The slate-clad mansard sits over a wood dentilled cornice. A brick gable with brackets and a circular window is positioned in the center of the mansard. The lower story is articulated with evenly spaced recessed rows of bricks capped by a dentilled brick stringcourse. A round arched entrance bay shelters two front doors. The second story has a pair of windows in the center flanked by single windows.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a steeply pitched hipped roof. There is an exterior brick chimney on the north facade. A large classically-inspired front porch looks relatively new. It has four doric columns and a low-pitched front facing gable roof. On the left side of the front facade is the front entrance. To the right of the door are two single one-over-one windows.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There are two permits from 1889 and one from 1890 that could be for this house, but it could not be successfully proven. No houses were on this block when the Hopkins map of 1883 was produced. The street numbering certificate was taken out in 1888 by owner Bertha M. Rutherford. 1925 and 1929 permits to alter dwelling (both \$50) by owner J. Bartels.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This 1.5 story frame house has a gable roof and an L-shaped plan. The gable roof shelters a side porch on the south facade, where the entrance to the house is located. The simple carved vergeboard is still in place. The gable facing end, which faces Minnesota Ave., has paired one-over-one windows at the first and half story levels.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There are two permits from 1889 and one from 1890 that could be for this house, but it could not be successfully proven. No houses were on this block when the Hopkins map of 1883 was produced. 1923 frame addition (\$1000) by owner Mrs. M. Boecke and architect F. Holstein & Sons.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with a gable roof.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a front facing high-pitched gable roof. The front porch extends the entire length of the front facade and has a shed roof supported by square brick columns. The simple wooden cornice has two wooden brackets. The brick work above the second story uses a contrasting colored brick to create a pattern similar to half-timbering. Windows are all single one-over-one with stone sills. The front entrance and door appears to be original and features a transom and side-light window.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-418. 1927 permit for alterations (\$400) to brick dwelling by owner E. T. Mueller.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

A building permit was taken out by Mrs. E. A. Bowers on 11/9/1898, for one brick dwelling. A street numbering certificate was taken out by Mrs. Bowers on the same day for 5716 Minnesota. 5716 and 5718 Minnesota look very similar, so it is safe to assume they were built at the same time, but no certificate has been found for 5718.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one and a half story frame house was built sometime between 1857-1875. It has a cross gabled roof with an L-shaped plan and a rear addition, also with a gable roof. The gable ends have decorative vergeboard with a diamond pattern. The entire house is covered in board and batten siding. The gable end bay closest to the street on the front facade has three narrow rectangular windows beneath a flat roof porch, with wooden posts and railings. At the half story level are two narrow windows with pointed arches. On the side-gabled section of the front facade is a small front gabled porch with decorative vergeboard above a Tudor arch. Above the entrance is a pointed arch dormer. The southside facade has several tall narrow windows with drip mold crowns, and four pointed arch dormers.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a front facing gable roof. There is a small frame front porch, with a hipped roof and wooden supports. Beneath the porch is the front door and one three-over-one window. There is a small addition at the rear. The entire house is covered in wooden siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There is a permit from 7/16/1885 for a \$50 kitchen. Ellen Russell owned the home when she applied for a permit on 9/13/1912 to make \$35 worth of repairs. A permit was taken out on 6/19/1929 for \$600 worth of alterations by owner John Uthoff.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There are two contributing associated outbuildings. One is frame building with a hipped roof, which appears to be a residence, and may have been built in 1886. The concrete block garage was built in 1954.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story ranch house is unusual with a low-pitched side gabled roof, with a front facing pediment gable on the front facade. Within this pediment is the front entrance beneath a high-pitched gable overhang, which is to the right of a rectangular picture window with non-functioning shutters. The first bay of the house is a garage. The two bays to the right of the entrance includes a square glass block window, and a paired window with non-functioning shutters.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # R11162. Daily record 7/1/1948.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a front facing gable roof. The symmetrical front facade has a central door, flanked by single windows with segmental arched lintels and stone sills. Two windows are at the second story level, each also having segmental arched lintels and stone sills. Windows are vinyl replacements, and are too small for the original openings. There is a brick dentil along the side facades. The rear two-story brick addition was added in 1911.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a unusual low-pitched cross hipped roof. It has an L-shaped plan, with one bay towards the street. This bay includes a door and window beneath a small veranda, obscured since the verance has been mostly filled in with siding, leaving a long narrow window as the only opening. The house if four bays in length.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No building permit was found, and the house appears to be on the 1883 Hopkins map.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with terra cotta coping, and square brick corners. The front facade is two bays wide, with three openings. The front entrance is on the left, sheltered by a small porch with a shed roof, not original to the house. To the right are two single windows with stone sills. Vinyl replacement windows, each nine-over-nine, have been inserted.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a front facing gable roof, with a catslide slope on the north side. It is one bay wide, and has three openings on the front facade. The front entrance sits beneath the slope, and is probably a later addition. To the right are two single one-over-one windows. The entire house is covered in vinyl siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There are two permits for one story frame houses on this block, although I could not determine which was for 5616 and 5618. The first is from 10/6/1885 for \$400 by owner P. Curley. The second is from 3/27/1888 for \$437 by owner Michael Hammel.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing concrete block garage, with a flat roof.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story house has a flat roof with terra cotta coping. The front facade has an elaborate cornice with brick corbelling, what appears to be galvanized iron, above brick dentils. The symmetrical facade has a central entrance bay which extends from the rest of the facade. The entrance doors are recessed, and obscured by a metal awning. On either side the entrance is flanked by a large three-over-three window with a brick segmental arched opening outlined in bull nose brick, and a stone sill.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

