huge stands of many different species of hardwood timber covered the bottom land. Black walnut was plentiful as was oak, hickory and ash. Many of the early homes were constructed of walnut and oak cleared from the land where the improvements were to be made During the latter years of the

During the latter years of the last century such ranches as the Rea ranch, the Austin ranch, the Hudson ranch and the Sawyer ranch were interspersed through Carroll County bottom land, mostly between Carrollton and Norborne. Here some of the bottom's richest soil is to be found.

Most of these ranches since that time have been broken up into smaller farms as their accumulators passed away and different members of the families became owners of their share of the original ranch. Some are under entirely different family ownership at the present time.

One ranch, though, originally of 1250 acres still has a direct descendant of its first owner occupying, with his wife, an

CAASOO1-197

original home built in 1856 and pictured with this article. His share of the original ranch naturally is of fewer acres but the old house built of walnut, oak, ash etc., is standing on his plot of ground, his farm consisting of several hundred acres. The home has been thoroughly modernized, metal weatherboarding covering the original walnut siding and of course a familiar modern television antenna rises above the old roof.

The house pictured is the home of Mr. and Mrs. John Hudson. Mr. Hudson is the grandson of Repps B. Hudson.

The grandfather when 16 years old came to Carroll County in 1843 with his parents, David and Matilda Hudson from Clinton County, Illinois, they having spent five years in Illinois after migrating there from Patrick County, Virginia. Repps B. Hudson was about 29 years old when the house shown was built in 1856. In 1849, he married Catherine Orear and they were the parents of seven children. five of whom were living when the Carroll County History of 1911 was written and were, namely: Mrs. Mary E. Goodson; R. B. Hudson, Jr., Mrs. Dora Cooper; W. E. Hudson and Mrs. Laura Guitar.

13

The old antebellum home stands in a beautiful setting in Moss Creek Township. It is in excellent repair, probably one of the best maintained pre-Civil War farm houses in the county.

Mr. and Mrs. John Hudson's son, Repps, is a writer for the Kansas City Star and has had numerous by-line stories on its pages. John Hudson is a son of Bedford Hudson - listed above as R. B. Hudson, Jr.

As we see neat and vigorous fields of growing corn and soybeans dotting these fertile bottom land acres, the crops being tended with tractors, many of them equipped with air-conditioned cabs and powersteering devices, we can be sure these same fields weren't put in their present state and shape without much former years-ago physical labor.

I recall my father telling me that as a boy he worked one summer for Mr. Repps Hudson Sr. on the Hudson ranch. He told me that on many days (12 hours long, I am sure-perhaps more), which was customary at the time, he followed a walking breaking plow until, at night, his legs ached so he could scarcely sleep.

REPPS B. HUDSON.

1911: 584-85

The memory of a great age is the most precious treasure that a nation can possess. As the tree is measured by its own cast leaves, so it is with these deceased noblemen of nature and vanished days which may bring out another blossoning of heroes, of rulers and of sages. The pioneers are gone, but our hearts are warmed and our spirits braced by some faint echo of the words of wisdom they spoke. Such thoughts are actuated in contemplating the career of such men as Repps B. Hudson, a character of unusual force and eminence, whose life chapter has been closed by the fate that awaits us all, and who was for a long lapse of years one of the prominent citizens of Carroll county. While he carried on a special line of business in such a manner as to gain a contfortable competence for himself, he also belonged to that class of representative citizens who promote the public welfare while advancing individual success. There were in him sterling traits which commanded uniform confidence and regard, and his memory is today honored by all who knew him, and is enshrined in the hearts of his many friends.

Mr. Hudson, who was the son of David and Matilda Hudson, was born in Patrick county, Virginia, April 9, 1827. This excellent old Southern family left Virginia in 1838 and moved to Clinton county, Illinois, and five years later, in 1843, came on to Carroll county, Missouri, settling in what is now Moss Creek township, when Repps B. Hudson was only sixteen years of age. They found pioneer conditions and experienced the usual privations and hardships incident to the lives of first settlers. After working on his father's farm a year or two, the subject began life for himself, with no other aid than willing hands and a courageous heart, but his immense energy and grit brought prosperity in due course of time, laying, by hard work, the foundation for the immense fortune he afterwards amassed.

On June 5, 1849, Mr. Hudson was united in marriage with Catherine Orear, of this county, a lady of many sterling characteristics, who proved to be of great assistance to Mr. Hudson in his life work. Seven children were born to this union, five of whom, with the beloved mother, survive, namely: Mrs. Mary E. Goodson; R. B. Hudson, Jr., of Carrollton; Mrs. Dora Cooper, of Ft. Smith, Arkansas; W. E. Hudson, of Carrollton, and Mrs. Laura Guitar, of Abeline, Texas.

Mr. Hudson lived on his farm until 1877, becoming one of the most scientific farmers and extensive stock raisers in Carroll county, and for years his herd of black cattle was one of the finest in the United States. Having ac-

CA-AS-001-197

cumulated a competence in this line of endeavor, he erected a handsome residence in the north suburbs of Carrollton and moved his family thereto in order to spend his latter years more comfortably and to be near his children. In 1881 he organized the Farmers Bank of Norborne, of which he was elected president, and he continued at its head until his death, its large success being due to his able management. He was also one of the original stockholders and organizers of the First National Bank of Carrollton, its widespread popularity being due in no small measure to his judicious counsel.

Thirty years before his death Mr. Hudson united with the Christian church and during that period he was a pillar in the same, being a heavy contributor to the construction of the church at Norborne of this denomination, where he always held his membership, even after moving to Carrollton. But although the Christian church was his choice, this did not prevent him from being liberal with others. Scarcely a house of worship was erected for years in Carrollton that he did not contribute to

Mr. Hudson was a fine type of our truly American self-made man, early learning to be his own exponent—do his own thinking and acting independently. From a hard-working, steady boy he grew into a rugged, self-reliant, substantial man, and was eminently deserving of the large success he achieved and of the high esteem in which he was universally held. From a poor, penniless youth, beginning at the very bottom rung of the ladder, he climbed steadily until he reached the top. He was always a man of strict integrity and accumulated his wealth by strictly business methods. Of his honesty and kindness, his honor and his gentlemanly qualities, all who came into contact with him readily testify. He was, in short, one of Carroll county's best citizens, and always stood ready to lend assistance to any movement having for its object the general good.

Death came to this excellent citizen suddenly, succumbing to heart failure on December 11, 1901.

Politically, Mr. Hudson was a Democrat, but not a politician, never seeking to parade in the limelight, but was modest and unpretentious, a man whon to know was to respect and admire.

THE COWHERD FAMILY

C. R. COWHERD

Clifton (Cliff) Russell Cowherd, the son of Dr. and Mrs. R. V. Cowherd, lives on the old family farm in Moss Creek Township. His Great-Grandfather, James Vaughan Rogers, came to Carroll County in 1857 from Marion County, Missouri, and settled on the land in Moss Creek. This is some of the best farm land to be found in the county.

C. R. Cowherd was born in Carrollton, Missouri, attended the Dieterich School and graduated from Carrollton High School in 1941. He then spent two years in Roswell, New Mexico, at the New Mexico Military Institute, graduating in 1943. In 1942 he enlisted in the United States Army. After graduation at the Institute, he passed the examinations for the A.S. T.P. and was sent to school in Richmond, Kentucky. In 1944 the A.S.T.P. was discontinued by the Army due to the seriousness of the war, and the boys sent into active service. Cliff Cowherd was sent to the Pacific area of World War II and took part in the initial attack on the Island of Leyte, Philippine Islands, and the Island of Okinawa. When the war ended in 1945, he was on the Island of Okinawa waiting for the invasion of Japan.

After receiving his discharge from the Army, he attended Missouri University at Columbia, Missouri, for two years, While in Columbia, Cliff met Betty Lee Michael of Braymer, Missouri, who was studying at Christian College.

On November 7, 1948, they were married in Braymer. Betty Michael is the daughter of John E. Michael and Blanche Toomay Michael, both natives of Caldwell County, Missouri, of Irish, Dutch, and English descent, who married December 20, 1920.

Mr. and Mrs. C. R. Cowherd are the parents of two children, Clifton Michael (Miki) and a son, Robert Russell, who are students in the local schools.

The family are members of the First Christian Church of Carrollton, and all are active in both Girl and Boy Scout work. At present Cliff is serving as District Commissioner for the Boy Scouts. C. R. Cowherd is a member of the board of the Carroll County Savings and Loan Association and the board of the Farmers and Merchants Bank of Hale, Missouri.

Five generations have lived on the farm in Moss-Creek Township where C. R. Cowherd and his family now live. In 1857 J. V. Rogers came from Marion County, Missouri, to make his home there. His son, C. R. Rogers, was born there and C. R. Rogers' daughter, Mrs. R. V. Cowherd, was also born there. Now her son, C. R. Cowherd, and his daughter, "Miki", and his son, Robert are living there.

DR. R. V. COWHERD, D. O.

Russell V. Cowherd came to Carroll County in the fall of 1919 in company with his brother, Dr. David S. Cowherd. Both were graduates of the American School of Osteopathy in Kirksville, Missouri, During World War I, R. V. Cowherd served his country in the Medical Corps of the United States Navy.

He was born in Monroe County, Missouri, the son of Robert J. and Sara (Dixie) Lee Samuels Cowherd, who were married in Marion County, Missouri, November 14, 1888. Robert J. Cowherd, a native of Monroe County, was descended from early settlers who came from Somersetshire, England, to Orange County, Virginia, in 1628. Later they settled in Kentucky, then in Missouri, "Dixie" Lee Samuels was a native of Marion County, Missouri, of English and Dutch descent.

Russell V. Cowherd and Clifton Justine Rogers were married in Carrollton, Missouri, June 21, 1921, at the home of her parents, Clifton (Cliff) Rodes Rogers and Jennie McClure Rogers, who were married October 1, 1895. C. R. Rogers was born in Moss Creek Township, Carroll County, Missouri, September 16, 1857, the son of James Vaughan Rogers and Elizabeth Justine Guitar. J. V. Rogers was of English descent, his family coming from Virginia to Kentucky, then to Marion County, Missouri, where he was born. He came to Carroll County in 1857, two years after his marriage to Elizabeth Guitar in Columbia, Missouri. Her father, John Guitar, a native of Bordeaux, France, was an early settler in Columbia. Jennie McClure Rogers was born in Louisiana, Missouri, the daughter of Dr. L. H. and Helen (Emerson) McClure, and of Scotch and Irish descent.

Dr. and Mrs. R. V. Cowherd have one son, Clifton (Cliff) Russell Cowherd.

They are members of the First Christian Church in Carrollton. Dr. Cowherd practiced his profession in Carrollton and the surrounding country from 1919 until he retired in 1953. He served the community in many different capacities. He was the first president of the Carrollton Country Club, president of the Local Chamber of Commerce, and president of the Local Chamber of Commerce, and president of the Lions Club. At present he is serving as the President of the Carroll County Trust Company, the Carroll County Savings and Loan Association, and the Farmers and Merchants Bank of Hale, Missouri, Mrs. Cowherd served for twelve years on the Carrollton School Board.

In the year 1837, Dr. William Wilson, Sr. came to Carroll County from Bedford County, Virginia, with his eleven children and settled on a farm of 160 acres in Moss Creek Township. This farm is generally known as "The Nelson Williams' Farm" and is the home of the widow of Nelson Williams, Jr. The Mother of Nelson Jr. was Lucy Austin, a relative of the descendants of Dr. William Wilson Austin (who was actually W. W. A. III as his grandfather was named William Wilson Austin II).

One of the children of Dr. Austin was Col. William Wilson Austin (known as W. W. A., Jr. but actually W. W. A. I) and this Austin family history is compiled and written by the eldest of the living descendants of Dr. Austin whose mother was Virginia Ann Austin, a granddaughter of the first Austin in Carroll County. Her father was Col. W. W. A., Jr. or I, and her mother was Jane (Gordon) Austin of Boone County, Missouri. There were thirteen children in the family of Dr. W. W. Austin and wife, two of whom died in Virginia before he came to Missouri. His wife was Locke Thompson who had lived in Campbell County, an adjoining county of Bedford County. The ancestors of both families had come to America many years prior to the Revolutionary War and had settled in Virginia, Dr. Austin served as a medical officer in the American Armed Forces in the War of 1812, and his grave in the Austin Cemetery (located in the northwest corner of the "Nelson Williams' Farm" in Moss Creek Township of Carroll County) is decorated with an American Flag as well as flowers each Memorial Day. The Austin family came to America from Wales but originated in Scotland. The Thompson family also came to America many years before the Revolution. The wife of Dr. W. W. Austin died in Virginia before he moved his family to Carroll County.

A few years after Dr. Austin brought his family to Carroll County, the widow of his brother, Peter Austin, moved to Carroll County with her children and died here. There are still descendants of both branches of these Austin families living in Carroll County, in the St. Louis area, and other places in Missouri. Probably some of Dr. Austin's descendants still live in or near Pilot Point, Texas.

All of the families mentioned above were slave owners but had reputations as being very considerate of their slaves many of whom, especially the older ones, refused to leave "Master's" home premises after emancipation.

The Austin Cemetery was established in 1841 for burial of some of the family of Dr. William Wilson Austin, III. He died in 1843 and is buried in the original plot as shown by the iron fence enclosing a few graves. Since the original cemetery was established, it was found that there is additional ground both north and west of the small plot enclosed by the iron fence; and this ground has been the burial place for many of the relatives and neighborhood friends of the Austin family and probably more will be interred there as not all of the ground has been used. The cemetery is now endowed with sufficient yearly income to keep it mowed; however, new fencing of the expanded grounds will be needed in a short time and work will have to be done on many of the older monuments and markers as many were set in the ground with no concrete or other supporting base under them. The cemetery was incorporated in 1908

CA-AS-001-207

The Austin Cemetery

as "The Austin Cemetery Association" under the State Pro Forma Decree or Non-profit statutes, and the incorporation so remains although it is now generally known as "The Austin-Williams, Cemetery" and is operating that way under the supervision of a Board of Trustees and officers elected annually by all who are enough concerned to attend the meeting. A notice of the meeting and a financial report are sent to each person or family who have made contributions to the endowment fund. The Endowment Funds are kept invested by the Treasurer with the approval of the Trustees or by the annual meeting of the members. Several years ago, spirea was set out as a hedge along the front of the cemetery to take the place of the present fence which would be removed when the hedge is sufficient in size to act as fence: the present fence to be used to repair the fences on the other three sides. A few of the plants have died and will have to be replaced, and the hedge is hardly high enough (1968) to replace the fence. The cemetery grounds are being damaged by gophers and moles and efforts to eradicate these pests have not been successful as yet.

The Austin family was and is related to the Alexander and Arnold families of Scotland, Ireland, and England by frequent marriages. They were all southern sympathizers in the so-called "Civil War". My Grandfather was unable to serve in the Confederate Armed Forces because of his age and health; but two of his sons, although very young, did serve. One of them, John William, found it advisable to move to Pilot Point, Texas, after the war where he married and raised a family. During the War, it was found to be advisable for the Austin women to be in Lexington (Lafayette County); and, at other times, the women of the Arnold family came to Carroll County because of their well-known sympathy for the Southern cause in the War between the States. My Grandfather, William Wilson Austin, IV, died in 1868; and his wife, Jane Gordon Austin, died in 1885. They, with other members of the Austin families and relatives, are buried in the Carrollton Oak Hill Cemetery where there are five Austin burial lots.

This article was compiled by Walter W. Mc-Guire in 1968 (age 84 years plus). Mr. McGuire is a Great Grandson of Dr. William Wilson Austin III. THE AUSTIN FAMILY Addendum

"Austin Family and Connections" CAASOOI-201 Revised by Jonine Soukup, San Dego, California

THE AUSTIN FAMILY OF CARROLL COUNTY, MISSOURI Memoirs of Walter W. McGuire

In the year 1837, Dr. William Wilson Austin, Sr. came to Carroll County from Bedford County, Virginia with his eleven children and settled on a farm of 160 acres in Moss Creek Township. This farm is generally known as "The Nelson Williams Farm" and is the home of the widow of Nelson Williams, Jr. The mother of Nelson Jr. was Lucy Austin, a relative of the descendents of Dr. William Wilson Austin (who was actually W. W. Austin III as his grandfather was named William Wilson Austin, II).

