DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This is a state class mirror-image, double pen house that is superbly maintained. The large summer kitchen had been incorporated into the house. Notice photo of the stock barn with its series of dormers for design and for light into the loft.

- This is one of the county's largest bungaloid structures. Builders essentially used tile block, but the east shed addition is brick and frame.
- A frame bus barn located to southeast of the school was a former grade school building.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This 4-square house is one of the very best in the county. Mr. Morris (deceased in 1987) fabricated the colored glass windows for Immanuel Methodist Church, and he remodeled the front block of this house; it has spectacular oak moldings throughout. There are windows, in 3 of 4 closets; plan was chosen from a pattern book. Full basement under the original block. The cathedral-ceiling ell was designed by K.C. architect, M.G. Hymer, in 1976. Mrs. Hymer is from Brunswick and a family friend. Addition is mortise and tenon using barn lumber and new lumber; tongue and groove ceiling, loft over dining room, and iron spiral staircase.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This museum quality frame structure is the institutional center of a Historic Missouri - German Rural Settlement. The foundation block says "German Methodist Church." A local craftsman made in recent years the colored glass for windows throughout the building. The rusticated block foundation has no cracks and the fabric in general is excellent. The parish house (bungalow) was obviously built soon after the church.

## DALTON IMMANUEL UNITED METHODIST CHURCH

In March, 1847, Brother Wilhelm Feigenbaum of the West German Conference came as missionary to Brunswick to seek out the Germans and their descendants to preach the Gospel to them. The first Christian services were held in a cow stable. Brother Bucksath and Brother Nolting would lead services and prayer or an old-fashioned "Love Feast" and "Testimonial Service" were held.

By the early 1850's, preaching services (in German) were held on the Bowling Green Prairie in the homes of Henry Bucksath, Fred Feaker, and later in the Old Sleyster School.

Brother Henry Bucksath was the first convert of this community and became one of the leading charter members of Immanuel. He passed away in 1902 during the ministry of Rev. W.L. Meyer. Henry Bucksath and Mr. Louis Grotjan gave the land where the church and parsonage now stand.

Dalton Immanuel United Methodist Church
Courtesy of Rev. Scott Hall

This Immanuel Methodist Church Sunday School picnic was held in the early 1900's at the old Cut-Off south of Dalton about one half mile south of the present Cut-Off. Located north of the Sasse land on the old Ed Bucksath place, this thirty acre pasture was often used as a campground for protracted church meetings and picnics. The lake can be seen to the right.

Row 1: Charles Roebkin, Vallie Payne, Goldie Roebkin, Carl Kuntz, Bessie Grotjan, John Hayward, Louise Iglehart, Fitzhugh Iglehart. Row 2: Sophie Bitter, Elva Grotjan, Jeter Johnson, Josephine Korif. Maggie Goll, Flossie Grotjan, Charlie Coy.

Row 3: (standing group from left to right) Purt Turner, Fronie Friesz-John Clarkson, Lillie Sleyster, George Meyer, Lizzie Meyer, Fred Laker. Bertha Meyer, Burt Coy, Freda Roebkin, Brick Goll, John Zungs, Ed Meyer, Nora Cuddy, Gus Brandt, Henry Laker.

Courtesy of Sterling Price Museum

74

In 1872, Bowling Green (now Immanuel) built their own church. This was the first church built here.

In 1894, Dalton Immanuel became a self-supporting congregation consisting of 95 members and a Sunday School of 40. Henry Bucksath and family, Fred Feaker and family, and their descendants, the Brandts, Noltings, Grotjans, Minors, Meyers, Steimans, Hennings, Sleysters, Bitters, Hechlers, Schultes, Sasses and many others were members.

During the late 1890's and early 1900's, a yearly camp meeting was held under a large canvas tent in Mr. Ed Bucksath's pasture on the bank of the cut-off and after his death in Mr. Fred Meyer's pasture near Dalton. Many families would live in small tents to attend all meetings and enjoy the fellowship. An extra tent was erected for the men who cooked the meats and prepared the meals.

The church and Sunday School used the English language after 1918 during the ministry of Rev. Heuse (1917-21).

Immanuel church was a part of the West German Conference until 1926 when the German Conference disbanded. Immanuel Church then became a member of the Missouri Conference. Now, it is a member of the Central District of the West Missouri Conference.

A great annual affair has been the outdoor service and basket dinner held at the "cut-off" on the first Sunday in September in which the Keytesville United Methodist Church joins the Dalton Immanuel. Often, guests from other churches join in, also.

- This is one of Chariton County's oldest structures; it is located on a high ridge facing west 1/2 mile from the escarpment leading into the floodplain. Porch pillars remodeled c1910, south chimney hearth is louvred up (couldn't see in rest of building), basement under south end probably an addition as is the shed room; large pine trees grow northeast of the house.

## EWING RESIDENCE RR 2, Keytesville

This early house holds both historical and architectural merits. The four rooms to the north were built prior to 1850. At that time each had a fireplace. As families grow and change, homes indicate these transitions.

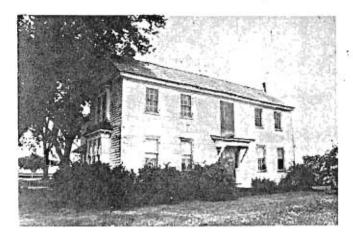

A Greek Revival central entrance sets the pace for the house. It has the typical sidelights and transom, and above there is an entrance, also with sidelights. Windows on this symmetrical facade are six over six, doublehung and rectangular.

To the west there remains a brick fireplace and chimney. The original fireplace on the east end was replaced in about 1895 with a two-story bay window.

Millwork in the west rooms of the main block retains the oriial early molded details. The second story west room has the original mantel intact. Most floors are the original pine, plank floors.

This two-story frame house which sits on a sandstone foundation, is clapboarded with walnut. It is located one mile southwest of Keytesville in the river bottom area.

In 1832, James Keyte, Methodist minister and founder of Keytesville, sold this land to Pugh Price. The 1883 History of Howard and Chariton Counties states, "Pugh Price, father of General Sterling Price, came from Prince Edward County, Virginia, via Randolph County, Mo. in the fall of 1831, and settled on a farm, about a mile south of Keytesville. His two sons, Sterling and John R. Price, who had attained their majority, came with him."

The property remained in the Price family until 1846. At that time Pugh Price sold the farm to Benjamin Stringfellow. The 1883 History of Howard and Chariton Counties lists a General B.F. Stringfellow as a politician. He was a Chariton County Representative in the State Legislature in 1844. In all probability, this was the same Benjamin Stringfellow.

In 1853, Mr. Stringfellow sold the property to John J. Ewing. Mr. Ewing and his wife Martha A. Fuqua had seven children. The main crops raised on the farm were grain and tobacco.

In 1890, the property passed to O.B. Anderson and in 1900 to Millard F. Courtney. George M. Pinegar acquired the house and farm in 1902.

Young N. Edwards bought the farm from Mr. Pinegar in 1918, and it has remained in the Edwards family since that time. His son, Ashton N. and Margaret (Elliott) Edwards, lived their entire married life there and reared two children. Harold A. and Ann Elizabeth.

Harold and Roberta (Schmidt) Edwards and their children, James A., Stephen W., Mary Ann and Jane, live on the original acreage. Ann Elizabeth, now Mrs. Joe E. Manson, and husband live one fourth mile south on land which was added through the years to the original 205 acres. Their children are Martha-Ann, Phil, Marilyn and Mary Margaret.

## HILL HOMESTEAD 100 West North Street

One of the oldest and most spectacular homes in Chariton County, this ornate mansion has played a big part in the town's historic past. Located on two acres in the north part of Keytesville, the home has a spacious front yard enclosed by an iron fence. It is Georgian in architecture. The land was originally patented by the United States Government to Elisha Herryford in 1831. Shortly afterwards he sold it to Isaac W. Redding who have yed it to his brother, William R. Redding. Mr. Redding.

.o was a wealthy and extensive farmer, built the first section of this home as a wedding gift for his only child, a daughter, Elizabeth A., who was married to William E. Hill in 1831. Mr. Hill founded the Bank of Keytesville in 1872 and it is still in operation. They had one son who died at the early age of fifteen and

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This once great country place is sited on a very high eminence looking west toward Brunswick. It is a side passage or 2/3 house with an ell extention. It has a step seam metal covering on a hip roof, 6x6 windows & is encased in vinyl siding. There are numerous frame and metal dependencies, a tile block silo, and garage and frame sheds to the east. Concrete block has replaced the original stone foundation.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

--This is an excellent folk house plan using the mirror-image double pen form for all three floors of the house. The south side and the north side of the ell includes the enclosed ell room (see photo) entered from outside. It is a balloon frame house with a brick pier foundation. It should receive an intensive examination for contextual comparisons. It has bull's eye block moldings and the stairs are located at the juncture of the ell and main block.

Elliot Grove Cemetery has a modest picturesque plan in its layout along a north-south axis ridge. The John Myers statue is a 1904 Neo-Classic sculpture by "Novelli and Calcacni Barre, Vt." It appears to be the most pretentious sculpture in the county. Spruce, cedar, and deciduous trees grace the winding lanes on the crest of the hill.

- The cemetery is located on high rolling prairie, and its border is a rectangular cedar tree line that encloses the burial ground. As a landscape feature it is distinctive in the county. The cemetery has expanded to the west and it too has several junipers planted in the fence rows. The photo looks east.

- This  $2\frac{1}{2}$  story frame building is the largest structure (used for a dwelling) in the locale. Dr. Zillman planned to use it for a hospital (anticipating a railroad that did not arrive), but it has served as a single family residence. Note modest Corinthian capitals in the porch and stained glass windows. Wood is being stripped and painted.

#### DR. AUGUST WILLIAM ZILLMAN

1859-1948

From the 1893 Portrait and Biographical Record of Clay, Ray, Carroll, Chariton and Linn Counties, Missouri

August William Zillman, M.D., a medical practitioner of Indian Grove, Chariton County, is rapidly extending his field of professional work throughout the surrounding country and achieving an enviable reputation as a successful family physician and surgeon. Our subject is a native of Germany, and was born in the province of Brandenburg, near Berlin, December 3, 1859.

He was the third in a family of eight children, and was trained in the correct observance of polite life, and taught to cultivate intelligent habits of observation as an efficient aid to the ordinary education of life. His parents, William and Dorathea (Maas) Zillman, were natives of the province of Brandenburg. The mother was of French-German descent, and the ancestry of the father, who was born in 1830, was traced to old German families who had given the Government faithful military service, from which he himself had been excused on account of physical disability.

Married when he was about twenty-five years of age, William Zillman remained for some years after in his native land, and in the Old Country the three eldest of his children were born. In 1861, August being then about two years of age, the family

arrived in America, and soon located upon the prairies of Illinois. There the father, who had been a farmer in Germany, at once entered upon agricultural duties and operated as a renter until 1870. At that time he removed with his family to Missouri, and purchased a homestead, now owning a magnificent farm, whose four hundred acres fully attest the thrift, industry and excellent management of its possessor. One of the main objects in life with the father and mother of Dr. Zillman was to give to their children every possible opportunity for an extended education. When William Zillman became one of the Trustees of the district schools he rendered valuable aid in raising the grade of instruction, and materially benefited the youth of the neighborhood.

Our subject was reared until eleven years of age upon the tenant farm in Illinois, and there attended the common schools. Afterward in Missouri he completed a preparatory education in the home schools. When eighteen years of age, he entered the State University of Missouri at Columbia, and commenced a five-year course, interrupted only by the vacations, in which time he was employed mostly in hard work upon his father's farm-One winter term, however, he taught in the Allen district of his county. Returning to Columbia with his purse replenished by his own efforts as bread-winner, he studied for one more year in the classical course, and then decided to enter the medical department, in which he remained for one year, and then matriculated at Rush Medical College, Chicago, joining the Class of 1885-86. Devoting himself closely to his studies, Dr. Zillman was graduated with honor, and immediately after began the active practice of his profession at Indian Grove, where his medical ability and excellent judgment soon won for him many friends

174

and patients. His is largely a country practice, and as he is located in a rich farming district, among an intelligent class of people, his future outlook is very promising.

June 11, 1889, Dr. Zillman married Miss Florence Bogard, a daughter of one of the oldest families in the State. Her father was a native Tennesseean, but an early settler in Missouri, and is still hale and hearty. Her mother was a member of the wellknown family of Mullins, of Saline County, and died in 1878. Mrs. Zillman is an accomplished and most estimable lady, and is the mother of one child, a bright little son, William J., who was

born April 3, 1890. Our subject and his wife are actively interested in the social and benevolent enterprises of their locality. and are ever ready to do their share in all good work. Occupying a position of usefulness and honor, Dr. Zillman is an important factor in the development of the best interests of Chariton County. Energetic and faithful in the discharge of every duty, progressive in his ideas and liberal in sentiment, he is numbered among the leading and substantial citizens of this part of the State.

### HISTORY OF ST. RAPHAEL

The Catholic congregation at Indian Grove was started by a group of gallant pioneers who saw the need of a place to worship. Many had come to the United States from Ireland, Germany and Switzerland and other countries. They settled in this community. As there was no church, divine services were held in private homes. The home of Mr. and Mrs. Anastasia Senn, close to where the church now stands, was a home where Mass was said.