The 1895 permit is for "2 adjacent" brick flats. Another building was once next door on the same lot, at 5920 Minnesota.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

## **ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house appears on the 1883 Hopkins map. It has a front facing gable roof. The simple one bay facade has two openings, a single one-over-one window on the left, and a door on the right. The house is three bays in length. The entire house has been covered in what appears to be asbestos siding.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a front facing gable roof. The front facade has two openings. On the right is a single one-over-one window with a stone sill and a brick segmental arched lintel. To the left is a door, which is probably in a window opening. It is approached by a small wooden porch. Another entrance is on the south side facade, as well as a small frame addition with a shed roof at the south rear.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit could be found.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Page 2

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a flat roof and a shaped parapet with terra cotta coping. The front facade has three bay openings. The entrance door is on the right side of the front facade, beneath a canvas awning and approached by a concrete porch. To the left, symmetrically placed, are two single one-over-one windows with stone sills and segmental arched lintels. At the second story are three single one-over-one windows, also with stone sills and segmental arched lintels. Bull nose brick creates a drip label that extends across the front facade over the three windows. Above is simple brick corbelling which creates a cornice. The entire building has been painted.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit found. 1912 alterations to brick dwelling (\$350) by owner J. Purkey and architect Swofford C. Co.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One contributing frame garage, with a gable roof.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a corbelled cornice. The front facade has two opening. There is a large window on the left and a door on the right. A brick front porch in the Craftsman style appears to be a later addition, probably from 1930. It has a front facing gable roof with half timbering, and brick supports.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # E-302. Daily record 4/8/1904. 1930 permit for alterations (\$200) by owner J. Niacke.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a stepped parapet. The front facade has two openings. On the left is a paired window with wooden mullion set beneath a brick segmental arched lintel. To the right is the front entrance, recessed behind a curved arch. The brick has been covered in stucco. At the rear of the house is a frame addition.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Permit # D-7016. Daily record 9/29/1902. Permits raise questions. There is a 1905 permit for a \$1500 two-story brick bake shop at 6022 Minnesota by owner H. G. Bagula. 1918 repairs to brick dwelling for \$200. There is a 1919 permit to wreck two-story frame dwelling, and wreck brick building, both supposedly at 6020 Minnesota. 1928 permit for \$300 in repairs to brick dwelling.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with red terra cotta coping. The front facade has a slight central stepped center and square corners with corbelling. The cornice is also corbelled brick. The one bay front facade has two openings. At the first bay is a paired window with a stone sill, and non-functioning shutters. The second bay is a single door, sheltered by a fiberglass shed roof awning with wrought iron supports.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick multiple dwelling has a flat roof with square pilaster corners, decorated with rosettes. There is a simple cornice. The three bay facade has six openings at both the first and second floor. Windows are single one-over-one with limestone sills and flat arches of a contrasting brick. The second and third bays are replacement doors, sheltered by a brick porch with a shed roof on wooden columns. The sixth bay on the first floor is another entrance, sheltered by a smaller version of the larger porch. The second floor has six, asymetrically located wingle windows, each with a stone sill. They share a continuous brick lintel.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a side stepped parapet with terra cotta coping. The front cornice is very simple brick corbelling and stepped bricks. The facade is symmetrical, with a central entrance. It is sheltered by a stone front porch with a hipped roof, supported by brick columns with corinthian capitals. On either side the porch is flanked by large one-over-one windows with stone sills and brick segmental arched lintels.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house has a side-gabled roof. The front facade is two bays wide. On the first floor, at the first bay, is a single two-over-two window, followed by a entry beneath a small wooden gable roof awning. At the second bay are two single two-over-two windows. There are four identical windows at the second floor. All windows have non-functioning shutters. There is an central interior brick chimney.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Date is from a street numbering certificate at this address dated 7/18/1884 by owner John Stader. There is also a permit for a two-story frame house on this street dated 8/11/1886 for \$1000 by owner Elizabeth Gains. It is unclear if the building on Hopkins is this house or 6112 Minnesota (now demolished). 1918 permit to repair frame dwelling for \$1000 by owner F. Dorsey and builders Ziegelmayer & Suter.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof with a front shaped parapet which features three square pinnacles and a triangular pediment on the right side at the entrance bay. There is a complicated cornice of patterned brick in a diamond pattern, accented by buff colored brick. Below this pattern is brick corbelling. The two bay facade has the entrance bay on the right. The front door with transom is recessed behind a curved archivolt with alternating buff colored bricks. The first bay of the house is two single one-over-one window, with segmental arched lintels, also with alternating buff colored bricks. They share a continuous sill which divides the front facade into two areas of contrasting colored bricks.