One of the children of Dr. Austin was Col. William Wilson Austin (known as W. W. Austin, Jr. but actually was W. W. Austin, III) and this Austin family history is compiled and written by the eldest of the living descendents of Dr. Austin. My mother was Virginia Ann Austin, a granddaughter of the first Austin in Carroll County. Her father was Col. W. W. Austin, Jr. or IV and her mother was Jane Gordon Austin of Boone County, Missouri. There were thirteen children in the family of Dr. W. W. Austin and his wife, two of thom died in Virginia before he came to Missouri, His wife was Locké Thompson who had lived in Campbell County, an adjoining county of Bedford County. The ancestors of both families had come to America many years prior to the Revolutionary War and had settled in Virginia. Dr. Austin served as a medical officer in the American Armed Forces in the War of 1812 and his grave is in the Austin Cemetery located in the Northwest corner of the "Nelson Williams Farm" in Moss Creek Township of Carroll County and for that reason, his grave is decorated with an American Flag as well as flowers each Memorial Day. The Austin family came to America from Wales but originated in Scotland. Dr. Austin's father was a Captain in the Revolutionary War. (Note: he was actually a Captain in the British Colonial Militia in 1772). Locke Thompson's father was a Colonel in the Revolutionary War. (Note: Her father was actually a Lieutenant in the 7th Regiment from Campbell County, Virginia during the Revolutionary War).

A few years after Dr. Austin brought his family to Carroll County, the widow of his brother, Peter Austin, moved to Carroll County with her children and died here. There are still descendents of both branches of these Austin families living in Carroll County, in the St. Louis area and other places in Missouri. Probably some of Dr. Austin's descendents still live in or near Pilot Point, Texas.

All of the families mentioned above were slave owners but had reputations as being very considerate of their slaves, many of whom, especially the older ones, refused to leave "Master's" home premises after the Emancipation.

The Austin Cemetery was established in 1841 for burial of some of the family of Dr. William Wilson Austin, Sr. He died in 1843 and is buried in the original plot as shown by the iron fence enclosing a few graves. Since the original cemetery was established it was found there is additional ground both north and west of the small plot enclosed by the iron fence and this ground has been the burial place for many of the relatives and neighborhood friends of the Austin family, and probably more will be interned there as not all of the ground has been used (1968). The cemetery is now endowed with sufficient yearly income to keep it mowed, however, new fencing of the

expanded grounds will be needed in a short time and work will have to done on many of the older monuments and markers as many were set in the ground with no concrete or other supporting base under them. The cemetery was incorporated in 1908 as "The Austin Cemetery Association" under the State Pro Forma Decree or Non-profit statutes and the incorporation so remains although it is now generally known as "The Austin-Williams Cemetery" and is operating that way under the supervision of a Board of Trustees and officers elected annually by all who are enough concerned to attend the meeting. A notice of the meeting and a financial report are sent to each person or family who have made contributions to the endowment fund. The endowment funds are kept invested by the Treasurer with the approval of the Trustees or by the annual meeting of the members. Several years ago, spirea was set out as a hedge along the front of the cemetery to take the place of the present fence which would be removed when the hedge is sufficient in size to act as a fence, the present fence to be used to repair the fences on the other three sides. A few of the plants have died and will have to be replaced and the hedge hardly high enough (1968) to replace the fence, the cemetery grounds are being damaged by gophers and moles and our efforts to eradicate these pests have not been successful as yet.

The Austin family was and is, related to the Alexander and Arnold families (of Scotland, Ireland and England) by frequent marriages and were all southern sympathizers in the so called "Civil War". My grandfather, because of his age and health was unable to serve in the Confederate Armed Forces but two of his sons, although very young, did and one of them, John William, found it advisable after the war to move to Pilot Point, Texas where he afterwards married and raised a family.

During the War it was found advisable for the Austin women to be, at times, in Lexington (Lafayette County, Missouri) and at other times, the women of the Arnold family came to Carroll County because of their well known sympathy for the Southern cause in the War between the States. My grandfather, William Wilson Austin IV, died in 1868 and his wife Jane Gordon Austin, died in 1885. They, with other members of the Austin families and relatives are buried in the Carrollton Oak Hill Cemetery, where there are five Austin burial lots.

> -Compiled by Walter W. McGuire in 1968 Great Grandson of Dr. William Wilson Austin, Sr. or III

Walter Watson McGuire died in Carroll County, Missouri in November of 1974. (See page 6)

CAAS001-207

William Austin I, immigrated from Wales to America long before the Revolutionary War, and settled in Hanover County, Virginia. He was twice married. By his first wife he had three sons, William, John and Thomas. By his second wife he had one son, James.

William Z. Austin, II, was born in Hanover County, Virginia about 1750. He died in Bedford County (will probated 23 February 1801). His first wife was Hannah Glenn of Hanover County. He was a Captain in the Bedford County Colonial Militia, 1772. He was, up to the Revolutionary War, a loyal subject of His Majesty of England.

The following is a copy of William Austin's Commission to the Captaincy, the original of which has the royal seal affired, is among the family papers of his descendants in Bedford County.

"His Excellency, John, Earl of Dunmore, Viscount Fincastle, Baron Murray of Blair, of Monlin, and of Tillimot, Lieutenant and Governor General of His Majesty's Colony and Dominion of Virginia, and Vice Admiral of the same.

TO WILLIAM AUSTIN, ESQ. — By virture of the power and authority to me given as His Majesty's Lieutenant and Governor General and Commander in Chief in and over this Colony and Dominion of Virginia, with full power and authority to appoint all officers, both civil and military, within the same, I, reposing special trust in your loyalty, courage and good conduct, do by these presents appoint you, the said William Austin, Captain of the Militia of the County of Bedford, whereof John Quarles, Esq., is Lieutenant and Chief Commander. You are therefore to act as Captain by exercising officers and soldiers under your command, taking particular care that they be provided with arms and ammunition as the laws of the Colony direct, and you are to observe and follow such orders and directions from time to time as you shall receive from me or any other superior officers according to the rules and discipline of war, in pursuance of the trust reposed in you.

Given at Williamsburg under my hand and the seal of the Colony, this Twentieth day of June, and in the Twelfth year of His Majesty's reign, Annoque Domini, 1772."

(Signed) DUNMORE.

William Austin, II and Hannah Glenn, had issue:

- 1. Nancy² Austin, married Robert Alexander, the brother of her father's second wife. For issue, consult Alexander History.
- 2. John³ Austin, was lost at sea on his way to Edinburgh to complete his education.
- 3. James Austin.
- 4. Sally Austin, married John Austin, her cousin.
- 5. Thomas? Austin.
- 6. Robert⁵ Austin, was a physician; was educated in Edinburgh, Scotland and practiced medicine in Bedford County, Virginia. He died in his forty-first year.
- 7. Elizabeth² Austin, first married her cousin, Chapman Austin. He was of Hanover County, Virginia. Issue by first husband:
 - a. Simeon⁴ Austin.
 - b. Constance⁴ Austin.
 - c. Hannah⁴ Glenn Austin.

Elizabeth afterwards married _____ Armstrong. Issue:

October 1873, and Pauline Turner, born 20 February 1843, were married 14 May 1861. Issue:

 - Elizabeth⁵ Austin. 5.
 - Mary⁵ Charlotte Austin. 6.
 - Peter⁵ Austin. 7.
- Peter⁴ W. Austin, M.D., was born 10 December 1825 in Campbell j. County, Virginia. He was at State University, Columbia, Missouri, and was in the Second Regiment of Missouri Volunteers, commanded by Price in the Mexican War taking part of the battles of that war and walled town of Taos. He returned from Merico and took up medicine. He was also a Lt. Col. in the Confederate Army. Returning to Carrol County, he became one of the leading physicians in that County. He married Mary Eliza Wilcorson, born 25 December 1833, on 4 January 1854. Issue: 1. Joseph⁷ William Austin, born 1 December 1854, and Jennie

Orchard, were married 19 December 1882. Issue: a. Harvey^b Batts Austin, born 22 October 1883. b. Mary^b Christine Austin, born 8 July 1886.

2.

Elizabeth⁵ Austin, born 25 April 1856, died 1 October 1857. 3. Amanda⁵ P. Austin was born in Carrollton, Missouri, 28 March 1859. As a young woman, she was a favored pupil from 1877 until 1879 of George Caleb Bingham, to whom the famous Missouri artist wave two of his own paintings. Accepting her great-uncle Jefferson Wilcoxson's offer to help further her career in exchange for care and companionship during his declining years, in 1879 she moved to California.

CAASOO1-207

In Sacramento she studied under Norton Bush and W. F. Jackson and later at the San Francisco School of Design under Vergil Williams. Her work was exhibited for the first time at the 1880 California state fair art show. In 1884 she won the Avery gold medal in the competition class in painting at the San Francisco School of Design. After Wilcorson's death in 1885 Amanda returned to Sacramento and instructed in the Crocker School of Design. The next year she opened her own studio. She was awarded the silver medal in 1901 at the California state fair for pen and ink sketches.

Upon her return to Sacramento, Amanda learned that contrary to a prior agreement with him, she had been excluded from Wilcoxson's will. She brought suit against the estate and after a sensational trial was awarded a \$1,200 annuity.

From 1908 until 1912 she studied in Paris under Edwin Scott, Eugene Delacluse, Emile Renard and others. Her oil painting of a Breton girl and two sculptures, "The Portrait of Miss Quinn" and "Emigration" were accepted for exhibition at Trinity Lodge Art League in Paris. She was a member of the Societé Internationale de Beaux Arts de Lettres, a select association of the foremost talent in France.

In April 1912, she returned to Sacramento and in that year won the highest award at the California state fair for her collection of oils. In 1915 three of her works were accepted for exhibition in the San Francisco Panama-Pacific International Exposition. The next year her sculptures, "St. Jean" and "Miss Quinn," were included in the exhibition of contemporary American sculpture at the Buffalo Fine Arts Academy and later at the 29th Annual Exhibition of American Painting and Sculpture in Chicago.

Commissioned in 1916 to execute a fountain sculpture for the City of Sacramento, as a memorial to William P. Coleman, California legislator, Amanda returned to Paris to begin work on the project. She soon became ill, however, and returned to New York where she died 25 March 1917. She was buried in Carrollton. In February preceding her death she was married to E. Lee Allen. Her sculpture, "Miss Quinn"

Addendum

ESTATE OF WILLIAM W. AUSTIN, SR.

William W. Austin, Sr., died on 21 September 1843 in Sugar Tree Bottom, Carroll County, Missouri. His estate was probated and valued at a considerable sum for the times in which he lived. Wills and estate appraisals are very valuable to those interested in their family heritage; they give much insight into how their ancestors lived and status in their communities. It is one thing to list descendants by name but how they lived gives life and color to these long gone family progenitors.

In the appraisal of William W. Austin, Sr's. estate, it is evident that his son and administrator, William W. Austin, Jr., inherited the home and lands of his father as they were not included in the division of the estate.

His estate, not including the home and lands and appurtenances, was valued at about \$35,471.62 before his debts and funeral expenses were paid. Of that sum \$5,946.63 covered his liabilities, leaving the balance of \$29,524.99 to be divided between eleven heirs. Thus, each of the eleven heirs received \$2,684.09 as their share of the estate, some of which was paid to them in slaves and land. The total value of his slaves totaled up to \$13,238.16, which indicates he had at least twenty-five slaves. Take, for example, the \$2,684.09 inherited by Edward S. Williams, husband

of his daughter Mary Brown Austin.

Each of the other heirs receiving the sum of \$2684.09 in cash, properties and slaves, were:

- 1. Archibald Austin, son.
- 2. Robert Austin, son.
- 3. Peter Austin, son.
- 4. Virginia Austin, daughter.
- 5. Elizabeth Austin, daughter.
- 6. Edward G. Arnold, Son-in-Law and husband of Susan Austin.
- 7. Wiatt (Wyatt) Arnold, Son-in-Law and husband of Frances Austin.
- 8. Thomas G. Dobbins, Son-in-Law and husband of Charlotte Austin.
- 9. William W. Austin, Jr., son.
- 10. Mary Ann Austin, granddaughter and daughter of John T. Austin, deceased.

Other properties were advertised for sale by the estate administrator, William W. Austin as evidenced by the following news clipping which was printed in the Lexington Express Newspaper; C. Patterson, Editor. (Carroll County, Missouri Wills and Admin., 1834-1879. Documents furnished by Harriet Claughton, Clerk Probate Division, Carroll County Circuit Court).

CAAS001-207

THE AUSTIN FAMILY

NOTICE

Of Sale of Personal Property; NOTICE is hereby given, that on Wednesday, the 15th day, of November next if fair, if not, the next fair day, at the late residence of Wm W Austin, Sen., deccased, in Sugar Tree Bottom, Carroll county, 1 will offer for sale to the highest bidder, a large stock of Horses and Cattle, one hundred and fifteen or twenty head of Sheep, and a large number of Stock Hogs; twelve or fifteen hundred bushels of Wheat; a large quantity of Corn and Uoats; a fine two-horse close Carriage, nearly new; and extensive library of Books, consisting of Medical and Surgical, Historical and Literary works. The Medical & Surgical works are by the best modern writere. The historical are by the most popular ancient and modern writers. PROF. JAMES A. KOONTZ.

This distinguished educator, since 1905 the efficient superintendent of the public schools of Carrollton, is a native of Knox county. Missouri, where his birth occurred on the 4th day of April, 1866. Paternally, he is descended from sterling Dutch ancestry, the genealogy of which branch of his family in

CARROLL COUNTY, MISSOURI.

14

is country is traceable to a very early period in the history of the colonies. ccording to the most reliable data obtainable, it appears that certain members I the family came to America a number of years prior to the Revolutionary ruggle and settled in Pennsylvania, where in due time their descendants sultiplied, some moving to various parts of that colony, others to adjacent mmonwealths. Among the latter were the subject's direct ancestors, who tigrated many years ago to Virginia, in which state Noah Koontz. the Prossor's father, was born in the year 1813.

When a young man Noah Koontz married Elizabeth Browning, whose ntecedents were among the early English immigrants (1621) to the new orld. Later the Browning family moved to Tennessee, where the name ecame widely known and it was in that state that Mrs. Koontz's parents lived nd died and her own birth occurred. About the year 1835, Noah Koontz loved to Illinois, where he made his home until 1856, when he brought his amily to Knoxocounty, Missouri. After residing in that county until late 1 life, he moved to Kansas, where he spent the remainder of his days, dying 1 1901, his wife having preceded him to the grave in the year 1900. Noah nd Elizabeth Koontz reared a family of twelve children, the subject of this ketch being the youngest of the number. His older brother, John Koontz, ntered the Federal army at the beginning of the late war and died while ravely upholding the honor of the national union.

The early life of James Koontz was similar to that of the majority of ads in most respects reared under the wholesome discipline of the farm. Vhile still young he manifested a decided taste for books and study and after earning to read he eagerly perused such books and papers as he could procure. He received his preliminary education in the public schools, later entered the state Normal School at Knoxville, from which he was graduated in due time with an honorable record as a close and critical student. Actuated by a audable ambition to add still further to his scholastic knowledge, he subsejuently attended the Leland Stanford University of California, where he prosecuted his studies and researches until completing the prescribed course and receiving his degree, which bears the date of 1001.

Shortly after graduating from the latter institution Professor Koontz was elected superintendent of the public schools of Anaconda, Montana, where he remained two years, during which time he brought the schools to a high standing and state of efficiency and gained much more than local repute as an able and successful educator and executive. At the expiration of the period indicated he resigned the superintendency at Anaconda to become the principal of the Beaverhead county high school at Dillon, in the same state,

CARROLL COUNTY, MISSOURI.

which relation he sustained with credit to himself and to the satisfaction of the people of the county until elected to the important position which he now holds. Professor Koontz entered upon his duties as superintendent of the schools of Carollton, Missouri, in 1905, since which time he has brought about a number of reforms and improvements in the educational system of the city and made it one of the best in the state. Under his efficient supervision the schools have made a commendable progress and the confidence reposed in him both by patrons and the board of trustees is indicated by his unanimous reelection for several years to the important position which he so ably fills.

The high character achieved by Professor Koontz as a teacher and manager of schools has made him widely and favorably known in educational circles and it is safe to assume that there are few, if any, abler or more popular superintendents in Missouri, and certainly none that command in a more marked degree the love and confidence of the public. He is now in the prime of vigorous manhood and possesses a genial personality, superior scholarship and his eighteen years' practical experience in educational work, from village school to city superintendency, entitle him to recognition among the notable men of his profession in the west and bespeak for him a future of continuous efficiency and usefulness. During his last year in Montana, Professor Koontz was president of the Teachers' Association of that state and since coming to Missouri he has been similarly honored, being at this time the executive head of the State Teachers' Association, over which important body he presides with marked ability and credit. Since locating in Carrollton he has been active in promoting the city's material prosperity, being interested in all enterprises with this object in view, as well as an influential factor in the social and intellectual life of the community. He is a prominent member of the Masonic fraternity, in which he has risen to the degree of Knight Templar, and is also an active worker in the Independent Order of Odd Fellows lodge of Carrollton. In religion the Christian, or Disciple, church represents his creed, or, in other words, the Bible alone is his rule of faith and practice. He is a valued member of the local church in Carrollton, active in all lines of duty under the auspices of the same and an earnest and scholarly exponent of the faith to which he assents. Mrs. Koontz is likewise a member of the church and a lady whose culture and beautiful character and Christian life have greatly endeared her to the religious and social circles in which she and her husband move.