Some of the first families were Clavins, Senns, Guests, Spetch, Paulsen, Josephs, Reigelsbergers, O'Rileys, Speichingers, Gladbachs, Trautners, Ostermanns, Lauhoffs, Tobins, Lynch and Brinkers. Due to the persecution in Germany, hundreds of Franciscan Fathers came to the United States in 1875. Many were welcomed by Bishop Hogan to the St. Joseph Diocese. Bishop Hogan knew the needs of priests in this territory as he had been stationed at Chillicothe as a missionary priest.

The Franciscans established two houses in the diocese, one at Chillicothe in 1879 and one at Wein, Missouri in 1877. The priest from Chillicothe cared for this community.

As the number of Catholics continued to grow the need for a place to worship became evident. It was August 25, 1885 on land donated by Juergen H. and his wife, Maggie Heck to Bishop Hogan of the Kansas City-St. Joseph Diocese that the foundation was laid by a Mr. Thomas Page who is buried in the cemetery by the church. The white wooden frame structure with green shutters was built by Mr. Zimmerman, a carpenter, and the help of the men of the parish who donated their labor. The lumber was purchased from the lumber yard in Keytesville, Missouri, and hauled by team and wagon to the church ground.

The church was dedicated June 6, 1886, by Bishop Hogan, who was the first missionary priest in the territory. The Silver Cornet Band from Brunswick was present and in the afternoon played some very fine sacred music.

The High Altar and side altar, and the pews were brought from a church in Chillicothe, Mo. The Altars have been replaced, but the pews ar still in use. The bell, donated by Mr. Anastasia Senn in 1888, and was

tolled to call the people to worship, or as a funeral procession neared the church, still hangs in the tower although it is not sounded any more. The stations of the cross, as well as statues of the Blessed Virgin Mary, St. Joseph, St. Elizabeth, and St. Anthony were donated by different people of the parish.

Father Patrick DeGara, OFM, was the first Franciscan priest to be in charge of St. Raphael. The priests would come from Chillicothe by train and men of the parish would meet them at Whitham, Mo. with horse and buggy or a lumber wagon and bring them to Indian Grove and the others would go to Brunswick. At first, services were held only once a month. The priests would spend the weekend and have services, give instructions to the children, and return to Chillicothe by train on Monday. Later, services were held twice a month. At this time, it is not known the names of all the priests that would come. The Franciscan from Chillicothe cared for St. Raphael's, except for a short time from September, 1902 throught May, 1904. At that time. Father Wilfrid Rompe of Wein came. He rode horseback from Wein to Indian Grove. A few years after the church was built, the sacristy and back room were built on. Mr. George Joseph was carpenter. It provided a place for the priests to stay over the weekend.

In July, 1914, all the parishes and missions in the St. Joseph Diocese was given up by the Franciscans and pastors were appointed by the Bishop.

Some of the Franciscans who were in charge of Brunswick and Indian Grove were; Fr. Patrick DeGara, OFM, Fr. Herbert Stotter, OFM, Fr. Nazarius Kaiser, OFM, Fr. Columban Valentin, OFM, Fr. Gabriel Lucan, OFM, Fr. Ernest Kaufhold, OFM, Fr. Alexander Dorenkempner, OFM, Fr.Lawrence Pauley, OFM, and Fr. Bonaventure Faulhaber, OFM.

The first pastor appointed after the Franciscans left was Fr. Richardson, 1914-1922. For some time Mass was held once a month and later twice a month. Sundays that no Mass was held at St. Raphael's, Mass was at St. Joseph, Hurricane Branch, the neighboring parish. People would go to either church. For some time now, we have had Mass every Sunday and Holy

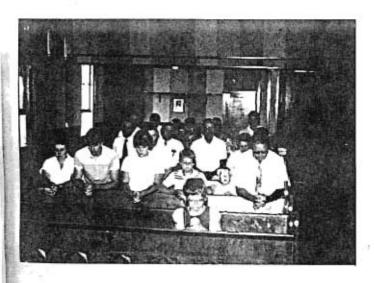

Day. The taxi from Brunswick, driven by Mr. Dick Smith, would bring Father to the Grove and wait until Mass was over to take him back. Each family would take their turn to pay the taxi and the Sunday that Father said late Mass at the Grove, that family would fix his breakfast. That is all past history now and Father brings himself to the parish. We owe thanksgiving and prayers for the men who built the fire for the church. We have been told that Mr. Senn did it for years. Mr. Willie Clavin and Mr. John Clavin also helped many years. At present. Mr. Florian Widhalm takes care of this chore. In early days the big coal-burning stove stood in the middle of the church. There was also one in the back room.

Golden Jubilee - June 23, 1935 - St. Raphael's Church.

June 23, 1935, St. Raphael celebrated its golden jubilee. Father Groetsch was pastor. A large group of parishoners and friends were present for Mass. Music was by the St. Boniface choir directed by Mr. Otto Strub, A basket dinner was enjoyed by all at noon and the afternoon was spent visiting.

The church was redecorated in 1947. Mr. Florian Widhalm was the carpenter and was assisted by Lawrence Speichinger, who was on vacation from the seminary. A new high altar was donated by Nina Joseph in memory of her husband. Stations were

donated by Mr. and Mrs. Florian Widhalm. The statue of St. Raphael was donated by Mrs. Anton Speichinger, Frank and Ella Speichinger gave the sanctuary light. Margaret Speichinger gave the Blessed Virgin statue in memory of her husband, Leo. Red carpet was placed in the aisles and the front of the church and an oil furnace was installed.

On Christmas Day, 1955, the first man from our parish to be ordained to the priesthood, Father Lawrence Speichinger, said his first Mass. Twenty five years later he came back to say Mass and celebrate his anniversary. Also, the first young woman from the parish to enter the convent. Sister Mary Raphael Speichinger, celebrated her 25th anniversary on Sept. 8, 1974.

St. Raphael Altar Society was formed by the first members of the parish and continues to this day. For years, there was a Holy Name Society, but it has been discontinued, St. Raphael Cemetery Association was formed January 4, 1970. Officers and directors were elected: Leander Widhalm, Pres., Wayne Reigelsberger, Vice President, Leo D. Speichinger, Secretary-Treasurer, Dale Joseph and Ludwig Moser, Directors. The directors and the parish priest serves as permanent director. At that time, Father Edward Owens was serving the parish. Others serving on the board have been: Vincent Speichinger, Wendell Fox, and Father Russell Judge. Serving on the board at the present are: Wayne Reigelsberger, President, Vincent Speichinger, Vice President, Lee Widhalm, Secretary-Treasurer, Wayne Wald, Larry Gladbach, and Father Eugen Robl, Directors. The cemetery is mowed by the Dale Morris family.

It is believed the first baby baptized in St. Raphael Church was Mary Amelia Brinker.

The first couple married was Herman Jansen and Agnes Lentz.

The first grave in the cemetery was infant Tobin, child of Mary and John Tobin.

The first adult buried in the cemetery was Joseph Lauhoff

One thing, especially, is worthy of note about St. Raphael Church at Indian Grove. When it was built and dedicated, it was free from debt and through the years it has been able to meet its financial obligations, even in the Depression.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Several rural signs at different regional crossroads point the traveler toward this site. It has a plaque (see photo) on the exterior front wall under the porch that memoralizes the founding of MFA (1914). The site has been a local shrine since the 1954 memorial event. The building has an excellent stone foundation and is maintained in museum quality.

Newcomer School

### M.F.A.

On a cold March night in the early 1900's, Aaron Bachtel called six of his neighbors together at the New-comer Schoolhouse north of Brunswick and organized the first farm Club out of which the Missouri Farmers Association has evolved. From that small beginning, today's vast and influential organization began to take form.

When Aaron Bachtel, Thomas Penick, John Kohl, Ead Smutz, Will Armstrong, and George and Will Heisel met in the Newcomer School near Brunswick to hold the first Farm Club meeting, they had no idea that an organization such as the present MFA would develop. Today, the Newcomer School is the property of MFA. It was given to the organization by residents of the community so that it might be preserved as a memorial to the first MFA Farm Club.

The above picture (Courtesy of The Brunswicker) shows the unveiling of the picture commemorating this historic event. Those pictured here are descendents of the original organizers.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Original facade faces south while the gable end and ell have been turned into a facade with porch that faces the modern road. An unusual feature is that these porch pillars are square and not round. Several dependencies are located to the north and east -- all have metal roofs -- most are frame needing paint, and there are two round metal graineries.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

-- This is apparently the oldest structure in the Forest Green locale. The site was and still is near the historic tobacco culture of the region. The house has a step seam roof, is vinyl sided, faces east, and the ell was probably added. The three dependencies -- barn, garage, shed -- all have metal (galvanized sheet metal) roofs and early 20th century concrete foundations.

### History of Our Community and Congregation

When we look back a hundred years, our country, and especially also our vicinity was entirely different from that which we see and enjoy today. In those days there were no telephones. Alexander Graham Bell did not invent the telephone until 1876. Electricity was unknown also. A century ago those families who did not make their own candles had to be content with kerosene lamps. Edison invented the first electric light bulb in 1879.

In 1803 our government purchased from Napoleon 875,000 acres West of the Mississippi River for \$15 million. Our present State of Missouri was a part of this Louisiana Purchase, and was admitted to the Union on August 10, 1821 as a slave state. At that time there were about 66,500 inhabitants in our state, some 10,200 of these being slaves. The settlers came mainly from southern states and brought their slaves with them. In the year when our congregation was organized, we had the famous Pony Express carrying mail from St. Joseph, Mo. to Sacramento, Calif., a distance of 1966 miles, in the record time of 10 days. The main road through our state east to west was the Santa Fe Trail, passing through Arrow Rock, a place close to our community.

After the tremendous earthquake in the Bootheel in S.E. Missouri, which destroyed many towns and changed the course of the Mississippi River bed, many of those inhabitants came and settled in our community with all their possessions and also their slaves. At that time the first survey was made of this area. In the old land deeds, reference is made to this 'New Madrid Survey.'

The only town in this community was Chariton, located at the intersection of KK and highway 5. This town was laid out in 1817, and had 1500 inhabitants at one time, including many stores, hotels, mills, and other places of business. Some of the streets were paved with bricks. A good harbor for boats was adjacent to the town, and the river boats - the only mode of transportation - could easily dock to load and unload goods. Due to floods, malaria, and unsanitary conditions, this town moved to higher ground and finally Glasgow became the location. The first German settler in Chariton

County was Frederich Beanbrick, who was also the first tailor in the county. In 1838 the first immigrants from Germany settled four miles north of Glasgow, in the forks of the Chariton River. Louis Coleman, John Zollah, and Dr. Louis Meyer were some of those settlers. In 1840 a colony of Germans came to Brunswick, Mo. Soon after this, many Germans from the Old Country located in our vicinity.

Some of those settlers had horses, but many used oxen to do the field work and pull the wagons. Tobacco was one of the main crops around here. The Bentley-Hereford Tobacco Factory bought all the tobacco raised locally. This tobacco was put into hogsheads and sent to Glasgow by ox carts. There it was loaded on barges and shipped to St. Louis, thence down the Mississippi to New Orleans, and from there to Liverpool, England. In 1869 tobacco raised in the Chariton Forks amounted to 400,000 pounds.

The Civil War broke out in April, 1861. Those were trying days for our community and for our country. The Governor of our State moved to the southern section of Missouri and urged the people to join the Confederacy, but officially Missouri stayed with the Union. The first battle close to our settlement was fought in Boonville (June 27, 1861). Battles and skirmishes were fought all around us: in Glasgow, Fayette, Keytesville, and other places.

The following members of our church served in that war: In the Union Army - Frederic Spellman, Jacob Rohwer, William Linneman, Carsten Kothe, and Frederic Meyer. In the Militia, Charlie Sanders, Henry Linneman and Frederic Sander.

The Germans were called Dutchmen, and in general were not liked by the people of the vicinity. Languages divide people. Throughout the war and for months afterward, bands of guerillas terrorized our country side.

LUTHERAN CONGREGATIONS ESTABLISHED AROUND US

The oldest congregation of our church was organized in

### ORGANIZATION OF SALEM LUTHERAN

In 1857 some of the German settlers from here sent an appeal to Pastor Fr. Buenger of St. Louis, Mo., who at that time was President of the Western District of Synod, Mr. J. Zahler, Fr. Meyer, and Dr. Kothe signed this petition. This request for divine services by a Latheran pastor was granted. Rev. A. Lange, a circuit missionary from Cooper County, Mo., was chosen, and he came and served these settlers from 1857-1861. Services were conducted in the homes of members, and even then only at intervals, since Pastor Lange also served other mission stations.

In 1859 land was purchased from Mr. Louis Kuntheinn and a courch building was erected. Purchase price for the landwas \$50,00. The building was erected and stood just across the road from the house where Mr. Fardy Sanders now lives. The building was a frame structure, with rough lumber hand hewn and prepared by the members. Windows and doors were purchased from the lumber yard at Glasgow. Mo., and the finished structure was a really churchly-looking building of which all were proud. Some of the families belonging to this Mission organization belonged to the Evangelical Synod, while the others to the Lutheran Church. In time a dispute arose among the members, resulting in a congregational split. Though the non-Lutherans did not join our church immediately, some of them joined in later years; however, they did have their children baptized in our church and also sent their children to our school.