Terra cotta coping caps the parapet. A terra cotta cornice with a brick frieze consisting of a dentil course and a molded brick pattern extends between the bases of the end blocks. The first story has a round-arched entrance bay with two recessed doors and a second bay with a broad arch holding a pair of windows. Three single windows in segmental arched openings are located in the second story. All the facade openings have contrasting colored brick lintels.

The bay on the right side of the second story projects slightly and holds a segmental arched window. Over the top of this bay is a slightly shaped parapet decorated with contrasting colored brick trim. A segmental arched first story opening has two recessed doors. Single windows on each level have molded brick trim over the top.

The parapet is plain except for raised end blocks. The cornice may have been removed. An entrance bay with two transomed doors is located on the right under a flat roof that also serves as a balcony. A single segmental arched door opens to the balcony. A pair of windows in a segmental arched opening is located on both levels. A white glazed brick stringcourse is located under the windows on both levels.

Three attached dwellings on high stone foundation - each household has its own stairs (the stairs appear to be concrete replacements). The roof is a low-pitched hip. The six bays on each level are segmental arched - the trasoms over the door are boarded. The cornice is wood and may be absent some of its original decoration.

The entrance bay projects slightly from the main wall of the facade and has a high-pitched mansard roof that intersects the mansard parapet. A bold, corbelled brick cornice extends across the facade. The entrance bay is round arched and has a recessed door with a transom. The other facade bay is a segmental arched opening with a pair of replacement windows.

This house appears to be missing its mirror image but the Sanborn map (1938) shows it in its current configuration. Two bays of segmental arched windows are in the second story. The first story openings (a door and window) have been altered and stand under a recent overhang on wrought iron supports.

At the base of the mansard-type parapet is a wood cornice and a frieze with a molded brick pattern. The facade has two bays on each level. The first story bays are shallow round arches - one with two transomed, recessed doors and one with a pair of windows. Second story windows are rectangular. The window bays hold replacement windows that are smaller than the original but the openings remain intact.

This house is actually two houses joined together. Both sections are front gabled - the section on the left has a bay window that replaced its original openings. The right side has a door under a gabled porch on wrought iron supports and a window. Siding unifies the facade. The section that joins the two houses has a single window.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Sanborn maps (1938) show this building was likely identical as the one next door at 7018-20 Minnesota. On this one, the dentilled brick cornice is intact but the windows are replacements and may have originally been in segmental arched openings. A gabled porch roof on wrought iron supports shelters two centered front doors.

The parapet is flat across the top and has two levels of applied wood cornices. Two bays of segmental arched openings (a paired window bay and a balcony door) occupy the second story. The lower story has a paired segmental arched bay and an entrance bay with two doors. Brick piers support a replacement porch roof/balcony.

This building appears to be two separate buildings that were joined together soon after they were constructed. The section on the right has a single shallow round arched window bay in each level. The cornice is multiple layers of brick with corbelling at the base. The section on the left side has a mansard parapet with an intersecting gable over the round arched entrance bay. The narrow section in between is open on the lower story with a deeply recessed door and a round arched window in the second story.