On July 7, 1893, Professor Koontz was united in marriage with Jessie A. Smith, of Knox county, Missouri, a union blessed with one child. Paul G.

The old Stet store

Stet

Stet, meaning "let it stand" was named by Ed Mansur, a Stet storekeeper. It is located on the Ray-Carroll county line about 12 miles northwest of Norborne. It is one of the few small inland towns that has survived the decline in rural population since 1900. It not only has survived, but is more prosperous now than it was at that time.

Many people living on the farms in this area are third, fourth, fifth, and sixth generations of the same families living on the same farms. Included among these are Marvin Baxter, Cliff Carr, John William Tweedie, Colby Lee Miller, Will Adrian Shafer, and Woodward Lungren. Robert and Dorsey Hill own and operate the farms purchased before the Civil War by a great-uncle, William Hill. Part of the town of Stet is located on the John B. Dorsey farm, homesteaded by Laken and Henrietta Dorsey in 1874.

In 1910, Stet was a thriving community with two general stores, one owned and operated by the Dorsey brothers, and Bud and Joe Stratton furnishing competition. Bud Stratton also owned a hardware store. Fletcher Thompson made harness for local use and Tommy and Abe Stratton served the needs of the area with a well equipped blacksmith shop.

Ed Daugherty, Roy Clemens, Glen Petrie, Wilbur and Edwin Reeves have been the owners of the garage which had its beginning as a blacksmith shop. In February of 1962, fire destroyed the garage building, but a new building has replaced it.

J. R. Denton owns and operates a grocery store and restaurant, housed in the same building formerly occupied by Bud Stratton's hardware business.

There was a rural mail carrier route from Stet for several years. George Eden was the carrier in 1910 until his retirement in the early 1930's. Robert Hill became the carrier until they consolidated the route with Norborne.

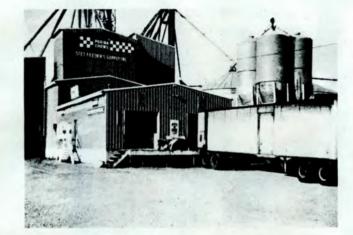

Mr. and Mrs. R. B. Bales purchased the store owned by B. C. Hunt in 1942. It has been enlarged to accommodate a cold storage room, groceries and hardware.

In 1917 a consolidated high school district was organized at Stet, combining several one-room school districts. At this time there were only two years of high school being taught. By 1918, the new high school building was finished and the next year the junior year of high school was added. By 1921, Stet was a four year accredited high school. Vocational agriculture and vocational home economics were added to the curriculum in the late 1920's. The Stet vocational agriculture department has the honor of receiving the "Governor's Trophy" for having the most outstanding exhibit of livestock of any FFA group in the state of Missouri for thirteen consecutive years. In 1942, a Balanced Farm Ring was organized in this community, being the first organization of this nature in the United States. In 1943, the old frame school building burned and was replaced in the fall of 1944 with a new brick building, which made it possible to incorporate all elementary and secondary grades under one roof. School bus service for

Centennial Norborne, Missouri 1868-1963

Stet Milling Company

Stet Feeders Supply, Inc.

Stet started in 1937. "Doc" Kavanaugh began driving in 1941 and still holds that position.

Don and Alpha (Donaldson) Bullock operated an antique business from their home, which was widely known over the state. Mr. Bullock had owned and operated a garage for many years, with Robert E. Long, Leo Miles, and Gene Milligan in his employ at various times. Mr. and Mrs. Bullock interested their neighbor, John B. Dorsey, into being a collector of antique tools. His collection is now on display as a gift to the National Agriculture Hall of Fame at Bonner Springs, Kansas. The Bullock garage is now owned by the Stet Milling Co. who converted it into a seed cleaning business.

In 1947 Gene and Bernice (Hultz) Dailey built a new modern locker plant. Later he added a slaughter house and an electrical repair shop.

In 1962, two feed mill companies were organized and erected in Stet. The Stet Milling Company is located on the Burl Carpenter farm with Dean Pope as manager. Stet Feeders Supply Inc. was organized by eight men in the community who are interested in feeding livestock. The original group was comprised of Robert W. Hill, Earl Koontz, Jarrott Williams, W. H. Frazer Jr., Raymond Brock, Ray Gill, John William Tweedie, and John B. Dorsey. Donald Amery became the manager in 1965.

In the early 1960's this area was annexed with the Green Hills Telephone Co. Previously the Lebanon switch board answered all calls for the community. If there was a fire in the area the operator rang five long rings into each home; in fact any emergency was known to neighbors in a matter of minutes. In the summer of 1963 the Stet community received dial telephone service with all lines laid underground.

The Stet community has always been interested in activities such as 4-H club work, Homemakers Extension clubs, baseball and softball.

STET

Stet. meaning let it stand, was named by Ed Mansur, a Stet storekeeper. It is one of the few small inland towns that has survived the decline in rural population since 1900. It not only has survived but is more prosperous now than it was at the time. Stet contributes its prosperity to the progressiveness and stability of the farm people surrounding it. Many people living on the farms in this area are third, fourth, fifth, and sixth generations of the same families living on the same farms.

In 1910 Stet had two general stores, a hardware store, a harness shop, and a blacksmith shop. One of the general stores was owned and operated by Dorsey Brothers in a building erected by Mansur and Jenkins in 1896. Fletcher Thompson made harness for local use, and the hardware store was owned by Bud Stratton. Joe Stratton owned a general dry goods store which had previously had these owners: A. S. Penniston and John Barnstetter, Jerry Clemens, Walter Tinsley and Norman Childers. The blacksmith shop was owned by Tommy and Abe Stratton, who purchased the shop from Mr. Avery.

In the teens, Stet kept up with the times and Stratton Brothers purchased the blacksmith shop and made it into a garage where one could buy a Ford car or "tin Lizzie" as they were called. The garage has changed ownership a number of times. Owners have been Mr. Heisle, Ed Doughtery, Roy Clemens, Glen Petree, Wilbur and Edwin Reeves. In 1967 Edwin Reeves is sole owner of the garage. CAA5001-219

Mr. Doughtery discontinued the sale of motor cars and since that time the shop has been used for repair of cars and machinery.

Joe Stratton sold his store to Oscar Swisher sometime after the fire in 1923. Mr. Swisher operated a grocery and general store at Quote, Mo. and continued in the same type of business at Stet. It has remained a grocery store since with these owners: Oscar Penny and Clifton Bright, Raymond Brock, Melvin and James Sprouse, Raymond Brock, John States, and J. R. Denton present owner. The old building has been given a new front and a restaurant is part of the service offered.

In 1915 Dorsey Brothers sold their general store to Clarence Howell, who in turn sold the business to H. D. Skinner Lumber & Hardware Company. Mr. Skinner also bought the Thompson harness shop. In the late twenties and the thirties, the store was owned by interests from away. Charley Rankins was manager and postmaster. R. G. Bales and wife purchased the store in 1942, and Mr. Bales became the postmaster. In 1957 the building was replaced, and the store began selling groceries.

Don Bullock built a garage in Stet in the late thirties which he operated until the early sixties. Mr. and Mrs. Bullock operated an antique business from their home which was widely known over the State. Gene Milligan operated the business a short time after Mr. Bullock's death. The Stet Milling Company recently converted it into a seed cleaning business.

Gene Dailey built a modern locker plant in 1947. Later a slaughter house was added where as many as 42 hogs have been processed in one day.

In 1962 two feed mill companies were organized and erected in Stet. The Stet Milling Company is owned by Burl Carpenter and his son and son-inlaw. Stet Feeders Supply Inc. was organized by Robert W. Hill, Earl Koontz, J. W. Williams, W. H. Frazer, Jr., Raymond Brock, Ray Gill, John William Tweedie. and John B. Dorsey. Marvin Williams was the first manager and Donald Amery became manager in 1965. Both mills sell fertilizer and perform a real milling-of-grains service for the farmers and feeders in the community.

Stet is a village with much community pride, and the local citizens are always prepared to do their part in the advancement of the County.

About 1918 the Santa Fe Railroad double-tracked northeast of Bosworth.

CA-A5-001-226

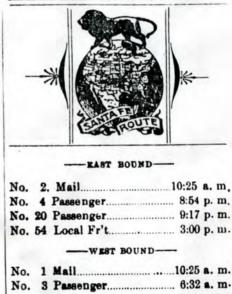

Steam engine pulling train over crossing two miles northeast of Bosworth - 1904-07

RAILROAD

In 1876, Fred Beck, Thomas Kerr, and Wm. Stafford owned the land that was to become Bosworth and North Bosworth. By 1882, the Chicago, Santa Fe, and California R. R. had acquired a right of way through the northeast corner of Sec. 26 and the southeast corner of Sec. 23. The road was completed in 1888, and consisted of a single track. By 1917, a second track had been completed. Many passenger trains stopped at Bosworth, but due to the increased popularity of the auto in later years, these stops were curtailed. A motorized car was put on which was referred to as the "Doodlebug" and was in service many years, making a round-trip from Fort Madison to Kansas City every day.

Early Section Foremen were brothers George and Bert Manson.

Early Depot operators were Frank Seigler, M. E. Helmick, W. S. Buckley, and Roy Rudd. Other operators were: Geary, Pete White, Bob Kinsey, Neva Chambers Smalley, Ed Humston, John Martin, W. B. Finley, H. H. Walker, Gordon Gorman, Harold Finley, Ruble O'Neil, Carson, Clyde Parrish, Paul Humston, Virgil Lora, Merrill Whitten, Marion Shinhelm, and Ed Hampton. TIME TABLE.

DATE Jan. 198

COUNTY BRIDGES.

Carroll county had, January 1, 1911, 189 new bridges built since September, 1903, of which 182 had cost the county \$89,937.29.

The first iron bridge built in the county was completed in May, 1883. It was built over Bridge creek at a cost of \$1,975. Since that time the cost of the bridge work in the county has gone steadily up, both on account of the increased amount of work done and on account of the better quality of the work put in. This latter will be more apparent by the study of the bridge figures for the past two years, which we add:

The Round Barn Carroll Co. Mo.

The "Round Barn" was built in the fall of 1915

CAAS001-228

by Thomas W. Gaston and his mother, Mrs. Annie Gaston. Tom's father passed away in 1900 and the farm was owned jointly by the above mentioned and the following brothers and sisters: Margaret, Bill, Joe, Isabel, Sam, Alex, Anna and Kathryn. All living elsewhere except Tom and Margaret.

In 1915 horses and mules were used for farming and fine harness horses for driving and riding. So this was a horse barn, with storage for grain and hay. The barn was set on a concrete foundation, 100 sack of cement was used. The barn is 18 ft. from ground to eves. 75 feet from ground to cupola top. A cedar shingled roof, and drop siding exterior. The hay used at that time was loose, brought in on hay frames, pulled by horses, pulled into the driveway. A large hay fork was fastened into the hay, and elevated into the hay mow by a big hay rope running through a series of pullies and a circular track at the first hip in the roof. The mow will store 100 tons of hay.

The Barn dimensions are 188 ft. in circumference, 282 sq. ft. floor space, 10 ft. drive way through center. Cupola is 6 ft. across at base and 18 ft. height, with a replica of the famous Trotter Nancy Hanks on the weather vane. Cupola Costing \$250.00.

There are 12 windows around the barn below and 6 above in the hay mow. The siding was soaked in water before nailing to the circular barn as were the rafters. Nails were bought by the keg. The first roof lasted for 40 years and in 1955 a new cedar roof was put on costing as much as the complete barn did in 1915 - which was \$2,500.00. There are no braces in the barn, the way the rafters were cut, it is selfsupporting. There are single and double box stalls for the horses. Kick boards up about 5 ft. in back mangers for hay and feed boxes at the front. There is a water storage tank in the hay mow, with water forced into it by a wind mill and water piped (elsewhere) throughout the barn & farm.

It is of interest that the head carpenter got \$2.50 a day and the two helpers \$2.00 per day. This included board and room.

The Barn is truly a land mark of Carroll County Missouri 3½ miles northeast from Bosworth.

GASTON ANGUS FARM 1883-1967 Owned by Thomas W. Gaston

The original one hundred sixty acres of this farm has been in the Gaston name since 1883. The father and mother of the present owner, Mr. and Mrs. Robert Gaston, purchased it from Robert Forsythe and wife Nancy. In 1899 eighty acres more was added by securing land from Sidney and Andy Dean.

Tom was born on a farm at the north edge of Bosworth, living all of his life in Ridge Township. He moved to this farm with his parents and brothers and sisters while quite young, taking over the management of the farm at the death of his father in 1900.

Buying out the heirs, Tom became the owner of the original two hundred and forty acres. Later buying one hundred sixty acres of the Noah Huntginger land and eighty acres of the Ed Purdy land, making an acreage of four hundred and eighty that he now owns and operates. The present house was built in 1911.

In 1915 the Round Barn was erected — a land mark in the County. It is a horse barn being built in the day of work horses and mules for farming and fancy driving and riding horses for pleasure.

Until after World War I, Tom was associated with his brother the late W, J. Gaston, who ran a livery barn in Bosworth, in the breeding and raising of saddle and fine driving horses. They won many honors and recognitions. During World War I, they bought horses for the Army. The horse in the picture was raised by Tom and sold to Ringling Brothers Circus.

Tom was united in marriage to Effie Mae Wilson of the Tina community in 1927.

In 1929 the registered Aberdeen-Angus herd was started, making his herd one of the older in the County.

In 1948 a home was purchased in Bosworth, and Tom and Mae retired but still manage the farm and Angus herd.

There are three surviving children of Robert and Anna Gaston: Thomas Gaston, Bosworth; Kathryn (Mrs. F. W. Smithpeter), Sedalia; and A. H. Gaston, Hot Spring, Montana.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

-- Another dramatic landscape change is appearing all over the State with expansive bridges on pillars replacing the much smaller truss style bridges of the early 20th century.

THE NEW BRIDGE

It has long been desired for a road across Grand River to the east of Bosworth, that was above the flood crest, and with the work well-started, that prospect is in sight.

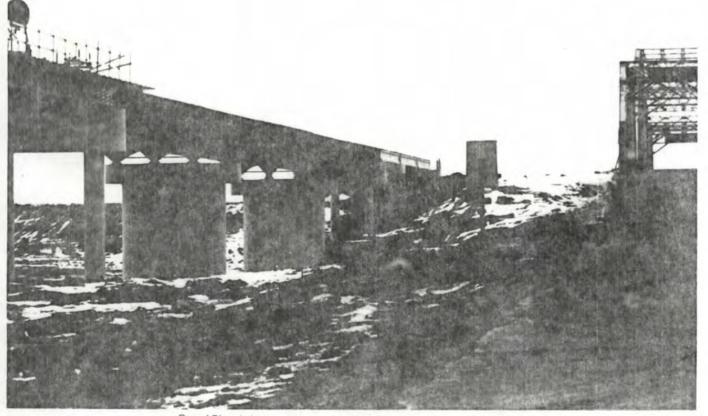

A survey was made in 1968 and sometime after the purchase of a right-a-way, bids were sought, but at the time, they were deemed too high.

The undertaking had long been discussed and various rights-of-way had been surveyed numerous times and a projected right-of-way had been purchased in 1973, but it wasn't until November of 1983 that work on clearing the area was finally started. The first bridge work was the construction of the piers for bridge and trestle. Work was slow, as the Spring of 1984 brought much rain and high water.

The work is being done by the St. Louis Bridge Company, All twenty-four piers are in place; the steel girders on the bridge piers and most of the prefabricated concrete ones on trestle piers; the decking on the trestle is well-started and most of the fill has been put in place.

The "bench mark" on the old bridge is 659.10 and the projected mark on the new bridge is 674.70, which makes it 15 feet higher than the old one. The center span of the bridge is 160' and the spans to either side

are 120' in length. The trestle spans between piers are approximately 60' making the total length of the bridge a little over 1,600'. The steel beams of the bridge are 9' tall where they rest on the piers and taper to 6' at the center of the span. The new bridge lies on the north side of the present one. The new road from the west leaves the old one as it goes down into the bottom and continues a parallel course on the south side, until it will eventually go across the old road to connect up with the trestle. The new roadway on the east side will connect up to the old road at the first curve. The dirt for the fill is and has been taken from the area north of the bridge and adjacent to the river banks, and will involve the moving of 542,000 cu. vds. of Class 'A' fill upon completion of the work. The exposed area is being kept leveled so that there will be no bar-pits. Most of the dirt work has been completed except for the roadway across the old road and adjacent to the bridge abutments. This work was accelerated during the late summer, when two shifts were inaugurated. The work on the bridge across Humphries Branch hasn't been started, and it is surmized at this time that it will not be until the spring of 1985. There is some doubt, at this time that the decking on the bridge and trestle will be completed before bad weather sets in. The final completion date will depend on the subsequent weather and to some extent, any flooding that may occur.

