42. FURTHER DESCRIPTION OF IMPORTANT FEATURES This single family residence anchors the SW corner of Westminster Place. Numerous windows, grouped in 3's in front are 4/1 paned. The brick foundation extends around the front porch, which is partially covered by the flat roof supported by brick and stucco square pillars. Another flat roof covers the 1 story room on the south side. Eight wooden brackets protrude under the front upper windows.

43. HISTORY AND SIGNIFICANCE This house is the 5th residence on the block. The W. side of the house was built by Charles W. Holmes (treasurer of the Tootle-Campbell Goods Co.) who received a permit for construction on 8-13-1920. He also obtained a permit for a garage on the adjacent lot in 1918.

* Repairs for fire damage to the house were made in 1979. In addition to the original garage facing Highly St., a large, modern one closer to the rear of the residence was built in 1990. Large old trees add to the feeling of permanence of the entire district.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS On the south edge of this property is one of the stone walls erected at the entrance to Westminster Place. The wall serves as a buffer between the quiet residential area and the business of Frederick Avenue.

45. SOURCES OF INFORMATION Building permits, sandborn maps, city directory

19. Name of Established District		29. Name of Established District	41. DIST. FROM ROAD 20' FRONTAGE
42. FURTHER DESCRIPTION OF IMPORTANT FEATURES The house features an attached two car garage and a central entrance stoop. A three-part picture window is sheltered under the eave at the center of the façade. There is a front-facing gable wall dormer on the front façade. The house bears stylistic similarities to 1215 N 25 th Street, built in 1952.			
43. HISTORY AND SIGNIFICANCE A permit was issued on 9/18/50 to Harlan DeWar, a carpenter, for the construction of this residence. It is one of a small group of post-World War II residences built along N. 25 th Street in Westminister Place. Its construction demonstrates the continued desirability of the neighborhood in the decade following World War II.			
44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS The house sits on a large lot and is of a uniform setback with the older homes on the street.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES **A 2 story brick base foundation, wood framed home has a stucco wall treatment covering. It also has a clay tile hip roof, which the front façade features a 2nd story balcony of ornamental iron. This L-shaped home has 8 pane per sash wooden casement windows. A modern wooden deck in the back of the house. The front door has brass strapping (Mission style door), with sidelights on either side of the door. The entry way to the house has an arch shaped opening which is repeated two other times throughout the stucco partial front porch. There is also a single shoulder chimney on the S. side of the house.**

43. HISTORY AND SIGNIFICANCE **Walter Boschen, one time partner of E.J. Eckel, is one of the city's outstanding architects. That he chose to live in Westminster Place, the residence also of Mr. Eckel, seems to emphasize the desirability of the area. This house is said to be the first Mediterranean style home built in St. Joseph.**

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS **Surroundings of this home are generously setback from the yard with a minimal of plantings. A chained linked fence lines the N. border of the property.**

			41. DIST. FROM ROAD 27' JF FRONTAGE 125' KF

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES This 1 story ranch house has wood shingles which cover a hip roof with a brick chimney on the S. side of the roof. Two sets of 2/2 double hung windows sit on the N. front side of house w/ plain slip sill under the windows. Directly in the center of the house sheltered under the engaged porch is modern casement oriel window. The porch is supported by square posts with simple detailed brackets.

43. HISTORY AND SIGNIFICANCE The building permit records reveal in 1975 a construction date. The city directories suggest completion of the house in 1977 and the first resident to live in the house was John H. Roth III (Pres. of Drovers Mercantile Bank) in 1977.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS Very spacious front yard, tree adds a little shade to yard in warm months. Wide concrete driveway. Backyard enclosed by a chain linked fence behind house.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES **Two stone tapered piers rise at either end of full width open front veranda, with 2 slender wrought iron supports on either side of entryway, and a stone chimney on the N. side of house. Paired french doors with 10" pane windows are used in all 3 bays of front façade. Front gabled dormer has three sets of 3-over-3 windows & projecting eaves. Main side gables & dormer have exposed stepped purlins, and a shed roof bay with exposed rafter tails on S. side of house.**

