DESCRIPTION OF ENVIRONMENT AND OUTBUILDING

A parking lot and playground are located north of the school building.

ADDITIONAL PHYSICAL DESCRIPTION:

Facing south on East 45th Street and measuring approximately 104' x 120'. The building displays classical elements including broken pediments over the third level windows and pedimented gables over the two front entrances. An unadorned entablature with four pendants extends along the roof line between the broken pediments. Classical elements exhibited on the building include brick quoins, a cornice with dentils, and decorative swags beneath a pair of third level windows and above the entranceways. A stone beltcourse wraps around. A 47' x 110' western addition was built in 1935. A 44' x 121' addition was built in 1955.

HISTORY AND SIGNIFICANCE:

Architect/engineer/designer: Charles A. Smith

Contractor/builder/craftsman: Lishear Construction Company

Developer:

In 1923, a four room fame school was constructed at this site in honor of Edwin Merservey, a president of the Board of Education. In 1927, a new building was erected with over 20 rooms, including 7 classrooms, domestic science and manual training rooms, a gymnasium, an auditorium, and offices. The 1935 wing provided additional classrooms and another addition occurred in 1955. The architects for the 1955 addition were Shaughnessy, Bower & Grimaldi

Kansas City Register:

Date:

National Register:

Date:

Register Status or Eligibility: Individually eligible

Eligibility Comments:

This is a good example of the work of Charles Smith and the Classical Revival Style. It is eligible under Criterion C for Architecture and Criterion A for Education.