Grand River bridge - 1984. The new bridge on the left will replace the old bridge built in 1927.

History of Barworth 188-1985

Pioneer Life in Missouri Good and Hard

When the "Carroll Counfy History" of 1911 was prepared, the editors interviewed several of Carrollton's older citizens. One of the most interesting statements was made by Mrs. Nancy Adkins, at the time past 90 years of age but whose mind and memory were both excellent. Harold Calvert, a freelance writer who lives in Carrollton, found that her statement, which is printed here, gives an unusual insight into pioneer life.

"In those days people had to card and spin and weave cloth to clothe the family except their Sunday suits. They raised flax, wool, cotton out of which to make their clothing. They cooked on fireplaces in pots, ovens and skillets. The plates they used were made of pewter, and long-handled gourds were raised for dippers. All of the vessels were made of wood and put together with wooden hoops.

We made our own sugar from the sap of sugar trees; caught the water in troughs, boiled it down and made sugar. We bought very little, never saw any canned goods. raised everything on the farm. Children went harefoot all summer and never wore shoes till Christmas, never drank coffee. Men plowed barefoot visiting women went barefoot visiting and took their knitting or sewing and worked while they visited.

Men made their own shoes, leather tanned with bark off of Spanish oak trees. The plows they broke their ground with had moldboards made of wood. They cultivated their crops with shovels and hoes. Men would get up as soon as it was daylight and go to work. Women would spin and weave until 8 o'clock, when breakfast was served.

Wheat and tobacco were extensively raised. When the wheat was ripe, it was harvested with cradles and the women assisted the men in cutting and shocking the grain. When the wheat was dry, a vard was cleaned off and made smooth on which the wheat was spread, and horses rode over it until the grain was tramped. out. The straw was raked off and the wheat fanned by the use of sheets. In the winter men would build flat boats and press their tobacco in hogsheads. In the spring when the ice broke up they shipped the tobacco to New Orleans. Salt sold for \$1 per bushel and men worked for 25 cents per day.

In 1829 my father moved his family in ox-wagon to Madison, Illinois, and in 1832 he moved to Carroll County, Missouri, which at that time was a part of Ray County. He stopped at what was krown as the old Jimpson patch, near where Thomas Gray now lives. That fall he built where Edward Wilson now lives. At that time game was plentiful, prairie chickens, all kinds of wild fowl, deer and turkey. Men would hitch up a yoke of oxen to a wagon, take their guns, axes and clubs, and be gone a day and night, and come home loaded with honcy and game.

We had to beat most of our meal. There was a mill for grinding corn and a little store where DeWitt now stands. We would exchange furs. deer skins and bees-wax for goods at the store. There were no houses where Carrollton now stands. We went to Richmond (Mo.) for

Creek Crossing

This covered bridge at Carrollton, Mo., across Wakenda Creek, built following the Civil War, was in use during the era described in the accompanying article. a doctor and for our mail. We paid 25 cents for a letter. A man by the name of Louis Rees started the first store in Carrollton in a log house. Then Jack and Morgan put up a log shanty and sold whiskey. Then Dr. Folger settled there (1832). My father entered land joining the widow Thomas, cleared the land, built a house and lived there until the death of his mother.

In 1839 I was married to James Adkins by William Staton, justice of the peace. My husband was dressed in white shirt, white necktie, white Marseilles vest, black and brown striped cashmere pants, blue broadcloth coat and fine boots. I was dressed in what was called painted muslin, white stockings, pink sLapers, green scorf with white border and tea green gloves.

Next morning my husband took me home and we went to work. We didn't have any honeymoon those days: it was all work, no play. When I was 23 years old I united with the **Cumberland** Presbyterian Church and was baptized by Abbot Hancock in Big Creek. I am the mother of eight children, four boys and four girls, of whom three girls and two hoys are still living. In 1870 we moved to Pulaski County, Missouri, and settled on a homestead of 160 acres.

In 1891 my husband fell and broke his hip, which rendered him helpless until the day of his death, Oct. 23, 1903, at the age of 88 years and three months. I am living on the old farm, keeping house, doing my own cooking and go to town to do my own trading. I still go to church, but often think what a change has come about since my childhood. Pride and aristocracy are driving religion from men's hearts and from the pulpits. They are grabbing, reaching for the mighty dollar instead of thanking God for the many blessings He has bestowed upon them.

Homer Minnis Family

Emma Jo and Eldon Kinder

Mr. and Mrs. Homer Minnis at the Golden Wedding Anniversary Dec. 23, 1970

AAS-CO

Martha Jane and Milton Tietjens

Homer Taberman Minnis, son of Frank Earnest and Joan Smith Minnis was born Sept. 3, 1897. His pioneer grandfather was a native of Ireland. His father Frank was engaged in agriculture and served as Western Judge when the Carroll County Court House was built.

Homer was married to Eda Susan Goodson, Dec. 23, 1920. Eda, the daughter of Raymond and Emma Stamm Goodson was born Aug. 12, 1898. Raymond was descendant of John Trotter, who settled many acres of land and later donated to the public, land for the Trotter school, Church and Cemetery.

Homer and Eda grew up on their parents' farms which were about 3 miles apart. They, at the same time, attended the Trotter Rural School and Trotter Church and the Carrollton High School. Most of their married life was spent on the farm where Homer was born. Homer is a member of the Masonic bodies and a Charter member of the Carroll Co. Shrine. Both are members of the First Baptist Church.

When Homer was a young man he served as conductor of the Carrollton Street Car, which ran from the Florence Hotel to the Burlington; Santa Fe and Wabash Depots. He later worked as Driller in the Oil Fields of California.

Eda attended Mo. University and received a B.S. Degree in Education from Warrensburg State College. She did additional work at Mo. Valley College and Claremont, California College. She served 32 years as teacher of Trotter; Bogard and the last 17 years in the Carrollton schools. She is a member of the M.F.W.C.; the A.A.U.W; Past Matron of O.E.S. and a sunday School teacher of the First Baptist Church.

Homer and Eda are the parents of Mrs. Eldon (Emma Joan) Kinder and Mrs. Milton (Martha Jane) Tietjens.

Mr. & Mrs. Eldon Kinder own and live on the farm where her parents and Homer's parents lived. They own the Mode O'Day and Eldon is engaged in farming. They are the parents of Cathy Minnis and Rex Eldon Kinder. Mr. & Mrs. Milton Tietjens own and operate land

Mr. & Mrs. Milton Tietjens own and operate land near DeWitt. Besides their agriculture interests they have a fish hatchery and sell Channel Cats. They are the parents of: Paula Jane; Connie Marie; Daniel Milton and Richard Minnis Tietjens.

CAA5001- 240

Minnis Family of Iuland and America comp. by Elizabeth Auster, genealogist, pub. by Elizabeth Ellsherry, 19. Cholicothe Mo.

MINNIS FAMILY

of

IRELAND AND AMERICA

JOHN MINNIS. THE EMIGRANT

Ulster, the most northern province of Ireland, is composed of nine counties, Antrim, Armough, Caven, Donigal, Down, Fermanagh, Londonderry, Monaghan and Tyrone.

In the County Down, John Minnis, the Colonist, and founder of this branch of the Minnis family in America, was born about the year 1754, but of Scotch-Irish stock, his parents were Samuel and Mary (Bittles) Minnis of Ireland.

Some time previous to the Revolutionary War, John Minnis, then a young man, emigrated to the New World and settled within fifteen miles of Philadelphia, Pennsylvania. The records of the War Department, Washington, D. C., show he was sergeant in Capt. John Clark's company, 13th Pennsylvania Regiment, commanded by Col. Walter Stewart. H's name appears on the company muster roll of September, 1777, dated October 12, 1777. But it affords no information relative to the period of his service. The report of State Librarian, Revolutionary Soldiers of Virginia, page 311, shows his bounty warrant was 4,267. He received a wound in the face and carried the mark till death.

3

CA.AS-001-240

It has been well said, "It is to the fighting blood of the Cavaliers, and to the strength and stability of our Scotch-Irish ancestors, who have been called the backbone of the American Revolution, that we owe the fact today that we stand a world power among the great nations of the "earth."

Tradition says, and is well authenticated, that John Minnis was with the mob which threw the tea overboard in Boston harbor, that he was in the Battle of Bunker Hill, was at Valley Forge and Yorktown, that he werved throughout the war and for some time was an orderly under Washington.

Subsequent to the close of the Revolutionary War, he returned to Ireland, where he married Nancy Susan McCammon, of County Tyrone, about 1788, daughter of Samuel and Susannah (Anderson) McCammon, who were Scotch.

Mr. Minnis was a brave soldier and served well his adopted country, both on the battlefield and on the wild frontier as an active and fearless pioneer during the early days of Tennessee and bore an influential part in the settlement and development of the section of the country in which he established his home.

Mr. Minnis, with his wife. returned to America and settled in Blount County, East Tonnessee, where entered six hundred acres of land on Pistol Greak and Nine Miles Creek, is set county. They were accommend to America by three browness of Mrs. Minnis, John McGarmon, Samuel McCammon and

Thomas McCammon, who also settled in East Tennessee.

John and Nancy (McCammon) Minnis had issue:

(AAS001-240

I. Samuel, b. 1790.

II. Thomas, b. 1791.

III. Robert, b. about 1793.

IV. John Wain, b. 1794.

V. James Mathew, b. 1797.

VI. William, b. 1799. P. 12

VII. Susan, b. 1801.

VIII. Nancy, b. 1804.

John Minnis was heir to large estates in Ireland, the papers pertaining to which were in the custody of his eldest son, Samuel.

With regards to his property in Tennessee, it is found of record in the register's office of Blount County, Tennessee, record of deeds, Book "P", page 84, that James M. Minnis conveyed to Robert Minnis, his undivided interest in the lands of which his father died seized, situate on "Nine mile" creek, on the 29th day of June, 1838.

Also, on page 39, of same record, that John Minnis gave to William Minnis a power of attorney to sell his interest in same estate.

In Book "N," page 241, there is a record of power of abbout by from Thomas Minnis to William Minnis to sell his indecest in same property. Dated October 5, 1838.

CA-AS-001-240

The dates in all three entries are in the year 1838. Therefore J^Uhn Minnis, emigrant, died prior to June 29, 1838, at which date his son, James M. Minnis, disposed of lands inherited from his father, John Minnis.

In notes on the Minnis family it will be seen from the record that one "Minnis" served at Valley Forge. This is supposed to have been John Minnis, emigrant. We also have the following Revolutionary record from the Pennsylvania State Library:

Harrisburg, Pennsylvania, U. S. A.

December 28, 1912.

To Whom It May Concern:

I hereby certify that one JOHN MINNIS was a private in Captain John Murray's Company, Second Battalion, Pennsylvania Riflemen, Samuel Miles, Colonel.

See p. 326, Volume Two, Pennsylvania Archives, Fifth Series.

LUTHER R. KELKER,

Custodian of the Public Records.

In testimony whereof I hereby affix the seal of this department.

(Seal)

Ι.

SAMUEL MINNIS .

". Samuel Minnis, the eldest sou of John and Nancy

(McCammon) Minnis, emigrants, was born in Blount County, Tennessee, Jan. 9, 1770, and lived near Dalton, Whitfield County, Georgia. Died Sept. 2, 1866. Married Mary Pickens of Knox County, Tennessee, b. 1790, d. June, 1875. Issue:

II.

THOMAS MINNIS.

II. Thomas Minnis, son of John and Nancy (McCammon) Minnis, emigrants, was born in Plount County, Tennessee, Oct. 23, 1701. He was a coldier of the War of 1812, enlisting at two different times, and serving in all nine months. He was principally employed against the Indians in the South, but was on the way to New Orleans to re-enforce Jackson at the time peace was declared.

In May, 1317, he married Parmela Warren, daughter of Rev. Chas. H. Warren, a local preacher of the Methodist Church, son of Robert and Parmela (Love) Warren, who were

CA-AS-001-240

English. The wife of Rev. Chas. H. Warren and mother of Parmela Warren Minnis, was Sarah Ernest, daughter of Henry Ernest and Mary Stevens.

Mrs. Minnis was born in Tennessee. In October, 1820, Thomas Minnis and wife removed from Tennessee to Missouri, and settled first in Howard County, having been among the early pioneers of that part of the state. He left Howard County for Carroll in 1834. The family reached the spot where they made a permanent location (in Section twenty-five, Township fifty-three, Range twenty-four) on the fourth of March, taking up five hundred acres of Government land, which in due time he developed into a fine estate. His granddaughter, Mrs. Emma Minnis Chandler, is now living upon a part of the original grant.

In his new home Mr. Minnis was recognized as a man of ability. In October, 1834, he was appointed justice of the reace. February, 1835, the County Court made him exessor of the county, to which position he was again appointed. In August, 1836, he was chosen sheriff of the county, being the second person elected to that office by the people. In 1838 he was a representative for the county in the State Legislature, and in 1840 was re-elected to the same body. In the same year he was appointed Assistant United States Marshal, and in that capacity took the United States census for that year of Carroll County. For several

years he was a member of the Carroll County Court, serving first in 1844. He was Judge of the County Court for nearly twenty years, and was said to have had a more comprehensive knowledge of the law than any man of his day in the county. He was a prominent Democrat and influential in political circles. In religion he was a devout Methodist, of which church his wife was also a zealous and faithful member.

CAAS001-240

The first marriage recorded by Thomas Minnis as a justice of the peace was filed of record February 19, 1835, Book A, page 5.

Contemporary with Mr. Minnis in filing marriage licenses, we fin Reuben McCaskie, Johnathon Eppler, William Martin, Rev. Sashal Woods and others. In 1857, we find Thomas G. Dobbins, James Trotter and Thomas Minnis judges of the County Court.

Judge Minnis filled every trust to the best of his ability, with an honest endeavor to serve the best interests of his constituents. As a public officer no stain rests on his record. His death occurred April 26, 1863, and his remains rest in the cemetery at the old homestead, where he made his home for a quarter of a century.

Mrs. Minnis was a woman of devoted Christian character, charitable and hospitable. She was warmly attached to the interest of the Methodist Episcopal Church, South, and her home was frequently the place for holding the early Methodist

meetings before the building of churches. She passed to her heavenly rest August 12, 1865. Issue:

12. Martha Frances.

CHARLES MONROE MINNIS.

1. Charles Monroe Minnis, the oldest child of Thomas and Parmela (Warren) Minnis, was born in Blount County, fennessee, January 28, 18 3. He came with his parents to Heward County, Missouri, in 1820, where he grew to young manhood on his father's farm. In 1834 the family located in Carroll County, Missouri. Here Mr. Minnis followed agricultural presuits, having a large farm in Section twentyfive. He was a member of the County Court for a number of years, a member of the A. F. and A. M., and an influential man in his section of the country. He married first Episcopal Church, South. Their daughter, Ruth, is a graduate of the Carrollton High School, while Billy, Jr., is just entering the primary department. Mr. and Mrs. Holliday live 209 East Benton Street.

CAAS001-240

ELIZA MINNIS

10. Eliza Minnis, tenth child of Thomas and Parmela (Warren) Minnis, died in childhood.

AMELIA MINNIS

ll. Amelia Minnis, eleventh child of Thomas and Parmela (Warren) Minnis, died in childhood.

MRS. MARTHA MINNIS TROTTER

12. Martha Frances, the youngest child of Thomas and Parmela (Warren) Minnis, was born at the old Minnis homestead, four miles northwest of Carrollton, Missouri, August 24, 1836. All her life was spent in Carrollton and Carroll county. December 22, 1854, she was united in marriage to Alexander Trotter, who was born in Carroll County, Missouri, April 19, 1829, son of John and Miriam (Stanley) Trotter, and grandson of James Trotter, who served in the War of 1812. John Trotter located in Carroll county at a very early date; his wife was a native of North Carolina and died in 1862. His father, and

CA:AS-001-240

grandfather of Alexander Trotter, James Trotter, was of Irish descent, but the family lived in Virginia for several generations. James Trotter moved from Augusta county, Virginia, to Cumberland county, Kentucky, in 1806. His wife was Mary Beard. He died during the War of 1812, while with his regiment on the Northern frontier near Canada.