43. HISTORY AND SIGNIFICANCE **This home was the residence of Edgar L. Gratigny, buyer and later secretary for the C.D. Smith Drug Co., from 1915 until around 1922. City Directory lists occupants in 1924-30. George W. Jones (druggist) 1915-1922; 1959- Charles H. Martin of Seitz Packaging Co.'s Laboratory; and 1984- Marvin Morse. According to neighbors then the house was vacant for about the next five years after that. * In 1926, a garage was built. An addition to the house was made in 1984, as well as a new garage and tool shed in 1984 and 86'.**

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS **Two buildings sit before this home, to the south making it the third house on the street. A chain linked fence runs the length of the NS property lines and also borders the East edges of the property. The home sits on a maturely lands with lots of generous setback from the street**

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES This 2 1/2 story rectangular plan house has a stucco exterior with a decorative full, 2 story front open engaged porch held up by 4 stucco covered piers. The 3 bay front home has a side gable asphalt shingle roof and French cut door with 2 side lights(oak wood w/ bevel windows.) The multiple pane-over-1 windows go throughout the second floor as the 2nd floor enclosed screen porch sits above the porch. Decorated with a detailed wood timbering. The 1st floor has 1/1 double hung sash paired windows.

43. HISTORY AND SIGNIFICANCE The first permit on the house was issued in 1910 to J.C. O'Hair. However in the city directory there was no record of a house built until 1913 occupied by Mrs. Anna Lemon (widow to John S). Then 10-20- 1924 a Geo. E. Porter (Pres. of First State Bank of St. Joseph) was issued a permit to build a garage while he resided at the Westminster Place home.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS Very wide lot with a spacious front yard, enclosed with a chained fence along the back side of house. The 2 car garage along the SE part of the house parallels as well as compliments the residential home with it's stucco wall treatment and asphalt shingle roof.

43. HISTORY AND SIGNIFICANCE This house, one of two in this block designed by well-known architect Walter Boschen, was the home of M/M Eugene Zimmerman. He was cashier & later vice president of the Tootle-Lemon National Bank. After his death in 1945, the home was purchased in April of '46 by Beverly Pitts, president of American National Bank, successor to the Tootle-Lemon (later Tootle-Lacy) Nat'l Bank. In over 80 years, the home has had only three owners, something of a record for Westminster Place.

* White wooden corner pilasters stand at each end of east & west facades. Bridged chimneys face each other from N & S facades. Addition of large modern but compatible garage was made in 1964.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS The new garage occupies part of lot 18, south of the house on lot 17. Landscape plantings are attractive & well cared for. The house & grounds have been well kept through the years. Large trees add to the feeling of permanence.

45. SOURCES OF INFORMATION Present owner Robin McLean, abstract of building permit records, City Directories, 1913-'30, 1959-'65, observation, Sanborn map.

43. HISTORY AND SIGNIFICANCE This home was the 1st to be built in this block. Original owner was J.C.O'Hair, president of O'Hair Lumber & Construction Co. In 1914 City Dir., house is listed as vacant; resident in 1916 was Walter W. Head, cashier at German-American Bank; in 1917 Wm. T. Vaughn, real estate agent, lived here. In 1918, resident Charles Holmes rec'd permit for garage on Lot 26 (#1100). In 1921 Dr. J.M. Allaman moved in; he had addition built in 1933. Resident in 1950 was Donald Breitenback, service manager at Farmers Mutual Insurance. Another addition was built in 1972.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS Along the north edge of the driveway is a row of shrubs. Other plantings enhance the setting of this well-preserved house.

