

## Johnson's Shut-Ins State Park Accessibility Information

The symbol  indicates that the specified area is fully compliant with Americans with Disabilities Act Accessibility Guidelines (ADAAG).

### DAY-USE SIDE

#### Shut-Ins area

The main parking lot, located below the River Store is mostly level and has four handicap parking areas. This parking lot gives handicap users the ability to access the ADA trail to the shut-ins overlook, which is ¼-mile long. The ADA trail is pavement, concrete and a wooden boardwalk with very little slope. Partway down the trail is an accessible vault toilet and just beyond is a resting area with benches. Once at the overlook, there are more benches provided for resting and leisure.

#### River Store

The River Store is located next to the main parking lot and serves as the main retail store for the day-use operation. There is one handicap parking spot that gives users the ability to utilize the River Store and/or use the picnic tables on the adjacent deck. The only way to access the main parking lot from this handicap spot is by the main road.

#### Enclosed Shelter

The enclosed shelter is a day-use shelter that can be rented by the public for weddings, reunions, etc. It is located off the main road before the main shut-ins parking lot. There are two handicap parking spots right in front of the building.

#### South Day-Use Area

The South Day-Use Area has two handicap parking spots. This area has five day-use shelters with two tables and grill per shelter. One shelter and a vault toilet is ADA accessible. These shelters are primarily for visitors picnicking and accessing the Black River.

#### North Day-Use Area

The North Day-Use Area has two handicap parking spots. This area has seven day-use shelters with two tables and grill per shelter. One shelter, vault toilet and playground has ADA accessibility. These shelters are primarily for visitors to picnic, access the Black River and use the playground.

#### Black River Center

The Black River Center has seven handicap parking spots (four in the north loop and three in the south loop). The Black River Center has more than 2,000 square feet of interpretation and educational exhibits and a small retail shop on the first floor. The second floor is the administrative offices and an indoor classroom for programs. This indoor classroom can be rented by the public when not in use by staff. Furthermore, the second floor has a viewing platform to overlook the "scour," which is ADA accessible by elevator.

## Johnson's Shut-Ins State Park Accessibility Information

### CAMPGROUND

#### Loop 1 – Equestrian Loop

One electric/water campsite is accessible. There is one handicap parking spot at the bathroom/shower house.

#### Loop 2 – Full Service camping and Camper Cabins

There is one accessible sewer/electric/water accessible campsite in this loop. Camper Cabin # 1 is also accessible. There are five total handicap parking spots in this loop. Two are located at the bathroom/shower house, two located at the picnic shelter and one located at Camper Cabin #1.

#### Loop 3 – Electric Loop

There is one accessible electric campsite and two handicap parking spots in this loop. One parking spot is located at the bathroom/shower house and one is at the picnic shelter.

#### Loop 4 – Basic Loop

One accessible basic campsite and two handicap parking spots are located in this loop. One parking spot is located at the bathroom/shower house and one is at the picnic shelter.

#### Special-Use Area

This area is designated for Boy or Girl Scout groups that are teaching life skills and/or stewardship. There is one handicap parking spot located in this area. Its primary use is accessibility to the accessible bathroom/shower house located in this loop.

#### Loop 5 - Walk in sites – West side

These 14 sites have wooden platforms located in the woods that visitors can camp at. Visitors must park on the east or west side to access these sites. There is one handicap parking spot located in the west parking area. This spot is for site 514, which is the only ADA accessible camping spot in the walk-in sites.

#### Campground Store

There are two handicap parking spots located next to the Campground Store. These two spots give visitors access to the store, woodlot, laundry room and amphitheater. The Campground Store has Wi Fi and all the day-to-day essentials that campers would need during their stay.