Alexander Trotter was a farmer and stock dealer. In 1849 he joined the rank of those who sought the gold fields of California, but remained only a few years. In 1870 he was one of the organizers of the Carroll Exchange Bark and actived as first vice president. Mr. Trotter was one of the county's most prominent citizens, a Democrat in early life but inter became a Republican, a Mason, and an active worker in the Baptist church. He died March 1, 1906. Mrs. Trotter, in her earlier life, was a member of the Southern Baptist church with her husband. She was truly a homember of a sweet, retiring nature, her chief joy we the here circle, which was broken up for the first time by her death, April 17, 1903. Issue:

(1) James William (No. 5)

(2) Lewis Calvin

(3) Fete Lafayette

(4) Anna May

(1) James William Trotter married, first, Alice

Timmons. Issue:

a. Anna Stewart

b. Scott

c. Martha

Married, second, Mrs. James (no issue). Married, third, Cora_____. Issue: d. Jesse.

a. Anna Stewart Trotter married James Alsop

CAAS001-240

(2) Lewis Calvin Trotter married March 3, 1880, Margaret Orchard, daughter of Thomas Orchard, born in Cromvell, England, 1830. He was the son of Thomas and Elizabeth Orchard, who emigrated from England to Cleveland, Ohio. The family later moved to Teronto, Canada. In 1849, Thomas Orchard, Jr. came to Carrollton and engaged in the mercantile business, he held various offices in town and county and was a man of honor and integrity. He married November 13, 1850, Miss Christina Brown, a native of Scotland, who corriver him. Mr. and Mrs. Lewis Trotter (both deceased) left issue:

a. Lewis Alexander

b. Harry Throop

c. Francis Orchard

d. Pete

(a) Lewis A. Trotter married August, 1912, Luella McDonald and lives on a Western ranch near Pana, Kansas.

CA.AS-001-240

(b) Harry T. Trotter is assistant cashier at the Carroll Exchange Bank, while (c) Francis graduated from the public school, 1912, and (d) Pete is a high school student.

(3) Pete L. Trotter is a bachelor. He was educated in the Carrollton schools and for fifteen years after leaving school held a position in the Exchange Bank. In 1907 Mr. Trotter was elected vice president of the bank which position he still holds. He is prominent in Masonic circles, a member of the Benevolent and Protective Order of Elks, and is recognized as an able financier.

(4) Anna May Trotter married April 12, 1998, Rev. Thomas Leigh West, a noted Baptist minister, a native of the Old Dominion and son of James E. and Mary M. (Johnson) West, and grandson of James West of Hanover County, Virginia. Mary M. (Johnson) West, the mother of Rev. West, was a daughter of William DePriest and Martha (Hope) Johnson of Englic', descent. In August, 1869, Rev. West accepted the pastorate of the First Baptist Church of Carrollton, Mo., which position he held until 1897, when he became corresponding secretary of the Board of State Missions and Sunday Schools of the Missouri Baptist General Association. He now has charge of the Baptist Mission work for the state. Rev. and Mrs. West have a beautiful home on North Main Street, Carrollton, Mo.

They have no children. Mrs. West is prominent in church and club work. As president of the Carrollton Magazine Club her review of the club work of 1911-1912 in verse was highly appreciated.

CAASOO1- 240

The Trotter family emigrated from the north of Ireland to Pennsylvania, thence to Virginia and from this state to Kentucky, still later to Missouri. They were wealthy, brave and patriotic and were among the first in Kentucky to answer the call to arms in 1812.

III

ROBERT MINNIS

III. Robert Minnis, b. about 1793, son of John and Nancy (McCammon) Minnis, emigrants, married and lived in Bradley County, East Tennessee. Issue:

1. James Crawford

2. Jane Eliza

3. John G.

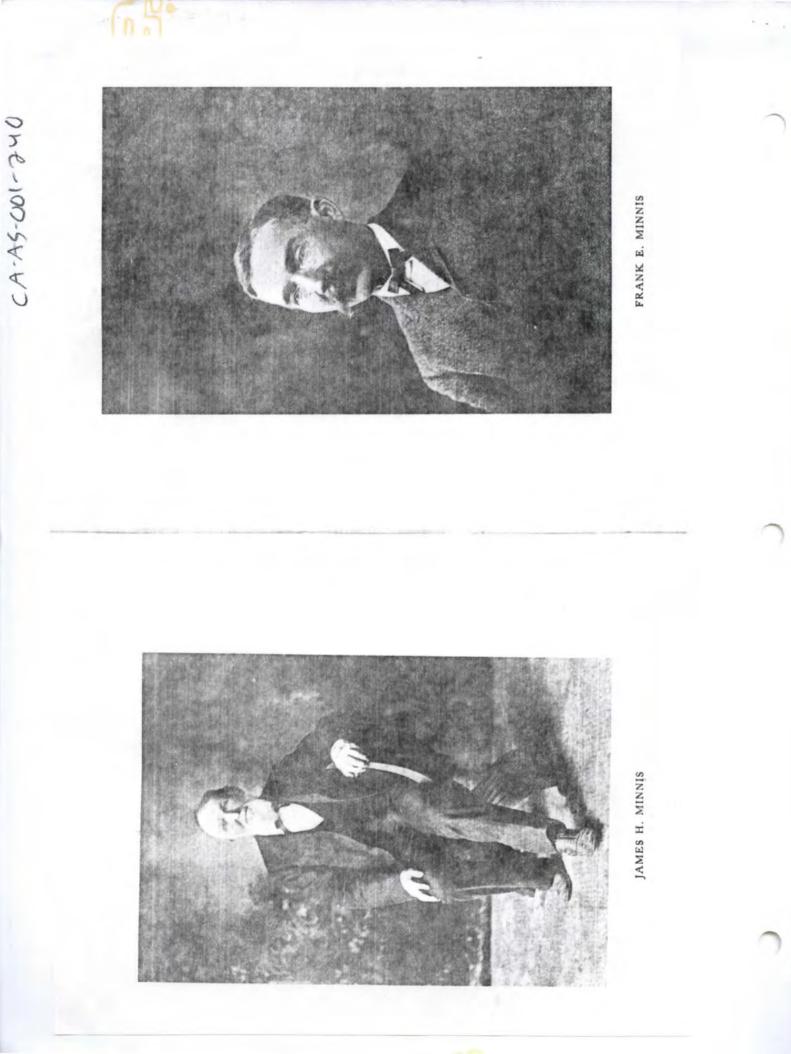

4. Mary Eliza

5. Nancy Sarah

IV

JOHN WAIN MINNIS

IV. John Wain Minnis, son of John and Nancy (McCammon) Minnis, the emigrants, was born in Blount

FRANK E. MINNIS. 1911-696 - 98

The subject of this review comes of Scotch-Irish ancestry and is a scion of one of the oldest families of Carroll county, and as such has nobly sustained the reputation of his ancestors and added to the luster of the honorable name which he bears. He is a successful agriculturist and enjoys a reputation throughout the community for intelligence, sagacity and integrity second to that of none of his compeers.

Thomas and Permelia Minnis, the subject's grandparents, were natives of Tennessee. As early as the year 1819 they migrated to Howard county, Missouri, where they were among the first white settlers and after living in that part of the state until 1834, they moved to Carroll county and located on a quarter section of land which Mr. Minnis purchased from the government. This land lies in Trotter township and was for many years the Minnis family homestead, being now the home of a granddaughter, Mrs Emma (Minnis) Chandler. In many respects Thomas Minnis was more than an ordinary man. He possessed sound, practical intelligence, and in due time became a leader among his neighbors, many of whom referred their business matters to him and reposed implicit konfidence in his judgment and integrity. He filled various offices in his township and served as sheriff of the county for several years and represented it in the Legislature two terms in an early day. He was a member of the county court for twenty years, and in early days was county assessor two terms. He took part in the Mormon war and was long a leader in the community. He lived an honorable, upright life and died many years ago on the farm which he redeemed from the wilderness.

James H. Minnis, son of Thomas and father of the subject, was born in Howard county, Missouri, August 30, 1822, and removed with his parents to Carroll county in 1834. He helped clear and improve the homestead in Trotter township and in early life learned tailoring. After attaining his majority he began working at the trade and followed the same during the ten years following. At the expiration of that time he embarked in the mercantile business at Carrollton as a member of the firm of Ely, Minnis & Company, and for a period of thirty years was one of the leading tradesmen of that city. Disposing of his commercial interests in 1860, he moved to Trotter township, on the old Minnis homestead, where he engaged in agricultural pursuits, which he conducted with marked success until his death, which occurred on February 23, 1906. Malinda Toberman, wife of James H. Minnis, and mother of the subject, was a native of Virginia, born on the 13th day of April, 1827. She became ill about the same time as her husband and departed this life February 21, 1906, two days previous to his death, both being buried at the same time and in the same grave.

Frank E. Minnis was born May 27, 1856, in Carrollton, Missouri, and spent the years of his childhood and youth in his native town. During the Civil war period he attended the subscription schools, in which he obtained his preliminary education, and later entered the public schools of Carrollton. where he pursued his studies until completing two years of the high school course. After the family moved to the country, he assisted his father with the work of the farm and on attaining his majority engaged in agriculture upon his own responsibility, which honorable vocation he has since followed with encouraging success, owning at this time a fine estate of one hundred and eighty acres and ranking among the most enterprising farmers of the township in which he resides. Mr. Minnis has brought his land to a high state U of cultivation and raises abundant crops of all the grains, vegetables and fruits grown in this latitude, his farm being well improved and comparing with the best of its area in the county. He has made all his improvements, including N a commodious modern dwelling with a full complement of comforts and conveniences, a substantial barn thirty-six by fifty-two feet in size, also a feeder

CA-A5-001-240

thirty by thirty-two feet, besides enclosing the place and subdividing the fields with fine wire fencing of the most approved kind. He still retains on his farm and puts to good use two log buildings erected in 1832, and which he permits to stand in memory of time and scenes forever past.

Mr. Minnis is one of the influential Democrats of Carroll county and as such has rendered worthy service to his party, in recognition of which he has been honored from time to time with important official trusts. He served twelve years as trustee of Trotter township and proved a most capable and judicious public servant, and he was also a member of the school board one term during which the present fine school building in district number five was erected. He served two terms of two years each as judge of the western district county court and it was during his incumbency that the present county court house, one of the finest structures of the kind in the state, was planned and built, together with all the improvements subsequently added. Among other important business which came before the court during his term of office was the Sugar Tree drainage case, which attracted wide attention and interest and which, largely through his efforts, was settled to the mutual satisfaction of all the parties concerned. In all of his public relations Mr. Minnis displayed ability of a high order and was unremitting in his efforts to promote and safeguard the interests of the people. He met the high expectations of his friends and fellow citizens, irrespective of political affiliation, and left the various offices with which he had been honored without a taint of suspicion on his record. Fraternally he is a member of the Knights of Pythias and the Independent Order of Odd Fellows, and religiously belongs, with his family, to the Methodist Episcopal church. South, in which for a period of four years he has been a member of the official board.

Mr. Minnis, in the year 1885, was united in marriage with Joanna P. Smith, whose birth occurred in Ohio on the 26th of November, 1859, the union being blessed with the following children: Walter S., an oil operator of Coalinga, California; Roger M., who is in business in Carrollton; Smith E., Horace J. and Homer T., all three still with their parents, a son, Frank E., Jr., having been killed by a horse when ten years old.

CAASOO1- 250

Van Even Erunde Unniversary 1884 - 1934 - 50 Thurs a little white church, By the side of the load, and its doors are open Wide as if mosting the passers - By To come and worship inside. To foin with voice in song and flaise and lift to Good a prayer For strength to bear the leudens of life and the every burden will share. On January 20, 1884 Van Horn church was dedicated to the work of the Master. On fancing to, 1934 it observed its Fifty years of existence. Rev W. f. Mailingale was Ruseding elder at the time of dedication. My First knowledge of Van Horn Was in 1890, some six years later a cyclone visited this section soon after the First chuch was built and it was blown Jown as where also several houses theme it. The church was promptly rebuilt, "For the people had a mind to work. In Jancy I still can see those who were regular at those church dervices, Many who sleep in The quiet came tery adjoining. among the number were The and Mis Frank Sparks, The.

CA-AS-001-250

and Mis Vie Dickinson, The and Mis John Cheesman, Mr and Mes Jona than Walker, Me and Mes Chas. Perraten, Me and Mis telich Pereten, Me and Mes John Horning, The and Mrs Elias Riber, Me and Mes Rich Smith, Mis Sharon and Saughter, Rose, and lons, Will and Otis, The and Mis Herman Deiserer and Zamily, Mr. and Mis John Reber and Saughter, Kiety, Me and Mes Chas agams, Me. and Mis Terchell adams, Frank Bacnett, Bainey Hudson, Grant and Sher-Man Kingery. first three- Fourths of a Mile north of the church stood the village of Van Hoen. It consisted of a store, post of-Fice, the home of the village doctor, Dr Havens, a blacksmith shop operated by Isaac allen. Besides these there Were a group of dwellings, one of these was the home of feter B. young, who Was the local pleacher and Sunfay school superintendent of Van Horn church. This village became a Memory when the Builington salsoad was built and the new post office moved to the New town of Vina. Some of the first Ministers seeving on this work here

Were: f. D. Mendenhall, Rev. Noris, D. F. Harrison, Rev. yount. One of the well remembered reviewlo in this church was conducted by Miss Ro-Macke and her Singer was Miss Me-Collorigh. There were Large crowds and much interest, the effects of this Meeting are still felt in the neighborhood as some of the strongest Members noir in the service of the church were conwested during this meeting. Many Junerals have been held here and loved ones laid to sest in the

cemeting nearby which is a well kapt resting place.

For ta time no sewices were hills at Van Horn, interest seeming to die, but two years ago, God acoused the neighborhood to action. Sunday school was organized with new year, so now a strong Sunday school is much in widence and preaching once a month by Rev. W. W. Glay. The Sunday school superintendent is fames Millener and there is a staff of good teachus. The church has been painted, re organized with new zeal, so now in good condition. Van Horn church is in a beautiful

CA-AS-001-250

Socation, nine miles north of Gaudlton on Highway 65. So after Fifty years 98 42.2: have glown, the lettle white church still stands upheld by loyal christian aid, a place of Worship in a busy fand and may had ever keep it thus. as a beacon of gleaming light, to shed its rays through years to come, for bod and home and right. By Mis Jennie U. Grawford.

Sair

-- Original brick smokehouse with engaged chimney in rear; had a fireplace in basement for the kitchen; staircase used to spiral to basement but has been removed; wood for house shipped from St. Louis. Has original shutters; built for stone flues, but included a great fireplace in rear center bay; house includes a great foyer room in center bay. The layered molding inside represents one of the first houses to change locally from the flat Greek Revival woodwork.

No. 5 The Heritage Home of Mrs. Jack Patterson, former Josephine Standley Huddleston, grand daughter of William Standley.

The Heritage built in 1868 by William Standley 1822-1901, grandson of John Standley donor of the 80 acres upon which the town of Carrollton is built, is located one mile east of Carrollton. The 400 acres upon which it was built was purchased from the U.S. government in the late 1840's for about one dollar and one half an acre. Family freed slaves did the brick work, laving as many as 2000 bricks each a day, they also did much of the carpenter work. The bricks were made in a local brick yard, limestone used in the house was from the old White Rock guarry located about 10 miles east of Carrollton. The lumber was purchased in St Louis and shipped by river packetz to Waverly landing, then hauled by ox team to the building site. The three story, twelve roomed structure had a large hall with a spirling walnut stairway running through the three stories of the house. The construction was very modern for the time, each room having a flue opening for a wood burning stove. The first floor had sleeping rooms for the hired help and a kitchen with a fireplace as a supplement to the stove for cooking. The second floor had a dining room, living room, bedroom and a library with a fireplace. The third floor had sleeping rooms. The wood casements are very wide and heavy, in some rooms very ornate. The walls are all solid brick starting at twenty inches thick on the first floor and fifteen inches on the second and third floors. All rooms were constructed to have cross ventilation for comfort in hot weather. Wooden pegs were used in the construction of the windows and shutters but in most of the structure hand wrought square nails were used. Over the period of years the house has been renovated and modernized three times and is in the process of the fourth renovation. The first floor is now used for heating equipment and storage with living guarters on the other two floors.

The Heritage is now owned by Josephine Patterson a granddaughter of the builder who resides there with her husband Jack H. Patterson and two daughters Linda Lee Huddleston and Jane Ray Huddleston, daughters of Josephine and her first husband, the late Ray Huddleston. The daughters are the fourth generation to live in the home, Josephine and her sisters, Geneva Standley Rioth and Bertha Lee Standley daughters of Benjamin Y. and Bertha Schnapp Standley being the third. B. Y. moved into the home with his father William and mother Sara Maggard Standley when he was ten years old. The home has been occupied only by the family since it was built.