The shed dormer centered in the side gable roof may be a historic alteration. The two facade bays are comprised of two segmental arched openings. The segmental arched lintel over the window is intact but the arch has been brick-filled. A metal awning hides the arch over the door. Corbelled brick cornice.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This modest one-story brick house adheres to the Second Empire style with a modified mansard roof with decorative brackets. The entrance is on the side of the house beneath a simple porch with a wooden railing. Two windows on the front facade are both single three-over-ones, with decorative lug stone sills and segmental arched lintels of variegated brick. The rusticated stone foundation has been painted white.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story home has a front facing gable roof. The house is covered in stucco, although it is likely constructed of brick. No definitive permit was available to date the house, although a 1922 permit was taken out for substantial alterations. The large front porch has a low-pitched hipped roof with wooden columns sitting on tapered piers. There are two single windows on the front facade, both replacements that are small for their original openings.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a front-facing gable roof, and is nearly identical to 5619 Pennsylvaina. The front door is on the left side of the front facade and is accessed by a small concrete porch, and covered with a metal awning. To the right of the door is a single one-over-one window with a stone sill and lintel. There is an internal brick chimney. No permits were found for 5617 and 5619 Pennsylvania, although street numbering certificates were taken out in 1888, at the same time as 5313 and 5615 Pennsylvania. It is possible the houses were built at this time, or were built earlier. They do not appear on the Hopkins map of 1883.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a front facing high-pitched gable roof. The front porch extends the entire length of the front facade and has a shed roof supported by square brick columns. The simple wooden cornice has two wooden brackets. The brick work above the second story uses a contrasting colored brick to create a pattern similar to half-timbering. Windows are all single one-over-one with stone sills. The front entrance and door appears to be original and features a transom and side-light window.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick bungalow has a medium pitched front facing gable roof, with a low-pitched front facing gable front porch. The front porch has half-timbering and tapered brick supports. Beneath the porch is the front door on the left side of the front facade, and a band of three windows on the right. There is a small rectangular window at the attic level. A large dormer has been added at the half story level to south side.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit to install dormer window is dated 11/14/1958, by owner Daniel F. Ready.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a steeply pitched front-facing gable roof. The original front porch is still intact, and features a front facing gable roof with terra cotta tiles, and square brick columns with Corinthian capitals. The front entrance has sidelights and a transom. To the left of the front porch is a double window with a continuous sill which divides the facade into two areas of contrasting brick. At the second floor are two three-over-one windows, which are probably original. These windows have stone sills.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # H-583. A permit for a one-story frame shed was taken out the same day. Daily record 11/18/1911, indicates the house was built with a slate roof.

Page 2

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house has a front facing gable roof. The two-bay front facade is two bays wide. The front entrance is on the right, beneath a wooden awning, and approached by a concrete porch. Windows are all single one-over-one, and covered with metal awnings. The entire house appears to be covered in asbestos siding. There looks to be two additions to the back, and two-story sleeping porch, and a one-story brick addition.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

This house is difficult to date. It does not appear to be on the Hopkins map of 1883, but there is a permit from 9/13/1882 for a one and a half story frame house on this block, by owners O. G. and G. W. Sallee. On 3/11/1909 James W. Sallee moved a frame dwelling at this location, so it seems likely the 1882 permit is referring to this house. Permit for frame addition to dwelling, 6/8/1923 (permit # E-7965) by owner C. Schultze for \$500. Permit from 6/6/1972 to move shed and construct new tool shed for \$1,600 by owner Alphons Meurer and builder Erb. Const. Co.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

One non-contributing garage, with aluminum siding, and a gable roof.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house appears to be on the Hopkins map of 1883. It has a front facing gable with returned eaves. There is a central brick chimney. It is one bay wide, and at the second floor there is one single window. The first floor openings are obscured by a large frame porch with a shed roof. The entire house has been covered in what looks to be a knotty pine siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Alter frame dwelling in 1927 (\$50) by owner T. Schumacker.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

Yes

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a low-pitched side gabled roof. The two bay facade has four openings. The first bay includes a rectangular window and a single window, both with brick sills and covered with metal awnings. The second bay includes the front door, and a large picture window, also with a brick sill. The front door and picture window share a metal awning. The bottom 1/4 of the front facade is covered in simulated masonry.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # A-3860. Daily record 8/24/1955.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one non-contributing garage, with vinyl siding and a gable roof.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a side gabled roof. A historic two-story brick addition with a flat roof is at the rear. The basement is partially above ground at the front of the house. There are two small basement windows with stone lintels. The front entrance is on the right side. At the first floor level are two single six-over-six windows, with stone lintels and sills. Three similar windows are at the second floor level, although these replacement windows are one-over-one. With the addition the house is three bays long.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

House appears to be on 1883 Hopkins map. 1917 permit to alter brick tenement (\$300) by owner F. Willike and architect F. Gutting.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house has a front facing gable roof and is one bay wide. At the first floor is a simple entrance and a single two-over-two window. It is sheltered by a hipped roof porch. At the second floor are two single two-over-two windows, each covered by a metal awning. There is a central interior brick chimney. The entire house is covered in what appears to be asbestos siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

House appears to be on 1883 Hopkins map. Permit from 4/25/1917 to "move and underpin frame dwelling" for \$275 by owner G.W. Schwartz and architect E. F. David.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story frame house has a low-pitched front facing gable roof. The front facade has two openings, a front door is on the left, sheltered by a metal awning. It is accessed by a small concrete porch with metal railings. To the right is a rectangular window, also with a metal awning. The entire house is covered in what appears to be asbestos siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit #FF226. Daily record 5/10/1961.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick store and dwelling has a flat roof with a stepped parapet with red terra cotta coping. There is a central square stepped pediment, with square pinnacles, on the front facade. The left bay of the house is the original dwelling space, with a single one-over-one window with a stone sill and brick segmental arched lintel, and a front door with a transom. A small wooden awning with a gable roof shelters the front door. The right bay is the original storefront. The cast iron window is lintel is still in place, but the original windows have been removed and filled in with brick.