45. SOURCES OF INFORMATION City Directories, 1910-1930, 1959, building permit records, observation, Sanborn map

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES			
The house features an attached two car garage and an engaged central porch. a three-part picture window is sheltered under the porch which has an ornamental iron railing. There is a front-facing gable wall dormer on the front façade. The house bears stylistic similarities to 1111 N 25 th Street, built in 1950.			
43. HISTORY AND SIGNIFICANCE			
A permit was issued on 5/27/52 to C. M. Walter, employee of St. Joseph Light & Power, for the construction of this residence. It is one of a small group of post-World War II residences built along N. 25 th Street in Westminster Place. Its construction demonstrates the continued desirability of the neighborhood in the decade following World War II.			
44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS			
The house sits on two lots and is of a uniform setback with the older homes on the street. Mature hardwood trees are located in the front ad rear yards and add to the extensive tree cover of the neighborhood.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES **This imposing stucco clad Georgian Revival home features a symmetrical façade pedimented side gable roof. The wide overhanging roof eaves feature modillion blocks and wide entablature. The 1st floor entrance has splayed lintels w/ center key stone ornament. 4-lite sidelights flank over front door which is accessed via a concrete stoop with ornamental iron railing. Still visible are the ghost marks of an original entry portico. Paired French doors located on either side of entrance. 2nd story windows have 6/6 wooden window sash and have their original wooden louvered shutters. Three semi - elliptical dormers with 6/6 replacement window sash w/ fanlight window above are located on front elevation.**

43. HISTORY AND SIGNIFICANCE **Amos Riley (of McDonald and Riley) has this house built in 1912 and resided there until 1918. Fred R. Castle (Vice Pres & later Gen. Manager of Richardson Dry Goods Co.) listed as resident from 1918 -1930. The house was occupied by M/M G. Duckworth Tootle 1931-1958, & in 1959 Christopher N. Harris, Treasurer of Stratton Theis Grain Co, lived there.**

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS **The detached garage was added in 1917 it has a hipped gable roof w/ lower roof extensions. A white picket fence lines the rear, west side of the property. The corner location sets off the attractiveness of this large home.**

42. continued..... roof overhang with beaded board on the underside. The hip roof, with slightly flared eaves has built-in gutters. The roof has gable dormers on the sides and front. There is a single story rear addition which has new infill windows and a second floor porch centered above the addition which also has been glassed in. The rear addition has very deep, about 4 foot, eaves and decorative brackets, almost medieval in profile.

The central portico with composite order fluted columns. Although the Ionic scrolls are the prominent feature of the capitals, there is additional acanthus leaves as decoration. The portico has two columns supporting the front and pilasters on each side where it returns to the house. The entablature of the portico has dentils. The portico has a flat roof with a balustrade. Above the portico is a gable dormer with small paired windows and a half-timbering above. The roof of the dormer has small kick eaves.

The full width porch extends across the front of the house and wraps on the south side. The porch does not have a roof and has brick piers with a railing between the piers. Above the first floor doorway, there is a small elliptical shaped balcony. The balcony is supported on scroll brackets. The entry door has a filled panel above the doorway and irregularly spaced and sized modillions below the porch.

There is one small, first floor oriel on the north and two on the south. The oriels rest on simple brackets and have hip roofs. The porch floor is as high as the bottom of the front oriel on the south façade, so there is no cantilever.

The windows are generally 9 over 1 double hung sash. Most windows also have removable storm windows or screens. Some of the side windows have slightly different numbers of upper panes depending on the size and proportions of the window. On the south side, there are three casement windows with diamond shaped quarrels.

The garage has double overhead doors. It is clad in the same clapboards and simple trim. The roof has a diamond shaped asphalt shingle pattern and semicircular shingles on the ridges.

43. continued..... saleswoman, Summer's Realtors (1977-1987); R. E. (Mary Jane) Potts, Fleet Manager, Missouri-Nebraska Express (1988-present).

44. continued..... ends at the city parkway system in a cul-de-sac. This large, detached single family residence is situated with a consistent setback to the neighboring houses. The house is located with an extra lot on the south side of the property. There is a small horsehead hitching post by the sidewalk and the walk from the street to the sidewalk is of rough stones. The driveway is on the north side of the lot and of parallel concrete strips. The southern side of the lot has a six foot stockade fence which screens the below-ground swimming pool. The pool was added in 1978. The garage on the northeast corner of the lot is in line with the driveway.