J.B. Stanley Affectionately Known As Judge.

Elizabeth Francis Knox

Jeremiah Bascom Standley

Elizabeth Knox Standley

Carrollton remembered by E. Fisher Dikeman. As a little girl I used to play in the cemetery and wonder about the people there and how they used to live. Also wondered why Carrollton wasn't called Standleytown since our great, great, great grandfather gave the land for the town and so many Standleys lived there. Wonder if it was because they put a "d" in Stanley for "damn the King".

In those days the oldest son inherited everything and supported all the family. So they came here to be independent and for adventure. So arriving here changed our traditions and had different styles of serving and each had his own land.

Old timers sang the same old songs they sang in England. Do you remember "Old Sampson had an Old Gray Mare" and "Poor Babes in the Woods"?

Our great grandfather had horse racing on his farm every Sunday and all the neighbors participated until he "got religion" and this stopped. Then they had picnics every Sunday, croquet for mixed company and horse shoe pitching for the Cracker barrel group. Nice life. Grandfather and grandmother Standley had three

Grandfather and grandmother Standley had three children: Alva Standley Fisher Kratz; Kate Standley Dyer and Fred Standley.

Grandfather was County Treasurer and helped in other ways; Judge of County Court. Mother, Alva Kratz helped him. She stayed on through several administrations and married John Kratz (builder of better homes), raised a family and educated them. Everetta Fisher Dikeman; Dr. Paul Kratz; Jerrold Kratz and Betty Coralyn Kratz Morrow. Alva Kratz was President of the Music Club; held State office in Music Club and was a President of Forum. She was especially talented and gifted in gardening, while keeping up with the work in the Court House. Doubt if they had a garden club here in those days.

Their second daughter, Kate Dyer married Brown Dyer, who spent years in the lumber yard and was an ardent church worker until they moved their brood to Seattle. They had ten children: Marian Grant; Francis Holmberg; Frederick Brown Dyer; Lucile Evans; Evelyn Pederson; Majorie Dick; John Paul Dyer-deceased; Shirley Sykes Standley Dyer and Beverly Jane Levisee. They are scattered along the West Coast from Alaska to San Diego, so Aunt Kate had her own Court House, so to speak, trying to educate such a bunch and they are all doing very well and can sing the old time songs of Carrollton and all are gifted. Kate is the only surviving child of Jerry and Elizabeth Standley.

Their third child, Fred Standley, was a farmer until his war injuries, and was more of a Philanthropist then is generally known. He married Mabel Eisenhour (need we say more about the well-known Eisenhours) and they had two children: Elinore Lou, deceased and Donald Standley. During this time she worked in the Abstract Office. Uncle Fred was famous for his apples and strawberry patch and could make anything grow.

Grandfather, as County Treasurer, always got free tickets to the circus and it was great fun to watch the big parade from our box seats. Many yards were stopping areas for performances and swinging from trees weeks after the circus rolled out of the freight yards and after watching them load the elephants.

In between baseball games and football, we managed to get an education, boosted by our yearly exposure to Chautauqua.

Then came the fairs; weekly band concerts and school competitions and debates, some excelling in sports (crew for Fred); some in music and most keeping our sense of humor and good disposition. After the rage for croquet, came boating and swimming at the Lake. How many remember the old Swing?

The farmers have been reduced in numbers and have almost lost that old gracious country lovin' feeling, spending less time cultivating their land due to machines. Industralists and nuclear physicists ruling the world. The Standley clan have kept up by producing or marrying engineers and other technical personnel. The machine is now King. Is this good or bad?

The name Standley is of Saxon origin and was an ancient name in England at the time of the Norman invasion, the spelling at that date being Stoneley. Joan, daughter of Thomas Stoneley, married William de Alditheley, grandson of Adam de Alditheley, who accompanied William the Conqueror into England. Joan's dowry was the Manor of Thalk in Staffordshire, which her husband exchanged for the lands of Stoneley, after which he assumed the name Stoneley. Descendants of the Standley or Stoneley family are scattered over a great part of the British Isles where many lines are of the nobility and landed gentry. The first Standleys came to the New England states in 1634, settling in Connecticut and Massachusetts. The Standleys were among the early settlers in North Carolina, about thirty families of this name being listed in the first census taken in 1790.

The name was spelled in various ways. Some say those spelling the name Standley were rebels against England in the Revolution, while whose omitting the "D" were Loyalists. In the will of the pioneer John Standley, the form of Standley was used. His descendants in some instances have dropped the "D", others retain it. One of the older members of the family said the "D" was not used in North Carolina and was added after they came to Missouri to help identify their particular branch of the family. I have used the form Standley in the history as this spelling was used in the earliest records we have of our branch of the family.

One who has made a study of Standley characteristics says, "Their record in America is that of a sturdy, industrious, conscientious and strong-minded race." One historian in North Carolina commented as follows: "The Standleys were a

brainy and distinguished people, aristocratic and hot-tempered." In the early days the family motto was "Sans changer.", meaning "without changing".

(A-AS-001-256

JAMES , DICY ANN

VINCY.

John Standley, our first ancestor in North Carolina of whom we have definite record, married Rebecca Shinn. The Shinn family were also pioneers in North Carolina but were not so numerous there as the Standleys. The Shinns were of English descent, in England the name was spelled "Sheene."

It is not certain just when John Standley first came to Wilkes County, North Carolina, from Virginia. This county was formed from Surry County in 1777. He was there within fifteen years after its formation as his eldest son James was born in Wilkes County, N.C., Nov. 6, 1792. White men were in the neighborhood as early as 1740 but for at least ten years later that section of the state was very sparsely settled. Most of the settlers of Wilkes County came from eastern North Carolina. Several Revolutionary heroes were residents of Wilkes County, and it is said nearly half the soldiers in the Battle of Kings Mountain were from Wilkes. General William Lenoir was still living near Wilkesboro when John Standley emigrated to Missouri. Twenty years after John left Wilkes County, the first public schools in North Carolina were established but it was a number of years before they reached all the people. In the early history of the county, opportunities for obtaining an education were scant.

Previous to the building of the first courthouse in Wilkes, the regular courts were held at various places, sometimes in houses, and sometimes in the open under the trees. The first courthouse was built about 1799. It was made of logs and fastened together with wooden pins. The jail was a still older building, being built immediately after the county was formed. It was a wooden structure and it was said Colonel Benjamin Cleveland kept Tory prisoners in it during the Revolutionary War. The stock, whipping post and pillory were near the jail. Both of these buildings were still in use when John Standley moved from Wilkes County to Missouri in 1819. The county records of Wilkes Co., N.C., show that a John Standley bought 100 acres at 50 shillings per acre from the State of North Carolina, on April 12, 1799. This land was described as follows:

1 AAS001-256

-3-

J JAMES (

MAY NNY . TOL

"Lying in the County of Wilkes on the waters of Hunting Creek, beginning at a chestnut at William Nance's line, running up the meanders of the creek to a chestnut on the bank, thence west 140 poles to a chestnut, then north 120 poles to a stake in William Nance's line, then south with said line 22 poles to the corner, then east to the beginning. With all woods, waters, minerals, etc., paying such sums yearly as our General Assembly from time to time may direct, provided that the said grantee shall have this grant registered in office within 12 months. Letters to be made patent, etc." Witness, Benjamin Williams, Esq., our Governor Captain General and Commander in Chief, at Raleigh, December 5th, in the 25th year of our Independence. Signed, Benjamin Williams, in the year 1800.

From 1804 to 1819 John Standley sold various pieces of land. On June 12, 1819, he sold two pieces to Benjamin Lewis. It is probable that shortly after this last sale of land, the family left on their long journey to Carroll County, Missouri, arriving there November 13, 1819.

Early in the year 1818, the Government lands located in Carroll County, Mo., were advertised to be sold. George Combs of Wilkes County, North Carolina, sold 160 acres of Military Bounty Land, the SW 1/4 of Section 33-53-23, to John Standley for the sum of Two Hundred Fifty Dollars (\$250.00). We do not know the exact date John Standley and party left Wilkes County. It is probable they were several months on the road, perhaps the greater part of the year, as at least one stop of considerable length was made. The departure of a group seeking new homes in the Far West was a time of sadness for relatives and friends left behind because there was little chance that the travelers would ever return or that their friends would ever join them in their new homes. Hundreds of miles of forestcovered mountains lay before the travelers, wild beasts, savage Indians, and dangers of every kind were to be met. The William Furner family-accompanied the Standleyes* John and Rebecca's younger children were of course in the party, his eldest son James, and it is thought his daughter Dicy Ann and her husband, Joseph (*This statement, in the Carroll Co. History, has been confusing. The Turners arrived in Carroll Co. about the same time as the Standleys, but came from South Carolina and Tenn.)

Johnson, came to Missouri at this time. Dicy Ann's eldest son, John Nelson Johnson, was born in Wilkesboro in 1814. Later in life he stated that he came to Missouri with his parents "at an early age." In the history of Carroll County, Joseph Johnson is named as one of the earliest settlers.

JAMES & DICX ANN

A TOK

It was customary during these long, hard journeys to make what was called a "long halt", or to stop at some favorable camping spot for a rest. The time was spent in repairing the damages of the trip, making clothing from skins, moulding bullets, repairing saddles, jerking venison, and securing food for the rest of the journey. The horses had an opportunity to rest and fatten on the wild grass. Other stock also recovered from the hard travel of the road. One such stop as this was made by the Standley party when about one third of the journey had been accomplished. This was in the vicinity of Lexington, Kentucky, near the home of James and Mary (Beard) Trotter. James Standley, as will be seen in the sketch of his life, married their daughter, Jane (or Jenny) Trotter.

The travelers arrived in Carroll County on November 13, 1819. Wakenda, an Indian name meaning "God's River" is the principal stream flowing through Carroll County and the vicinity of this creek became the scene of the earliest settlements of the county. The Standley family settled about where Hillside Greenhouse now stands (1938) in Carrollton.

Notwithstanding the sickness and trials of the settlers, the population increased. In a short time twenty families, gathered from almost as many states, settled permanently within the present limits of Carroll County. Indian depredations were committed and a few of the first white settlers met their death at the hands of the savages. After this loss of life, which created deep excitement, John Standley and the other settlers built a small block house near the Standley home for protection against Indian attacks.

In 1830 or 1831 John Standley built a house near the creek which bears his name, Standley Branch. It was a well finished log building and for years was the hospitable mansion of its proprietor and was one of the old landmarks of Carroll County. It was considered the best house within the limits of the County. It was located immediately north of the section line between sections 52 and 53 on the east side of Standley's Branch, and about fifty yards distant in what is known as Trotter's pasture.

CAA5001-256

JAMES (DICY ANN ' A PR

In July, 1833, John Standley was a member of the first grand jury. At this term of court he and his wife Rebecca in open court acknowledged the deed to the eighty acres of land on which the town of Carrollton is now located, to John Morse, Felix Redding, and John L. Lewellyn, members of the County Court. The July 1834 term of Circuit Court was held at John Standley's on the 24th day. The November 1834 term was held there, and the March 1835 term as well. In those days everyone took his lunch to court. At the February term, John Standley, Commissioner, was ordered to sell all timber on the streets and public square.

Later John Standley sold his dwelling and several hundred acres of land to David Thomas of Kentucky, he sold to Rev. Sashell Woods, he to Colonel David Walker, who removed all the buildings from the foot of the hill to the top where they stood for thirty-three years. The house was destroyed by fire June 11, 1382. The old house had been used as court house, Clerk's office, church and dwelling. One of the first religious services in the county was held in this house by the Rev. Harris, a Methodist preacher.

It is said John Standley was connected with the Methodist Church in Missouri. Many of the Standleys in Virginia were Quakers. In later years large numbers of them were dismissed from the Quaker church for marrying someone not of that faith, or for breaking some of the strict rules of the church. Both the Johnsons and Standleys used the given name "Strangeman", which came from the Hutchins family who were strong in the Quaker faith. John Standley was deeply religious, and when the county became more thickly populated he was offended by the amount of liquor consumed by the incoming frontiersmen, and he removed to the northern part of the county, saying his former location was no longer a fit place to rear children.

CA.AS-001-256

JAMES DIOY ANN

. VIAL

The first death in Ograrell County was John Standley's son William on August 8, 1824. The first marriage was his daughter Mariam to John Trotter. The first birth was that of his grandson, William Standley, January 20, 1822. The first baptism by immersion was that of his daughter-in-law, Harriett, wife of Uriah, in 1826. then Harriett Lucas. (Did not Jenny Trotter Standley, wife of James, die prior to William?)

John Standley was born in 1764 in Virginia, according to the census records. The exact date of his death has not been determined but it was near the first of April, 1852, as his will was filed for probate April 5, 1852. This will was b. 1760-70; died 1833-40 written November 15, 1851. His wife, Rebecca Shinn,/evidently died before this (Rebecca Shinn Standley signed a deed as late as 1337) date as she is not mentioned in the will. Some thought Rebecca was a second wife. but had no positive knowledge. John Standley stated in his will that he had made provision for Dicy Dorsey, Larkin Standley, Lucy Standley, and Hugh Standley during their lives, and makes provision for four living children, Miriam, James, Uriah and Elihu. The specific bequests were as follows:

To his son James Standley, the SW 1/4 of Section 9-25-23.

To his daughter, Miriam Trotter, Block 4 in the Town of Carrollton, with the appurtenances therewith belonging.

To his son Uriah Standley, the SE 1/4 of Sec. 33-53-23, with its appurtenances.

To his son Elihu Standley, the SE 1/4 of Sec. 27-53-23, together with its appurtenances.

The balance of his estate, real and personal, was to be divided equally among the above four children. James was named executor.

The graves of John Standley and his wife had been lost. The tradition is he was buried near his old home, and this location was the family burying ground of the early Standleys. Stones of this old cemetery were found not many years ago on the place one door east of Brack Collier's home on the Old Conkling place. The present (1938) residents of the place were asked about the old cemetery and they said they have never heard of it. But one person said she knew the cemetery used to be located there and that when a child she made play houses of the broken stones. It seems incredible that a cemetery could be neglected in this way, yet nearly every neighborhood has like instances. Mrs. Susan Godfred Whiteman, who wrote a poem called, "Story of the Flag", relating events in the lives of Wakefield and Alexander Standley, comments on the lost grave of John Standley in the poem as follows:

1AAS001-256

-7-

JAMES I

DI CY ANN

"The generous hunter gave them ground Where first his rude log cabin stood; An eighty acre-tract of wood And sloping upland, steep ravine, No better sight have I e'er seen -Indeed, I've thought when walking there, That town is like Mount Zion fair. Here lived and died the hunter bold And even his grave, so I am told Is lost - the ground to strangers sold."

John Standley led an active and useful life, and took his place as an honored leader in his community. He must have been an adventurous spirit to leave a settled section of the country to make a new home on a frontier still occupied by hostile Indians, making such a move at the age of 55. Equal courage, perhaps more, was shown by the faithful wives of these pioneers. We rever the memory of such a wife, Rebecca Shinn Standley.

Not all lists of John Standley's children given the same number, but twelve names are found in the various lists. In 1926, Victoria (Payson) Standley was interviewed. She was then 86 years of age. She stated there were twelve children, seven boys and five girls. She could not name the parents of John Standley nor the parents of Rebecca Shinn. She said her father-in-law, James Standley, made several trips back to Wilkesboro, North Carolina, after she came into the family. That would have been between 1855 and 1874. She did not know the names of relatives he might have visited on these trips.

Of the twelve children born to John and Rebecca Standley, eight are mentioned in his will. Of the remaining four, we know William died in 1824, and it is thought Joel died when young. That leaves Rebecca and Eunice of whom we have no record as yet. Probably they died in early infancy. We have listed below the twelve children of John and Rebecca Shinn Standley. The order of birth will doubtless be changed when all the birth dates are obtained. We know James was the eldest, and William is believed to be the youngest. From their marriages we conclude Dicy Ann and Lucy were among the older children.

BENJAMIN Y. STANDLEY. 1911: 802 - 3

Among the oldest and most prominent of the early families of Carroll bunty are the Standleys, who have been identified with its interests since the ays of its earliest settlement and who have ever taken a proper part in all re activities of the community of which they have been a part. The rther, grandfather and great-grandfather of the present subject were men of ifluence in the community in their day and were ranked among the most rogressive farmers of their time; the same can be said of their sons at the resent time.