The simply shaped parapet has raised end blocks and a subtle dentilled cornice. The windows in each level have brick frames around the sides and a continuous stone sill course. The entrance bay has been altered - it appears to have originally held two recessed doors. Now it has one door surrounded by glass blocks.

This building looks like it could have been more than just a single dwelling originally but by 1938 when the Sanborn map was published for this area, it was just a dwelling. There is no record of this building in the permits. It has a corner tower with an arched entrance bay on each side under a hipped roof. New windows and wood fill the space between pilasters on the Pennsylvania side. A secondary door is also located on Pennsylvania.

The flat-topped house has, on the right-hand side, a pyramidal roof with a bracketed cornice. On the other side of the facade is a gable peak that sits on top of a plain wood cornice. Both stories have two window bays and a door bay. A porch/balcony on brick pier supports is located in front of the entrance bay.

A wood cornice that doubles as a parapet is this building's most outstanding feature. It has heavy brackets on its outside edges and a gable peak in the center. A molded brick stringcourse extends between the brackets. The facade openings are segmental arched - those on the right side have paired windows with transoms. The segmental arched entrance bay is intact but has been filled with a storm door. The porch/balcony has replacement supports. A transomed door accesses the balcony.

The shaped parapet has a raised center section with a recessed panel in the center. The end blocks are decorated with molded brick that matches the molded brick stringcourse at the base of the cornice. The shed porch on wrought iron supports is a replacement. The second main facade bay is a paired window bay. A secondary entrance bay is located on the side under a shed porch.

The right-hand bay projects slightly and has a taller parapet - this section contains the round arched entrance bay in the first story and a round arched window in the second. The second bay on each level is a broad round arched opening holding a pair of replacement windows. The cornice is comprised of several layers of brick stringcourses.

A round-arched bay dominates the facade. It is topped by a horse-head ornament and flanked by single windows (boarded). The parapet is flat-topped and has bold corners that join it to the main wall. The Sanborn map (1938) shows an L-shaped building but the back of the L is faced with newer brick and has replacement windows. A wood shingle parapet over a two story porch fills the intersection of the two wings.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick corner commercial/residential building has a flat roof and terra-cotta coping. There is a projecting square bay at the corner of the building. Windows are single one-over-one, with stone sills and segmental arched lintels. At the second floor there are two windows on the front facade, and five along the north (side) facade. To the south is a one-story commercial addition, also brick with a flat roof. The building retains a great deal of integrity.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

A 1893 building permit taken out by owner Chas. Geitner for a two-story brick dwelling and store appears to be for this building. One 5/29/1895 he took out another permit for a one-story brick barber shop, which appears to be the southern addition. Other permits include: 1915 repairs (\$75) by owner H. Schumacher and architect H. Dentman. 1945 repairs (\$800 and \$500) to two-story brick store and tenement.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

This large three-story apartment building sits on a hill overlooking the Mississippi River. It has a flat roof, although portions of its complicated facade, with hipped roof bays and sloping false fronts, extend higher than the flat roof. At the corner of S. Broadway and Bellerive the building has half-timbering at the second and third floors. There are two octagonal turrets on the front facade. Most windows are single three-over-one, which are probably original. All windows have stone sills and flat brick arches with keystones. There are several balconies accessed by doors with multi-panes.

This two-story brick flat has a flat roof with terra cotta coping. It has an overhanging cornice with slate tiles on a mansard-like roof, above a wooden dentil. The symmetrical front facade has a two-story porch with metal supports. Three doors with transoms are accessed from this porch on the first floor, two doors with transoms open to this porch on the second floor. On the first floor large rectangular one-over-one windows flank the porch. They have a continuous stone sill, which divides the facade into two different colors of brick. On the second floor rectangular one-over-one windows also flank the porch. These windows each have a stone sill.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story garage building was built in two sections. In 1930 a 16 x 16 brick office was built. In 1934 an addition, apparently concrete block, was built. What appears to be the original building is a small structure with a flat roof, a central door, flanked on either side by single one-over-one windows. To the north is an addition, also with a flat roof, although a couple of feet taller than the office building. The addition is one bay wide, with a garage door on the front facade.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit #F9165. Daily record 9/11/1930. Permit dated 4/19/1934 to "build addition to F.S." for \$1995 by owner Continental Oil Co.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick flat has an unusual roof that appears to be a side gable, but may actually be flat at the top and rear. The building was originally four apartments but has been converted into two apartments. The front facade is symmetrical, with two entrance bays at the center. Entrances are recessed behind the round arched opening. The original doors have been replaced with vinyl siding and metal doors. At the second floor are four single one-over-one windows, with stone sills and brick drip moldings. Between each window is decorative brick in diamond patterns. Flanking the central entrance bay, at the first and fourth bays, are large single windows at the first floor, with a continuous stone sill and brick drip moldings. There is brick corbelling at the cornice.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick service station is built in the "cottage" or "house" style of construction that was popular for gas stations in the late 1920s and 1930s. It has a steeply pitched cross gabled roof, and an L-shaped plan. The gable end facing S. Broadway has half-timbering and one garage door. To the right is a large exterior brick chimney. To the right of the chimney is the front entrance, which is beneath a small gable end of the roof. To the right of the entrance is a large window which has been filled in.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a flat roof with a shaped parapet and red terra cotta coping. The front parapet creates a square pediment in the center of the front facade. The brick corbelled cornice has been removed. The two front doors with transoms are located on the right side of the front facade beneath a hipped roof front porch with a concrete foundation and wrought iron supports. To the left is a paired window with stone sill, obscured by a fiberglass awning. A similar window is located directly above at the second floor. To the right, above the porch, is a single window with a stone sill, also with a fiberglass awning.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This building is a two bay industrial building, with two attached front facing gable roofs, with broad overhanging eaves. There are several garage door entrances. The second story is a large loft space.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