On November 16, 1861, Salem Lutheran Congregation of Chariton Forks, Chariton County, Mo., was organized and a constitution adopted. In the following years nothing was changed in that constitution, and only a few paragraphs were added.

The original signers of the constitution and thus the real founders of our congregation were: Dr. Kothe, Joh. Zahler, Hr. Imgarden, W. Weisemann, Nie, Gebhardt and Jac, Rohwer, Below are the names of the first 100 members that signed the constitution: H. D. Kothe, Henry Imgarten, Nickolaus Gebhardt, Karl Sander, Jacob Rohwer, Fridrich Freese, Fridrich Meyer, Toegler W., Johann Jacob Gerhardt, John Goll, Friedrich Sander, Christian Heimann, Carsten Kothe, C. Klahn, Fritz Spellmann, Friedrichs Kottmann, Wilhelm Prenzler, Wilhelm Meyer, Carl Imgarten, Gottfried Gebhardt, Fredrich Bier, Louis Meier, Heinrich Linnemann, Hermann Kothe, Wilhelm Linnemann, Carl Haeffeke, Ferdinand Sigmund, Karl Wessemann, Wilhelm Gesling, Carl Imgarten, Ferdinand Kothe, Heinrich Kottmann, Friedrich Ocster-haus, John C. Koester, H. W. Meyer, Henry Kothe, G. Stroehlein, Christian Goessleng, Reinrich Wasemann, Fritz Gebhardt, Fritz Sanders, F. W. Burmester, E. Haffoke, William H. Nolting, Fridrig Meier, Wm. Kottman, Wm. Biere, Friedrich Kothe, Adam Gebhardt, Heinerich Linnemann, Hermann, Sander, August Freese, Wilhelm Kothe, Louis Gebhardt, Fritz Sander, Karl Biere, Johann Heddesheimer, Christ Gebhardt, Heinrich Oesterhaus, Edward Spelmann, Moritz Hartung, Everett H. Imgarten, Henry Rohwer, Johannes Linnemann, Johann Gebhardt, Alfred Renne, Carl Kothe, Fred Imgarten, Charles Schorge, Wm. Kennecke, Louis Sander, Adolph Kloehn, Louis Freese, Gottfred Gebhardt, Heinrich Sanders, Willie Sanders, Emil Linnemann, Charly N. Imgarten, John Spellman, Sam Lyones, Louis Helmich, Frank Haffcke, Fred Esterhause, Wm. Linnemann, Gustav Sanders, John L. Koester, Henry Gebhardt, Carl Haeffke, Johan Gebhardt, William Spellman, Edward Linnemann, Henry Prentzler, Edmund Leutung, Julius Sanders, Ernst Linnemann, Wilhelm Rohwer, Edward Gebhardt, John Engel, Fred Kothe, Henry F. Kothe.

The first Pastor called was the Rev. Fred Besel. He was serving Bowling Green Prairie, Missouri at that time, but he accepted and arrived here in May of 1861. The date of the first protokol is December, 1861. Due to the small number of Voters,

some of the Elders also served as Trustees.

There was not much business to be discussed in the Voter's Meetings. Most of the time was spent reading and discussing doctrinal essays of our synod. On the Sunday before a communion service, all communicates met in the chargen in the internoon and were instructed in the catechism. For over a year and a half the Constitution of our Synod was studied and discussed in the Voter's meetings. Men were also trained to conduct READING SERVICES. On Sundays when the pastor was absent or ill, reading services were conducted. One member was also chosen to be the 'Vorsacenger', the leader in the singing of the concregation. We see how interested our fathers were in studying the Word of God. Because they took great interest in the work of their synod, they built a sound Lutheran congregation dedicated to the work of the Lord.

When the Pastor was absent and a member died, an Elder conducted the whole functal service, Also, the teacher conducted burial services at times. In those days there was no embalming, so burial had to take piace so matter death.

Salem congregation (maintained a Christ), day school from the beginning. Pastors faught when no tell aers were on hand. The salary paid to Pastor Besel was: \$15,00 per year in cash, 100 lbs, of meat, and the taition from the school children. Tuition was 200 per child from our congregation, and 300 per child from non-Lutieran families, payable monthly, However, if a family bad more than one child in school, tuition for only one child was demanded. The following perquisites, set by the congregation, were also part of the salary: For confirmation, \$2,00; for baptism, 500; and for a marriage, \$2,00.

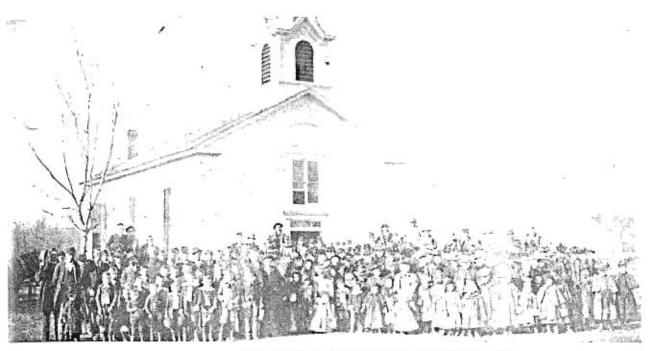

On January 25,1863, the congregation voted to build a parsonage and a separate school building, Mr. B. D. Kothe offered sufficient land free of charge for this project. An extra tree was purchased from which the shingles were to be made. This property is now owned by Mr. Wm. Renne. (See map). This parsonage was a two-story building, measuring 24 x 16 feet.

Mr. H. Imparten donated 1/2 acre of land for a cemetery. In 1866 the congregation joined synod as a voting member. Mr. B. Gebhardt was the delegate sent to that convention, and as such, be signed the constitution of synod.

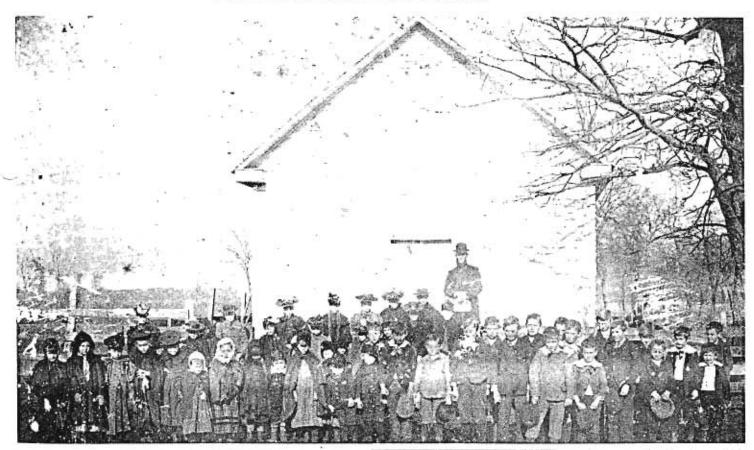

After Pastor Besel had accepted another call, Rev. E. Kaehler of Dwight, Illinois was called. The document of this original call is still in the hands of some of our members. This call was written out in the German language in beautiful handwriting script. The call states: "We pledge free dwelling and wood hauled to the parsonage, and \$130.00 per annum to be paid semi-annually. In addition, he is to receive the school tuition fees and the set perquisites." This call was signed by H. D. Kotne, F. Meyer, and N. Gebhardt, and dated December 28, 1863. Pastor Kaehler served our congregation until his death in 1871. He lies buried in our old cemetery.

In 1868 Adolph Hafemeister was called as our first school-teacher. He was born in Germany in 1846, and his father had been a teacher in the old country. After graduating from the Gymnasium in Germany, he taught school in private families for two and a half years. When he came to the U.S. A., our congregation called him for our school at a salary of \$125.00 per year. Carl Imgarten boarded Teacher Hafemeister for \$50.00 per year. After teaching in our school for a year, he went back to Germany to get married, and then returned to Forest Green. The congregation purchased a violin for \$15.00 and gave it toour teacher to be used in the school. Under Teacher Hafemeister, the Men's Choir was organized in 1869.

After serving our congregation for six and a half years, Mr. Hafemeister accepted a call to Emma, Mo., where he served for 34 years. He was a very faithful teacher, a model Christian, and a cheerful entertainer. He prepared many children for a useful life here and for a blessed Eternity. Prof. Pardieck from Concordia, Mo. preached the funeral sermon, using as his text Joshua 1:2, "Moses my servant is dead." Teacher Hafemeister's body was brought back to Forest Green and was buried in our new cemetery. It is interesting to note that in those years school was conducted also during the summer months. During the summer months,

SALEM LUTHERAN SECOND CHURCH 1878-1912

SALEM LUTHERAN FIRST SCHOOL 1880-1905

1863 PARSONAGE

school started at 7:00 A.M. and closed at noon. The children at that time walked to school, rain or shine. No rubbers or overshoes were to be had in those days. Few children were fortunate enough to come to school on horseback.

Christmas Eve services were introduced in 1972, and the Confirmation uge was set at 13 years.

After Rev. Kaehler, the Pastors served but a short time each, Pastors Barth and Pfeiffer each served less than a year. Losing pastors after such a short service was a great discouragement to the congregation. We must remember that this locality was a very unhealthy place to live. There were no roads - only traits led through the bottom lands, Ponds, marshes, sloughs, and stagnant water caused much fever, and the drinking water was very unhealthy.

When the question of calling another Pastor arose, the congregation recognized that the salary offered was very low. On the other hand, the members brought meat, vegetables, potatoes, etc., to the parsonage regularly. When considering calling another pastor, this matter was discussed. Some thought it wise to mention in the call that the congregation members supplied the parsonage with 'Naturalien', that is, potatoes and vegetables for the table. However, some members argued that if this was in the call, then ALL members also MUST bring these things, In this case the matter of providing Naturalien would no longer be a deed of love, but would become a duty. Again it was stated: "If we put this matter into the call, the pastor could demand flour, rice, and spices, plus other things necessary for the table," It was finally agreed not to mention anything about Naturalien in the call, but rather mention this matter in the letter that is to be sent along with the call, It was agreed to write in that letter: "We will not let our Pastor starve." In this manner, the requirement of furnishing Naturalien would not be so binding upon the members. The salary was set at \$200,00. It was also stated in the letter that the call should not be returned because of the meager salary, but first the congregation should be contacted concerning this matter.

Pastor G. Stroehlein was called, and he served our congregation from 1873-1876. He was a sickly man, and found it necessary to resign from his office due to ill health. After this he still served the congregation by performing haptisms and other sacred acts, but he did not preach. He died in the County Farm near Keytesville and lies buried there.

In those years it was the rule of the congregation that each of the married members must furnish one cord of wood, and the bachelors each one-half cord for the heating of the parsonage, church, school, and the teacherage. This supplying of wood was a constant troublesome matter discussed in nearly every Voter's meeting. It was decided that those who do not furnish firewood pay \$2.00 per year. However, neither did this solve the problem. In 1926 there was a shortage of firewood, because some 196 loads were never delivered. At that time the custom of furnishing wood was abolished.

Our fathers were very serious concerning sound doctrine in church and school. They found one teacher to be extremely rough with the children, and not sound in his teaching of religion. He was requested to resign from his office, and thus also forfeited his right to be a teacher in our synod.

Our first elected janitor was Herman Kothe, No salary was set, but he was promised \$7.00 per year. For many years Edward Leutung was janitor,

'In the year 1872 the Synodical Conference was organized, and it consisted of the Missouri Synod, the Wisconsin Synod, and the Ohio Synod. The question, 'Shall ONE seminary be established to serve this combined organization?' was to be decided by the various congregations of the synods. In a Voter's meeting here in January of 1877 this matter was discussed. Our congregation voted against the plan of having only one seminary for the whole Synodical Conference. 'The reason given: 'In case of false doctrine, laxity in teaching would set in and all ministers would then be influenced by this to the detriment of the whole organization. But if separate seminaries are maintained, the rest would probably remain orthodox.' Hence it was decided to vote against the plan suggested. The example of the Lutheran Church in Germany was

SHAUT I

stated as proof that it is better to have separate seminaries. Our congregation also voted against the suggestion that the Synodical Conference be divided into State Synods. The idea was that the congregations in each state form a district. Fear was expressed that though there perhaps would be unity of doctrine, yet in practice there would be differences.

The widow of Pastor Kaehler continued to live in our midst, The congregation built a house for her to live in, and this house later became a teacherage. The congregation also voted a pension of \$30.00 per annum for her support. Later Pastor Kaehler's widow left the sum of \$500.00 to the congregation to be used toward a new church building.

During Pastor Adam's pastorate--1878-1881--a new church building was erected on the land of W. D. Kothe. (See map). A really churchly-looking building was erected, with atcepte and bulcony. This building measured 30x50 ft. and cost \$1,216,260. On the day of dedication, March 31, 1878, this building was paid for. The preachers for this dedication were: Pastors Walther, Griebels, Willes and Biltz. A special committee was elected to get these pastors from the depot and arrange for their louging. The old church building continued to be used for school purposes. In 1880 the congregation tore down this structure, and with that lumber erected a new school building next to the church. Many of our present members attended this school. This building, which measured 20x28 feet and boasted six windows, was erected at a cost of \$178,00 to the congregation.