Benjamin Y. Standley was born on December 17, 1858, on the old tandley farm, near Carrollton, Missouri, the son of William and Sarah tandley. (For his parents, see sketch of Pritchard B. Standley.) Benjamin tandley received his education in the public schools of Carrollton and worked n the home farm from boyhood. On arriving at the age of maturity he

CARROLL COUNTY, MISSOURI.

began to farm for himself on the farm where he now resides and which he now owns, a part of his father's old farm on which he was born and reared. His land is well improved and very fertile, with buildings entirely adequate to the needs of its owner. It was purchased by his father in 1848. Mr. Standley is one of the modern farmers of his community, keeping up with the latest improvements and methods.

On March 6, 1902, Benjamin Y. Standley was married to Effie L. Arnold, the daughter of William Arnold, of Carrollton, Missouri. Two children, David Y. and Laura R., were born to this union. Their mother died on September 5, 1905, and Mr. Standley was married on May 18, 1908, to Bertha Schnapp, the daughter of Morris Schnapp, of Carroll county, Missouri. Her father was born in Germany and came to this country in 1852, locating in De Witt township, Carroll county, where he grew to manhood. He lives on a farm he owns one mile east of Carrollton. His wife died on January 26, 1896. To Mr. Standley's second marriage one child has been born. Sarah G. In politics Mr. Standley is a Democrat. Upright, honorable in all his dealings, genial and affable, a true friend to those to whom he gives his friendship, Mr. Standley is much respected by those who know him.

803

PRITCHARD B. STANDLEY. 19/1:785-86

In the present article is recorded much of the activities of a family which has for many years been identified with Carroll county, which has been the scene of its operations for four generations. During all this time, from the pioneer settler to the younger men and women who bear the name of Standley today, that name has been synonymous with honesty and strength of character exemplified in life.

Pritchard B. Standley was born on August 9, 1861, in Carroll county, Missouri, the son of William and Sarah (Magard) Standley. His paternal grandfather, James Standley, came from North Carolina to Carroll county, Missouri, on November 13, 1819, and took up large tracts of land, subsequently donating to the town of Carrollton eighty acres, and the city of Carrollton is mostly built on this tract of eighty acres. He was one of the first settlers of the county and one of the influential men of his time. His wife was also a native of North Carolina. Among their children were James, Elizabeth, Uriah, Jesse B., Hiram, Wakefield, John, Milton and William.

William Standley was born on January 29, 1822, in the log cabin in which his father had built on ground now within the corporate limits of Carrollton. Five days after the birth of William Standley his mother died, and his grandfather took the babe and kept him until he was fifteen years of age. His schooling was meager, but the best obtainable in the settlement. After he grew to manhood Mr. Standley located a short distance southeast of Carrollton and began farming. Except for a period of a year and a half spent in California in the early fifties, his entire life of eighty years was spent within two miles of the place of his birth. William Standley was as closely identified with the early history of Carroll county as any man When he was born the county had not been named, and had been laid off into sections but three years earlier, while scarcely a hundred people lived within its present bounds, and his entire boyhood was spent in a pioneer atmosphere of hardship and toil. He was eleven years old when the county was organized. All the older citizens of Carrollton were familiar with his life, and from them all came the same testimony: He was a good citizen and a good man. In his younger days he accumulated a fortune, and in his declining years lived at ease. Though of a retiring disposition, he loved in his older days to talk of the early history of the county, and many were the interesting incidents he could relate of the happenings when the county was a wilderness. He was prominent in the Christian church, in which he had been a deacon for many years.

William Standley was married in March, 1845, to Sarah Maggard, who was born in Monroe county, Virginia, May 19, 1826, and came with her parents as a child to Missouri, and to Carroll county in 1843. To this union eleven children were born, four of whom survive, John H., Benjamin Y., Pritchard B. and Robert Lee. Mrs. Standley was called to her last home on February 4, 1886. She was an exemplary member of the Christian church. Mr. Standley survived her until September 18, 1901, and at the time of his death he was the oldest native-born citizen of the county.

Pritchard B. Standley was reared on his father's farm and educated in the common schools. He worked on the farm from boyhood and at the age of twenty-two began farming for himself on the land which he now owns. The Standley farm is one of the old land-marks as one of the first improved farms in the county, and is located a mile and a half from Carrollton. Mr. Standley is a progressive and up-to-date farmer and has prospered in his operations.

Mr. Standley was married on May 13, 1883, to Catherine F. Forman, who was born and reared in Linn county, Missouri, the daughter of L. T. Forman. Mr. and Mrs. Standley are the parents of five children: William M married Pearl Jenkins and has two children, Jewel and Melvin; Cecil L. married Claud Tucker; Lowell L. married Maud Atkins, and has one child; Lynntoria and Mertin M. are at home. Mr. and Mrs. Standley are members of the Christian church. The vicinity of Carrollton numbers no more progressive or useful citizen, nor one who has the good of the community more at heart than Mr. Pritchard B. Standley.

JERRY B. STANDLEY. 1911. 723-24

The gentleman whose name introduces this review belongs to a family whose appearance in this part of the state of Missouri and the opening of Carroll county for settlement were contemporaneous events. According to the most reliable data obtainable, grandfather Standley, from Wilkes county, North Carolina, moved to this part of the state as early as 1818 and entered the land on which Carrollton now stands, and later, when the site of the seat of justice was officially selected, he donated eighty acres for a town site and other public purposes. He was one of the first permanent settlers of the county and is remembered as a man of more than ordinary energy and daring. He took an active and influential part in the development of the section of country in the vicinity of Carrollton and his name is permanently connected with the founding of the town and the early years of its history.

Uriah Standley, the father of the subject, was reared in Carroll county, and in due time became one of the leading farmers of the same. He, too, ranked among the representative men of his community and his influence in the settlement and development of the country was marked and salutary. He married, in early manhood, Harriett Lucas, who in her early years came with her parents from Kentucky, and he became the father of twelve children, the subject of this sketch being the youngest of the family. Shortly after his marriage, Uriah Standley moved to the north part of the county, where he lived until his death, in 1880.

Jerry B. Standley, whose birth occurred in Carroll county on March 30, 1855, was reared amid the inviting prospects of rural scenes and while still a mere lad learned the lessons of industry and thrift on the family homestead. In the public schools of his township he acquired a knowled f the branches

which constituted the usual course of study and, until attaining his majority, he helped cultivate the farm and in various other ways made himself useful to his parents. Being the youngest of the family, he escaped much of the hard work incident to the development and improvement of the home place; nevertheless, he ate not the bread of idleness, but grew to the full stature of manhood with the idea ever in his mind that true success depended upon earnest effort and that idleness was very near akin to crime. Having decided to devote his life to agricultural pursuits, and early applying himself to that vocation, Mr. Standley has been successful as a tiller of the soil, having arrived at the meridian of life. After his election to the office of county treasurer, in which office he served two terms, he moved to Carrollton. Later, at the end of his second term, he purchased the elegant suburban home where he now resides. In the fall of 1910 Mr. Standley, in response to the importunities of his friends, allowed his name to be used in connection with the nomination for presiding judge of the county court and was elected to that office by a handsome majority. He is now quite well situated, with ample means to insure his future against adversity, and, like all good citizens, manifests an abiding interest in what makes for the progress of the community and the common welfare.

On the 29th of December, 1881, Judge Standley was united in marriage to Elizabeth F. Knox, whose parents, Mr. and Mrs. Jonathan Knox, were early settlers of Livingston county, this state. Mr. Knox came from Indiana and Mrs. Knox from Tennessee. The union resulted in the birth of four children, namely: Jennie Ethel, Alva May, Katherine E. and Fred J., all living except Ethel, who died at the age of seventeen months.

In early life Mr. and Mrs. Standley were Methodists, but of recent years they have been members of the Presbyterian church and earnest workers in the organization with which they are now identified. In his fraternal relations, Mr. Standley belongs to the Modern Woodmen, aside from which he holds membership with no other secret or benevolent order. He has never had any personal ambition for office or public distinction, nevertheless he has allowed his friends to honor him with various positions of trust and he keeps informed on the questions of the day and in touch with the times relative to matters in which the people have an interest and which concern materially their welfare. He is an honest, industrious man, who attends to his own affairs, being a typical representative of the large and eminently respectable class of citizens to whom the country is so greatly indebted for its advancement and for the prosperity which it now enjoys.

WILLIAM STANDLEY, 1882:626

CA-AS-001-256

son of James and grandson of John Standley, one of the first settlers of the county, was born January 29th, 1822, in what is now the corporate limits of Carrollton. Mr. Standley's mother dying when he was but five days old, he was taken by his grandfather, who raised him until he was fifteen years old. He then went about two miles east of town, and in 1848 went to the bottom. At early life he engaged in farming, his principal crop being hemp. He also in early life commenced raising stock, continuing this vocation until 1863, except stock raising which he quit in 1857. Since the war his principal crop is corn and the smaller grains, and feeding and shipping stock, being one of the heaviest stock dealers in the county. In March, 1845, he married Miss Sarah Maggard, by whom there are six children living, namely, John H., James H., May, B. Y., P. B., and Robt. Lee. Mr. Standley's schooling was confined to the limited facilities of frontier life, being one of the very few, if not the only pupil living of a school taught by Mrs. Folger, afterwards graduating under Henry B. Roy. In 1850 Mr. Standley went to California, remaining about eighteen months. He is a gentleman of sound practical sense, a shrewd trader, and has by industry acquired a large landed estate in and around Carrollton, the county seat, near where he resides on one of the finest of the many fine farms in the Wakanda bottoms.

JOHN H. STANDLEY, /1852: 678

born in 1846, in Carroll county, Mo. He is the oldest son of William and Sarah Standley. John H. was reared on the farm. At the age of 18 he went to Columbia to attend school, but remained there only one year, as the schools were disturbed by the war. He afterwards attended Stewart's commercial college in St. Louis, and completed his course. He then returned home and remained on the farm for two years. In the year following he made a trip to Texas. Two years later he began farming and dealing in stock for himself, and was very successful. The next seven years of his life were spent in southwestern Missouri, and Kansas, where he was still engaged in trading in stock and farming. He was married while in Kansas, on the 4th day of Sept., 1879, to Miss E. A. Blood, of Eau Claire, Wis. They have had one child born to them, which died when five months old. In January 1881, Mr. Standley returned to Carroll county, Mo., and located on section 4, of Wakanda township where he now resides.

BENJAMIN Y. STANDLEY,

was born December 17th, 1858, in Carroll county, Mo.; son of William and Sarah Standley; his father is a Missourian and his mother a native of

HISTORY OF CARROLL COUNTY.

019

Monroe county, Va. Benjamin is still living with his mother on the farm two miles east of Carrollton, where he was raised. He has received a fair education, and takes a delight in continually acquiring knowledge. Although his time is pretty well occupied in managing the farm, he spends his leisure hours in mental improvement.

DANIEL H. CARY.

DANIEL H. CARY.

the Wakanda, in section fourteen of the present Wakanda Township. The territory was then included in Ray County, and contained very few inhabitants. A few settlements had been made in the timber along the water courses, but the prairies were an uninhabited withernes, reversed with wild grass, and given up as the haust of hords of deer and other animals. Hardin Cary had followed the pursuit of a black-mith in Tonnessee, but did comparatively little at that business after coming to Missouri. The country was thirdy settled, little money was in circulation, and black-mithing as a regular occupation was pro-ductive of not much profit. He principally turned his attention to farming, and entered cighty acress of hand within a year or two after his artivid. The original tract has never presed out of the hands of the family, and is now in the persension of Thomas S. Cary. Hardin Cary lived on the place where he first settled, an honored and respected citizen of the County, till his death, which occurred on the fourth of December, 1862.

1876 Atlas

When Walnut Trees Were Plentiful

By HAROLD CALVERT

"Walnut is unquestionably the finest wood in the world." That is a statement in the Missouri Conservation Department's booklet entitled, "Missouri Trees" by John E. Wylie and Ramon Gass.

Very few would argue with the author's statement. In their booklet, they go on to say: "the warm, brown wood finishes beautifully. It is easy to work, yet durable. It shrinks and swells less than any other wood, which makes it valuable to cabinet makers and gunsmiths alike. Our forefathers sought it out and used it lavishly in their

es, barns and fences." when Missouri was first being settled in the early 1800's, black walnut trees were so numerous, entire log-houses and barns were constructed of the wood. Later, when sawmills came to the frontier, walnut lumber was milled extensively. Walnut was so plentiful, at that time, that not only were the interiors of most homes finished entirely with the wood, but walnut joists. sills, studding and even weatherboarding were in many cases standard building material.

Gone are the days when such extravagances could be afforded. Today, walnut lumber is comparatively scarce and expensive. Its use is limited to Quality panelling, along with some furniture making, veneer work and gunstocks.

There are many homes still in use in the state, however, which were built when walnut lumber was both cheap and plentiful.

wuch structure is the home on ar, and Mrs. Henry Hensiek, located five miles southeast of Carrollton in Wakenda township,

It is a two-story frame house probably built in the mid 1800's.

THE HENRY HENSIEK farm home pictured above has walnut weather boarding and also walnut and Oak inner beams making it a very sturdy house. The exact date the house was built is not known but was built sometime in the late 1800's. It was built to face the south facing Wakenda Creek along which a road used to run. The road was changed and is now north of the house making it appear to be facing away from the roadway.

Walnut and oak lumber was used throughout in its construction.

This house is on the same farm and near the location of one) of Carroll County's first permanent homes. Nathanial Cary settled on this acreage and built his first Carroll County home there in 1818. It was of course a log-house. It was a commodious structure, for its day, because the first few meetings of the Carroll County Court, starting in 1833, were held there. An early Carroll County history states: "During the time court was held at Cary's, the judge and attorneys were quartered in the same house where court was convened, for Uncle Nat's domicile was dwelling house, court house and

A-A5-001-257

hotel, all in one, a sort of concentrated building."

Nathanial Cary and Jonas Casner, who settled in Sugartree township, also in 1818, were the county's first permanent white settlers.

A personal note might be interjected here. Nathanial Cary's brother, Hardin Cary, located on section 14 in Wakenda township in 1828. This was land just west of the Nat Cary farm. Hardin Cary's son, Thos. S. Cary, married my great-aunt, Malinda Finley, and they reared their family on this pioneer homestead.

Thos. S. Cary was a captain in the Union forces during the Civil War. His father entered the land, where the family home was built, at the land office in 1830, using muskrat hides for payment. Money in circulation in those days was so small that furs and peltries passed for legal tender. The Cary farms bordered Wakenda creek but were actually part of the Missouri river bottomland plain.

The exact date that the present Hensiek home was built

Harde Calvert

Twenty - Twenty Hindeight

is not known. It stood for years previous to the time Mr. Hensiek's father purchsed the land in the late 1800's. It is not an ornate house with gingerbread trim and fancy cupolas and turrets. It is, however a sturdy eight-room, two-story farm home. The sills, joists and ramework are mainly white oak and walnut, with considerable walnut trim inside. What makes the house unusual is that all sides of the exterior are sealed with walnut weatherboarding.

To construct this same modest house today, using materials of like kind, would be costly indeed. When the house was wired for electricity, a number of years back, the thick oak inner beams were a distinct handicap. Wiring around them was much easier than drilling holes through them.

The Hensiek home, along with two other homes to the west, face Wakenda creek on the south. At the time they were built, many years ago, the main road wound along the morth bank of the creek. The present main road in the area follows a section line to the north of the houses, making these earlier built homes appear to be facing away from the highway.

Henry Hensiek's father, Fred Hensiek, was born in Germany. He arrived in this country around 1870, a nineteen year old boy with only \$1.25 in his pocket and with very little knowledge of the English language. When he died in 1931, he left each of his several children an excellent Missouri river bottomland farm, or its cash equivalent; the farms cleared of timber and in good farming condition. He cleared much of the land himself with crude tools plus a tremendous amont of his own hand labor.

Clearing Carroll County Missouri river bottomland of timber was no small task in those days. Giant tree specimens of many species native to the state abounded therein. Isolated giants still remain and several are listed as the state's largest for their pecies. There is a green ash tree on the Kinker farm across Wakenda creek from the Hensiek farm with a trunk circumference of 15'10". Before it was topped (due to its overhanging a residence) it

probably was the largest green ash in the nation.

This land that was first purchased in the early 1800's by the Carys with muskrat hides is very valuable farming land today. To settle an estate on one of the Hensiek farms, Haroldean Hensiek, Henry's son, paid \$92,000.00 for 160 acres of the land at a recent public auction. This land adjoins the original Cary land and is about the same quality.

Henry Hensiek and his twin brother, Fred Jr., are now 76 years old. They were born on the family home where Henry and his wife now reside. They removed the old Nat Cary loghouse from the premises several years age. It had st and had been used as a residence for over 100 years proof enough of the durability of its oak and walnut logs; no more durable and rugged. though, than those pioneers who settled and cleared the land or the Hensiek descendants who presently farm it so successfully.