There is a permit dated 8/1/1939 for an "office" at 6127 S. Broadway for \$400 by owner C. P. Rowe. It is possible it is for this building, or for a building to the south that is no longer standing. This building does not appear to be an office, but Clinton A. Rowe took out a \$1200 permit on 1/19/1956 to "repair fire damage-service station" at 6115 S. Broadway.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

### ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house has a cross gable roof. The gable end facing S. Compton is one bay wide, with paired four-over-one windows. At the second floor is one large window, the same size opening as the first floor, which was probably originally two windows. The entire house is covered in vinyl siding.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

1917 alterations (\$50) by owners G. & L. S. Peterson (permit # B-9128).

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story building was originally a store on the first floor, with a residence on the second floor. It has a low-pitched side gabled roof with exposed rafters. There is a large triangular eyebrow dormer facing S. Comton. The first floor has wide brick pilasters, capped by a decorative stringcourse/pilaster capital of terra cotta. The original storefront bays have been filled in with wood siding and metal awnings. The second floor has three bay windows, each with a center window of six-over-one, which is flanked by a rectangular four-over-one window on each side. Each of these bay windows have been covered by a metal awning. The second floor has either been painted or stuccoed.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick flat has a flat roof with a galvanized cornice and brick corbelled dentils. The front facade is symmetrical, with a central bay extending from the front facade, topped a by a pediment with returned eaves. This central bay includes four front doors sheltered by a front porch with square wooden columns supporting a second story open balcony. Two large doors, which may be Jefferson doors, open onto this balcony. They are both topped by brick dentils. Above the second floor doors, within the pediment, is a decorative brick medallion. The corners of the central bay has brick quoining. Flanking the porch and center bay are paired windows at both the first and second floors. All windows are topped by brick dentils. The second floor windows have stone sills, and the first floor windows have a continuous stone sill, which extends across the front facade.

**ARCHITECTURAL/HISTORIC INVENTORY FORM**

SLC-AS-045-0983

Page 2

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story frame house has a side gabled roof. The front facade is four bays wide, with a front door at the fourth bay. All other bay openings are single six-over-one windows. The house would have been a simple Federal style, but it underwent major facade alterations in 1974, creating a vaguely Tudor Revival style. The first story of the front facade is covered in simulated masonry, resembling large round stones. The rest of the house has been covered in white stucco. Second floor windows have been outlined with dark wood with half timbering between the windows.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit does not have an address, but is for a two-story frame house, which is likely 6132-34 Vermont, especially considering that the house appears to be on the 1883 Hopkins map. The form of the house suggests that it could be even older.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

There is one contributing frame garage, with a gable roof.

Simple brackets decorate an assymetrical sloped roof that has a shed dormer on its long side. A brick porch on the left side has an arched opening positioned in front of two doors. The porch roof is flat and supports a balcony with a wrought iron balustrade. The facade windows are casement and have stone sills.