After Pastor Adam had accepted a call to Omaha, Nebraska, our congregation experienced a rapid change of pastors again. Some of these pastors did not stay long enough to baptize children. Then Pastor Falke came and served the congregation faithfully for twenty-one years.

From 1906-1902 Mr. Herman Beck, a young teacher-candidate from our Teacher's Seminary at Addison, Illinois, was our teacher. Under his regime many changes took place in our school. The English language was introduced, Geography and Arithmetic were taught in the English language, and many traditions were shattered. On Christmas Eve in 1901 Mr. August Renne, then a pupil in our school, was privately drilled to recite a Christmas number in the English language, This came as a complete surprise to the congregation and caused an uproar among the members. However, one of the members gave a box of cigars to teacher Beck as a gift of appreciation. Mr. Beck now lives in retirement in St. Louis, Mo., and looks back with fond memories to the time he taught in our midst. Since the congregation feared that their children would soon neglect the German language and speak English, the English language was again barred from the school.

Our annual picnic dates back to the year 1886. For some years beer was sold at our picnics, in 1886, the picnic profit was \$10.50.

A rebuilt pipe organ was purchased in 1891 for \$325.00. This same organ was later moved into our present church and used for many years. Mr. Louis Meyer was our organist for a long time. There was a time when our congregation was so poor that they decided not to have must in the church services. Remuneration paid to the organist was \$7.00 per year. Decendents of this Meyer family were members from the beginning of our congregation. At the present time we have the sixth generation of this family in our midst.

Pastor Mund served us for only two years, He had to resign because of poor health. At that time it was resolved to add the cleaning of the old cemetery to the work of the janitor. Twice a year, in July and August, the weeds were to be cut with a scythe. Salary set for janitor work was \$25.00 per year.

From 1904-1911 Pastor E. Polster was our shepherd. At this time, in November, 1904, the congregation purchased 25 acres of land for \$1582,50 from Karl Kothe. This is our church property at the present time. (See Map). The cemetery was laid out first, and teacher Adolph Hafemeister was the first person buried in this cemetery. Next, a house was built for the teacher on the same spot where our present teacherage now stands. A new school building was erected near the teacherage, and dedicated November 15, 1905. The parsonage, which served as the pastor's residence until 1960, was built in 1907, Cost of this building was about \$3,000.00.

At this time the pastor offered to pay for a hot air furnace if the congregation would build a basement under the house and install the furnace, but the congregation was not willing to do this because of the additional expense. In later years a part-basement was dug and a furnace installed.

The fiftieth anniversary of the congregation was celebrated in August of 1907. This service, which was conducted in H. Kothe's grove had as guest speakers former pastors Falke and Adam. The offering amounted to \$84.25. The congregations at Salisbury, Brunswick and Little Rock were invited to this anniversary service.

For the next 37 years the congregation was served by pastors A. W. Mueller and his son Martin Mueller. The salary in 1910 was \$500.00 for the pastor and \$400.00 for the teacher. Teacher Otto Mueller served our school from 1913-1920. (One of his sons, Alvin A. Mueller, served as a missionary in India for some years).

Our present church building was dedicated on November 17, 1912. The Rail Brothers of Glasgow, Mo., built this edifice for the contracted sum of \$5,025.50. Guest speakers for this occasion were: Pastors Adam, Falke, and A. Graebner. The offering amounted to \$162.91. The former church building was sold for \$200.00, and the old bell donated to a mission congregation at Jerico Springs. Mo. Some of the pews from the former church are used in the balcony of our present church.

Due to World War I and other circumstances, services in the English language were introduced. However, it was difficult to get pastors who were able to preach in the English language. Until 1913 the hymns sung during the English services were sung in the German language.

In a Voter's meeting in January, 1920, it was resolved to call Pastor Martin Mueller as assistant pastor and teacher for our school at a salary of \$1,000,00. The envelope system was introduced in 1920. This proved to be a real blessing, and more regular giving was the result. In 1921 our congregation raised \$1,126.33 for Synod's work at large. Due to much opposition, however, the envelope system was abolished, and it was not until 1952, under the Rev. Fischer's pastorate, that the envelope system was again introduced.

Sunday school was introduced in 1920. In 1922 it was resolved to alternate the Sunday services; one Sunday in the German language, the following in the English language. In the year 1942, in a regular Voter's meeting, the services in the German language were discontinued. Since 1924 the minutes of our meetings are recorded in the English language.

In 1927, electric lighting was brought to our church. One member gave \$100.00 for this lighting system: a widow gave \$50.00; the Ladies promised \$393.20; and the choir, which had disbanded, gave what was in their treasury, namely \$200.00. To make it possible for the electric power line to be brought to our property, two members worked on the high line for days, and thus it was made possible to have electric lights in our church.

Our Laines' Aid was organized on August 3, 1930, A Bible Class was also organized in 1930, and met on Sanday evenings.

The pipe organ used in our church at the present time was purchased in 1944 for \$3,160,00. The Sunday Bulletin was introduced in 1944. The new Lutherar Hymnal was introduced in 1945, with two hundred books purchased at that time. The venetian blinds in the church were donated by our Ladies' Aid, and were installed in 1948. The gas furnace in the church was installed in 1947. Permission for men and women to commune together at the same time was voted in July of 1949. Our teacherage was built in 1947.

For many years the need for a Social Center was felt. There was no place for our organizations to meet. For a time the idea of purchasing the building opposite the bank in Forest Green was discussed. The Young People's Society, the Ladies' Aid, and the Choir all brought pressure upon the congregation to erect a social building.

Finally, under Pastor Fischer's pastorate (1949-1954), our new school building with room for all social activities was built. A beautiful, modern brick building was creeted just north of our

church. At that time a number of our members organized the Bowling Club and installed a two-lane bowling alley in the basement of this building. This new school and social building was dedicated on January 25, 1953. The cost of this building was \$3,960.00. Speakers at this dedicatory service were: Prof. W. F. Wolbrecht of Concordia, Mo., and Mr. L. J. Dierker, Superintendent of the Lutheran Schools in the Western District. The old school building was sold for \$200.00.

Pastor E. L. Hofmann served as pastor in our midst from 1955-1958, when he accepted a call to Aurelia, Iowa. The present pastor, Robert M. Jank, who had served Zion congregation at Pocohontas, Mo. for many years, accepted the call extended to him, and was installed as our pastor on January 18, 1959.

The communion set used in our congregation was a gift from our Young People's Organization. The flagon is inscribed in the German language and reads: "Presented by the Young People of Salem Lutheran Church, 1912."

Paul Lutheran congregation, 10 miles southeast of Slater, Mo., established in 1887, and Immanuel congregation in Salisbury, Mo., established in 1890, may justly be called daughter congregations of our congregation. Pastors from Salem established these two congregations and served them until they had their own pastors.

The minutes of all the meetings conducted by the Voters Assembly, and all sacred acts performed during the past century, - baptisms, confirmations, etc., - are completely recorded. This shows faithfulness on the part of the officers of this congregation.

Four of our old offering plates are still in our possession. They are made of walnut wood. The handles are 4-1/2 feet long and a wooden bowl is bolted to the handle. Many years ago, in 1868, the wood for these offering plates was sawn by the Nicolaus Gebhardt, Jacob Rohwer, Charles Imgarten Sawing Mill Co., Chariton County, Mo. Mr. Wm. Wengler, for many years the only undertaker in this vicinity, purchased this wood, and in 1927 these offering plates were made by Ed. Wengler. The following inscription is found on the bowls: In loving memory of the Pastors who served Salem Ev. Luth. Church, Forest Green, Mo. since it was organized in 1857. A. Lange 1857-1861. Then each pastor's name is inscribed up to Martin O. Mueller 1922. These offering plates were used until about the time Pastor Fischer came here.

Considering the history of our congregation, we must bow in great humility and must praise our God for the manifold blessings so abundantly bestowed upon us. From that primitive beginning one hundred years ago we have grown into what we are today. We enjoy fertile fields and goodly homes. Our fathers were very poor, and the land was not too productive. With grub axes the fathers felled trees and grubbed out the stumps. Drainage ditches were dug, and thus more land came under cultivation. We marvel at the meager salaries paid to our pastors who also had to teach school every day.

We thank God for all the faithful pastors and teachers that labored in our midst since 1861. Each one served according to the ability which God gave him. Reading the record of the official minutes of the past hundred years, it may be said that our congregation frequently deaft in a legalistic way with members that had erred. However, in spite of all, the Lord has been gracious to our congregation.

During the past century we can record the following: 1,178 persons were baptized in our church, 859 were confirmed, 277 marriages were solemnized, and 381 funerals were conducted.

The 1960 annual report presents the following statistics:

Baptized members (children) . 89
Communicant members
Total number of souls
Voting members
Children in school
Children in Sunday School
Baptized
Confirmed
Burials

Communed														1,5	571
Services															63
Attendance															
Sick calls	 													:	525

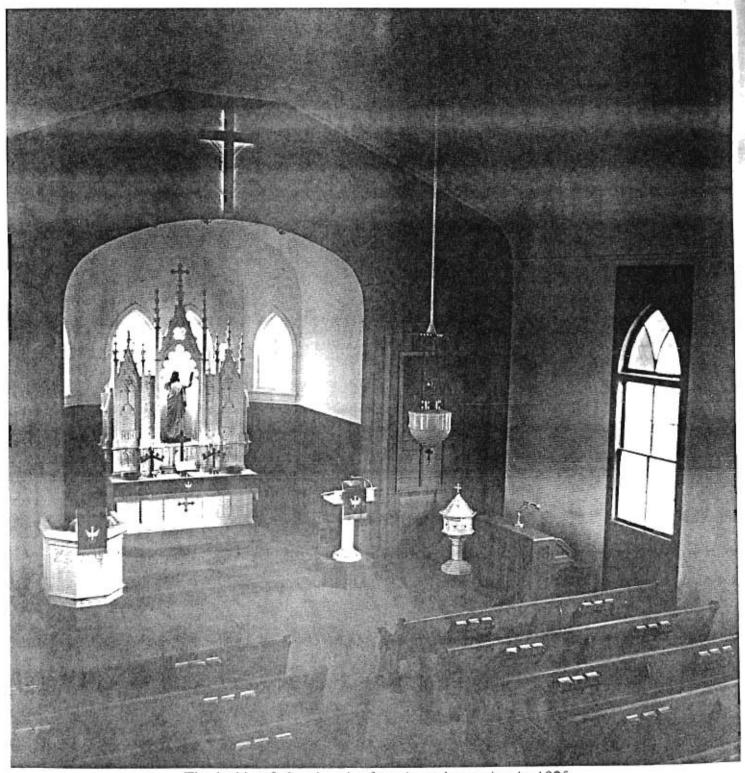

Church attendance in 1960 averaged 241. The average communion attendance was 4,6 times a year. An Adult Bible Class and a Junior Bible Class are conducted regularly on Sunday Mornings. A special Bible Class meets every other Sunday evening. The Parent-Teacher League meets regularly during the school months.

May we continue to build our congregation on the foundation laid by our fathers. We are building for our own as well as for our children's spiritual welfare.

In bringing these annals of Salem Lutheran Church's history of one hundred years of Divine blessing to a close, our Prayer for each succeeding day shall be:

"O Lord Jesus, who hast promised to preserve Thy Church upon earth unto the end of days, we pray Thee let our Church be a light shining unto many, a city upon a hill which cannot be hid. Make it a testimony and a witness to them that are without, that sinners may be converted unto Thee, and that many may come with us to receive the promised inheritance. Abide among us with Thy grace, Thy word, Thy light, Thy blessing. Thy protection, and Thy love, that we may be prepared to enter finally into that great rejoicing which we shall find in the New Jerusalem. Grant this for Thine own Love's sake. AMEN."

# Supplement to the 1961 Centennial Book Salem Lutheran Church Forest Green, Missouri

The inside of the church after the redecoration in 1975

# Salem Lutheran planning big day to observe 125th anniversary

On November 16 at 10:00 a.m., Salem Lutheran Church of Forest Green will begin a day of festivities commemorating the congregation's 125th anniversary. A cordial invitation is extended to the surrounding communities to join in this feative and joyous occasion. The guest preacher for the 10 o'clock service will be the Rev. Ellis Rottman (who served Salem from 1962 through 1968). Mrs. Bex Kollmorgen (who served as organist with Pastor Rottmann) will serve as the guest organist. Special music will include Mr. Rex. Kollmorgen as sololat, with the 35-voice Salem Choir singing selected hymns.

After the morning service, dinner will be served in the school building. Special provisions have been made to serve a large number of guests. Also in the school building a number of displays will be set up containing memorabilis from the past 125 years of Salem's history.

At 2:00 p.m. there will be a worship service with the Rev. Mark Smith serving as guest preacher. Rev. Smith served Salem from 1979 to 1981. The organist for this service will be Nancy (Linneman) Fueranteler who was the

organist during Rev. Smith's term as pastor of Salem. Charlotte Lyons will sing a solo during this service, and special music will again be provided by the Salem Choir.

