

St. Joe State Park Accessibility Information

The symbol  indicates that the specified area is fully compliant with Americans with Disabilities Act Accessibility Guidelines (ADAAG).

Park Office

One handicap parking space is located adjacent to a paved pathway leading to the entrance of the park office. Alternatively, you may use the drive-up window to receive information and pay fees.

Pim Day-Use Area

The upper shelter, Shelter # 2, has one handicap parking space with an adjacent paved pathway and a water fountain. The shelter has seating for 40 people, with extended-end tables and a group grill. You can also access the paved trail from this location, which is accessible for four-tenths of a mile.

The lower shelter, Shelter # 1, also has a handicap parking space with a 1.4 percent cross-slope, paved pathway and water fountain. This shelter accommodates 80 people with extended-end tables and a group grill.

A shady picnic site is located alongside the path and provides a pedestal grill, extended-end table and a bench.

An accessible vault toilet is located between the two shelters and has paved pathways that connect to another picnic site and a handicap parking space.

The playground has been constructed to be accessible to all visitors. Concrete ramps lead to compacted wood chips. There is also a transfer station on the play structure.

Monsanto Lake Beach Area

This level area is designed for all users and offers paved parking with four handicap spaces and paved paths to the vault toilet and changehouse. The shelter house and water's edge is accessed via concrete walkways. The shelter house provides seating for 40 with extended-end tables.

The beach is sunny. Benches are accessible via a concrete walkway. A paved ramp with minimal slope is provided for wheelchair access into the water. A sand volleyball area surrounded by grass is also at this location. The concrete walkways lead to an accessible floating fishing dock. A boat ramp is also available.

St. Joe State Park Accessibility Information

Lakeview Trail is paved for the first two-tenths of a mile with no greater than a 5 percent slope. Sitting areas overlooking the lake provide opportunities to rest.

ORV Staging Area

This is a large, level gravel parking lot with loading ramps. Two extended-end picnic tables, located on gravel, are available. Around the perimeter are three small picnic shelters, which have a group grill and seating for 36. Water is located at those locations.

The vault toilet on the far side has a paved pathway and is accessible.

The accessible changehouse and vault toilet, on the near side, are connected to the parking lot by paved pathways, which also lead to a water fountain and a picnic shelter.

Pim Beach has level gravel parking in the nearby boat trailer area. Concrete walkways offer access to benches and the sand beach. The walkway extends to the water's edge for wheelchair access into the water. The boat launch is gravel with a level area for staging and parking.

Campground # 1 (ORV)

The campground offers two electric and one basic accessible campsite. Each site provides paved parking with a packed gravel picnic area containing an extended-end table, fire ring and lantern post. Vault toilets are available for those sites furthest from the showerhouse. Water hydrants on paved pads are conveniently located throughout the campground.

The showerhouse provides two individual shower rooms with upper and lower push button showerheads, and one front-transfer toilet and one accessible lavatory for each gender. The path from the parking space is paved.

The laundry has plenty of maneuvering room with two top-operated washers and dryers.

St. Joe State Park Accessibility Information

The playground is not accessible.

The dump station is paved for access to the two towers and fresh water hydrant.

Campground # 2 (Equestrian)

This wooded area has an accessible vault toilet with a water fountain connected by a paved pathway. The accessible sites are of packed gravel with an extended-end table, fire ring, pedestal grill and lantern post. Hitching posts are provided. Water hydrants on paved pads can be found at the vault toilets and scattered through the campground.

Equestrian Day-Use Area

A large, level, paved parking lot allows plenty of room for your use. One accessible parking space is large enough for a single articulated vehicle with an adjacent paved picnic site. The picnic site provides a pedestal grill and extended-end table. An accessible vault toilet and water fountain is also located nearby.

Trails

Harris Branch Trailhead

Here, you'll find paved parking with one handicap parking space adjacent to a paved pathway. The pathway connects one accessible picnic site and vault toilet to the paved trail.

Across the road, only one-eighth mile of trail is accessible before you hit an 8 percent slope. Going from the side with parking, there is a mile of 4-5 percent slope going uphill with short, level spaces before the slope increases to 6-7 percent.

Blankshire Trailhead

Likewise, this trailhead has a handicap parking space, picnic site and vault toilet with a water fountain and access to the paved trail. This site has more shade.

St. Joe State Park Accessibility Information

The first three-fourths mile, going across the road, is mostly level to gentle slopes with only two slopes up to 6 percent. Going from the side with parking, the first three-eighths mile has 1-4 percent slopes before you encounter a 7 percent downhill slope.

Missouri Mines Trailhead, Farmington Trailhead and Pim Day-Use Area Trailhead

Each of the other three trailheads have accessible parking available.

Trailside Camping Area

This sunny area is of mostly level grass turf with scattered picnic tables under trees. Modifications for accessibility have not been made.