The high-pitched side gable roof is positioned over the front of the building while a flat roof covers the rear. A full-length porch rests on brick piers and has a balcony with a wrought iron balustrade above. Single doors flank a center three-part window on the lower story; round arched windows under semicircular overhangs are positioned on either side of the center door on the second story.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick roof has a flat roof with a stepped parapet with terra cotta coping. There is a cornice with simple brackets. The front facade is two bays wide, with the entrance on the left side, beneath a curved arch. To the right are two one-over-one windows. Both bays are partially covered by metal awnings. A continuous limestone sill beneath the windows divides the front facades into two sections of contrasting brick. The basement is partially above ground, with two small basement windows on the front facade.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a flat roof with a shaped parapet with white glazed terra cotta coping. It has a cornice with dentils and brackets, that is most likely galvanized iron. The corners of the building has brick quoining. The first floor has the front entrance set behind a curved arched entry. To the right of the entrance are two single one-over-one windows. They share a continuous limestone sill. On the second floor are three single one-over-one windows, each with stone sills. The basement is partially above ground, with two small rectangular windows on the front facade.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick two-family flat has a flat roof with a shaped parapet with white glazed terra cotta coping. It has a cornice with dentils and brackets, that is most likely galvanized iron. The corners of the building has brick quoining. The first floor has the front entrance set behind a curved arched entry. To the right of the entrance are two single one-over-one windows. They share a continuous limestone sill. On the second floor are three single one-over-one windows, each with stone sills. The basement is partially above ground, with two small rectangular windows on the front facade.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story building was built as offices in 1908, but had a major commercial addition in 1912, which probably includes the front facade we see today. The building is one-story brick. The south side facade has a stepped parapet with terra cotta coping. The main facade is one bay wide and faces Virginia Avenue. It is a buff color brick and has a simple corbelled cornice. There is one large picture window, beneath a canvas awning. The entrance to the building is at the corner. It appears to originally had two openings, although one has been filled with siding.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a low-pitched hipped roof. There is a bracketed wooden cornice with decorative filigree. The front facade has three openings. The front door is at the first bay, recessed behind a brick segmental arch. To the right are two single one-over-one windows. Windows have a brick segmental arched lintel, a stone sill, and wooden shutters. Three identical, although slightly smaller, windows are at the second floor.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit found, but appears to be on the Hopkins map of 1883.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a low-pitched hipped roof. The front facade has three openings. On the left is the front door, recessed behind a brick segmental arched opening. All other openings are single windows, with stone lug sills, and brick segmental arched lintels. Windows are vinyl replacement windows, each six-over-six.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit found, but appears to be on the Hopkins map of 1883.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick house has a flat roof with terra cotta coping. It appears a brick corbelled cornice has been removed. Still attached, although in poor shape, is a galvanized cornice. The front facade has three openings at each floor, with the front door on the left side. To the right are two single one-over-one windows, with stone sills and brick segmental arched lintels. There are three identical windows at the second floor.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

No permit found, but street numbering certificate is dated 8/11/1897.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick school house has an H-shaped plan. The front facade is symmetrical with a central fanlight entrance beneath a pedimented portico supported by classical columns. The entrance is flanked on either side by three large double-hung paired windows, with multiple panes. Identical windows are located above at the second floor. Above the first floor windows is a string course. The two gable ends facing Virginia Ave. are two bays wide, with each bay opening being a single window with fifteen panes of glass. Above the second floor window is decorative polychromatic brickwork, in a lattice motif. Both gable ends have large square chimneys. There is another central interior chimney in the middle of the building.

This building's most distinguishing feature is its bold brick cornice. The openings are segmental arched and consist of doors near the outside edges and windows in between. The date on the house numbering certificate is 1885 - this building looks later than that but perhaps the second story was constructed later.

The high-pitched gable makes this house stand out from its neighbors. The three bays top and bottom include one-over-one windows and a door on the left side. A recent porch on wood supports is positioned in front of the door.

The main portion of the facade has a three-part round-arched window bay with stained glass transoms in the lower story and a segmental arched window bay with a pair of windows in the second story. The south side of the facade is slightly recessed and contains an entrance bay with side lights and a transom; a balcony is positioned in the second story under a shed porch roof. Some type of siding appears to have replaced the cornice.

Two gabled dormers, each with a segmental arched window, are situated in the second story. A two-tiered dentilled brick cornice divides the brick second story from the asphalt-clad mansard second story. The lower story window bay is segmental arched and holds a pair of recent windows. Glass blocks surround the door which is located under a metal awning.

Three round arched windows are positioned in the front gable and sit on a stone string course. The lower story is comprised of a recessed corner porch with stocky brick supports with stone capitals. A bow with three windows is located on the facade's south half. A brick checker-board pattern decorates the apex of the main gable. Side windows are segmental arched.

An intact store front occupies most of the facade. It includes a center, recessed double-door entrance bay with flanking display windows. The door that accesses the second story is in a segmental arched opening with a transom. Second story windows are also segmental arched. Vinyl appears to replace the original cornice.

commercial building with simply shaped parapet roof. A terra cotta cornice extends across facade at the base of the parapet. Six bays of rectangular window bays with stone sills are positioned in the second story. Two separate store fronts flank the center pedimented entrance bay that accesses the second story. Both storefront entrances are recessed (the one in the corner has a column support). The storefront windows appear to be original with paneled wood bases.