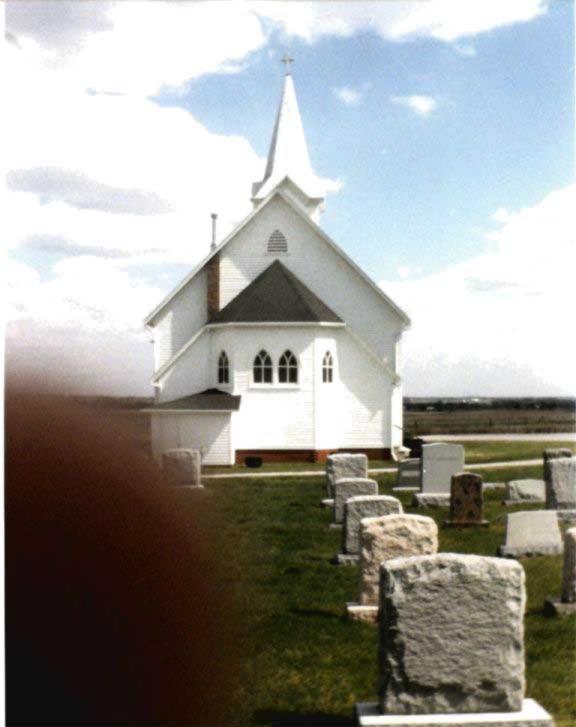

After the two o'clock service there will be a special anniversary party with anniversary cake and refreshments. During this time members and guests will again be able to view the displays and relax with their friends and neighbors. Special entertainment will be provided by the flayette Band. This should be an exciting and memorable time for all since the Flayette Band was formed from remnants of the aid Forest Green Band, and will be playing music from that era for everyone's enjoyment.

At 5:30 the evening meal will be served. The congregation is prepared to serve a large number of guests. At 7:00 p.m. an Evening Vespers Service will be held. The preacher for the evening service will the Rev. Drew Newman, current pastor of Salem, Darlene (Lyons) Kursman will be the deganist, and the Salem Choir will again provide special music.

After the evening service, to finish out the day, refreshments will be served in the school basement. This uphont the day a special room will be maintained for the young children in afterdance. There will be movies and other activities to keep them occupied.

Salem Luthersn Church had a part of this community and its history for the past 125 years and the members hope that many will help celebrate that special day.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- Local limestone foundation supports what is probably the oldest stucco house in Chariton County. The fishscale shingles in the gables and smooth textured stucco walls create an uncommon transitional vernacular house. The interior 2nd floor has never been finished.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

-- An excellent example of a mid-2oth century double pen house with ell. All features complement the small scale of this folk house-small windows, small flue, very modest ell, but the porch contains mfg. spindles from a Victorian house. App appears home-made in the folk tradition.

- This is one of a few local cemeteries laid out on both sides of a country road. Perhaps the south side with mature cedars was the first plot. Though the concrete entry steps are in disrepair, they are the best approaches to the cemetery.

- Precast block foundation supports this superb vernacular house that exhibits an aesthetic congruity of elements. It is representative of the best ornamentation and design in regional one-story 4-room, pyramidal roof houses. Notice the mirror-image facade, properly scaled dormer, a front-facing gable behind the dormer, two flues balance the heat distribution, and the pre-fab late Victorian porch all enhance the appeal of this house.

- This building is representative of the last generation of one-room school buildings. It has a full basement surrounded by a concrete wall and foundation; it is covered with asbestos siding and it has electricity. The detached privy to the southwest is completely metal-saided (see photo), the only such one observed on the survey.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- The ornamentation of this common house plan is worth notice. Normally this "cross-axis plan" would entail two front porches as the only distinguishing traits, but the gabled dormers with the large middle gable resembles the fairly common triple gable house in central and north Missouri. However, the pattern is the same in the rear - 6 gables on front and back. Theoretically, the vernacular Gothic gables could be the ornament above an iron cross floor plan.

Instruction at the Neavy Equipment Garage, Nov., 1940. Photo donated by Foster N. Wiley

## THE CIVILIAN CONSERVATION CORPS. CCC CO. 1727 SUMNER, MISSOURI

"At 6:00 a.m. Nov. 5, 1937, three trucks loaded with sixty-two men and equipment loaded at the camp at Salisbury, Mo. for the new project at Swan Lake Biological Survey Refuge, sometimes called "Skeeter Lake" as the mosquitoes are supposed to be as large as the swans." So began The Building of Our Camp by Lt. 0.0. Bullock.

It was also very nearly the beginning of Swan Lake National Wildlife Refuge. The company had been in Salisbury with the Soil Conservation Service for 312 years and these men missed their heated barracks that first night. They slept in tents with no floors, no stoves, and not much bedding. The cold was incentive enough to build new barracks quickly and they moved into them two days before Christmas, 1937.

Summer became home for Company 1727 and the men began building levees, dikes, spillways, lakes, and a place in the hearts of the community. Elsewhere, the CCC camps were developing 38 National Wildlife Refuges. When Congress ordered an end to the program in July 1942, there were 185 CCC camps and projects on refuges, national forests, national and state parks, and Indian reservations. The pay was a dollar a day and \$22.00 of that went home to the man's family each month.

It was good work. The CCC built solid, built sound, and built to last. And when you sweat over the land, you make it your own. Maybe that is why you'll get a special twinkle of the eye or smile if you ask one of the "CCC boys" if he has ever been to the refuge before. They will generally tell you with a lot of pride, "Why, I helped build the Place!"

The camp's Educational Advisor and later Company Commander, Foster Wiley, may have had some of the best words for the spirit of the CCC: "The stay of from two or more years in the CCC has not been a struggle for the preparation of life, but in reality it has been life itself.... The greatest conservation program possible for those in the supervisory positions to render is not the conservation of forests and soils alone but ultimately the conservation of American citizenship. Thus, the basic purpose of training in the CCC may be stated briefly as follows: To develop men whose bodies are strong and healthy; whose feelings toward the world and its people are right; whose knowledge of the world is accurate and broad; who think with clear minds; and whose actions, while expressing individuality, contribute to the welfare of the group, the state, and world in which they live."

Though written in 1939, those are still good and solid words; like the men and their work.

Entrance to Co. 1727; Summer, Missouri Photo donsted by Poster N. Wiley

## SWAN LAKE NATIONAL WILDLIFE REFUGE 1981

"it is very likely that one day a wildlife refuge may be the only place to see common animals of Mo. But as long as there are refuges people will be able to enjoy wildlife. One day people will be grateful for the work and money people put into wildlife refuges. I am already grateful but I don't know how much I'd miss wildlife unless it was gone."

> Teresa DeGeorge Brookfield R-3 5th Grader - 1979 -

Teresa was concerned about all wildlife when she wrote that; especially Canada geese, rabbits, deer and raccoons. The dustbowl conditions of the Depression caused others to be concerned about the future of our nation's migratory water-fowl and Swan Lake was set aside as a National Wildlife Refuge in 1937 to preserve habitat for ducks and prairie chickens. Like many other places of lasting value to the country, it was built by the CCC.

## From 1937 to 1948

From 1937 to 1948, less than 1,000 acres of the refuge were farmed but this effort attracted Canada geese as well as ducks. As thousands of geese began to winter here, management emphasis gradually shifted to providing sufficient grain and browse to sustain them. In less than 30 years, Canada geese have become the focal species of this refuge and Sumner has become the Wild Goose Capital of the World!

Yet, tucked safely away in a bottom desk drawer in the new headquarters building, there is an old photograph of J. Clark Salyer II. Mr. Salyer was chief of the Division of Wildlife Refuges from 1934-1961 and is known as the father of the refuge system. He took a very personal interest in Swan Lake and its population of prairie chickens. One of the most remarkable men in the Service, Mr. Salyer was able to instill in his refuge managers an ecological conscience and concern for the preservation and

management of all wildlife species. "Woe be the manager who tried to plow under important 'dickey bird' habitat to create additional farm land for waterfowl food crops!"

Mr. Salyer's spirit lives on and the emphasis today is to maintain a healthy diversity of wildlife on individual refuges and through a system of 400 refuges nationally. At Swan Lake, that means providing habitat for Canada geese and Bald Eagles, nine birds on Missouri's endangered species list, and more than 200 other bird species. It means looking after about 36 different kinds of mammals including Teresa's tabbits, deer, and raccoons. It also means spreading Mr. Salyer's 'ecological conscience' beyond the refuge fence so that refuges will not become the only places to see the common animals of Missouri.

### Service Roll

The following Refuge Managers have had a share in the development and administration of Swan Lake National Wildlife Refuge.

Kenneth K. Krumm	1938-1942
Clarence E. Harness	1943-1945
William C. Oakden	1945-1946
Kenneth K. Krumm	1946-
Herbert H. Dill	1947-1951

This brick, mansard roof, eclectic Victorian house was one of the most richly detailed buildings in Chariton County. The roof has collapsed; half the plaster is gone from the walls; some keystones in the window heads are missing; some original color scheme in the roof and cornice line is still observable; notice projecting two-story center bay between the boxed-bay windows; interior woodwork is gone; the use of stone window heads and sills is uniform throughout, even on the rear of this double pile house that includes a one-story ell.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The kitchen and a bedroom have been added. Vinyl siding covers the exterior. The house rest on a superb limestone block foundation. Numerous dependencies lie west of the house: a milkhouse, smoke house, machinery shed, hog house, double garage, two barns, grain bins, several smaller structures, and a ceramic house built 15 years ago.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Main house is a frame, two story, 4-square house. The frame 4-room tenant or farm laborer's house is probably the best example in the county as it has been restokred and modernized as an Andrews' family retreat. Several metal and frame dependencies lie east of the houses. The summer kitchen was formerly a laborers' house at the coal mines on the farm.

The Andrews farm is located five miles northeast of Sumner, Mo., and seven miles south of Laclede on Highway #139. This farm has been owned by the Andrews family for five generations and improved by each generation.

Prior to the purchase of this farm Lyman Andrews served in the Mexican War in 1846 and was honored with the rank of Captain. Captain Andrews and his wife, Niobe Franklin Boomer, both originally from New York, moved to Belvedere, Illinois. From there they traveled by river to Chariton County, arriving in Brunswick in 1861 and purchased the Andrews farm. Captain Andrews was active in politics in Chariton County and served as Justice of the Peace of Cunningham Township for a number of years. With the purchase of the farm came many changes. This virgin prairie land required fencing for proper farming. This was accomplished by splitting ten feet long log rails, which were attached to hand cut oak posts. These rails were cut on Grand River bottom, hauled to the bluff west of Cunningham, and later transported by horse and wagon to the Andrews farm five miles away.

In 1867, Captain Andrews and a group of businessmen from St. Joseph, organized a coal company and started a coal mining operation on the farm. A small settlement, with a company store, soon developed near the mine and the remnants of this development can still be seen on the farm. The coal was hauled to Laclede by ox team where it sold for 40¢ per bushel and shipped by rail to its destination. They farmed the land, as well as operated the mine, and in 1875 the family moved to the hill west of Turkey Creek which is the site of the present infprovements. In 1892 Captain Andrews sold his farm to one of his sons, Milton F. Andrews. Lyman spent his remaining years in Sumner. Both he and his wife, Niobe, are buried at Lakeside Cemetery beside their many friends who they both loved so well.

Milton Andrews, and his brother Jim, had already reestablished the coal mining operation in 1886, and were farming, before purchasing the land from his father. Milton had married a young, red-haired school teacher and neighbor, Mary Plummer. Mary was the daughter of John Plummer, who was also a teacher and a farmer. Milton and Mary Andrews brought up six children on the present farm. Their first daughter, Edith, died at an early age from burns received at Boomer School. Lyman was a teacher, farmer and in the real estate business. He married Ethel Dougherty. Their three children are Jean Evans of St. Joseph, Marjorie Brown of Liberty and Betty Andrews of St. Joseph. Walter was farmer, construction and in real estate. He and his wife, Etta Welsh, had two children, Berneil Andrews, M.D. of Kansas City, and Anna Mae Townsend, of Arlington Heights, Illinois. Eva, Della and Mary were teachers in early life and later housewives. Eva married N. K. Coit and had one daughter, Mary Dell Springer. Della married A. F. Devorak and Mary married Dayton Williams. They are all deceased, except Mary Williams, who lives in Oneco, Florida, and returns annually to visit the old home place.

The barn on this farm is unique in that it is 60 feet in diameter. It was built with native lumber cut on Turkey Creek and part of the farm. It was then hauled to Tom Mouser's sawmill east of Forker and back to the farm for the construction of the barn. The sand came from Bill Frakes' sandbar west of Forker on Locust Creek. Benton Steele and Walter Andrews

worked together building this barn and completed it on Christmas Day, 1913. For many years the farm was operated under the name of M. F. Andrews and Sons and "The Round Barn Farm" is a well known landmark in this part of the country.

Lyman and Walter Andrews moved to St. Joseph about 1930 to become associated with the Bartlett Mortgage Company and later formed the Andrews Investment Company. However, they still took an active part in the operation of this farm. The Chariton County Grain Company was later built and operated at Sumner for many years by Walter, Lyman and Dr. Berneil Andrews, Walter Deweese, Robert Madget and Ralph and Everett Welsh.