Over part of the porch. Brick railing is also all around the porch.

There are two gable, projecting eave dormers with stepped trimming. One of the dormers is on the front and one on the north end. The dormers have 6/6 windows. Two bay windows are also on the house, one on the front second level, supported by decorative scrolls and a bay window on the south end supported by kneebraces.

On the north end there is a one-shoulder brick chimney and a side entry with iron railing and one side light by the door. A curved sidewalk leads to the door.

Purlins are exposed all around the house.

#44. Cont.

On the north end of the house there is a shared concrete driveway leading to a two car garage with board and batten siding, asphalt shingles and a hip roof. The yard is nicely landscaped.

There are splayed brick lintels with keystone above the windows on the second level and brick quoins on each corner of the house. An arched shaped window with multiple lights is on the front side, attic level. On the south side there are 3 dormers with gable returned eaves. There is an oriel bay window on the south side towards the rear of the house. The main entrance door on the south side of the house has a semi circular fanlight window with two sidelights executed in leaded glass. On the north side there are two brick chimneys and one gable dormer. The windows are all multiple pain and there are exposed purlins all around the house. The house features a pergola-like porch on the street-facing elevation, ornamental rafters rest on corner brick piers and tuscan wooden columns in the center.

The main entrance, located on the house's south elevation, features a flat- roofed entry portico supported by grouped Tuscan columns. An ornamented wooden railing with a "sheaf of wheat" pattern is located on the entry portico roof top. The two porches are connected by a open terrace that wraps the house on the south and east elevations. The terrace and porches have a single wooden railing with square balusters.

2-1/2 story gable front house with decorative wood timbering. Hipped dormers with wood siding on N and S.; gabled entry area with lancet arch door. Entrance is highlighted by wood timbering and brick in-filling, suggestive of brick nogging. Decorative exposed rafter ends found at the eaves. Two 1 st floor oriel windows on S. elevation; diamond pattern leaded casement windows on front elevation and at ¾ sidelights at side S. side elevation.			
43. HISTORY AND SIGNIFICANCE			
Building permit records for the construction of this residence issued 3-3-09 in the name of the Westminster Improvement Company which was responsible for the construction of several houses in the area. The house was remodeled in 1914 with the addition of a sleeping porch and again in 1933 by H.W. Consor, president of Consor Laundry Company. It is thought that he added the house's Tudor embellishments during the second remodeling.			
44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS			
The house sits on a compact building lot. There is a flat-roofed, two bay, c. 1957, concrete block garage in the rear of the lot.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES

Nicely preserved Craftsman bungalow with engaged partial porch supported by full brick pillar. Bungalow has a side gable roof with decorative kneebraces. Shed roof dormer on front and one story shed roof square bays on the N. and S. sides supported by decorative rafter tails. Second floor windows executed in bands with exaggerated sills supported by rafter tails. Diamond pattern leaded windows sheltered by porch; exposed chimney on N. FRONTAGE

43. HISTORY AND SIGNIFICANCE

No building permit records for the construction of this residence in evidence. Water service issued in November 1910 in the name of Edwin Delavan. Delavan is listed as a contractor and never resided here. The Hofheimer family has owned the property since the early 1920s.

44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS

The house sits on a compact building lot surrounded by houses of similar vintage.

42. FURTHER DESCRIPTION OF IMPORTANT FEATURES			
This cross gable , L-shaped house has a recessed side entrance door. Decorative flagstone is located below the windows on the south elevation near the recessed entry. A two car garage is attached. There is a louvered triangular vent in the front-facing gable of the house. Single light clerestory-type windows are often paired.			
43. HISTORY AND SIGNIFICANCE			
The permit for construction was issued 10/1/53 to Scott and Mary Benson. Mr. Benson's occupation is listed in city directories of the period as a physician. The value assigned to the house on the permit was \$10,000.			
44. DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS			
The house sits on a large building lot and has a generous front yard setback.. The house is the newest residential structure on the block and does not conform architecturally to its older neighbors..