A slate-clad mansard parapet sits over a bracketed wood cornice. The segmental arched entrance bay leads to two recessed doors (one door has been boarded but the transom remains intact). A round arched window bay sits in the second story over the entrance bay. The other two facade bays have paired windows in segmental arched openings.

A dormer is situated in the center of the high pitched hip roof. Brackets sit at the outside edges of the roofline. The two second story windows are wood-framed and share a sill. A row of raised brick frame the lower story windows and entrance bay. The entrance bay has been enclosed with a storm door.

A tall pyramidal roof in the corner dominates the roofline of this house. The main roof is a high pitched hipped roof with an intersecting gable on facade and another on the side. A full-length hipped porch on turned posts wraps to the side. A door in the second story opens to a balcony under the corner pyramidal roof.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This one-story brick house has a flat roof. It appears to have lost its shaped parapet. The galvanized cornice has dentils and simple brackets, with brick corbelling beneath. The front facade has three openings, with an entrance set behind a curved arch on the right side of the front facade. To the left are two single windows, which have been filled in with glass blocks. They share a continuous limestone sill, which divides the front facade into contrasting brick. The basement is partially above ground, with two windows on the front facade.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # F-5581. Daily record 5/4/1908. Alterations were likely done to the house in 1961, when a permit was taken out for a \$7,500 addition to an "office building". The was by owner Kenneth E. Yachum. Daily record 6/8/1961.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.

## ADDITIONAL INFORMATION:

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick corner building has a flat roof with white terra cotta coping that is part of a decorative brick and terra cotta cornice with glazed brick diamond and rectangle patterns. The brickwork of the building is slightly variegated. The first floor storefront bays are rectangular openings with brick sills and decorative brick lintels, with brick headers turned vertical to create a flat but visually textured facade. The original door and window openings on the first floor have been filled in with wood and siding, although the opening sizes remain the same. The second floor south facade has a small square window on the left bay, with paired one-over-one windows at the second bay. The east facade of the building has six windows, the first two openings being small squares, with the following four openings being single one-over-one windows. All second floor windows have brick sills and brick lintels of on row of brick headers.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick building originally had a store on the first floor with an apartment above. It has a flat roof with with a shaped parapet, featuring a steep pediment on the center of the front facade. To each side of the pediment, symmetrically spaced, are two square brick pinnacles with pyramid tops. The cornice has brick corbelling and a dentil. The first floor storefront openings have been filled, although the iron supports remain, and the opening sizes have not changed. On the second floor are three one-over-one windows, with stone sills and brick segmental arched lintels with bullnosed bricks.

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick building has a flat roof with four brick pinnacles with stepped corbelling at the cornice. The central bay of the building has two separate curved arches outlined with bullnosed brick, with doors set behind each arch. There was originally a storefront at the first bay. Although the cast iron support is still in place, the windows have been filled in with wooden siding. The third bay, to the right of the entrance bay, includes two single one-over-one windows with limestone sills and segmental arched lintels. Two basement windows are below the first floor windows, each with a segmental arched opening. Each basement window has been filled in with glass blocks. On the second floor are six symmetrically placed windows, each one-over-one with limestone sills and segmental arched lintels. The entire building has been painted.

This two-story brick two-family flat has a flat roof. The side roof has a stepped parapet with terra cotta coping. The front facade has a shaped parapet, with a central flat pediment, which is above the rest of the roof about a foot. The cornice has brick corbelling. On the first floor the entrance is on the left bay, with two doors beneath a gable roof awning. The doors are approached on a stone porch with a metal railing. To the right of the entrance is a paired window with a stone continuous sill, and a brick segmental arched lintel with bullnosed bricks. The second floor has a single window on the left bay, and another paired window on the right bay. Second floor windows also share a stone continuous sill, and each have a brick segmental arched lintel with bullnosed bricks. The two continuous sills, beneath each floor windows, divides the front facade into three sections of different colored brick.

**ADDITIONAL INFORMATION:**

21. (cont.) History and significance. Expand box as necessary, or add continuation pages.

This two-story brick apartment building has a flat roof. The front facade is asymmetrical, with two openings. The first opening is a rectangular window on both the first and second floor. To the right, on the first floor, is the entrance. Buff colored brick outlines the front door, and extends across the bottom of the front facade, up to the sill of the window. Above the entrance, on the second floor, is a small rectangular window. A rectangle of buff brick extends from the second floor window lintels, to the cornice, and stops at the outside corners of the windows. There are three bays, and five openings, on the south side facade. A door is centrally located, and the rest of the openings a small rectangular windows.

22. (cont.) Sources of information. Expand box as necessary, or add continuation pages.

40. (cont.) Description of environment and outbuildings. Expand box as necessary, or add continuation pages.

Building permit # A 9770. Daily record 8/15/1963.

41. (cont.) Further description of important architectural features. Expand box as necessary, or add continuation pages.