With the passing of time the Andrews farm came under control of Dr. Berneil Andrews, a specialist in Urology in Kansas City (1958). He recalls many happy times of his boyhood days on Turkey Creek and at Boomer School, which was located 40 rods west of the Andrews home. Although this one room, rural school no longer exists, one still recalls its prominent role in the recreational, educational and social background for so many residents of this community. To the teachers who taught at this school - a one room schoolhouse with a coal stove in the center of the room and 15 to 30 students, ranging from the first to the eighth grade - we say, "thank you." In 1932 Berneil Andrews moved to St. Joseph but continued to spend much time on the farm with his Aunt Eva Coit and later the Walter Deweese family. Dr. Andrews has three children and these children spent much of their youth on the Andrews farm, although they lived in the city. The oldest daughter, Dr. Katharine Pyron, specialist in internal medicine in Gulfport, Mississippi, has one daughter, Kate. The son, Dr. James Andrews, an oral surgeon in Columbia. Mo., now owns the farm. He has three children - Erin, Adam and Eva. The youngest daughter, Jane Thompson, lives in Kansas City and is a high school teacher and housewife. She has two children - Melissa and Todd. The farm still serves as a family meeting place.

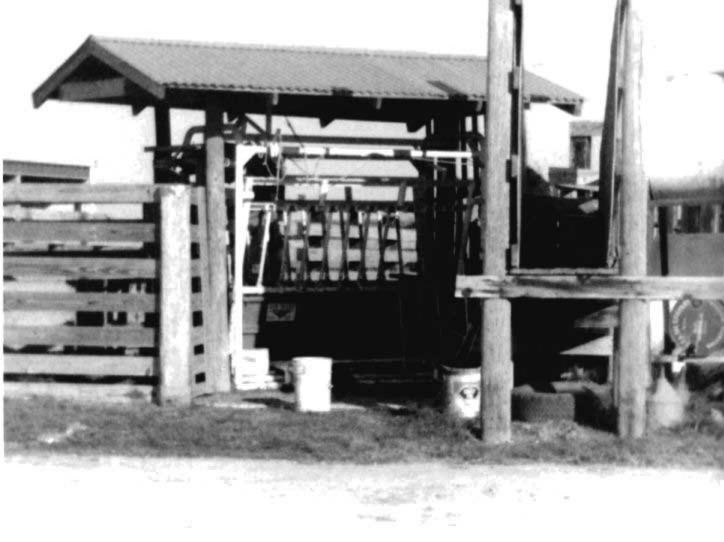

On the east side of the Andrews farm are remnants of an old stage coach road that ran from Brunswick to Iowa. There was a Wayside Inn located between Elk Creek and Turkey Creek on the old Bill Fulbright property (also known as the Moudy Place or Zahner Farm). This is primarily of historical interest today and to those who have been involved in farming this land.

In 1927 the Moudy Place, 720 acres, became part of the Andrews farming operation. Milton, Lyman, Walter, and his son Berneil, used horses, mules, unpredictable Fordson tractor, and a binder, which was broken down much too often. to farm the land. Many stories could be recalled about the floods, droughts and rattle snakes, as some of this land had never before been farmed.

The nearest town was Forker, consisting of a general store run by Luke Brady and Boomer post office, whose postmaster was also Luke Brady. Forker Station was named after a Mr. Forker, who was conductor on the Burlington Railroad running from Burlington, Iowa to Carrollton, Mo. The post office was named after Oris Boomer, a prominent family in the community.

It is a rare rural community that has had as much to offer to so many and has had such a strong influence on so many generations. It is hoped that the future will hold the same.

# RIVER BLUFF LOOK-OUT

EXACTLY A YEAR AGO the published a feature article on the beginning of the restoration of the old Edwin Stump) Price home, located high on a bluff overlooking the Shariton River, about a mile esville, about a mile and a half.

The Immense task of restoration and salvaging as much of the original dwelling material as possible, was undertaken by the Fletcher Parks' family (the owners), the architect, and a well-known carpenter, Creighon Bedwell of Brunswick.

This ten-room home (plus baths and utility room), will be far superior to the original structure, in that it will house every modern convenience, yet retain most of its original appearance of beauty and dignity,

situated in a castle-like site above the river and surrounding bottom-land.

An overall picture shows the great size of the house. The downstairs has eight rooms including a bath and the utility area. Upstairs has two bedrooms and a bath. Both levels have a full porch. The porch railing is hand-carved. Below the lower porch, the wood supports have been replaced by large stone blocks.

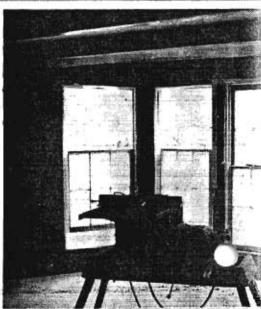

As you enter by the driveway, the first close shot of the old Price home is the north side of the slave kitchen where an extra large fireplace-chimney is located. This is the original chimney that was on the house when it was built sometime in the 1830's.

When you step onto the side

porch you see a front view of the slave kitchen. The section of wall on the left (picture below left) was built by the Parks to replace a covered walkway. This is the family's dining area, which joins the 16 by 32-foot family living area on the right. Bedwell, chief constructionist, stands to the side of the fireplace. The pit, once in front of the fireplace, was omitted in remodeling.

Ceiling beams in every room will be left exposed. They will be cleaned and varnished.

The chore of salvaging and duplicating original sections of the home has taken its toll in time, money and research, but the evidence is there to show the builders are emerging victorious.

Stepping from the living room you find yourself above, which will be the dining area when finished faces the west of the house. -- SHEILA HUGH 

remained in the house until shortly before they died, just a few days apart. John J. Coy was almost 100 years old.

Fletcher Parks and his wife Ann (Ipsen) bought the farm from the Coy estate in 1969. The house, which stood vacant for several years, had deteriorated badly, but was salvaged with the assistance of James Darrough, a Columbia architect, skilled in restoration work. Creighton Bedwell of Brunswick oversaw the construction.

The main part of the house was originally one-story. The second story was added later, and the double porch probably at the same time. The two rooms on the south and the east porch were built in the 1880's most likely by Edwin Price. The original two-room board and batten cabin with its huge pioneer fireplace was attached by the Parkses to the main house by an entry hall to replace the open dog-trot. The inside was completely moder-

nized, but great care was taken to preserve the original outside appearance. The house, which sits on a hill overlooking the Chariton River, is located three miles south of Keytesville.

A two-room log house built in 1865 by Elias Elliott and his wife Idress (Butler), in which they reared six children, was moved log by log from its location a mile south of Asbury Church and re-assembled east of the main house. The house, which had always been covered with clapboards, was restored to its original appearance. The central fireplace was rebuilt, but left open on only one side. The interior of the house, which had originally been plastered, was left exposed to show the log construction. Both the logs and the siding are basswood, commonly known as "linn," a shortening of the name "linden." The house is used as a studio/guest house, and is connected to the main house by an arbor-covered walkway.

### I REMEMBER . . . by Mrs. Latimer (Marie) Hughes

My first impression of Keytesville when I came here as a bride in 1917 was that it was an aristocratic town. Many who settled here were from the first families of Virginia and Kentucky. There was much formal entertaining and many clubs and organizations. However, I found it to be a very friendly town. I had many callers and they left their cards. I soon learned to love the people and felt at home.

I remember Dr. Bondurant Hughes saying, "If you ever came to Keytesville and drank from the Musselfork River once, you always came back."

#### CONFEDERATE GENERAL EDWIN W. PRICE

(Son of General Sterling Price) 1835-1908

The following excerpt is from an article on General Edwin Price, written after his death in 1908, and furnished by the State Historical Society of Missouri.

"General Edwin W. Price of Keytesville, Missouri, was the eldest child of General Sterling Price and Martha Head. He inherited much of the distinctive character of his father, and was a brave, true, tried. gallant soldier. He was an aggressive fighter and served the Confederacy under his father's command. He succeeded General John D. Clark as Brigadier General of the Missouri State Guards, and in this position he served with credit and distinction as a noble and valiant warrior. He fought in the battle of Carthage, where his horse was shot under him, but he was not wounded. He did gallant service in the battle of Lexington, and on many other fields he fought for the supremacy of the cause in which he believed with his whole heart."

General Edwin Price somehow acquired the nickname "Stump." Some thought it was because of his short stature. Others mistakenly believed it was because he must have had only one arm or one leg. Another explanation came from Mr. Herbert Kistler of rural Keytesville, who as a neighborhood boy had frequently gone fishing with the General at Price's bridge, where his last home was located. Mr. Kistler told the following story: "One day, while the troops under General Sterling Price were in camp, a message arrived ordering him to report immediately to a higher headquarters. Just before leaving he put his son, General

General Edwin Price
Courtesy of Missouri Historical Society

The Applegate Farm is interesting due to the fact that it lies in the corners of four sections. The ownership begins with six Military Grants dating 1819 through 1833. Some of the well-known people of early Chariton County who have owned parts of this farm at one time or another were Felix Redding, James Keyte, Lucius Salisbury, Dr. David Pettigrew, Dr. John Bull (early member of Congress from Missouri), Pugh W. Price, Sterling Price and William E. Hill.

In 1858, Lewis M. Applegate, a druggist and leading merchant of Keytesville, began to consolidate the farm. He began with the portion closest to Keytesville, where he had a fruit orchard. Additional portions were added in the years 1863, 1866, 1871 and 1874. The Applegate family retained ownership to this farm for seventy-six years until it was acquired by the Connecticut General Life Insurance Company in 1934.

Lisbon Applegate, the father, lived on a farm on Salt Creek near Brunswick for five years before moving to Keytesville in 1837. He was highly educated, and being especially proficient in mathematics, became interested in surveying, a career he followed off and on most of his lifetime. He worked for the government in surveying a large part of the Platte Purchase. In 1839, he engaged in the mercantile business with Sterling Price, who sold out to Thomas L. Salisbury a few years later. Shortly after coming to Keytesville he was elected a judge of the county court and soon thereafter was chosen as a member of the convention charged with drawing up a new constitution for the State of Missouri. (Sterling Price was also a delegate.) This honor showed the

respect the people had for his honesty and integrity. In 1849 he and his two elder sons, George W. and John L. joined the gold rush but returned unsuccessful in the attempt to change the current of the American River to use the bed for mining purposes. Upon his return, he was elected public administrator, a position he held until the outbreak of the war. He was an ardent advocate of Southern rights, and led what is known as "Applegate's Raid at the beginning of the war, and before he had joined General Sterling Price. During the war he served as a major on Price's staff, and was one of his trusted personal advisors and friends the died in 1875 and is buried in the Keytesville Cemetery

In 1949, Latimer and Marie Hughes obtained the land and short time later purchased from the William E. Hill Estate a adjoining tract which had been in their family for eighty-fiv years. The farm is now owned by Charles L. and Helen L. Hughe who purchased his mother's interest in 1974. The home is presently occupied by Marie Hughes.

Latimer Hughes was the son of Dr. Bondurant Hughes, a prominent Keytesville physician.

The house was probably built by David Pettigrew prior to 1847, as it is mentioned in his will of that date. It is of walnut construction with pine floors and a brick fireplace and chimney. The house contains two stairways which lead to unconnecting rooms on the second floor. It is interesting to note that the builder, David Pettigrew, was Keytesville's first physician.

This house is one of the oldest continuously-occupied house in the county.

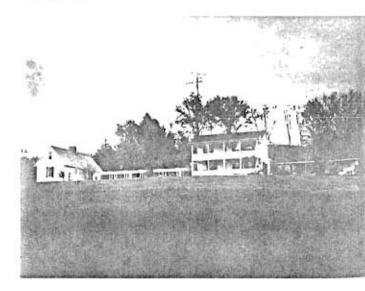

#### PRICE RESIDENCE-COY RESIDENCE

3 miles southeast of Keytesville

In 1840, the U.S. government granted the land where this house stands to Joseph Hallsa and his wife Mary. When Mary sold it to Lisbon Applegate three years later for \$100, she is listed as a widow. Lisbon and Elizabeth Applegate sold the property a year later to John P. and Amanda Williams for \$1700, so it is likely the house was built during that year by the Applegates. The Williamses, who owned the property for almost 40 years, sold a piece of the land to Beverly Hamner, who operated a grist mill on the river many years. The Hamner cemetery is due north of the house on a hill overlooking the river; however, no stones remain.

The farm adjoining on the south, part of which the Parkses now own, was acquired by Peterson Parks and his wife Lucy (Hayes) eleven years before the Hallsas received theirs. Their son. Peterson B. Parks, the local Justice of the Peace, and his wife Eleanor (Hurt) later lived there and one of their sons, William Jordan Parks was born there in 1835. He was the father of Charles Celsus Parks, who was the father of Fletcher Parks, the present owner.

There were several owners before General Edwin Price and his wife Kittie bought the property in 1881. During their ownership the farm was a gathering place for the neighborhood. The Chariton River at this location, fed by springs and with a sandy bottom, was for many years a favorite swimming hole. The mill dam provided an inviting swimming pool even in low water. General Price had cages of wild birds and animals, and also kept a small general store to serve the neighborhood. There was horseshoe pitching, horse racing, and all manner of country entertainment. The original covered bridge over the Chariton was replaced with

the present bridge in 1902, and is still called Price's Bridge. The Prices lived there until his death in 1908.

