SURVEY BLOCK #3

This area represents a series of homes constructed at different time periods over the past 130 years. A search of the County Histories and other material suggest that part of the homes could be grouped into a historic district. The homes for possible inclusion are located at: 105 N. 19th, and 119 N. 19th or Community Development numbers A-04-20 and A-04-36. These homes should be attached to the homes in the block immediately to the West as the William T. Harris Historic District. The home at 102 N. 20th has no relationship to the district and stands by itself as a ranch style in an older neighborhood.

SURVEY BLOCK #4

This area represents a series of homes constructed at different time periods over the past 130 years. A search of the County Histories and other material suggest that entire block could be grouped into a historic district with only one intrusion being the fire station at 18th and Felix (A-01-19). These homes should be attached to the homes in the block immediately to the North as the William T. Harris Historic District.

Survey Block #5

This area represents a series of homes constructed at different time periods over the past 100 years. A search of the County Histories and other material indicates the homes at 209 N. 18th (B-01-04); 221 N. 18th (C-01-03); 206 N. 19th (B-01-01); 208 N. 19th (B-01-02); and 1815 Francis (B-01-03) have historic significance and should be connected with the William T. Harris Historic District which is located in the block directly south of both of these structures. The other homes in this block survey represent a variety of styles, but they can be duplicated in several other block surveys. There is not enough symmetry in this block to include it in the William T. Harris Historic District.

SURVEY BLOCK #6

This area represents a series of homes constructed at different time periods over the past 100 years. A search of the County Histories and other material indicates that only the homes at 1716 Francis (C-01-14 or C-47-27) and 1715 Felix (C-01-21) have any significance and should be connected with the William T. Harris Historic District which is located in the block directly East of both of these structures. The other homes in this block survey represent a variety of styles but they can be duplicated in several other block surveys. There is not enough symmetry in this block to include it in the William T. Harris Historic District.