CAAS001-257

Fred H. Hensiek

Wilhmena

Fred

Hensiek Home 1840

Henry F. - a twin to Fred H., Jr., born April 25, 1894, was first married to Martha Bucholz Feb. 14, 1917. Martha passed away on Feb. 5, 1919. No children were born to this union. Then on Jan. 15, 1921, Henry was married to Edna Ida McReynolds. Three sons were born to this union.

Haroldean - born Nov. 27, 1921. Married to Anna Marie Stiek, Dec. 2, 1957. No children.

Valjean - born March 3, 1924. Married to Ruth Ann Reimer Nov. 2, 1947. Two sons were born to this union, Dennis Wayne and Jimmy Gene. Jimmy is now married to Patricia Ann Kelb, they have a daughter, Angela Rochelle, 18 mo.

Audrey Leroy - born Oct. 31, 1931. Married to Joy Katherine Stiek April, 1957. Two daughters were born to this union, Karen Kay, age 10, and Kimberly Ann, age 3.

Fred H. Hensiek, Sr., passed away Nov. 30, 1931. He left each of his children a farm home or the money to buy one. This is indeed a big achievement as when he landed in this country he had less than two dollars in his pocket.

Mrs. Hensiek passed away on Dec. 24, 1932.

Five of the Fred H., Sr. children lived to celebrate their 50th wedding anniversary.

The old house in which the Hensiek's lived and raised their family is the only original building now standing. It was a lovely old place, green shutters, a portico, and big maple trees all around. How I love that old house, I still do! I live there. The first County Court was held in Carroll County in 1833, in what is now Wakenda Township, in a log cabin then owned by Nathaniel Cary. The log cabin was torn down in 1918 by Fred and Henry Hensiek. This historical site was bought by Fred H. Hensiek, Sr., in 1879. Even now a plow will occasionally pull up rocks that were once a part of the foundation.

Mr. and Mrs. Hensiek and their children and grandchildren are all Lutherans and all farmers.

In 1974, death claimed the twin brothers, one daughter, and a daughter-in-law. The Hensiek family are all gone now except one daughter, Mrs. Clara Hensiek Grimpo.

Henry Hensiek and his family moved to the home place in March, 1933. Henry lived there until his death in 1974.

In 1975, Haroldean Hensiek and his wife, Anna Marie, and Audrey L. Hensiek and his wife, Joy Katherine, became the owners of the Hensiek Home Place. This place has been in the Hensiek family 97 years.

Fred H. Hensiek was born in Hanover, Germany, Nov. 26, 1851. He came to America when he was 19. He landed in St. Louis. Having an uncle in St. Charles, he made his home there for a period of time, finally making his way to central Missouri, settling in Carroll County. Here he bought his first land. Here is where he made his home and where he married and raised his eight children. It is known as the Old Hensiek Home Place. In 1974, it was handed down to the third generation.

Mr. Hensiek was first married to Louise Riske. Seven children were born to this union, six having died in infancy. A daughter, Ida, survived. Mrs. Hensiek passed away Nov. 16, 1890, at the age of 32. After a time, Mr. Hensiek was married again, to Wilhmena Stahl. She, too, was born in Germany, April 20, 1861, coming to this country in early womanhood.

To Fred H. and Wilhmena Stahl Hensiek, seven children were born: three boys and four girls.

Erna Louise-born May 27, 1892. Married August Stiek, June 19, 1912. Died August 16, 1970.

Della E.-born July 11, 1896. Married August Grimpo, April 23, 1919. Died Nov. 27, 1974.

Clara-born Nov. 24, 1898. Married to Will Grimpo, Feb. 17, 1920. Still living.

Bertha-born Oct. 13, 1900. Married to Charles Wellman, Feb., 1921. Died Feb. 4, 1966.

Herman-born Aug. 14, 1904. Died Feb. 14, 1919, age 14.

Ida-born Nov. 25, 1882. Died May 14, 1965. Ida never married.

Fred H., Jr.-born April 25, 1894. Married to Edna Frances Adkins, Feb. 6, 1918. Died May 10, 1974.

CARROLLTON LIVESTOCK SALES, INC.

Col. Charles S. (Pete) Reid was graduated from the Kansas City Auctioneering School in 1917 after which he served in the First World War.

Upon returning home he entered in the field of Auctioneering in conjunction with his farming. He was elected Treasurer of Carroll County in 1924 and served until 1932.

The first community sale of livestock and merchandise held by Col. Charles (Pete) Reid was held at his farm one mile south of Carrollton in 1933. After a few sales, the business was moved to Carrollton and operated for a time in the Purebred Pavilion located on the corner of South Virginia and Burlington Street. (This pavilion was built and used by a number of men who raised purebred hogs among whom were Wilcoxson, Quisenberry, Uhrig and Ed Porter.) He then moved to a building on the F. M. Stamper Co. property on South Main Street. In 1936, a tract of land was purchased on the northeast corner of South Main and Bolen Street where the first Sale Pavilion was constructed and operated by C. S. Reid until 1950 at which time the operation was changed to a partnership between C. S. Reid and Tull McCombs. In 1945, the building was remodeled with a modern front and restaurant. Donald Dooley operated the restaurant. Additional pens were built and scales were installed.

In October 1951, Col. Reid, who had become known as the Father of Community Sales, retired from the sale business and leased the property to E. B. Glaze, Edward L. Harper, Tull McCombs and T. H. Lock, an agent for Lock Brothers, to be known as Carrollton Livestock Auction. Lock Brothers purchased the building in 1953.

E. B. Glaze retired from the business in October 1954, and on October 1, 1955, his share of the business was assumed by Joy Shull. The business was operated as a partnership between Shull-Harper-Lock and McCombs until December 31, 1962, at which time Harper and Shull withdrew. Lock and McCombs continued to operate as a partnership until 1967 when a corporation was formed with T. H. Lock, President, Charlotte Lock, Secretary, and Tull McCombs, Treasurer. In the years following the inception of the Carrollton Livestock Association, additional pens and space was constructed as needed. In 1965, Lock Brothers sold the premises at the South Main and Bolen location to F. M. Stamper Co. for further expansion of their r. M. Stamper Co. for further expansion of their plant and purchased an eleven acre tract of land from the Wabash (Norfolk and Western) railway right of way on the east side of U. S. Highway 65 and 24. There they constructed a new Sale Pavilion and modern restaurant which began operation in the fall of 1965. The Livestock Auction has grown in this account of the Sale Pavilion and Frider and Fr this community. Stocker and Feeder and Fat Cattle buyers from local areas as well as surrounding states attend weekly on Thursday for the cattle auction and Tuesday for the feeder and fat hog auction. Horse sales and registered livestock sales are conducted on special schedule.

Thus the method of livestock marketing has changed markedly in the half century since Col. Charles S. (Pete) Reid began the "Community Sales." From the stock pens at the railroad stations, we have moved to the air-conditioned sale pavilion where buyers come to the livestock rather than livestock taken to the buyer.

CAA5001-26

TED LOCK

Ted Lock, son of Mrs. J. W. Lock and the late Mr. J. W. Lock, was born in Chamois, Missouri, in February, 1919. At the age of six months, he moved with his parents to Marshall, Missouri. He grew up and received his education at the Mercy Academy there.

In the spring of 1933, Locks moved to the Nelson farm, now the Davis, Noland, Merril farm. Ted was farming, hauling, and trading in livestock in his early life.

Ted started in the sale business in about 1949, when Joy Shull, James Wilson, Elmer Daniels, and Ted operated the Tina sale pavilion. He also worked at the Fraley sale pavilion in Chillicothe. About the year 1952, he leased the Red sale pavilion which was

1968: 506 located on South Main and later purchased it. After Stampers bought the old sale barn located just south of their plant, Locks bought the ground from Wilcoxson south of the Wabash tracks and built a new sale pavilion on it.

Ted was married to the former Charlotte Kassen in November, 1946. They have six boys—Ted Francis, Tommas Paul, Michael Wayne, Patrick Mark, David Lee, Richard Douglas and two girls— Donna Marie and Suzanne Louise.

Samuel Brown Mohler

Mohler - Morgan

Samuel Brown Mohler, son of John Henry and Virginia Snider Mohler and grandson of Fredrick Mohler, a plantation and slave owner, was born May 1, 1876, on a farm in Rockbridge County, Virginia. The farm was located between Goshen Pass and Lexington, Virginia and across the North River from the resort town of Rockbridge Baths and in view of the Blue Ridge Mountains. He was one of seven children.

When Samuel was seven years old, the family was making a train trip to Missouri possibly with the idea of locating here when the train was wrecked. His father was the only passenger killed. Other members of the family were injured causing the mother to return to Virginia with her family of children. She and all her children except Sam and one sister, Henrietta, who married a minister, remained in Virginia the rest of their lives. After a few years, Sam's mother married James Shewey and two children, Mabel and Edward, were born to this union. Edward died in 1918 during the disastrous flu epidemic.

In 1892 when Sam Mohler was 16 years of age, he came to Carroll County, Missouri, to live with an aunt, Rebecca Snider and her husband, Dave. On August 5, 1897, he married Mary Ann Morgan in the Low Gap Baptist Church that her parents, Edward and Elizabeth Evans Morgan, had helped build. They set up housekeeping on a 160 acre farm in the Low Gap community which her father had purchased in 1880 and 1891. It was located one-fourth mile across the field from where her parents lived and she was born.

The young couple was energetic and soon added more farm acreage which joined or was close by. Sam took good care of his land, kept it well improved and specialized in diversified crops and livestock. During World War I, he bought and sold many mules that were used in the war and in the southern cotton fields. He also had many prize mules, some which were sold to the Miles Bros. at Norborne. The mules were kept housed in big barns on the farm. He also fed beef cattle and hogs.

In 1919, he shipped a full train load of fat hogs (average weight - 280 lbs.) from the Ludlow stockyards to the Cudahy Packing Co. in Kansas City. The hogs were driven on foot to the railroad cars in Ludlow, a distance of seven miles. A traffic truck loaded with straw went ahead and covered the bridge floors so the animals would cross. They left home about 5:00 p.m. and arrived at the Ludlow stockyards the next morning. The route to market went through an inland town, Plymouth, where a meeting was in session at the church. When the meeting was dismissed many people drove around a section to their homes to keep from interfering with the march of the hogs. Many hogs that were lost on the way at night were gathered up the next morning and hauled in wagons to the rail cars.

Sam Mohler was sent to Washington, D.C., to testify before a Senate committee in behalf of packing companies. The Congress had a bill up for passage to prohibit farmers from selling slaughter hogs directly from the farm to the packing houses, instead of going through a commission company. The packers wanted it defeated,

Mr. Mohler was progressive. In 1917, he built a new frame house with all the modern conveniences of that era. One unique feature was a vacuum system installed in the basement with pipes leading to each floor level where a hose could be attached thus bringing all refuge by suction to the basement. He also owned the first car in the community — an orangecolored Buick touring car. On Sundays when the family attended church, the car was parked some distance from the church to keep from scaring the teams hitched at the hitching rack — and the family walked in the dust the rest of the way.

Sam Mohler liked people and had the acquaintance of many over the state. He served his community as a member of the Stauffer School board and Washington township board. He was a member of the Low Gap Baptist Church, a member of the church board and taught the young married couples Sunday School for many years.

The Mohler Home 1918-1934

He and his wife, Mary Ann, were the parents of five children: Josephine Elizabeth (1/11/1900 to 11/30/1900); Katherine Reve, a graduate of Stephens College, a teacher in the Kansas City Schools, married to Dallas M. Tourtellot of Kansas City, Missouri; Loreen, Wm. Jewell College and B.S. from University of Missouri, Columbia, a teacher, married to John Bruce Dorsey of Stet, Missouri, two daughters, Mary Ann and Sue (See John B. Dorsey Family); John Fredrick, a large farmer and livestock feeder, married to Edna Bowles, a Wm. Jewell graduate and teacher who died in 1968, two daughters, Nancy, a Wm. Jewell graduate and teacher in Ottawa, Canada, and Mary Jewell, also, a Wm. Jewell graduate and teacher in Gallatin, Missouri, married to John Sullenger (John F. Mohler later married Cleo Wells Cramer of Braymer, Missouri); Samuel Brown, Jr. attended Wm. Jewell and University of Missouri, is a retired farmer and now is working for Liberty Savings and Loan, married Eleanor Hunt, a Stephens College graduate, two children, a daughter, Betty Nelle, a Stephens College graduate, married to Ronald Zerrer, B.S. - M.U., living in Leavenworth, Kansas, six children - Mary Frances, Joseph, Teresa, Cathy, Wm. Mark, and Patricia Michelle, a son, Samuel Brown, III, served in the U.S. Army, farms near the Roads community, married to Marika Kessler of Germany, two daughters, Simone and Diane Elizabeth.

Mary Ann Mohler (1873 - 1919), a leader in her community, was killed in a household accident. Sam Mohler later married Nelle C. Hawk of Braymer, Missouri, the daughter of a Civil War officer. In 1934, they moved to Braymer where he and his son, John, accumulated land northwest of Braymer. In the late 40's, his health failed and he and his wife moved to Chillicothe where he lived until his death in 1953.

Morgan Family

Mary Ann Morgan Mohler was the daughter of Edward Morgan (1834-1904) and Elizabeth Evans Morgan (1846-1931) who came to the "New Country" as they called the United States of America from Carnavon, Wales, England, Elizabeth Morgan, the daughter of William and Catherine Evans, was twenty years old when she arrived in America on November 10, 1866. She lived with her father's sister, Mrs. Silas Kent, near Utica, New York. The first Sunday she was in America she met Edward Morgan whom she married four years later. He came to Dawn, Missouri, a Welsh settlement where his brother lived, and purchased a farm in Washington Township in the Low Gap community, Carroll County in 1869. A year later, Elizabeth came by train to Utica, Missouri and they were married that same day at his brother's home. The next day they went with provisions in a wagon to their farm. They added to their land and lived there until their two daughters, Mary Ann (1873-1919) and Catherine Jane (1876-1962) were married. They then divided their land between the two daughters and moved to Braymer where they lived the rest of their lives. Mary Ann Morgan married Samuel Brown Mohler (See Mohler Family). Catherine Jane married William R. Amery (1873-1953). Their children were twins, Marley (1899-1959) and Marvin (1899-1965), Beth and Arthur. Marvin lived on the land his grandfather came to in 1869 until his health failed and he sold in 1964 - nearly one hundred years later.

In 1886, Elizabeth and Edward Morgan went to California and Oregon and spent five years there. With this one exception, the Morgans and their offspring have been Carroll County residents since 1869.

Elizabeth and Edward were charter members of the Low Gap Baptist Church which first held services in the school house. In 1876, a building was constructed by the members. That building still stands and continues to have services. It is located on Route D, sixteen miles north of Norborne.

After both daughters were married, Edward and Elizabeth went back to Wales to visit relatives and friends for a year in 1898. Naturally they attended church with Elizabeth's parents. The first person to greet the visitors from America was David Lloyd George, who later became Prime Minister of England and served in that position during World War I. He grew up about a mile from Elizabeth's parents and they were close friends. He wanted to return to America with the Morgans but a law case prevented him from doing so. Elizabeth often wondered if he would have made as great a name here as he made for himself in England. He was the first to introduce socialized medicine in England.

Elizabeth was a charter member of the Braymer Tuesday Study Club, a Federated club chartered in 1901.

CAASOOI-266

Mohler Shipped 949 Hogs.

The largest single shipment of hogs of one man's feeding ever received at Kansas City arrived yesterday morning. They sold to the Fowler Packing Co. at \$21.45 a hundred pounds, equalling the top price paid on the open market at the Kansas City stock yards yesterday.

There were 949 hogs in the drove. They averaged 280 pounds each. The total purchase price totaled \$58,468.76. The hogs were owned by S. B. Mohler of Ludlow, Mo. The Milwaukee railroad gave Mr. Mohler a special train of sixteen cars for the shipment. The train followed a special schedule in order that the hogs might have the benefit of the cool night air.-Kansas City Times, August 26.

The shipment mentioned above has caused a very great deal of comment here as elsewhere. When a couple of weeks ago hog prices took a tumble, many were counting Mr. Mohler's loss. He really had none, and from the way he smiles it is safe to say the big undertaking of fattening and marketing 1,000 hogs turned out satisfactorily and profitably if he didn't strike the market at its highest.

It isn't so much the fact that this undertaking was a success, but it's Sam's disposition to "do things" which count-which have made him the success that he is.

People who were in the vicinity of Ludlow Saturday night say the road and town was literally alive with hogs 377 and it was an event of which this vicinity is proud.

1973; 377