John H. Meyer and his wife Christina (Schulte) bought the house in 1910 and lived there until 1920 when it became the residence of John J. Coy and his wife Martha (Metcalf). The Coys owned the house for almost fifty years. Mr. Coy was widely known for the sweet potatoes and tobacco he raised, while thrived in the rich loess soil found in that area. The Coys has three children: Orville, Clarence, and Edna. Clarence (Buddynever married. After the death of his mother, he and his father

# Scenic View Of Majestic Home

In an effort to keep you upto-date on the old Edwin (Stump) Price place, your Courier correspondent and photographer made another trip there this week to see the "goings on".

Looking across, from one hill to another, the old Price home is a majestic sight to behold.

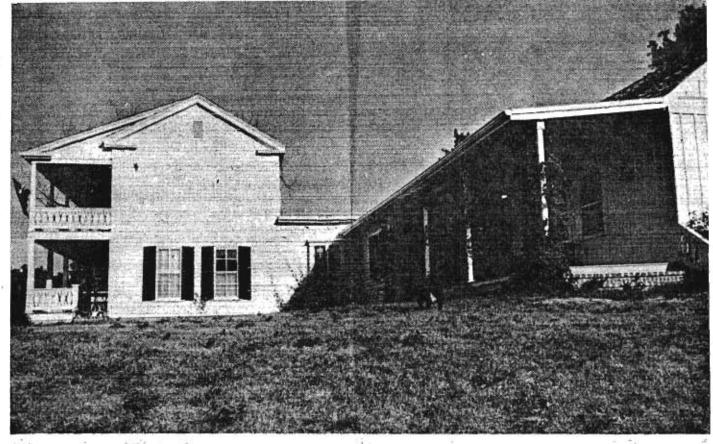

Setting on a bluff high above the Chariton River just a short drive south and east of Keytes-ville, the old house is undergoing full restoration by the Fletcher Parks family. Needless to say, the task of restoring . . . salvaging the good, reproducing the bad . . . and incorporating all the modern conveniences into the home is not an easy one. Monetary values are lost in the amount of time devoted to the historical

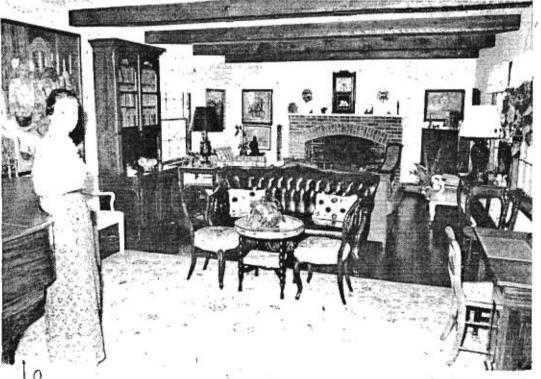

research, planning and the seeking of authentic materials to replace those that did not weather the wear of many decades on top of the hill.

In addition, the Parks have installed a new water system, built a lagoon, and terraced and walled the steep bluff behind the house as shown right. The front yard and driveway has also undergone dramatic changes in that it has been landscapped and terraced.

Although a lot of work remains to be done, some of the most difficult objectives have been overcome and the Parks family are to be complimented for their persistance in restoring this beautiful, old estate that recalls so much of Chariton County's historic past.

AUTHENTICALLY RESTORED - as it was in bygone years, the Fletcher Parks' residence is a home of the 1830's period with many interesting furnishings. The European antiques came from Mrs. Parks' family and the American antiques were from the Parks' families. A few items belonged, (or pertain) to the family of Confederate General Edwin Price, who once lived here. The heirlooms and a number of original paintings and etchings add to the charm of the interior.

SOME OF THE ANTIQUE PIECES - of furnishings, combining American and European heirlooms of both Mr. and Mrs. Fletcher Parks' families, may be found in the living from area.

Mrs. Parks is shown at the plane in the southeast corner of the room.

Brochures and information about homes tours will be available at beginning point - the Kirby Landing, Chariton COURIER entrance hall. The Price Museum, only one block away will have refreshments served to tour guests all afternoon. Also, with weather permitting, trolley rides are on the agenda to points of interest, with tours of Little Lost Cabin and the old Presbyterian Church included.

THIS HISTORIC HOME, three miles south of Keytesville, along with a log house, will be open to guests on the KBC Homes Tour October 3, for the first time since its restoration. The owners, Mr. and Mrs. Fletcher Parks live in the house on the farm, first owned by Mr. Parks' greatgreat-great grandfather, James Parks. The Revolutionary War veteran was granted the land by the U.S. government in 1829. "A Pictorial History" of the place - written in 1974 by Pete Parks, the second son of Fletcher and Ann Parks and a senior this year at KHS, states that his great-great-great-great grandfather probably built the house which later was the home of Confederate General Edwin "Stump" Price. Stump Price was the first son of Sterling Price, well-known Civil War general.

See interior pics of homes to be toured on inside pages.

A PARTIAL FIRST SHIPof the Bicentennial MENT Cookbooks are scheduled to arrive this Friday from the publisher. Mrs. Ann Parks was notified that several hundred of the books would be shipped Tuesday, in order to be on hand to show and sell at the KBC Homes Tour this Sunday, October 3. Members of the cookbook committee plan to have the books on display at the Price Museum where they can be distributed to those who have already made purchases, and to take orders from

## ASBURY UNITED METHODIST CHURCH

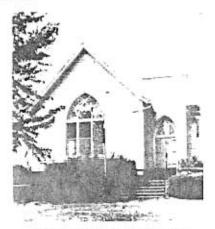

The oldest record found of Asbury is of a preacher by the same of W.G. Caples, preaching in 1844. From other information found, services were held in the homes of the congregation.

The history of the Asbury Church is divided into three parts because there have been three different buildings: Asbury No. 1, Asbury No. 2, and Asbury No. 3.

The first Asbury, named for Bishop Francis Asbury, was a wooden structure mostly of native lumber. It was located about two miles south of the present Asbury Church between Locke School and the F.M. Elliott home. It was dedicated in 1850. Asbury No. I was called a circuit rider's church. A few of the names associated with this church were: William Locke, Duncan Locke, Wallace: D.J. Hayes. Nat Butler, Dr. Meyer, Birch, Judge Young, Vance, Elias Elliott, Peterson Parks, B.F. Wood, J.H. Brill, Ed Coleman, John Prewitt, A.K. and W.A. Leonard, Nathan and Joe Hayward. A.J. Wright, I.K. Stephenson, Lewis Coleman, G.W. Watson, Clement Williams, Hiram Lewis, Dred Finnell, H.C. Hurt, Plunkett and Hamilton.

After 22 years of service, Asbury No. 1 was disbanded and Asbury No. 2 was built on the present site of Asbury church. It was a wooden structure built at the cost of \$1,500 and was dedicated August, 1872, by Dr. Miller, president of Central College, Asbury No. 2 was on a circuit with Centenary, Salisbury, Keytesville, and Dalton.

In the fall of 1916, Asbury No. 2 was moved south of the

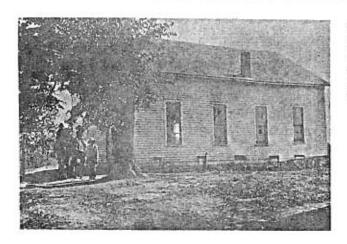

Asbury United Methodist Church

present site for use while the new church was being built. In September, 1916, a women's organization was organized, the object being to help the church in a spiritual, financial, and social way. On November 3, 1916, the cornerstone of the church was laid.

The cemetery adjoining the church property is older than the church and in it lie the remains of many of the prominent pioneer citizens of Chariton County. Years ago, people of the community would gather twice a year to clean the cemetery. The women would serve the dinner, and the men would mow, rake, and clean the cemetery.

73

Asbury Church No. 2 after it was moved south of its original location to build the present church. The lumber salvaged from this church was used to build the barn where Susie Young now lives at the intersection of Routes KK and VV. Frank Meyer said the brackets on the north side of the church were used for serving church dinners by laying planks across them. The children on the horses have been identified as Rebecca and Olive Spence with Hubert Meyer standing alongside.

Courtesy Missouri Methodist Archives, Central Methodist College and Dale Graham, Fayette

For many years, the members of the church and the surrounding community sponsored an annual supper. In the beginning a full meal was served. Due to a limited amount of help and in creasingly large crowds, instead of a full meal they started servin fried chicken, country ham sandwiches, hamburgers, coleslaw potato salad, pie, cake, and ice cream. Also included was a bazaa stand. After eating, people stayed until long after dark visitin with friends and milling through the cemetery. The suppers wer discontinued in the 1950's. Large numbers of the younger peopl of the community moved away and the older people weren' able to handle the continually growing crowds.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This bungalow is among the very best pattern book houses in the county and should receive full documentation for context. Painted yellow, all dependencies including barns, poultry house, and garage are painted in matching scheme. Includes basement and brick foundation, large second story rear bedroom (probably inspired from Kansas City models), has double breasted brick chimney on west side, the long axis is in depth, and the grounds are exceptionally well maintained.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- The house was constructed as a unit on rusticated concrete block foundation, used in the "bungaloid" porch pillars, too. It is one of the larger I houses locally, having a full two stories plus attic. Apparently, the large double hung sash windows in lower story facade were innovations. Grounds are regularly cared for though no one lives here.

## MUSSELFORK UNION CHURCH

The original Musselfork Church was located one half mile north of town, where the cemetery still remains.

Leona (Prather) Harlan wrote in 1980, "I was born July 2, 1899 northwest of Musselfork, Chariton County, Missouri, on a Sunday afternoon when they had to call Dr. Gaines from the dedication service of the new Union Church."

The deed states: "The Missionary Baptists shall have the exclusive right to the use and occupation of such building on the first sabbath in each month and the Christian Church shall have the exclusive right to use and occupy said building on the third sabbath in each month, and the Holiness people shall have the exclusive right to use and occupy said building on the 2nd sabbath in each month and the right to occupy said building upon the said mentioned sabbath shall in no wise be questioned or interfered with. Nothing herein however, is intended to prevent the ordinary Christian courtesies, to be extended to each other or to other Christian denominations, and it is further provided that other denominations shall have the privilege to use and occupy said building on any sabbath day when such building is not used

Musselfork Church
Courtesy of E.J. Kirby, Jr.

and occupied by one of the denominations hereinafter mentioned and in an event of a conflict in the appointment made by the other denominations to occupy said building on any particular day, such denomination shall settle between themselves such conflict and in case they fail to do so, in order to preserve peace and

harmony, neither such denomination shall occupy said building

J.R. Gaines was the acting trustee for the Missionary Baptists, A.B. Weatherford for the Christian Church, C.B. Kavanaugh for the Holiness group, and E.B. Welch for any and all other Christian denominations.

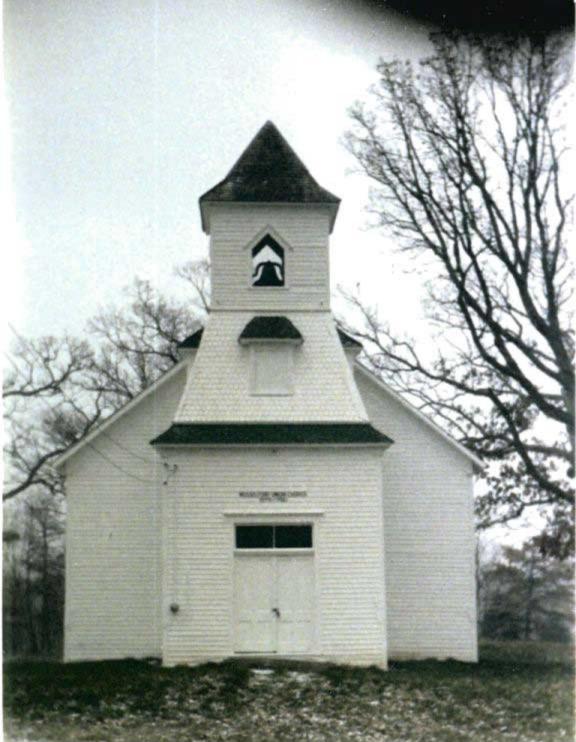

The Baptists were the last to use the church, holding services

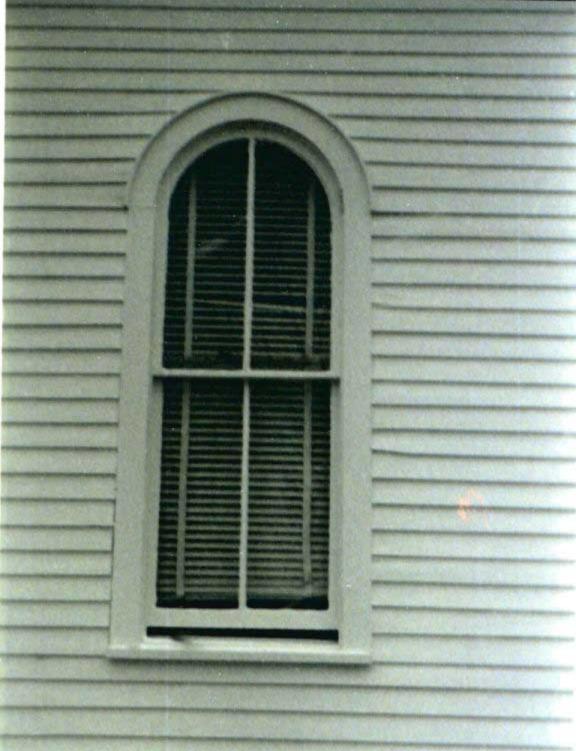

once a month until 1975. On July 3, 1983 Sunday School classes resumed under the guidance of the new trustees: Joe Preston for the Baptists, Kelly McCloud for the Christian Church, and Jim Preston representing all other denominations.

The lovely old church has a fresh coat of paint, and is once again the scene of Sunday dinners out in the yard under the trees.

75

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- The patent to this farm was 127 years old in 1985. Builder William Thomas Adams who had farmed on the prairie that was developed into the town of Salisbury bought this land and built his stack house facing south to the railroad as the railroad was being constructed. It has a stone foundation, 6x6 windows, an ell that formerly had a fireplace, plain 1x4 interior moldings, and porch additions.

- This is one of the best remaining I houses in the county. The ell may be the original house (cl870's) that faces south to the creek; main block may be cl800's facing east to modern road. Good limestone masonry foundation under entire building; 6x6 windows in ell; white board fence around the site which is located in a creek bottom grove of deciduous and evergreen trees. There are 7 or 8 unpainted frame dependencies and one that is a galvanized sheet metal shed. Property should have an intensisve examination.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- Very few vernacular Eastlake porches exist on extant I houses. It is regionally unusual to have the front gable placed "on the roof" instead of breaking the cornice line. Stone foundation and original fabric basically intact; asphalt siding probably covered the house in 1930's or 1940's ell porch is enclosed; and excellent rusticated block outbuilding to the southeast of this north-facing house.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This is an important vernacular house that should receive an intensive examination. Notice the hooding over lower story fenestration, the development of two facades (stairway to 2nd floor is entered through the lone doorway); it has a brick foundation and brick-walled cellar beneath the ell; the west-facing rear side has no decoration whatsoever - all ornamentation faces the viewer from the road. In all, this is a very elaborate double pen planned house.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a rare artifact in rural Chariton County. If not antebellum, it was built shorthly afterward. Notice the classic fret in the cornice line (see close=up photo), casement sidelights, and vernacular Greek Revival "dog-ear" window modlings (see closeup photo). Corner boards are Doris vernacular in wood.

-- Once the center of local trade, the store is located at the junction of HH and W. Across the street are ruins on former commercial sites including an early gas station. Uncommon in the county to have a rural commercial building that has a wrap=around facade on two sides. Notice the very large scale battered pillars.

- -- An excellent typical property type that should receive intensive examination.
- -- The house has a doulbe pen floor plan divided by a stairway that is entered behind the front door. The ell is also a double pen, but only one story with an open porch facing east and the commonly enclosed small room at the rear corner of ell porches (used as a pantry, well house, wood storage, etc).

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- The entire cultural landscape is basically in ruins; numerous rear dependencies and aged cedars line the road.
- Contexturally the structure is very common. It is a 4-room, two story block with a side room which has an open outside porch facing east, and enclosed kitchen, and an enclosed porch on the west side.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

These timbered RR overpass bridges are now rare engineering features. This one has been remodeled in the 20th century with steel supports in the center resting on concrete piers. The timber retaining banks may even be more rare than the bridge itself.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

- This is one of the largest rural frame dwelling still occupied in the county. It includes the large "picture windows" first introduced locally during the 1890's and after (see photo). The house faces north and includes several additions in porch work, front and rear. There are some 15 frame and metal dependencies.

### ADAMANTINE JOHNSON,

merchant, banker and agriculturist. It is not expected, in the brief space to which this sketch is necessarily confined, to give any thing like a complete review of the life of the gentleman herein named, or to do his services as a citizen or his qualities as a man entire justice. His career has been a remarkably active one, characterized by both striking successes and heavy losses, but upon the whole, a more than ordinarily successful one, and above all, an honorable and useful one. He was born in Lincoln county, Kentucky, May 17, 1824, and is therefore now approaching the evening of life. He was a son of Major M. Johnson, who came from North Carolina to Kentucky in childhood with his parents, and after he grew up, was married to Miss Betsey L. Jones, A. Johnson being one of the children resulting from this union. Major Johnson was a gallant soldier of the Union in the War of 1812-13, and in old age was granted a pension from the government on account of that service, which he drew until his death. However, in 1835 the family removed to Missouri, settling in Howard county, where the father was engaged in farming until 1865 when, on account of old age, he retired from all active labors, making his home with his son, A. Johnson, while living in St. Louis; after that, divided his time with A. Johnson and his son, John L. Johnson, living near Chillicothe, where he died, May 23, 1873, as patriotic and brave a soldier, and as true and noble a man as sleeps within the county. A. Johnson grew up on the farm in Howard county and acquired his education mainly by his own exertions - at home and without an instructor. In his eighteenth year, in December, 1843, he went to Chillicothe and engaged in clerking in his brother, Novazembla's, store, and also had charge of the post-office there. The fact that at the age of eighteen he was qualified to take a responsible position in a large store, having had little or no school advantages, and reared on a farm, speaks well for the manly, self-reliant qualities of his character. He continued in this position for two years, and at the expiration of that time was not only qualified by experience to engage in business on his own account, but by economy had saved up a nucleus of means to begin on. Accordingly, he and his brother, Novazembla, joined their means and services in a partnership, and established a dry goods store at Brunswick. This they conducted together with the most gratifying success for ten years, when A.

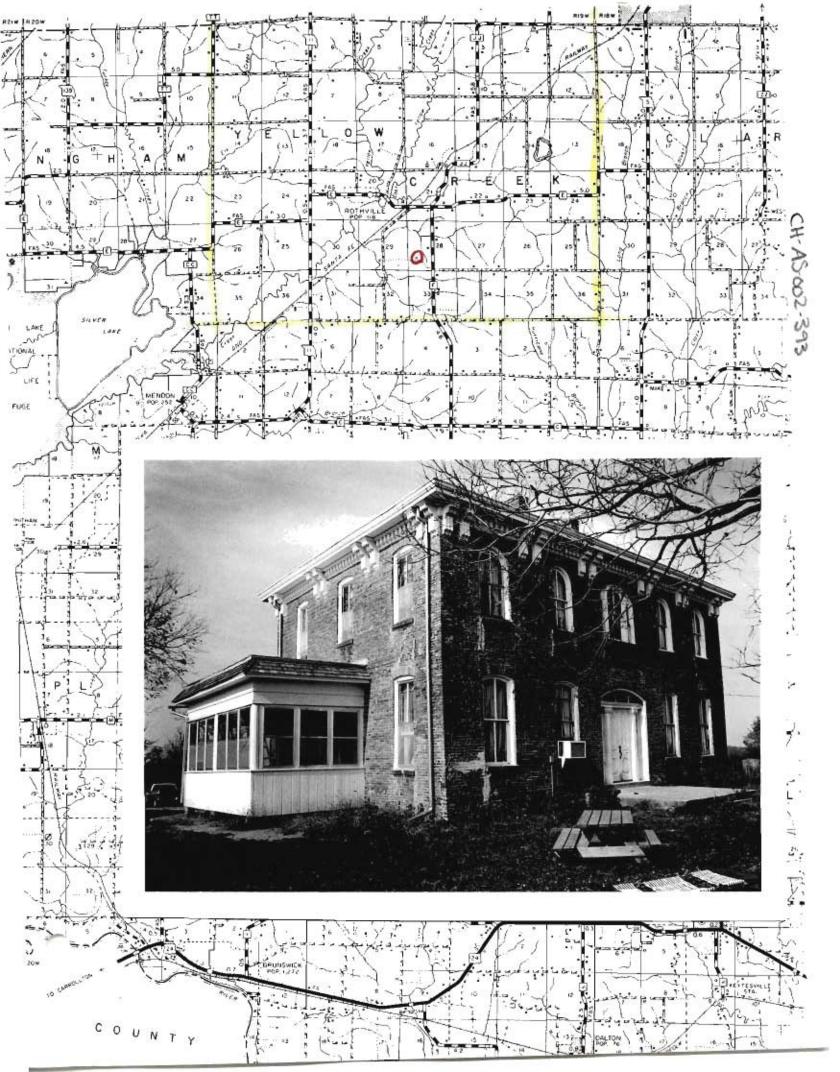

Johnson bought his brother's interest (the brother going to New York), after which he conducted it alone until 1864. Full of enterprise and energy, Mr. Johnson did not confine his attention to merchandising alone. He was engaged in the tobacco business and shipping to the leading markets of this country and of Europe. In this he was equally successful, and he accumulated property and means very rapidly. To merchandising and the tobacco trade he added farming and the stock business. He owned several large farms near Brunswick, which he either rented out or occupied himself. One of these was devoted to the mule business exclusively, and the others were used as grain or general stock farms. In 1864 Mr. Johnson removed to St. Louis, and in July of the following year opened out a large jobbing dry goods store in that city. He continued in this business for four years, but during that time met with heavy losses which necessitated his retirement from the business. His reverses in St. Louis, although sweeping away much that he had earned by years of tireless industry, did not entirely wreck his fortune. He returned to Chariton county and located on one of his farms, the place on which his family resides. Here he went to work with renewed energy and determination to repair his fortune, and not without substantial success. In this county he owns about 1,500 acres of fine land, 900 acres of which are contained in his homestead farm. This farm, all in cultivation and handsomely improved, is one of the finest estates in the county. It is devoted mainly to stock raising, and is exceptionally well adapted to that industry. It is conveniently divided off into pastures, lots, meadows, and fields, with fine water advantages in nearly every enclosure, and, in fact, is a typical stock farm. The residence is a handsome two-story brick, the barns are commodious and substantially constructed, and the fences are of the best class. On this place Mr. Johnson feeds annually for the wholesale markets about five to ten car loads of cattle, and about two to four car loads of hogs. In 1878 he engaged again in the mercantile business at Rothville with W. W. Riddell, as capitalist, and here they have one of the largest and most complete general stores in the county. He has an extensive and profitable trade, and his custom is steadily and rapidly increasing. Mr. Johnson's first connection with banking was in 1857. From the organization of the Branch Bank, at Brunswick, of the Merchants' Bank of St. Louis, he was one of its leading stockholders, and was either president or cashier of that institution during its whole career. In these positions he won

for himself a high reputation, not only as an efficient, capable bank officer, but as a financier of a high order of ability. He is now one of the leading shareholders of the bank of Cunningham, and is the cashier of this young but solid and able banking institution. If the successful men in life who succeed by honorable, worthy methods are those who build up a country and make it rich and prosperous (and if they are not, who are?), then few men in the material and business affairs of Chariton county, could, with justice, claim a higher place in its history than that to which Mr. Johnson is entitled. But it is not alone to the business and material interests of that county that his labors have been confined. He has also taken an active part in its social, benevolent, and religious affairs. He was one of the original organizers of the Christian church at Brunswick, and his liberality was shown in a marked way in promoting the interests of this denomination at that place. He has been an active, worthy member of the Christian church for many years. He is also a leading member of the Masonic order. In all works of a benevolent or charitable character, he is always to the front with counsel and means to help them along. On the 15th of June, 1848, Mr. Johnson was married to Miss Pocahontas R. Cabell, a most gentle-hearted and noble-minded woman, a daughter of Edward B. Cabell, Esq., of this county. This union proved a long and happy one, and was blessed with a family of eight children, seven of whom are still living, worthy representatives of their parents, namely: Edward C., now a resident of Jefferson City; Adamantine, a physician at Watson, Missouri, Robert Fisher, a physician at Medicine Lodge, Kansas; Emma Maud, Novazembla, now conducting the farm; Pocahontas and Susan A. Mattie is deceased. On the 3d of November, 1880, the heaviest misfortune that can befull man, and the hardest to bear, fell to the lot of Mr. Johnson. On that day his noble, good wife, who had stood by his side for over thirty years, with a brave heart and a willing hand, to share in all his struggles, was taken from him by the unpitying, the unyielding hand of death. As a wife and as a mother, as a neighbor, and in every relation of life, she was a woman whose wealth of noble, tender qualities made her loved and esteemed by all around her. To the memory of none are the beautiful lines of Rogers more appropriate than to hers: —

"She was good as she was fair, None, none on earth above her; As pure in thought as angels are, To know her was to love her." farmer and sto earliest settler Chariton river and after his r son, John D. ] sketch, was a this country, married in ea Colonel Hirai manding offic man in the en and resided o D. This I house that is actually a double pen floor plan is representative of many built in the late 19th century. It faces the RR tracks and is flanked by progressive dependences — a pattern bok barn and a tile block outbuilding. Another vacant hosue of the same type is 1/4 mile south and another east of the RR in town. The hamlet Cunningham has a few double pen houses, but nearby lots are dominated by the moevable dwelling — trailers. A North Missouri train engine sets as a memorial south of this house at the road junction and entrance to Swan Lake refuge.
